INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct Style in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiorumenos.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck, and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, this in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months, and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this fearful disease.

FIREMEN'S PRESENTATION.

On Thursday evening, May 18th, at a meeting of "Gov. Langdon" Engine Company, No. 3, at their House, Mr. Theo. D. Dennett, in behalf of the Company, presented to Capt. William Cornelius, a splendid Silver Pitcher, bearing the following inscription:

Presented
By the officers and members of
Engine Company "Gov. Langdon," No. 3, to
WILLIAM H. CORNELIUS,
As a memento of their respect and esteem, and for
his honorable and courteous bearing
while Captain and Foreman
of the Gov. Langdon.
PORTSMOUTH, May 10, 1860.

Mr. Dennett addressed Capt. Cornelius as follows:—

Capt. Cornelius:—In behalf of the members of this Engine Company, "Gov. Langdon," I herewith present to you this Silver Pitcher, as a memento of our respect and esteem for you as a citizen, and for your honorable and manly conduct to each and every one of us, while under your command. And we join in hoping that you may always enjoy health, prosperity and happiness.

To which Capt. Cornelius made the following reply:—

Officers and members of Gov. Langdon Engine Company, No. 3:

Gentlemen:—On receiving this valuable token of respect to me, as your late Foreman, let me return to you my sincere and heartfelt thanks.

The kindness and attention that I have always received from the members of this company, in the discharge of my official duties, will ever be registered in my memory. "To err is human," and I cannot believe that I have escaped the common lot of men. But your liberal confidence and forbearance has glossed over the errors that I may have committed, and smoothed the roughness of my ways. For all of these acts, an abiding gratitude will brighten the remaining days of my life; and the hearty welcome and happy greeting that I have received this evening, from the members of this Company, will ever be cherished among my choicest recollections. To all the members of this Company, I feel myself under strong obligations. Your kindness elevated me to office. Your wise counsel sustained me; to your lenity, (rather than my merits,) am I indebted for the little success that has attended me.

Gentlemen, the Badge of Office that I have passed over to my successor, I trust and feel confident, has been bestowed upon one who will prove himself worthy to uphold its honor. Allow me, Gentlemen, to again return you my thanks for your additional favor by your nomination and suffrage in my late election as Assistant Engineer of the Fire Department of this city, and trust and hope you will sustain me, as in past days, "prompt at fire when duty calls;" and I will assure you of my co-operation in return, and all that is in my power shall be most cheerfully done to promote your welfare.

Capt. Cornelius then proposed the following sentiment:

"Although we separate as officers and members, may we never cease to live as friends."

PRINTERS' TRIALS.—Besides the inevitable vexations to which every business is subject, an editor's life seems peculiarly beset with trifling annoyances. And the balm for all subscribers' wounds—the ever-ready tetor for the editor—seems to be, "Stop my paper!" For instance, within a month,—our mere mention of a street fight, brought us a severe reprimand from both parties concerned,—one being advised by his friends to "whip the editor," "stop the paper," &c.; our statement that "the bickerings of musicians had injured the cause of music in this city," called out "stop my paper," from a man who though he has occasionally sung a tune, we never dreamed of regarding as a musician; a paper delivered earlier, or an advertisement in larger type or a place considered better than some other, calls out loud complaints; a desire expressed for a City Hall, produced several hints that "we shall have to stop your paper;" a favorable notice of one good mechanic who advertises, causes "stop my paper" from another whom we could not notice similarly because he did not advertise; a brother editor grows captious, because he don't get so much advertising as we do;—and finally a man wants his paper stopped because one of our carriers, when out of our employ, blows a pea from a tube into the eye of a boy under said man's charge!—the injured boy, by the way, being much the larger.

We state these things, not by way of complaint; but merely to show how small they appear, and how insignificant much of the fault-finding in the world really is. An editor needs not only to by wise as a serpent and harmless as a dove; but also to be entirely impervious to praise or blame, and regardful only of what he deems right, let who will hear and who forbear.

☞ Our forty days' drought closed on Saturday morning, with a copious and refreshing shower. There was a good heavy rain in New York city, on Friday forenoon.

☞ Rev. T. Starr King arrived at San Francisco on Saturday, April 28, and preached the next day in the Unitarian Church.

☞ Harper's Magazine for June, 1860, is received by J. H. Locke & Co., Portsmouth,—and John J. Dyer & Co. Boston.

IMPROVEMENTS.—We are glad to notice that several garden fences, in different parts of the city, are being cut down to a more beautiful, reasonable and charitable height. We never visited a city, town or country, where there were half so many ugly high fences, as in Portsmouth. A stranger might almost fancy he was in the midst of a collection of Houses of Correction, rather than in a rural country-city as it is. We would not have anybody's privacy invaded, but there is many a five or six-foot fence in the city, where one three feet would do as well and look vastly better; and in many cases, as oftentimes between neighbors' gardens, little or no division is needed. Where practicable, do uncover the "concealed gardens."

☞ Mr. Nathan Jones has had a new and neat open fence put up in front of his residence on Vaughan street; which we, as a passer, like much better than one of the State Prison kind, for it gives the public a chance to enjoy a look at the beautiful flowers inside—or will, when he has them placed there, as we hope he is going to do. We understand that if Edmonds, who keeps opposite, didn't do most of the work, he looked on approvingly.

LATEST DATES from England, May 9. The Great Eastern sails from Southampton, June 9, for New York.

Steamer Great Britain had arrived from Australia with £190,000 in gold. £404,000 was en route from Australia for England.

Garibaldi had left for Sicily with a corps. A Turin dispatch says the insurrection is spreading throughout the island of Sicily, and is spontaneous. The royal troops are in possession of the towns, and are blockaded between the sea and the insurrectionists in the interior.

Naples advices of the 4th report tranquility throughout Sicily, while other dispatches confirm the above statement.

A dispatch from Berlin says the Chamber of Deputies have unanimously granted supplies for placing the army on a war footing.

The French garrison would remain in Rome, and probably be reinforced.

NEW YORK, May 10.—Rumors are afloat of a fraudulent over-issue of stock in the Pacific Mail Steamship Co., amounting to $400,000, and developments have seriously depreciated the value of shares in the company. The Secretary, whose duty it was to prepare a list of stock a week ago, has been missing since Tuesday last.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst blige-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persovered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the favor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.
The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.
All sizes for sale by the subscriber, at manufacturers' prices.

Morning Chronicle.

It is a beautiful saying of somebody that "Gratitude is the music of the heart, when its chords are swept by the gentle breeze of kindness." Many hearts, however, might as well be strung with bed-cords, for any music of gratitude that ever comes from them.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not superior to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance. **J. E. FLAGG.**

THE ONLY PREPARATION

Having Proof so Strong and Direct

as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my horse against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered it dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,

THOMPSON SURGENOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming grey, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds about 40 per cent. more in proportion, and retails for $3 a bottle.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering ...om Consumption, Liver Complaint, Dyspepsia, &c., &c., and we find in every instance, a certain deficiency in the red globules of Blood. Supply those deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theorem, and its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases, viz: No. 1, COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, see No. 1. Price $1 per bottle. For *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERTASK, GENERAL DEBILITY, and NERVOUS PROSTRATION, No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, RETENTION, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, "KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to affect immediate relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by stupifying the faculties. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, or GREEN SICKNESS, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, Reducing Inflammation, Regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases where convulsions are threatened. For sale by all druggists.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, weak of their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Does.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy and happy, remove all obstructions and irregularities from the menstrual system, restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this taint becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attack, nor hitherto one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and drink habits, the depressing vices, and, above all, by the venereal infection. Whether be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who "visits the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or diseased matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which produces the blood, disperses the vital energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have no force to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the purge of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TOOTH ACHE, LIVER COMPLAINT, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from impurity or the BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Being purely vegetable, gentle in their action, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy functions, they combine many of these properties, the invalid who is bowed down with pain or physical debility is astonished to find himself unexpectedly restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but those more formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Inflammation, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Disease, Liver Complaint, Dropsy, Tetter, Tumors and Worms, Neuralgia, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the fame of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and fatal affections of the pulmonary organs that are incident to our climate. While many inferior remedies have proved to be worse than useless, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR MOTT'S

CHALYBEATE RESTORATIVE

PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands of cases has proven that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical change, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old order, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most inveterate cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this mild and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as a alleviating pain and reducing the swellings and stiffness of the joints and limbs.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Each appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

HARPER'S FERRY is still a prominent point of interest to thousands of travellers over the line of the great Baltimore and Ohio railroad, particularly on account of the late John Brown invasion, which must for a long time remain memorable in local history, though the locality possesses sublime natural scenery amply sufficient to repay the tourist for a special visit at any period. The village containing about 2500 inhabitants, is situated at the junction of the Shenandoah and Potomac rivers. A bridge nearly 1000 feet in length connects the Virginia with the Maryland side. The place is flanked by mountains on every side and is altogether one of the most picturesque spots to be found in the whole country.

DR. POMROY'S CASE.—At a meeting of the Suffolk North Association, held May 16th, 1860, with reference to the case of Rev. S. L. Pomroy, D. D., the following preamble and resolution were adopted unanimously:—

Whereas, at a meeting of the Association, held in Boston, on Wednesday, May 2d, it appears from Dr. Pomroy's acknowledgements before this body, and authentic papers, that he has been guilty of "conduct inconsistent with purity, virtue and morality."

Resolved, That while this Asociation disclaims all eclesiastical authority, and passes no judgment upon his fitness for a place in the fellowship of the Christian Church, we deem it inexpedient that he should continue a member of this ministerial association, and direct that his name be erased from our list.

RECENT TESTIMONY.

Washington, April 16, 1860.
Sir:—In answer to your letter, asking that I would inform you as to what standard of orthography has been adopted in the Smithsonian publications, I give you the following reply:
In all the history of the Institution, the subject of orthography was referred to one of the best writers of this country, and in accordance with his recommendation, Worcester's Dictionary was adopted as being nearest the general usage of English scholars.
I am, very respectfully, your obedient servant,
JOSEPH HENRY, Secretary S. I.

From Hon. Philip F. Thomas, Commissioner of Patents, Washington, D. C.
U. S. Patent Office, March 16, 1860.
The new Dictionary of Dr. Worcester combines, in my opinion, more of the requisites of a work of reference than any similar one ever published. The fullness and accuracy of its technical definitions make it of especial value in this office; and this, together with the correctness of its orthography, and its general excellence in definition and in etymology, have made it the standard work of reference in this office.
PHILIP F. THOMAS.

From Hon. John Hart, Sup. of Public Printing.
OFFICE SUPERINTENDENT PUBLIC PRINTING,
Washington, March 14, 1860.
I have long been familiar with Worcester's Dictionary, and have been highly gratified with the appearance of the new and beautiful edition of this valuable work. Its vast vocabulary, the skill of its arrangement, accuracy of orthography, precision of definitions, particularly of technical and scientific terms, its general completeness, and its freedom from political or sectarian bias, render it, in my estimation, the most perfect and authoritative expository of the English language. It gives pleasure to state that it is the standard authority for the public printing.
JOHN HART.

From Jos. Mettingly, Foreman of the Congressional Globe.
It gives me pleasure to inform you that, with the commencement of a new volume of the Congressional Globe, the system of orthography represented in Worcester's Dictionary will take the place of that heretofore used in the publication of the debates of Congress.

Office Secretary U. S. Senate, March 16, '60.
Dear Sir:—It affords me great pleasure to inform you that the Committee to admit and control the contingent expenses of the Senate, have manifested their appreciation of Worcester's Quarto Dictionary by directing that the Senate Chamber and all the committee and office rooms of the Senate, be furnished with that work.
I am highly gratified at this additional testimonial of the merits of a book, that in my judgment, is decidedly the best work of the kind in the English language. Yours,
JOHN G. FITZPATRICK,
Assistant Clerk, Office Secretary Senate.

Clerk's Office, U. S. House of Representatives
March 15, 1860.
Worcester's New Quarto Dictionary is the standard work of reference in this office, and the system of orthography therein represented, is that adopted in the official records and documents of the U. S. House of Representatives.
J. W. FORNEY,
Clerk U. S. House of Reps.

No scholar can afford to be without your Dictionary. [N. Lord, D. D., President of Dartmouth College.

The standard Dictionary of our language. [C. C. Felton, LL. D., President Harvard College.

The Work appears to me to be altogether unsurpassed. [Leonard Woods, LL. D., President of Bowdoin College.

Every library should have it, and every enlightened teacher will, of course, procure it.—[Hon. H. C Hickock, Supt. of Schools of Pennsylvania.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

TUESDAY, MAY 22, 1860.

PIKE'S PEAK.—Denver City dates to May 10, say that many of the Pike's Peak emigrants were becoming discouraged and going back. A large cinnabar of lead had been discovered in the northwest of Gregory's, near Snowy Range, reported to be from 100 to 150 feet wide. Emigration had been pouring in rapidly in all routes from the States. Provisions were extremely scarce, commanding almost fabulous prices. Supplies of flour are mostly procured from the emigrants; there is not a sack of flour in the market. The arrival of emigrants, en route for the Peak, was still large.

☞ James McCrillis, an ex-police officer in Boston, and officers Isaac B. Hutchins and Jethro H. Goodwin, of the Second Police, are in jail, charged with being directly connected with McCrillis in one or more robberies.

An investigation on Saturday before the Mayor and Committee on Police, shows twelve officers attached to the second police station, one at the first station, and one at the eighth station, guilty of larceny at various periods during the last four years, of an almost numberless variety of goods, consisting of clothing, dry and silk goods, furs, butter, cheese, cigars, &c.

THE DIVINE BLESSEDNESS OF SLAVERY.—Senator Brown of Mississippi, who is one of the great Democratic leaders in these times, makes the following beautiful declaration in regard to one of the "twin relics." This senator Brown deserves credit however, for one thing—he has never yet denied for what purpose the Democracy want Cuba—namely, the "spreading of slavery," and the spreading of slavery alone:

"I want Cuba; I want Tamaulipas, Potosi, and one or two other Mexican States—and I want them all for the same purpose—for the planting and spreading of slavery. * * * I would spread the blessings of slavery, like the religion of our divine master, to the utmost ends of the earth."

THE OYSTER SLOOP TRAGEDY.—*Hicks Convicted.*—Albert W. Hicks was, on Saturday, in New York, convicted of murder on board the schooner E. A. Johnson, on the 20th of March last. He received the verdict without emotion. He was then remanded for sentence. His counsel desiring to file a motion in arrest of judgment, the court signified its intention to hear the argument on the motion next Wednesday.—The prisoner will probably be sentenced on Thursday.

☞ The tragedy at Weymouth continues to agitate that community, and circumstances all the time grow darker against Hersey.—On Monday, the remains of Betsey Francis, the oldest of the Tirrell girls, and the first that died, were exhumed. It has not yet been ascertained whether she died of poison, but no doubt now remains that she was the victim of the seducer.

☞ A young man of 22 years, named Charles Mowen, run a mile in England, the other day, in 4 minutes 26 seconds, for $200 a side—the bet being on his running in four and a half minutes. He strides 7 feet, tho' but 5 ft. 8 in. in height; and could have made even better time than that. He must be "half horse" at least—for it takes more than half a horse to go that gait.

☞ Mr. Dampler, near Taunton, England, has a grey horse in his possession, which is fifty-six years old. The cob was out with the harriers about six weeks since. Mr. Dampler rides it with the greyhounds, and about his farm. It is fresh on its legs, and free from blemish.

☞ S. A. Bancroft, organist at Dr. Kirk's church, Boston, and B. J. Lang, the accomplished young pianist, sailed in steamer Canada, from Boston, on Wednesday, with the pleasant prospect of a five months' tour in Europe before them.

☞ The San Francisco correspondent of Dwight's Journal of Music says, Madame Biscaccianti is there still, but appears but seldom in public. I believe she is singing at one of the churches.

☞ On Friday afternoon, two young men in Derry were out gunning, and whilst engaged in getting a rabbit out of a wall, one passed his gun over the wall to his companion, and accidentally discharged its contents into his own breast, killing him instantly.

INFLUENCE OF EXAMPLE.—The Pacific Mail Steam Ship Company, which has swindled California passengers of late, has in turn been swindled out of $60,000 by one of its agents. This is even-handed injustice. *Transcript.*

LETTER FROM CHICAGO.

CHICAGO, Ill., May 14.

Dear Chronicle:—Perhaps a short sketch of my journey to the "garden city" of the West, may not be wholly without interest.—Leaving Portsmouth by first train, Monday, over the Eastern road; at the city of notions I exchanged cars for Albany, over the Western road. Arrived at Albany at 11 P. M., and took cars of the New York Central. At every point I found business in a thriving condition—everybody busy buying and selling, with the exception of the hosts who were constantly crowding on board our train, on their journey to attend the National Convention at this place.

At Cleveland, where we arrived at 5 P. M., Tuesday, I remained nearly two days, admiring the beauty of its scenery, its fine, well-proportioned buildings, magnificent churches, and beautiful wide streets.—Cleveland is truly a place of beauty, and to the traveller for pleasure will well repay a day spent in looking about it.

Thursday again found me "all aboard" for Toledo, over the Cleveland & Toledo R. R., which latter point I reached in the same night, after a pleasant ride of four hours. Wishing to reach Chicago at as early a day as possible, and finding a large party of friends who were going directly through, I took one of those elegant sleeping cars over the Michigan Southern and Northern Indiana road, and after enjoying a fine night's rest, awoke just as the train was coming in sight of this wonder of the West—Chicago.

Those who have stepped from cars or steamboat in the city of New York, have often suffered the annoyance of innumerable hack and cabmen who are anxious to do you service by way of conveyance "to the best house in town"—but here we found everything orderly, and an avoidance of that noise and confusion so incident to most large cities at the East. Having already given my check in charge of an officer appointed for the purpose, and received in exchange a check good for the Briggs House, I had only to step on board the 'bus, and in ten minutes was safely domiciled under the care of Messrs. Tucker & Co., who by the way are model landlords, and whose house stands A No. 1 with the travelling public. They are themselves Eastern men, which is sufficient guaranty that they possess the liberality and enterpise necessary to render the traveller at home.

On Saturday night the great Wigwam, built expressly for the use of the Republican Convention, was formally opened, about 10,000 people being present. Talk about crowds! That was a perfect jam. The building is of fine proportions, 100 by 108 feet inside, with galleries on three sides, and is well adapted to the purpose for which it is intended. Its construction in reference to sound is admirable, as at no point does one experience the slightest difficulty in hearing all that is said. The cost of the building was about $6000. It will stand, by special permit of the City Council, until after the Presidential election, when it is to be removed, it being within the fire limits, which forbid the erection of wooden buildings of any large size.

I have had but little time to look about among the business men of the city; but so far as I have seen, everything seems thriving, and the prospects for an increase of trade are of the most flattering character. Everything indeed seems to indicate that the hard times have passed by, and men investing anew in every branch of trade.

I was also pleased to find that the good people of Chicago, the merchants at least, (and of course they cater to the tastes of the people at large,) were possessed of fine taste in the selection of goods; and none seemed to please them better than those beautiful Capes and Mantillas from the manufactory of Allen & Paine of your city. As an evidence of this fact, I may say that I have already taken many orders, and am not near through yet. I think to visit Milwaukie, and then come home via Ogdensburg.

E. D. A.

NEW YORK, May 19.—Nothing further has been heard from Mr. Fowler. It is said Marshal Rynders would not have arrested him if he could. There seems to be an opinion that Fowler is a passenger on the steamer City of Washington, which left for Southampton to-day. A number of his warm political and personal friends were on board, and the supposition is that he has accompanied them. The Post says that George Law intends to contest his legal liability as surety for the defaulting Postmaster, and has sent an agent to Washington to search privately for evidence of culpable negligence, or something worse, on the part of the administration.

SENTENCE FOR FORGERY.—*Pittsburg, Pa., May* 19.—Sylvester G. Langdon of New York, convicted of uttering forged paper for the purpose of buying stock in the Monongahela Bank, at McKeesport, was to-day sentenced to a fine of five hundred dollars and imprisonment in the Penitentiary for three years.

STEAMBOAT ACCIDENT.—*Geneva, N. Y., May* 19.—Steamer Ben Loder, plying in Seneca Lake as a tow boat, exploded one boiler this morning at Watkins. Wm. Hilligus, second engineer, was instantly killed. Patrick Moore and Charles O'Brien, firemen, were badly scalded.

CONGRESS.

SATURDAY, May 19.

SENATE.—The House bill providing for a Superintendent of Indian Affairs in Washington Territory was passed.

A message from the President was received, calling the attention of Congress to the capture of slaver Wildfire, with 507 negroes, by steamer Mohawk, April 26. The negroes were carried to Key West, and delivered into the custody of the Marshal of the Southern District of Florida. The question arises, what shall be done with the negroes? The President referred to the case of the slaver Echo, when the negroes were sent back to Africa by agreement with the Colonization Society, and suggested that Congress authorize the President to make a general agreement with that Society to cover all future cases. In consequence of the increased activity in the slave trade, such cases are likely to become frequent, and something must be done. An expense of $12,000 has already been incurred, but worse than that, the yellow fever is likely to come to Key West, and the Marshal urges the removal of the negroes at an early day. The message was referred to the Judiciary Committee.

District of Columbia business was taken up. The bill relating to the common schools of the District were considered, on which Mr. Clark offered an amendment providing that no person whose property is taxed shall be deprived of the privileges of the schools, and also that separate schools for colored children should be organized. Mr. Clark stated that he should insist on the amendment, and on motion of Mr. Brown it was postponed. Several other bills relating to the District were passed.

HOUSE.—The House was engaged on private bills. The House went into Committee for general debate. Mr. Washburn of Me., in connection with comments on the Dred Scott decision, said the Supreme Court was a despotic and irresponsible power. He spoke of the issue before the country, maintaining that the Republicans started with Jefferson for freedom, and not with an oligarchy of Southern slave traders, for whose use the so-called Democratic party was established.

There were several other speeches, very few being present.

MONDAY, May 21.

SENATE.—The Overland Mail bill was made the special order for Thursday next.

Mr. Wilson's bill for the more effectual suppression of the slave trade, was referred to the Judiciary Committee, and ordered to be printed.

HOUSE.—The Speaker laid before the House a special message from the President, similar to that sent to the Senate on Saturday, relative to the slave trade. Referred to the Judiciary Committee.

For the Chronicle.

God is omniscient in no other sense than the certain fulfilment of His laws. To live in the belief that confusion is in nature's working of results, is to acknowledge that God is in no part of His universe. Without order throughout all the universes of God, man would be nowhere an intelligent being. It is order and certainty that gives man the true knowledge of God's laws in the world of matter. No power is fully understood until the end for which it existed is fulfilled. Man is a student of mysteries, but a believer of realities. All real influences of spiritual power are the true interpretations of nature's mysteries. Man has in himself the power which unravels all mysteries, and makes nature a book to be read of all men who are capable of correct thought. Thoughtful minds are in Heaven's atmosphere, when they study the sciences which enlighten the human understanding as to nature's eventful movements in her outward manifestations. The Heaven of a man of thought is but the earth, bereft of all things which give unhappiness from a want of foresight into future results. No man can see heaven who is not a true specimen of God's handiwork. It is not in the nature of the constitution of man to enjoy a heaven, when the elements of heavenly life are not interwoven into the texture of his soul. God is mocked in the heavenly life, when man is in his essentials an earthly substance without spiritual aspirations.

THE COURT OF DEATH.—Our readers are referred to an advertisement, in this issue, of an elegant Chromo-Lithographic Engraving, printed in oil colors, of PEALE'S celebrated painting of the COURT OF DEATH—a copy of which may be seen at J. H. Foster's Bookstore. The New York Observer says, of the Engraving and the Publisher:—

"It is rarely that such as opportunity is offered for obtaining a work of art, intrinsically valuable, at a trifling cost; and none, we think, who order it, will ever regret the outlay. As a chaste and beautiful parlor ornament—as a present from one friend to another—as a possession to be preserved and admired, and furnish a constant delight, it is believed that nothing can surpass the engraving of the COURT OF DEATH. Mr. Colton is a responsible man, and our friends may feel safe in sending their money for his picture."

We are told of one man—honest old soul—who blames Mr. Douglas for opposing the President on Lecompton, and says if he had only sustained Mr. Buchanan then, there would have been no troubles in the party now. We have derived the impression from our past reading, that if Washington had yielded to Arnold's exorbitant and unrighteous demands, the latter might not have betrayed his country. The two cases are not wholly lacking in resemblance.—*Bath Times.*

Several papers are still agitating the question—Can Douglas carry the South? However this may be, it seems that the South cannot carry Douglas—they have dropped him.—*Sat. Press.*

"ORIGINAL SIN."—Some of the lady friends of Dr. Johnson, calling on him after the publication of his Dictionary, complimented him on the exclusion of naughty words. "Ah, my dears," said Sam, "then you have been looking for them, have you?"

Mr. Douglas says he prefers his seat in the Senate, to the Presidential Chair. His enemies prefer he should remain in the Senate. There is unanimity, therefore, on one point, which is a novelty in these quarrelsome days.

A KENTUCKIAN IN LUCK.

Some persons doubt that large prizes are ever drawn in Lotteries; but the following certificate, with name and residence, is too plain to be doubted, even by the most skeptical.

Bradfordsville, Marion Co., Ky., April 20th, 1860.

This certifies that I have, this day, received of the agent, the full amount in gold, of the highest capital prize of $24,000, drawn at Wilmington, Delaware, March 9th, 1860, in WOOD, EDDY & Co's "Delaware State Lotteries," in class 112;—and that full permission is hereby given by me, to publish my name and residence.

JOHN AVRITT.

Part or whole tickets can be obtained by enclosing to Wood, Eddy & Co., at Wilmington, Delaware, or St. Louis, Missouri, $3,50, $6,00, $12,00, or $20,00; and the printed drawing certified to by the Commissioner, will be sent to you with an explanation.

THE LARGE AND SPLENDID ENGRAVING, 23 BY 31 INCHES, of this world-renowned Painting, by

REMBRANDT PEALE,

is NOW READY FOR DELIVERY.

Instead of issuing 5000 copies at $6, the subscriber issues 100,000 at $1. Mr. PEALE says:—

Philadelphia, Nov. 16, 1859.

I have seen the Chromo-Lithographic Engraving of my painting of the Court of Death, recently executed for Dr. G. Q. COLTON, (the present proprietor,) by Sarony, Major & Knapp, of New York, and can certify that it is an accurate and admirable copy of the original painting.

REMBRANDT PEALE.

The Original Painting is worth

Twenty-Five Thousand Dollars.

Mail subscribers will send 12 cents extra to pay postage. Five copies for $4, postage free. The subscriber refers to the venerable REMBRANDT PEALE, Philadelphia; Hon. MILLARD FILLMORE, Buffalo; HARPER & BROS., New York; Rev. Dr. PRIME, editor New York Observer; Rev. Dr. PALMER, New Orleans; and JAMES H. TAYLOR, Esq., Charleston, S. C. Money can be sent safely by mail, as not one letter in a thousand fails, so far as return complaints show. Respectfully,
I. HAHN.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House *equal* if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance.

J. B. FLAGG.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 1 Exchange Buildings, or information of his whereabouts can be obtained at his residence, No. 36 **Hanover Street**; at either of which places they can examine a splendid instrument of Chickering, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos.

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument now brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those wishing to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

Also HARNESSES of all sorts, Whips, Blankets, Halters, and a good assortment of Saddlery. Ware generally, of the latest styles, at fair prices. TRUNKS and Valises made or covered to order at the SADDLERY ESTABLISHMENT of

J. LARRABEE, No. 30 Daniel St.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient evidence of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having been entirely prostrated for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

W. A. BACON, Teacher of Detroit Select School.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Messrs. Chroniclers:—I am not, and never have been a subscriber for your paper; and although I have seen articles therein with which I have not been pleased, but considering that "what shocks one part will edify the rest," and having no right to complain, as you charged me nothing for their publication; and charitably believing all was meant for the best, I have patiently borne with you, and have not said to you, "Stop my paper." But now, to encourage you in well doing, and to partially make up to you what you have lost by stoppages, please send the Chronicle to me,—and if you please, take my opinion for your advice, viz., "to please everybody, the best way is to please yourselves." "Be just and fear not."—Herewith receive the advance payment for one year, and GOOD BYE.

We are much obliged for the kind feeling and good advice of our old and valued friend and correspondent—and shall gladly send him the paper as he directs. Lest he or any other reader should, however, misunderstand or misconceive our item of Monday, concerning the stopping of papers,—we deem it best to say that the Chronicle never had so good a list, and was never before in so flourishing a condition, as now. A few dozen names taken off or put on our list, are only like the constant changes in every tradesman's customers; and all we named the matter of "trials" for, was to show their littleness and insignificance.

THE NOMINATIONS of Lincoln and Hamlin, by the National Republican Convention, for President and Vice President, were received in this city with universal joy by all friends of freedom, reform and economy. The active Young Republicans swung to the breezes of heaven, the National flag, with the names of "Lincoln and Hamlin," on Saturday, in six hours after the receipt of the news of the nomination.—It was probably the first, if not the largest flag, bearing the names of those true and tried friends of free soil, free men, free speech and true republican economy, wafted to the breeze to gladden the hearts of the laboring people in New Hampshire.—The East responds to the Middle and Western States, in the grand contest of freedom against slavery.

SPIRIT OF SEVENT-SIX.

For the Chronicle.

REPLY TO THE 'OFFICE INCIDENT'
Of the Portsmouth Journal.

C. W. BREWSTER:—SIR,—I am very glad to find by a careful perusal of the long winded article in your issue of the 19th inst., that you have at last discovered the Street Commissioner to be "an honest man, doing conscientiously what he thinks right." In this conclusion I fully agree with you.—You say "we regard, and *ever* have regarded" him as such; but of this we have only your simple statement in the affirmation, by no means confirmed by your conduct; for, if you had "*ever* so regarded him," when a "correspondent who pays a heavy tax," "wished to know whether the Street Commissioner duly accounts to the city, the sums he charges," etc., you would have privately informed your learned "correspondent" (of mighty "tax") of what you now tell us, of his "honesty" etc.; this would have been a straightforward, manly course of action, which would not only have reflected great credit upon you, but also have been the surest method to prevent any misunderstanding with me; and the public would not have been bored with newspaper statements requiring so much correct-on.

I remain, sir,
HENRY LIBBEY, 37 Deer St

☞ The usual monthly concert of the Middle street Sabbath School took place on Sunday evening, in their Chapel, and was a decided success. Every available place was occupied, and a great many went away unable to enter. This school is now in a most flourishing condition, and comprises nearly 150 pupils. Teachers and scholars join hand in hand in the work; and everything is done to render these concerts attractive, entertaining and instructive. Hon. Horton D. Walker is the efficient Superintendent, and it is in a great degree through his instrumentality that the school is what it is. REP.

☞ We understand that the friends of the young man who was supposed to have been drowned, and whose body was found in the river last week—entertain suspicions that he was foully dealt with, perhaps killed and thrown overboard,—from the fact that his coat was off when found, and bruises, supposed from blows given him, found on his body.

☞ The Republicans of Portsmouth have hoisted the American flag, with the names of Lincoln & Hamlin, floating across Market Street, near Market Square.

FATAL RAILROAD ACCIDENT.—Friday evening, as the last train for Boston was leaving Lowell, Mass., a man named Melville Hanscom, of Chelsea, attempted to jump on the cars after they had started, but missed his hold and fell off, and the wheels passed over both his legs, cutting them off. He only lived about two hours.—He was 28 years of age, and leaves a wife and child, who reside in Chelsea. He was a native of Elfot, Me., where his remains have been carried for interment.

PITTSBURG, May 19.—The General Assembly of Presbyterians met in this city today. A report was read by the Church Election Committee. Every application for aid, by loan or donation, has been granted, and the fund increased during the year to $100,000.

Perhaps the next dispatch will tell us whether this Assembly is the Old School, or Now. As it is, the title means nothing.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequaled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.
The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*, and *free from imperfection* of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.
The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

ROMANCE IN REAL LIFE.—The Traveller gives the case of a woman in the vicinity of Boston, whose husband had disappeared on account of reverses of fortune.—Not hearing from him after a lapse of two years, she procured a divorce on ground of desertion. Recently the husband appeared, having in the meantime, in a distant portion of the country, accumulated a fortune. The happy parties proceeded to a well-known clergyman, were re united, and are now enjoying the sweets of a second honeymoon. There is romance after all in real life.

THE ORIGINAL AND GENUINE

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

IS THE GREAT RENOVATOR OF THE

BLOOD.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.

These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA.

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a uniform saline diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood, carry off the putrid humors, cleanse the Stomach,* REGULATE THE BOWELS, and impart a new glow of vigor to the whole body.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from disease, and extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.

Whatever may be said by mortified competitors or ignorant physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

BE VERY CAREFUL TO USE NO OTHER.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth* of it, that we have never witnessed the effect of any other medicine.—NEVER HAS IT FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "what we know," after ten years experience, and *pledge our reputation for the fulfilment of what we utter.* In almost every instance where the infant is suffering from pain and exhaustive, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives toned energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—you, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PEERKINS, New York, is on the outside wrapper

Sold by Druggists throughout the world. Principal Office, No. 2 Cedar st. New York.

Price only 25 cents per bottle.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its acknowledged efficacy. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, CONSUMPTION, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Dropsical Cases*. No. 2 is a specific, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 3, for FEMALE COMPLAINTS; No. 4, for DYSPEPSIA. Being already prepared for absorption it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief,* when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore can never be injurious to the tender frame of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only safe *anodyne* preparation to be used for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLDS IN THE HEAD, and CROUP; also, for allaying the Gums, reducing Inflammation, regulating the Bowels, and relieving pain, it has no *equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from years of sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Costiveness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of tobacco, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will immediately feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulency, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all bad humors and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the throat—the lungs, liver, and other organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the powers of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have less vigor to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health and vigor, is fettered by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the resuscitation of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and efficacious.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The great believer in nature is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Gout, Neuralgia, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Female Complaints.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, and PULMONARY CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So well is the field of its operations and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When ones tried, its superiority over every other medicine of its class becomes apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ in lieu of distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

JOSEPH H. FOSTER.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from protracted complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land, some very signal instance of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and the complicated ills of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

AS A NERVOUS APPETIZER of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

IN DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has also all the charm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of potassa, without any of their well-known lithic tendencies.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

IN RHEUMATISM, both chronic and inflammatory—in the latter, however, it is decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

IN INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, with increased flesh, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

RECENT TESTIMONY.

Washington, April 16, 1860.
Sir:—In answer to your letter, asking that I would inform you as to what standard of orthography has been adopted in the Smithsonian publications, I give you the following reply:
Early in the history of the institution, the subject of orthography was referred to one of the best writers of this country, and in accordance with his recommendation, Worcester's Dictionary was adopted as being nearest the general usage of English scholars.
I am, very respectfully, your obedient servant,
JOSEPH HENRY, Secretary S. I.

From Hon. Philip F. Thomas, Commissioner of Patents, Washington, D. C.
U. S. Patent Office, March 16, 1860.
The new Dictionary of Dr. Worcester combines, in my opinion, more of the requisites of a work of reference than any similar one ever published. The fullness and accuracy of its technical definitions make it of especial value in this office; and this, together with the correctness of its orthography, and its general excellence in definition and in etymology, have made it the standard work of reference in this office.
PHILIP F. THOMAS.

From Hon. John Hart, Sup. of Public Printing.
OFFICE SUPERINTENDENT PUBLIC PRINTING,
Washington, March 14, 1860.
I have long been familiar with Worcester's Dictionary, and have been highly gratified with the appearance of the new and beautiful edition of this valuable work. Its vast vocabulary, the skill of its arrangement, accuracy of orthography, precision of definitions, particularly of technical and scientific terms, its general completeness, and its freedom from political or sectarian bias, render it, in my estimation, the most perfect and authoritative expository of the English language. It gives me pleasure to state that it is the standard authority for the public printing.
JOHN HART.

From Jos. Mettingly, Foreman of the Congressional Globe.
It gives me pleasure to inform you that, with the commencement of a new volume of the Congressional Globe, the system of orthography represented in Worcester's Dictionary will take the place of that heretofore used in the publication of the debates of Congress.

Office Secretary U. S. Senate, March 16, '60.
Dear Sir—It affords me great pleasure to inform you that the Committee to admit and contract the contingent expenses of the Senate, have manifested their appreciation of Worcester's Quarto Dictionary by directing that the Senate Chamber and all the committee and office rooms of the Senate, be furnished with that work.
I am highly gratified at this additional testimonial of the merits of a book, that in my judgment, is decidedly the best work of the kind in the English language.
Yours,
JOHN G. FITZPATRICK,
Assistant Clerk, Office Secretary Senate.

No scholar can afford to be without your Dictionary. N. LORD, D. D., President of Dartmouth College.
The standard Dictionary of our language. [C. C. FELTON, LL. D., President Harvard College.
The Work appears to be altogether unsurpassed. [LEONARD WOODS, LL. D., President of Bowdoin College.
Every library should have it, and every enlightened teacher will, of course, procure it.—[Hon. H. C. HICKOCK, Supt. of Schools of Pennsylvania.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
73 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice offered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, is here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a more more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.
"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.

Ladies' Work.

The Ladies of the County are invited to contribute to the Exhibition, articles of house manufacture—specimens of Needle-work, Painting, Drawing, Flowers, and the like. A special Committee will award $40 in premiums for such objects.

PENS will be provided at the Field for the exhibition of the Stock, and posts to which working Oxen may be attached; and the owners are requested to bring chains for that purpose. Pens will be numbered, and the same numbers put on tickets delivered to those who enter Stock at any time between the time of entry and 10 o'clock on the first day of the Show. No person allowed to put stock in any pen except that designated on his ticket. Owners of Bulls must be provided with rings and chains.

All competitors for premiums who are not members of the Society, are required to pay $1 at the time of entry—except for plowing, which is $5.

Two days' notice being given to the Secretary, provision will be made for keeping, the night previous to the Show, animals which may be driven or transported more than five miles. Hay will be provided for the animals through the exhibition. The Field will be enclosed by a fence.

No animal or article to which has been awarded a premium, will be afterwards entitled to the same or a lower premium; and no gratuity will be awarded in any case where a premium is offered.

No highest premium will be awarded in any case, unless the article is of superior quality; and no premium will be awarded merely for want of competition.

Portsmouth, N. H.

WEDNESDAY, MAY 23, 1860.

THE CHARLESTON CONVENTION.

The platform of the oligarchy is split and irreparable. The first resolution reported by the committee in favor of slavery declares, in substance, that neither Congress, nor the government of a territory of the United States, have a right to prohibit slavery in such territory—but that all citizens of the United States have an equal right to settle with their *property* in the territory.—The word property, as here used, includes property in human beings. Had the resolution been adopted, it would have amounted to an extension of slavery.

The Democratic delegates from the free States would not agree to the extension of slavery, nor to the doctrine of property in man, and therefore rejected the resolution, and thereby evinced their wisdom or political foresight. One member said that the adoption of the resolution would annihilate the Northern Democracy. Very true.—And had the Democracy continued from years past to maintain a bold stand against slavery and its extension, they might now have been in the majority in the free States. But its continued support has operated like a mill-stone around their necks. They have idly believed that there was a Democratic party, their allies, in the slave States, which are under the absolute rule of a proud and arrogant oligarchy. The people, politically, are mere cyphers, and this is now more fully understood.

We now begin to witness the irrepressible conflict, which will be continued until the blighting curse of slavery shall be abolished, and freedom more firmly established No proposition can be more self-evident than that the two antagonisms cannot much longer co-exist in the Republic. It will be a glorious day to the South, as well as the North, when slavery shall die out. The former will then begin rapidly to prosper and flourish, and *real* wealth accumulate.

Now some may believe that the Democracy of the whole Union have split in twain. Not so. The Democratic party, by its delegates, which has existence only in the free States, has come to a stand, making it manifest to the world that it will no longer be ruled and dominated over by the oligarchy, —that it will not agree to the extension of slavery, or, adopting the sentiment of Madison, that there can be property in man. The arrogant oligarchy, therefore, seceded from the convention—for they saw the handwriting upon the wall, that its days of arbitrary rule over the Republic are numbered.

Our Southern rulers may now clearly understand that their institution, which they impiously pretend was ordained by God, must soon come to an end, for the Democracy will no longer uphold and defend it.—They may also understand that with the close of their dynasty, the federal government will be placed in the hands of the friends of free principles—the principles upon which it was established.

DEMOCRITUS.

THE JAPANESE EMBASSY, according to the testimony of all who have seen them, conduct themselves admirably under all circumstances. Their courtesy, intelligence and accomplishments elicit general commendation, while the perfect order and system with which their movements are regulated excite much attention. They show great interest in everything they see, and are very anxious to acquire information; but when any question is asked them about Japan, the uniform reply is "*me no understand.*" Their servants perform their duties in accordance to written orders issued every morning. They partake of food four times a day, rice being a prominent dish at every meal. They are partial to vegetables of all kinds, and also eat boiled chicken, ham, and boiled eggs. Tea is their constant beverage, but they are all very partial to champagne, and some of them are reported to be greatly taken with what are termed "fancy drinks." They are scrupulously neat, and attend to daily bathing, as a matter of conscience and duty.

They evidently enjoy the society of ladies, but decline to shake hands with them, on the plea that they were forbidden to even touch any of the gentle sex during the journey. The expansive attire of the females they see has greatly astonished them, and one of the principal Ambassadors has made arrangements to carry back to Japan a full and complete ladies' costume of the prevailing fashion. The large attendance of ladies they observe everywhere is to them the most novel feature of their reception.—The waltzing at the party given by the Secretary of State, surprised them greatly. It is said General Scott made a profound impression on them, and they returned from the official interview firmly impressed with the idea that he was the highest dignitary of our land, and that Mr. Buchanan is his civil minister who attends to the details of government.

THE FUTURE OF AMERICAN RAILWAYS.—See Atlantic Monthly for June, just published.

☞ In Boston, on Friday night, a meeting of the Democratic Ward and City Committees was held. There was large attendance. After much debate, the meeting adopted the following resolution, almost unanimously, but not quite.

Resolved, That Stephen A. Douglas is the first choice of the Democracy of Massachusetts.

In the course of the debate, Mr. E. C. Bailey, a Douglas man, said among other things:

"New issues are coming up, and the party is compelled, year after year, to adopt a new creed. The Northern Democrats stand by the doctrine of non-intervention, and are willing to go farther and abide by the opinions of the Supreme Court.

To show exactly what is meant by "abiding by the opinions of the Court, we copy a little statement made by Gen. Butler at Lowell, in regard to the Charleston Convention.

He states that after the majority and minority of the committee had come to a disagreement, the majority going for the slave code, and the minority for the Cincinnati platform, and while the minority were making up their report, three gentlemen came to the room where they were in consultation, and announced themselves as a subcommittee of a caucus of the friends of Judge Douglas, charged with a resolution, which his friends desired to be reported, in order, as the chairman said, "to help the friends of Judge Douglas at the South."—This resolution was in the following terms:

Resolved, That all questions in regard to the rights of property in States or Territories, arising under the Constitution of the United States, are judicial in their character; and the democratic party is pledged to abide by and faithfully carry out such determination of these questions, as has been or may be made by the Supreme Court of the United States.

Against Gen. Butler's protest, the resolve was reported by the minority, but it was afterwards abandoned in the Convention, receiving only 40 votes, 10 1-2 of which came from Massachusetts, "a majority of which," says Butler, "were the over-zealous Douglas men of our State."

As Uncle Toby read this, he remarked that it was a *new* kind of democracy, to engage beforehand to believe and act upon the opinions of half a dozen old lawyers seated on a Court Bench for life.

☞ At Washington Saturday evening, a great republican party visited the Washington House, where Mr. Hamlin resides, and made speeches in honor of the nominations of Lincoln and Hamlin—and were somewhat molested and interrupted by the political rowdies and roughs. The New York Herald gives the following account of Senator Trumbull's speech:—

Senator Trumbull being introduced to the meeting, addressed it in an earnest speech in support of the great work done for the Republican party at Chicago. He had known Abraham Lincoln for twenty years. A native of Kentucky, he was brought over when an infant into Indiana. Thence, with his axe on his shoulder he went into Illinois, where he hewed his way into distinction. He studied and for a time practiced the business of a land surveyor, then he entered into the study of the law, and rapidly rose to the high distinction of the ablest lawyer in the Northwest.

They call him "Old Abe," said Mr. Trumbull, and yet he is in the prime of life—about fifty-one years old. He is a giant in stature, six feet three inches high, and every inch a man. (A voice—"Not high enough to be President.") Yes, high enough to be President and he will be President, — he will be President. (Hurrah.) He is a giant, and without the prefix of "Little" to it. (Hurrah.) A giant in intellect as well as in stature. (A voice—"Where is Harper's Ferry ?") I tell you, my friends, that the prairies of Illinois are all a-blaze to night with the fires of enthusiasm. (Cries of "Is Fred Douglas in there?" and "Abe. Lincoln is the man who met Stephen A. Douglas,"—Yes, and he was defeated." "Three cheers for Douglas," and they were given by the outsiders of the crowd. "Three groans for Lincoln," and they were given. The insiders then demanded "Three cheers for Lincoln," and they were given with a will.)

Mr. Trumbull then explained, that in the Illinois contest of 1858, while Douglas carried the Legislature, Lincoln had the popular vote by four thousand majority; and he will more than double it, in November.—("Oh, gas!" "Where's John Brown?") —and I tell you he will make a clean sweep of every State west of the Alleghanies. ("How about poor old Seward?") Mr. Seward is a statesman and a patriot, and his whole heart is with our great cause.

Mr. Trumbull continued for some time longer, amidst frequent interruptions from the outsiders, cheers for Douglas, inquiries for John Brown, &c., &c. Finally Mr. Trumbull called for "Three cheers for Lincoln and Hamlin," which were heartily given, followed by "Three for Trumbull."

☞ The Washington correspondent of the New York Times says:—

"Even Mr. Seward's warmest admirers pronounced the nomination of Mr. Lincoln most able and judicious. Judge Douglas and his friends think it the heaviest blow the democracy has yet received, and say that by Saturday night there will not be a tar barrel or a pound of powder in Illinois."

The New York Courier, (one of the most zealous advocates of the nomination of Mr. Seward,) gives a hearty support to Mr. Lincoln. In New York city and throughout the State, there is a similar expression of sentiment.

A man's conscience should ever go with him like an atmosphere of life. Many men carry their consciences like a drawn sword, cutting this way and that in the world; but sheath it and keep it very soft and quiet when it is turned within.—*Beecher.*

CONGRESS.

In the U. S. Senate, May 22, Mr. Wilson, after alluding to the loathsome and revolting aspects of the African slave trade, remarked—Yet in this age, illumined by lights of Christian civilization, this abhorred traffic flourishes, in defiant mockery of the laws, and sentiments, and opinions of the civilized world.

Mr. Wilson proceeded to show that the history of America bears ample evidence that the people of the United States have always been hostile to the African slave trade; but, in spite of their well known and oft-repeated sentiments and of various acts of legislation, sanctioned by the general voice of the country, American merchants yet fit out in our harbors slave ships; and American seamen navigate them, American citizens openly purchase and hold in perpetual bondage the surviving victims of the unhallowed trade, and the American flag, the banner of our pride, is made to conceal and protect the wrongs, violence and crime—the theft of living men, the foulness and corruption of steaming slave-decks.

He referred to the change wrought in the sentiments of at least a portion of the people of South Carolina and Georgia. Grand Juries refused to indict the pirates and the felons of the slaver Echo. Other cases were mentioned to show that the federal authorities were set at defiance, and the laws trampled under foot. If, however, the American people would manifest their sincerity, now questioned,—if they would vindicate their national character from the imputation of connivance at violations of their acts for the suppression of the slave trade, they must not only enforce the existing laws, but must enact such statutes as the exigencies of the occasion demand, to carry more fully into effect the existing laws against the slave trade—to fulfill our treaty stipulations—to check the traffic now pursued by our countrymen with renewed vigor—and to vindicate the tarnished honor of our country—he had introduced the bill for the more effectual suppression of the slave trade. He then proceeded to explain the provisions of the bill, with such proofs as were necessary to sustain them.

Mr. Davis's territorial resolutions were taken up.

Mr. Toombs of Ga. made a long speech, concluding by calling on his political friends to put the stamp of disapproval on the doctrine of squatter sovereignty. There was a gleam of light coming from Chicago. Action had been devoured by his own dogs.—He called on the Democracy to unite against the common foe, and while vindicating the course of the Southern seceders from the Charleston Convention, urged their return to Baltimore, with a view of uniting to beat the Republicans.

Mr. Hammond read a brief legal argument against squatter soverignty.

Mr. Pugh explained briefly that he should vote for most of these resolutions.

Mr. Hale could tell his Northern Democratic friends that the Southern wing always would control the party. The great object of the federal Constitution was to establish an independent judiciary. He said the action of the Democracy was to defeat the action of the founders of the government in this respect. It had filled up the Bench with politicians, and, worse than that, sought to make the Supreme Court a sort of stakeholder between the contending factions of the party. He denied that the Dred Scott decision bound anybody on the political questions at issue.

The HOUSE, under suspension of rules, took up the Homestead bill as amended by the Senate, and substituted therefor the original House bill—104 to 59; so the subject will again go to the Senate.

The House passed the Senate bill, with an amendment, to regulate and increase the pay of the officers of the Navy.

The proceedings throughout were more than ordinarily turbulent.

TUESDAY, May 22.

SENATE.—Mr. Fessenden called up the Deficiency Bilt.

Mr. Gwin introduced a bill granting alternate sections of land to California for railroad purposes.

HOUSE.—Mr. Dawes, from Committee on Elections, reported in favor of Francis P. Blair taking the seat now held by Mr. Barrett, from the St. Louis District, Missouri.

MUTTON.—We mean to repeat a thousand times, or at least till what we say has some effect upon our countrymen, that a pound of lean, tender, juicy mutton can be produced for half the cost of the same quantity of fat pork; that it is infinitely healthier food, especially in the summer season, and those who eat it become more muscular, and can do more work with greater ease to themselves, than those who eat fat pork.—We know nothing more delicious than smoked mutton hams, of the Southdown breed of sheep. Venison itself is not superior.—*American Agriculturalist.*

New Hampshire, with her thousands of acres of fine pasture land, does not raise half as many sheep as might be reared, to great comfort, benefit and profit.

AN ENORMOUS CHARGE.—The State Department has received the bill rendered by the Panama R. R. Co. against the United States, for the passage of the Japanese Embassy. It is $3100 for simply carrying them across the Isthmus!

A THREAT.—A correspondent of the Boston Transcript sends an article eight pages long, and threatens if they do not publish it, that his father's ghost will haunt the editor; who says he shall not print the article, as he has some curiosity to see a real ghost.

THE CATTLE MALADY.—The Worcester Spy reports that a check has been put upon the spread of that disease, in a westerly direction, by the isolation of the cattle that had been exposed.

JAPAN.—See Atlantic Monthly for June, for an interesting article upon this subject, just published.

FROM CALIFORNIA.—*St. Louis, May* 21. The Pony Express, with San Francisco dates to the 11th inst., reached St. Joseph this afternoon.

Business has been more active from second hands, and a good trade has been done with the country, but the increased movement has been brought about by concessions and forced sales at auction. The whole tone of the market was weaker, and nearly every article has been brought down to its real value. Provisions are lower, and find no favor. The last accounts from New York depressed buyers.

U. S. sloop-of-war Cyane arrived on the 5th from Panama.

Steamer Golden State sailed on the 5th, with $1,700,000 in treasure, $1,500,000 being bound to New York.

The Candimurrah was completely repaired at the Navy Yard, free of charge, and sailed homeward, via Honolulu on the 7th.

The Pony Express, with St. Louis dates of April 18, arrived at Carson Valley on the 7th, with news indicating the nomination of Senator Douglas for the Presidency, which caused great embarrassment among the Democracy.

At the local election at Stockton on the 7th, the People's ticket triumphed over the Democratic.

Twelve or fourteen whites were massacred by Indians at Big Bend, Carson river, on the night of the 7th. The Indians were 300 or 400 strong, well mounted and armed with guns. The affair created great excitement, and three or four parties of from 12 to 30 each have started in pursuit.

FROM PIKE'S PEAK.—*St. Joseph, May* 21.—The Pike's Peak express has arrived with dates of the 15th. The weather at Denver City was clear and cold, but pleasant. Advices from headquarters, on Blue River, state that rich gold mines have been discovered, containing lump gold, varying in value from $1 to $17, and within from one to seventeen feet of the surface. New discoveries have lately been made in the vicinity of Gregory's of a promising nature. Emigration was pouring in. It is estimated that 5000 people arrived by the Platte route last week. Other routes are also reported thronged. Business was dull, and very little gold coming from the mines.

CHESS.—See Atlantic Monthly for June, for an attractive paper upon Chess, just published.

SARSAPARILLA.

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a unwholesome saline diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE THE BOWELS, and impart a one of vigor to the whole body

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY, and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEM197. 166 Cedar-st.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.

Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

BE VERY CAREFUL TO USE NO OTHER.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House *equal* if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance. J. B. FLAGG.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Education, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is unsurpassed. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to the department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, No. 3 Hanover Street; at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos.

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied to soon. Gentlemen of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

Also HARNESSES of all sorts, Whips, Blankets, Halters, and a good assortment of Saddlery Ware generally, of the latest styles, at fair prices. TRUNKS and Valises made or covered to order at the SADDLERY ESTABLISHMENT of

J. LARRABEE, No. 30 Daniel St.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiforumenos.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the astonishing power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirit, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was persuaded upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it to any and all who may be suffering from this dreadful malady.

W. A. BACON, Teacher of Detroit Select School.

THE GOVERNOR'S HORSE GUARDS.—The first parade of this corps in full uniform, will occur at Concord, Friday, May 25th, at 1 o'clock P. M. The inauguration of the Governor, will take place on Thursday, June 7th, on which occasion the Regiment will appear with full ranks.

Application has been made for an extra train on the Concord & Portsmouth Railroad on the 7th of June, and as Mr. Gilmore, the efficient Superintendent, has at all times evinced a willingness to afford the travelling public every accommodation in his power, the request will doubtless be granted. With a train to leave Portsmouth at 7 o'clock, good weather and half fare, not less than two hundred citizens of Portsmouth will avail themselves of the opportunity to visit the capital, and nearly the same number from the way stations. It is understood that an artist from Frank Leslie's Illustrated paper will be present to take a sketch of the Regiment for publication.

☞ On our first page will be found the list of Premiums to be awarded at the Rockingham Fair, to be held in this city in September next—with other information of value to all who feel interested in this occasion—which will be an important one for Portsmouth. It will be seen that the list has been varied somewhat from last year; and doubtless other premiums or purses will be added at the time, to increase the attraction.

☞ At a special meeting of the Middle Street Parish, on Monday evening, it was voted to invite Rev. E. D. Eddy, of Winchester, Mass., to become their pastor. The salary is $1000.

ANOTHER ELOPEMENT CASE.—A man named Silas Howland of Sugar Hill, Lebanon, N. H., eloped on Wednesday night last, with the wife of Mr. Isaac Howland of the same village. The man has property, and the woman hitherto has been held in high esteem. She leaves a home in which there was every comfort. The elopement is regarded as a deliberate affair. The whereabouts of the runaways is not at present known.

PRIZE FIGHTING IN NEW HAMPSHIRE. It is stated in the sporting papers, that there is no special law against prize-fighting in this State. Last week there was a set-to between a couple of Boston men, at Hooksett,—not Epping, as before stated;—and the Manchester Mirror thus reports a fight at Concord, between a couple of *women:*

Saturday evening a disgraceful female prize fight came off at the south end of the city. Eighteen rounds were fought, lasting twenty minutes, in presence of a large number of roughs. Our informant, who did not arrive in season to witness the fight, could not learn the name of the champion, as she had fled from the field. The name of the one left upon the field of battle was the notorious Mrs. Storin, who had received severe punishment. One present, reports that both parties went in to win on the first heat, and that Mrs. Storin was knocked completely off her pins in nearly every round. Mrs. Storin drew the first blood. Both parties have been training for this fight for several weeks past.

DOUGLAS AND LINCOLN.—A writer in the Transcript says:

The men are entirely dissimilar. Mr. Douglas is a thick-set, finely-built, courageous man, and has an air of self-confidence that does not a little to inspire his supporters with hope. Mr. Lincoln is a tall, lank man, awkward, apparently diffident, and when not speaking has neither firmness in his countenance nor fire in his eye. But he has a rich, silvery voice, enunciates with great distinctness, and has a fine command of language.

The Union Constitutional party laugh at the nomination of Lincoln, as the old Whigs laughed at the nomination of James K. Polk in 1844. "We will return," said Rufus Choate on that occasion, "James K. Polk to the Convention that *discovered* him!" In the same way the Democrats wore hilarious over the nominations of Gen. Harrison and General Taylor. The success of these three candidates proves that contempt for opponents is more pleasant than wise.—*Transcript.*

☞ The Detroit correspondent of the New York Herald says that Gen. Nye of New York and Mr. Burlingame of Massachusetts came near having a personal difficulty on Saturday, in consequence of the defeat of Seward at Chicago. Fshaw!

☞ John Ross, a sailor, a resident of the British Provinces, was lost overboard from brig Speedaway, in a gale of wind, off Cape Hatteras, on the 11th of this month.

☞ Bob Price, one of the most respectable and wealthy negroes in Memphis, Tenn., died recently, having by industry and frugality amassed a fortune of $50,000.

☞ The Japanese have been invited to visit Boston, and will probably do so.

WASHINGTON GOSSIP.—*New York, May* 22.—A Washington correspondent says a meeting of the Central Executive Com. of the Union party was held last evening. Mr. F. Walker resigned the Secretaryship, on the ground that he cannot sincerely support the nomination made at Baltimore. He was the head and front of the new party movement. The course he has taken is indicative of a general stampede among the Union party men. There is a rumor to-day that Mr. Everett declines.

The leaders and rioters on Saturday evening were the government employees, one a Lieutenant of the Marines, one Assistant Warden of the Penitentiary, and one Senate messenger.

It is known here that the New York anti-Douglas delegates to the Caarleston Convention have prepared an address which they may shortly issue, proposing as a basis of re-union at Baltimore, the resolutions offered by Mr. Howard of Tennessee, which were previously endorsed by them. Other Democrats regard the movement with favor.

The Superintendent of Public Printing, Mr. Seaman, was tried to-day, in the Circuit Court, on a charge of malfeasance in in office, and acquitted.

A contract is being made with the Colonization Society for the support and care of the Africans captured by the Mohawk, as in the case of those found on board of the Echo, and it is probable they will be conveyed to Liberia in a chartered vessel.

☞ The N. Y. Herald says of Mr. Lincoln's nomination:—

The nomination, in many respects, is a strong one, and will be difficult to defeat, and those who flatter themselves that the Democrats are to walk over the Presidential course with ease will find themselves mistaken. The Convention at Chicago, has given evidence of shrewdness no less in the nomination of Mr. Lincoln than in the platform adopted, which is progressive without being ultra, and unless it is met by a platform equally plain and intelligible, it will require no prophet to interpret the hand-writing on the wall.

FATAL RAILROAD ACCIDENT.—An accident occurred on the Florida Railroad on Wednesday, killing G. L. Bryant, Cashier of the Bank of St.Johns, Fa., Stephen Martin of Pilatka, and a brakeman. Several persons were also badly injured.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made;* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the favor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

Morning Chronicle.

The pugilistic science has of late years made much progress in France, and in many of the principle towns instruction with the "gloves" constitute a leading feature of the gymnasium. But there is one particular in which there is a departure from the art as practiced in England and America, which is the use which is made of the foot as well as the fist. The science of kicking is held to be essential to the noble art of self-defence, and no sooner has your adversary planted a facer at which your peepers flash fire and your nose spirts blood, than your *boulevermont* is made perfect by a kick in the belly.

Henry Ward Beecher says, in his lecture on Politics and Religion, that "people have the idea nowadays, that the churches are cradles, the ministers spectacled nurses, while the burden of their song is, 'Hush my dear, lie still and slumber.'"

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and testify to it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from falling gray, and from falling in any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my saddle against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered the baldness, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result; for within about a fortnight after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Any information, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is any, in its behalf.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Pittsfield, Va., Dec. 12, 1859.

Professor O. J. Wood:—Sir:—Inclosed I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A lady in this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can call a great deal of Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative a very wonderful invention, quite efficacious as well as agreeable.

S. THALBERG.

The Restorative is put up in bottles of three sizes, the smallest containing a pint, and retails for half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say conscientiously of it, what we have never been able to say of any other medicine, NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, "*what we know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we have stated.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with unfailing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives to each and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST AND SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints:—*Do not let your own prejudices, or the prejudices of others, stand in the way of relieving your child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used.* Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*—and analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, and any and every form of THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for Dyspepsia. Debility, and Nervous Prostration. For all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, and NERVOUS PROSTRATION, use No. 2. For FEMALE COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special Pamphlet for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself to every mother, as a safe substitute for all other CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WINDY CHILD IN THE HEAD, and CROUP; also for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has *no equal*—being an anti-spasmodic it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and painful sufferings consequences which are certain to result from the use of narcotics of which other remedies for Infants are filled, we earnestly beg you, but DR. EATON'S INFANTILE CORDIAL, this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Heartburn, Colic Pains, Wind and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their systems shattered, accompanied with low and broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating effects of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full, as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing food and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, or violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions or irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is various; caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, in all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, by other tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders in the blood, expresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by the taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active vegetables that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, RYTHMIA AND ST. ANTHONY'S FIRE, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND DYSPEPTIC PAINS, EASTERN ERAMA, ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of the Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so compounded that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the living organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, they are found to be beneficial even with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable disorders, which assume the form of disease so long as pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use, of Costiveness, Dropsy, Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, WHOOPING COUGH, CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCOHERENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land, invigorated by the operation of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, leucorrhœa, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

IN NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for; unlike other Iron, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a drastic purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the blood vessels of which it forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when adhesive matter, with cutting pains, tenesmus, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has shown the utmost of its merit and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting their sex.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been peculiarly efficacious, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative; and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

JOKES.—The Bath Times, since the Chicago nomination, says:

If the republicans expect to drive their wagon over us poor democrats, crushing us like egg-shells, they must not find fault if we improve our remaining days in cracking jokes at their expense.

Here follow two of the jokes:

The Journal's correspondent from Chicago says everybody concedes that the ticket is a very strong one. That is a fact; it is as strong as a burly African in dog days.

The republicans call the building erected in Chicago for the accommodation of their convention, a "*Wigwam.*" This may be a "native American" idea, but on the plantations the buildings used for *similar purposes* —for the good of the darkey—are called the "*Quarters.*"

The subject of impression at first sight, was being talked over at the supper table, when the lady whose duty it was to preside over the "tea-cups and tea," said she always formed an idea of a person at first sight, and generally found it to be correct.

"Mamma," said the youngest son, in a shrill voice, that attracted the attention of all present.

"Well, my dear, what is it?" replied the fond mother.

"I want to know what was your opinion of me when you first saw me?"

This question gave a sudden turn to the conversation.

Can a Democrat desire to have the election of President carried into the House of Representatives? Certainly not. Those who would resort to the undemocratic provision by which New York, Ohio and Virginia shall have no more influence in the choice of a President than Oregon, Delaware and Florida, *are not* Democrats, no matter by what name they are called or what position they occupy.—*Bath Times.*

RECENT TESTIMONY.

Washington, April 16, 1860.

Sir:—In answer to your letter, asking that I would inform you as to what standard of orthography has been adopted in the Smithsonian publications, I give you the following reply:

Early in the history of the Institution, the subject of orthography was referred to one of the best writers of this country, and in accordance with his recommendation, Worcester's Dictionary was adopted as being nearest the general usages of English scholars.

I am, very respectfully, your obedient servant,
JOSEPH HENRY, Secretary S. I.

From Hon. Philip F. Thomas, Commissioner of Patents, Washington, D. C.

U. S. Patent Office, March 16, 1860.

The new Dictionary of Dr. Worcester combines, in my opinion, more of the requisites of a work of reference than any similar one ever published. The fullness and accuracy of its technical definitions make it of especial value in this office; and the care shown in the correctness of its orthography, and its general excellence in definition and in etymology, have made it the standard work of reference in this office.
PHILIP F. THOMAS.

From Hon. John Hart, Sup. of Public Printing.

OFFICE SUPERINTENDENT PUBLIC PRINTING,
Washington, March 14, 1860.

I have long been familiar with Worcester's Dictionary, and have been highly gratified with the appearance of the new and beautiful edition of this valuable work. Its vast vocabulary, the skill of its arrangement, accuracy of orthography, precision of definition, particularity of technical and scientific terms, its general completeness, and its freedom from political or sectarian bias, render it, in my estimation, the most perfect and authoritative expository of the English language. It gives me pleasure to state that it is the standard authority for the public printing.
JOHN HART.

From Jos Mettingly, Foreman of the Congressional Globe.

It gives me pleasure to inform you that, with the commencement of a new volume of the Congressional Globe, the work of orthography represented in Worcester's Dictionary will take the place of that heretofore used in the publication of the debates of Congress.

Office Secretary U. S. Senate, March 16, '60.

Dear Sir:—It affords me great pleasure to inform you that the Committee to admit and control the contingent expenses of the Senate, have manifested their appreciation of Worcester's Quarto Dictionary by directing that the Senate Chamber and all the committee and office rooms of the Senate, be furnished with that work.

I am highly gratified at this additional testimonial of the merits of a book, that in my judgment, is decidedly the best work of the kind in the English language. Yours,
JOHN G. FITZPATRICK,
Assistant Clerk, Office Secretary Senate.

Clerk's Office, U. S. House of Representatives
March 15, 1860.

Worcester's New Quarto Dictionary is the standard work of reference in this office, and the system of orthography therein represented, is that adopted in the official records and documents of the U. S. House of Representatives.
J. W. FORNEY,
Clerk U. S. House of Reps.

No scholar can afford to be without your Dictionary. (N. LORD, D. D., President of Dartmouth College.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

THURSDAY, MAY 24, 1860.

CUBA.

It appears by the 4th resolution adopted by the recent Charleston Convention, that the Democratic party is in favor of the acquisition of the Spanish Island of Cuba. It is understood that the Northern Democrats generally voted in the affirmative! No reasons are assigned. Had they a comprehensive view of the subject matter? In charity to them, we think they had not, nor of the consequences of such acquisition. This is a project of the Southern oligarchs. Their objects are well understood, among which are the more successful prosecution of the African slave trade, and the internal American slave trade;—putting an end in some degree, to the Cuban competition in respect to sugar, molasses, and the tropical products such as are now produced in the Southern States, and thereby raising the price of such products;—and extending the area of slavery so as to form new states, and by facilitating the acquisition of territory southward, enabling them, in the event of dissolution of the Union, to establish a large slave empire.

But what possible benefit would the acquisition of Cuba be to our *free* States?—With the exception of some small benefit in respect to duties on merchandise, (although a reciprocity of duties might be satisfactory,) we deny that extending our government over that island would be advantageous to the free states—and assert that, in every point of view, it would be injurious. We believe that instead of giving one or two hundred millions for the political control of it, it would be better to give that sum not to have the dominion forced upon us. By such acquisition we should not purchase an acre of the land. The present proprietors would hold their farms and plantations, unless they should sell for a fair equivalent. Of what advantage, then, could the naked jurisdiction be?

The objections are numerous, among which are:—The population, except the Spanish lords and proprietors, are grossly ignorant, indolent, and superstitious;—all all are Roman Catholics under the priestcraft rule; they would as soon surrender up their lives as their religion. Such is the state of society there that, at great expense, we should have to maintain a standing army, as Spain does now, to keep over a million, including the blacks and all other shades of color, in subjection. Standing armies are opposed to the genius of our institutions.

We are opposed to the project, for the very reason or object for which the oligarchy is in favor of it. Our Northern merchants, now freely trading at the Island, would have to give a higher price for the merchandise purchased there, and consumed at the North; and the free states would be taxed for the support of the standing army.

The population of the island is wholly unfit and unqualified for the support of our free government. This every enlightened statesman well understands. We need no Roman Catholics to represent Cuban states in our National Congress.

Our confederacy of States is already too widely extended for a Republic. Future events may open our eyes upon this subject. Already we see political power fast accumulating in the central government, as the natural consequence of an increase of territory.

It has been said that Cuba is an obstruction to our navigation into the great internal ocean, the Gulf of Mexico. There is a wide entrance of towards a hundred miles at each end of the island. It may be *presumed* that the Island and all the obstructions will forever remain, even should we obtain the jurisdiction by *conquest*, for we think we cannot gain it by *purchase*. England and France, as well as Spain, would have something to say, should the United States attempt to invade Cuba, because they have an interest in their West India possessions. "Young America" seems to be far too grasping in "coveting his neighbor's property."—She wants no "*outside lands*," as a farmer said. Mexico, Central America must be annexed! But a few years ago, the oligarchy wanted to annex Brazil, by treaty, to carry on the African slave trade. Is it not time that the free states should declare to the oligarchy, comparatively a mere handful of men, that thus far have you gone, but no further? Is it not high time that an end should be put to all such foolish, preposterous projects, which, while they disturb the peace and fraternal feelings of our whole population, yet if suffered to be carried out, would endanger the prosperity and vital interests of our Northern people.

DEMOCRITUS.

☞ Mrs. Cunningham and her two daughters arrived at San Francisco on the 30th of April. The news of her arrival soon spread abroad, and she failed to find that peace and quiet of which she was in search.

☞ The Japanese think that oyster soup is the finest American institution they have yet seen. They call the hotel waiters "soup gentlemen."

CATTLE DISEASE.

Messrs. Editors:—The alarm in relation to the cattle disease is becoming quite general, and it probably will become more so, as it makes its appearance in one and another State, town, and neighborhood.

It is evidently an epidemic that is becoming wide-spread, and the slaughtering of those attacked with the disease will produce very little effect in checking its progress. Men, beasts, and vegetables are all subject to epidemics of numerous kinds; and it depends more upon time than upon the efforts of man for their disappearance; yet it is our duty to grapple with them, in order to modify the disorder and relieve the sufferers as much as it is possible for us to do.

Some ten years since, the epidemic of felons spread through America and Europe, crippling fingers, and in some instances the entire hand; yet it was not contagious in the general acceptation of the term; neither would any amount of slaughtering have diminished the number of cases.

All we have to do is to treat each case the best we can, and we prevent deformity in most cases. And so with the cattle disease: each case should be treated scientifically; and though the disease attacks the more vital location than the felon, yet probably the majority of cases will ultimately recover.

The animal should be kept on such food as will nourish him most, with the least effort of his digestive organs; such as slightly salted well-boiled water gruel made of oat meal or corn meal. Also hay, and such other food as may be thought proper.

Use such alterative medicines as science may dictate, and give the animal good air, apart from other animals, as most diseases vitiate the air around them, and whoever or whatever breathes it, is more or less affected by it; hence the necessity of keeping the room in which sickness is, well cleansed and ventilated, and changing the bed clothes and the apparel of the patient often.

In an epidemic of this kind there is danger of using milk from diseased cows, and from eating beef and veal of diseased animals, which if it does not produce the same disease in us, must tend to vitiate the system to some extent.

All epidemics begin as endemics, and spread not wholly from contagion, but from the condition of the atmosphere. Massachusetts is slaughtering her diseased cattle at great expense, and with doubtful advantage.

No doubt, however, in the last stages of the disease, it would be well, as an act of mercy, safety and economy, to kill the animal and bury him in powdered charcoal.

Every man could see his interest in the matter, without the intervention of the State.

N.

☞ The Democratic presses are full of lamentations at the overthrow of Senator Seward at Chicago. This illustrious statesman will have one consolation in defeat, which is a fuller knowledge of his own popularity. The Newark, N. J., Journal says:

The nomination of Wm. H. Seward would have been the true policy of the Republican party.

That is, in other words, he would have been easily defeated in the election, and they with him—but now it is quite different, as the Republicans have nominated a popular, available ticket.

The Newburyport Herald says:

There will be ten disaffected Democrats for "honest old Abe," where there is one disaffected Republican who will bolt him.

PHYSICAL EDUCATION. — Cheltenham College, England, recently gave an exhibition of athletic sports. There were no less than twenty-three different performances, including flat-races, hurdle-races, steeple-chases, high jumping with and without pole, throwing balls, &c., most of the races in heats. A correspondent of the Spirit of the Times says the whole occupied five hours. Some of the older lads, from 15 to 18 years old, did very well. 100 yds. run in 10 sec., and repeated in same time. High jump, without a pole, 4 ft. 8 in. 1000 yds. run in 2:42. Hop, step and jump, 37 ft. 8 in.—Cannon ball thrown 33 ft. 9 in. Cricket ball thrown 87 yds. The boys showed immense pluck in the longer races and steeple-chases, running till they fairly dropped from exhaustion; in several instances the winners rolled over, dead beat, as soon as they had passed the post. Forty-two prizes were given, consisting of dressing-cases, whips, cricket-bats, and small articles of jewelry.

ANNIVERSARY WEEK.—The usual Unitarian social festival during anniversary week will be held at the Music Hall, Boston, on Tuesday, 29th inst. Geo. B. Emerson, Esq., will preside.

The Universalists will hold their annual social meeting at Faneuil Hall.

The Baptists will have a festival at the Music Hall on Wednesday evening, the 30th inst. The tickets are limited to eight hundred.

A GRAVE FACT.—A well known undertaker of Boston has leased a store for the sale of coffins and grave clothes, which has a noted drinking saloon on each side.—The street is named in honor of a philanthropist of world-wide fame.

SLATED ROOFS.

At a late meeting of the American Institute Farmer's Club, New York, the chairman read a letter highly approving of slate roofs for farm buildings. A slate roof is not only as easily laid as shingles, but will last longer than the building, unless it burns, and then its effect is often to dampen the fire so as to prevent its extending to other buildings. The slate can be laid on a roof with one-quarter rise—that is, a roof 20 feet long will require 5 feet rise; this insures a tight roof, when put on close-laid or roofing boards; but where it is only ribbed, mortar is used in the joints. The slate may be laid flat as a tin roof by using white lead to the joints. The slate should be laid so as to present three thicknesses at the butts. It is believed that this is the cheapest roof that farmers can use.

At the same meeting, Dr. Trimble said:

"The slate which I mentioned, on a roof at Philadelphia, was from a Pennsylvania quarry. The roof is very flat; the slate is laid upon ribs, in cement, and is found perfectly tight, and greatly to be preferred to an iron roof. In fact, iron roofs are in a great measure condemned in Philadelphia. This slate roof was adopted after a great deal of inquiry and experiment. There is an inexhaustible supply of slate in this country, of the very best quality.

DOUBLE MURDER IN RUTLAND, VT.—The inhabitants of the town of Rutland are in a state of great excitement, says the New York Express. Five months since the wife of Dr. Allen, now a physician of Rutland, formerly a Baptist minister, died, as was then supposed, of a tumor in the stomach. Dr. A. had been suspected of an intimacy with a Mrs. Weeden, which became more apparent after his wife's death. Last Tuesday Mr. Weeden died—Dr. Allen attending him. The prominent citizens of the village became aroused, and Saturday both bodies were disinterred. The same night Dr. Allen and Mrs. Weeden were arrested and lodged in jail. The stomachs of the deceased have been sent to New York for chemical investigation.

☞ The Washington correspondent of the N. Y. Herald says that a rumor is circulating about there uncontradicted, that Douglas is willing that the June Convention shall incorporate with the Cincinnati platform the Dred Scott decision, if that will satisfy the South. Many who have heretofore opposed the nomination of Douglas, since the action at Chicago think he ought to be pitted against Lincoln in the next campaign.

RUMORED CONSPIRACY AGAINST THE EMPEROR OF RUSSIA.—The Paris correspondent of the Morning Post says:—"I have read an official dispatch from St. Petersburg not without interest. There seems to be no doubt that a conspiracy had lately been organized against the life of the Emperor, or, at all events, with a view of obliging his imperial Majesty to abandon his praiseworthy policy of emancipation of the slave populations. I read of the arrest of some 150 to 200 persons at St. Petersburg, chiefly amongst the Noble Guard. Certain suspected regiments were sent out of the city, and replaced by troops perfectly innocent of all political feeling. In addition, artillery was planted in various quarters of St. Petersburg, in order to check, if necessary, this planned military revolt. I have seen the names of the accused, but I am not permitted to publish them."

GREAT TORNADO.—*Cincinnati, May* 22. The most destructive tornado ever known in this section of the country, passed over this city yesterday. It came from the northwest in a densely black cloud, two miles broad, rushing forward with fearful rapidity, accompanied by thunder and lightning and torrents of rain, demolishing and unroofing houses and causing a damage amounting to at least half a million of dollars, and killing and seriously injuring many people. Six persons were killed outright.

The steeple of the St. Joseph's Catholic church was also blown down; and nearly all the public buildings, school houses and churches, besides a large number of private dwelling houses, were unroofed or otherwise damaged.

A heavy rain followed the tornado, which continued until after midnight, drenching the roofless habitations.

DISCHARGE OF WORKMEN—PROSCRIPTION.—We are informed that about 500 workmen were yesterday discharged from the Navy Yard at Charlestown. The cause alleged is, that they attended the recent Douglas meeting in Charlestown, and voted for resolutions which reflected rather pungently on the administration. However tyrannical and proscriptive this may be, it is certainly acting with despatch. The Navy Yard is in a decided commotion in consequence.—*Atlas.*

ST. LOUIS, May 21.—A scaffolding at the north end of Trinity Church, which is in course of erection on the corner of Washington avenue and Eleventh street, fell this morning, precipitating nine workmen sixteen feet on a pile of rocks beneath; fatally injuring James Shannon and Thomas Hill, and seriously wounding several others. John Norton's back was broken, and he will probably die.

POSTMASTER FOWLER FLED THE COUNTRY.—*New York, May* 22.—It is stated that the late Postmaster, Mr. Fowler, left this port on Friday last, in the steamship Moses Taylor, bound to Havana, from whence he will go to Mexico, or somewhere in South America, where no rendition treaty exists with the United States. His friends raised a purse for him of several thousand dollars.

THE JAPANESE EMBASSY reception, at Washington, was a grand affair. Concerning their dress, we copy a few particulars:

The officer occupying the first carriage in the procession was arrayed in a loose slate colored gown of State, of a general form like the pulpit gown of the Episcopal clergy, with huge sleeves stiffly extending right and left, the texture having a brocade-like appearance, but with the figuring quite minute. The lower dress consisted of a pair of trowsers very wide and full, and of nearly the same material. On the crown of the head, extending from the forehead, was worn an ornament shaped like a band, three or four inches wide and eighteen inches long, bent in the middle, and the ends tied, but not close together.—Nearly all the Ambassadors wore this distinction, but in some the bend stood forward, in others backward.

After the official in the slate-colored dress, came one in a rich green brocade, with a larger figure; next one in light green; then one in yellow; next a dark slate, and another in yellow or orange, a third in green, and two riding with the interpretor, arrayed in blue. One little official, in a skirt richly embroidered with pink and gold, attracted considerable attention.

☞ The Congress of Nicaragua has voted an expensive sword to Commodore Hiram Paulding, for his services in breaking up the Walker expedition. The interference of the American Naval force on that occasion, was said, at the time, to have been the only salvation of the renowned filibuster. This costly and unusual acknowledgement would seem, however, to place another aspect upon the transaction.

☞ Among the parties indicted by the grand jury for Essex county are the Lynn rioters—Murphy, Murray, Perry, Wood and Buckley. Their trials will take place at Newburyport in a few days.

GREAT HUMBUG!!

The idea that any one can sell CLOTHING FURNISHING GOODS **cheaper** than

MOSES & DOWNIE,

is a great humbug,. They buy their Goods in large quantities, and manufacture them under their own supervision. Therefore, no one can compete with them in low prices, who have to buy their Clothing Ready-made.

We have the largest and best Stock of **Ready Made Clothing & Furnishing Goods** ever offered in Portsmouth; and at the LOWEST PRICES. The whole of which must be disposed of lower than ever before, in order to reduce our immense stock.

It would be impossible to enumerate the different articles in our Store, but we would say that we have COATS varying in price from

50 CENTS TO 15 DOLLARS!

and PANTS from

50 CENTS TO 7 DOLLARS!

We have also the largest and best assortment of

Cloths, Doeskins & Cassimeres,

Both plain and fancy, that can be found this side of Boston, which we will

Make to Order in the Very Latest Styles,

AT A VERY LOW PRICE.

We might go on and fill a paper with a description of our goods, but that would not satisfy the public mind nor clothe their backs. If there is any one inclined to doubt our statement, let them call at our store, and they will doubt no longer. The large patronage we have received is proof of our assertion. We have also any quantity of goods for Men's and Boys' wear, to sell by the yard. Also

Hats, Caps, Boots, Shoes, Trunks, Valises, Umbrellas, Carpet Bags, And Oil Clothing,

and anything needed to make a man comfortable in feeling and respectable in appearance; and what is best of all, it takes but little money to do it at the BIG CLOTHING WAREHOUSE of

MOSES & DOWNIE;

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocilization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information, of his whereabouts can be obtained at his residence, **No. 36 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos.

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and severe ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months, and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the medicine, to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used three bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

W. A. BACON, Teacher of Detroit Select School.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan F. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot twdaw

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

THE REFRESHING SHOWERS of the week past give a better look to the gardens and fields, that had been really suffering from the drought. Very much of the seed sown has not yet vegetated, and the farmers will now see if their fields need re-seeding. The pastures will especially feel the benefits of the rains, much needed, as the time for turning the cattle into them has now arrived. Vegetation is starting on all sides of us, and wears a beautiful appearance. In about a week, the apple trees will be in full bloom, and everybody ought to take at least one ride or walk among the blossoms.

☞ Prof. O. S. Fowler, of New York, the celebrated and popular Phrenologist and Physiologist, has been delivering Courses of Lectures in Boston, Newburyport, Manchester, and other cities, with his usual good success. He is intending to visit Exeter next week, and will probably come to Portsmouth the week after. Mr. Fowler is also delivering a sort of professional lecture on temperance, considered in its phrenological and physiological bearings, which he will present some Sabbath evening.

☞ The Paymaster of the Governor's Horse Guards was duly qualified on Monday. The oath of office was administered by Major William H. Hackett, late Judge Advocate of the First Brigade of New Hampshire Militia. After the conclusion of the impressive ceremonies, the company partook of an excellent collation at the invitation of Lieut. Fuller, who can now legally discharge the duties of "Paymaster of the Horse Guards," whenever in funds.

EMIGRANTS.—Three car-loads of Irish emigrants, on their way from Montreal to Boston, passed through this city on Tuesday evening, over the Eastern Railroad.

A man named Brant died in Somerset county, Pa., the other day, in consequence of eating 21 boiled eggs at one meal.

There is a young man now living in this city who is said to have eaten three dozen hard-boiled eggs at a single sitting. Sitting! one would have thought there would be a laying (out) in this case, as there was in the other reported above.

GOLDEN WEDDING.—The Exeter News Letter says that Mr. and Mrs. Josiah Fogg of that town, celebrated their golden wedding on the 19th inst., it being the first event of the kind ever celebrated in that place. There were present six children and twelve grand children. Among the relics of olden time that used to furnish the table was a set of china, almost perfect, which had seen fifty years' service, and two enormous *pewter platters*, one hundred and sixty years old, which had already descended as heirlooms through four generations. The ancestors of Mr. and Mrs. Fogg were, over one hundred and fifty years ago, among the first settlers of Exeter and Salisbury, Mass.

Many beautiful and appropriate presents were made to the aged couple on the occasion; every member of the family presenting some token of respect and affection.—Among the most noticeable was a handsome gold-headed cane to the father.

FRUIT PROSPECTS IN NEW HAMPSHIRE.—The Manchester American gives a summary of the prospects of different varieties of fruit in this State, from which it appears that apple trees throughout all the towns in that part of the State have blossomed most abundantly, and if a tenth part of the blossoms mature into fruit, there will be a noble apple crop next October.—Cherry trees have blossomed well. Strawberries also give good promise. The set of pears is very encouraging. Grapes are fast becoming a leading fall fruit, and thousands of vines have been distributed in the State within a month. The yield now promises handsomely.

LEGACIES.—Mr. John Perley of Georgetown, Mass., recently deceased at New York, bequeathed the sum of $40,000 to the town of Georgetown for a free public school, to be called the "Perley School."—To the Rev. Mr. Beecher's Society of Georgetown the sum of $7,000. Another legacy was left to the Limebrook Religious Society, provided they had a settled preacher. Mr. Perley was a bachelor, and has left various small legacies to his connections.

☞ The New York Herald estimates that at least 500 ladies and gentlemen ride on horseback every pleasant day, in that city and suburbs. They have a Saddle Horse Club there, for the promotion of equestrianism—certainly a much better object than animates some of the "Clubs."—In the glorious Central Park—which is to contain, when finished, twenty miles of carriage-drives and five miles of saddle-path—less than three minute gaits are common, by horses ridden by ladies or gents.

☞ A distressing drought still prevails throughout the territory from the Missouri river to the Rocky Mountains. But little rain has fallen for 90 days, and fears are entertained of the total loss of all the crops.

CONGRESS.

WEDNESDAY, May 23.

SENATE.—The bill for increasing the pay in the navy was taken up, and the amendments of the House concurred in.

The Senate insisted on the amendments in the militia academy bill, and asked the committee for conference.

Mr. Benjamin, from the Judiciary Committee, reported a bill responding to the President's message relative to the slaves landed at Key West. Laid over.

The House has the Senate Pacific telegraph bill under consideration.

Clark C. Cochrane moved to table the bill. Negatived—80 to 91.

Without further action on the bill, the House went into Committee of the Whole, and considered the legislative and executive appropriation bill.

NEW YORK, May 23.—The Douglas meeting at Cooper Institute, last evening, was largely attended, and speeches were made by Francis B. Cutting, Wm. A. Richardson of Ill., Gov. Foote of Tenn. and others. There was a considerable gathering outside the building, and much enthusiasm manifested.

☞ N. P. Willis has been coming the Rarey over a fine but vicious saddle-horse of his. The colt would bite and strike at him, after more than a year's kind use and petting; but after being thrown down a few times, *a la* Rarey, by Willis and an assistant, the animal became perfectly gentle and docile, and has remained so ever since—not even laying his ears back or pretending to be cross. The poet is surprised at his success as a horse-tamer, a full and pleasing account of which may be found in the Home Journal of May 12.

LATER FROM MEXICO.—Zuloaga issued a decree on the 1st of May, deposing Miramon and assuming the Presidency. The movement caused great alarm. Miramon had met several reverses. He had imposed heavy loans on the city of Mexico and also on a foreign commercial house.

☞ Gov. Seward telegraphs that he has no intention of resigning his seat in the Senate, as rumored.

☞ A private letter from the South announces that Houston will run as an independent candidate.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannel and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots may be easily removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, clothes and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square,

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House *equal* if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR JAMES CLARKE, M.D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

HOUSE FURNISHING ESTABLISHMENT,

No. 46 Market Street.

NEW STOCK OF

STOVES, RANGES, FURNACES,

This is the most favorable season of the year for renovating old heating apparatus, or erecting new; and the subscriber is prepared to give personal attention to all orders in that line. He would call the attention of purchasers, to

CHILSON'S CONE FURNACES.

Having set a great many of them in this city and vicinity, and in all cases given *perfect satisfaction.* All sizes suitable for public buildings, or private dwellings, for sale at MANUFACTURERS' PRICES.

PORTABLE FURNACES

of all sizes—sufficient to warm one room, or an entire building as may be desired.

CHILSON'S NEW COOKING RANGE.

A splendid article, having two large elevated ovens, *sure to bake.* These are the most convenient style of Ranges yet introduced, and are coming into use. Six of them have been set at our Navy Yard this Spring, and operate very finely.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

SMILES AND FROWNS.—Keep a smile on your countenance. Smiles breed dimples, which are far more ornamental than fancy shirt fronts. It's dangerous to sleep in the same town with the proprietor of a perpetual frown. Don't walk around, looking as dismal as a sick undertaker, or as if you were going to your own funeral. Melancholy, two-thirds of the time, results from hunger or indigestion. Dissect a suicide, and the chances are you will find his stomach empty. If you feel down-hearted, avoid hemp, and take to victuals. A timely "sirloin" might save many a good fellow from an early grave. Isn't that so?—*Howard Paul in his Entertainment.*

I have seen men who, I thought, ought to have a whole conversion for each one of their faculties. Their natures were so unmeasurably wicked, that it cost more for them to be decent, than it would for other men to be saints.—*Beecher.*

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered the injury, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Real estate, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is large, in your behalf.

You can publish this if you think proper.

Yours, very respectfully,

J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, I can confidently attest to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

S. THALBERG.

The Restorative is put up in bottles of three sizes: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, *in confidence and truth* of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *what we do know*, after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives toneand energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the safest and surest remedy we know of in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices or the prejudices of others*, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper

Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS, including CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirit, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from DYSPEPSIA, DISEASE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that wherever pain exists, there it will go. No. 4, for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SCROFULOUS ULCERS, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANT CHILD'S CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and operates alone upon the system so that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the cause. Mothers, try it, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation known for CHILDREN'S CORDIAL, and DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also for Scathing the Gums, reducing Inflammation, regulating the Bowels, and relieving pain, it has *no equal*—being an anodyne medicine, it is used with unfailing success in all cases of Cowlicks and other *Pains.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANT'S CORDIAL. By this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give a good appetite.
One dose will stop the distressing pains of Dyspepsia.

A dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits, the wearing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all other complaints, irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depravity of vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders the disease, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active of vegetables, and has been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. It should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, TETTER AND SCALD HEAD, ERYSIPELAS, ACNE, ACNE PUSTULOSA, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA OR INDIGESTION, SCROFULOUS ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is afflicted with pain or physical debility is astonished to find his health or energy restored by a remedy at once so effectual and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. Of the agent the name is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, AND CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

JOSEPH H. FOSTER.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSMENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids who long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land, and have signed instances of this kind are attested of female sufferers, who, from long and apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to food and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for those females peculiarly delicate, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously but tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, to several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly adapted to it.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well spoken of, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 60 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

CHEATING THE ORDER OF THE DAY.—If any body wants to know how Uncle Sam is swindled, or how easy it is to get a farm, let him read the following startling facts. The proof in all the named cases were so complete and regular that there was no setting them aside; and though in the aggregate, they were a monstrous lie, yet they could not be rejected individually: Congress gave a quarter section (160 acres) to each soldier or volunteer who actually served in the war of 1812, the proof of service being his name on the pay roll of the army, or the volunteer corps actually in service. A bill was subsequently introduced and passed, authorizing verbal testimony of service, as it was assured that there were a few, hard cases, where parties had served, but whose names could not be found on the rolls. Eight thousand men, regulars and volunteer were at the battle of Platisburg, when Sir George Provost and the British army were repulsed in September, 1814, all the real survivors of which, whose names were on the rolls, of course received their 160 acres each; but under the law authorizing oral testimony, the Land Office has actually issued twenty-seven thousand land warrants to the survivors, every man and mother's son of whom has proved in the most satisfactory manner that he was at this battle!—Twenty-seven thousand men survivors of eight thousand men after an interval of more than forty years!

MISLED BY A CHURCH.—The steamer City of Cleveland, arrived at Buffalo May 2d, and the following incident is told to have occurred at Dunkirk. The mate, who was at the wheel while making the port of Dunkirk, (who is an old lake sailor, and well acquainted with the harbor there, but who has been absent for the past year,) always laid his course by a certain church spire. He did so this time and the consequence was that he was soon high and dry upon the reef. The church had been removed, it seems, recently, some four blocks from its original position. It is said the mate is loosing confidence in everything, now that the churches deceive him.

☞ The wife of Rev. Mr. Root, a Congregational minister of Springfield, Ohio, eloped with a prominent gentleman of that place, and one of the pillars—a very defective one, it appears—of her husband's church. Mrs. Root is about thirty years of age, and complained of great unhappiness in her marriage relations.

A FEW CERTIFICATES OF THE GREAT
SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.
Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*

It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller then is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

FRIDAY, MAY 25, 1860.

HALE, BENJAMIN AND PUGH.

A remarkable debate took place in the U. S. Senate, Tuesday, May 22, between the above representative-men of three parties, viz., the Republican and the two Democratic parties. Mr. Davis's Territorial resolutions, to protect slavery in the Territories, were taken up.

Mr. Hale corrected the statements made by Messrs. Lane and Pugh, in regard to the action of Indiana in regard to the introduction of slaves. He contended that Indiana did petition for the suspension of the law prohibiting slavery for ten years, and Congress refused. Its slaves were taken in afterwards in violation of law, but the courts decided that the ordinance of '87 was binding, and all slaves by virtue of it emancipated. The ordinance of 1787 was legal and binding.

He read Mr. Randolph's report in opposition to the petition of the Territory of Indiana, and said that the growth of that State had demonstrated the wisdom of the refusal. He referred to the interference of the Supreme Court in political questions, and said that in so doing they hurt nobody, but damaged their own reputations. He hooted at the idea that the Dred Scott decision disposed of the rights and interests of fifteen States of the Union, who were not a party to the suit. No court and no caucus could settle this, the great question of the age. Wherever the friends of freedom contended for right, this question had been argued and adjudicated, and the efforts of the Supreme Court to decide it against the advocates of free principles, would only result in the overthrow of the Court.—The founders of the government established anti-slavery principles, and the Republican party were determined to maintain them.—He argued that the power of Congress to prohibit slavery in the Territories had always been exercised and acknowledged.

Mr. Pugh said that the ordinance of 1787 was never popular in the Northwest. Illinois, as well as Indiana, protested against the prohibition of slavery. But for the foreign emigration that filled up the Northwest, slavery had not been driven out. Forty thousand ordinances could not have done it.

Mr. Benjamin spoke in opposition to Douglas. He said the Senator, in his speech occupying two days, had presented the extraordinary spectacle of advocating *his own claims* to the Presidency, and denouncing those who dared to express their views on the subject before the Senate, assuming that he was the embodiment of the Democratic party, and that all who opposed him were rebels.

Mr. Benjamin defended Democratic Senators. The Senator had defended his consistency, but that was not the issue between them. It was, that the Senator had made a bargain and violated it. It was his consistency that was his great crime; he adhering still to the views he had agreed to abandon when the Court decided the question, and which had been decided against him.

He argued that the Dred Scott decision was that the Constitution forbids the prohibition by Congress of slavery in the Territories; and as the Territorial government derives its powers from Congress, it could not d. more than Congress itself. To be twice deceived by the same man, would make them dupes and fools.

He read from Douglas' Harper's Magazine article to show that he had copied Lincoln's arguments of 1858, and claimed them as his own. He warned Douglas that the tendency of his doctrines was to drive him back, step by step, to the Black Republican ranks. He had repudiated his obligations. After making his promises he went home—his knees faltered, and he gave way. Lincoln, who stood firmly on his principles and was beaten, is the candidate of his party for the Presidency, while Douglas, who faltered, won the prize he contended for, but the glittering prize to which he had looked for years, is slipping from his grasp.

Mr. Pugh said that the Senator from Louisiana had demonstrated that there was nothing equivocal in the Kansas bill or the Cincinnati platform. If submission to the demands of the Senator from Louisiana was to be the price of peace in the Democratic party, he warned them all that peace was at an end.

He examined the Dred Scott case, and argued if the Constitution established slavery in the Territories, it also established it in the States. Mr. Douglas was not only pressed by his innumerate political enemies, but also by the administration, which invaded a sovereign State to interfere with and control the election.

Mr. Wade asked Mr. Pugh if he believed a Territorial legislature could prohibit slavery, and that prohibition be effectual.

Mr. Pugh replied affirmatively.

A debate followed as to whether the votes at the Charleston Convention expressed the views of the majority.

Mr. Pugh said the rupture at Charleston grew out of the fact that Douglas, having *incautiously* said that he would not allow his name to be used in case a certain platform was adopted, it was endeavored by the friends of all the other candidates, to construct a platform on which he *could not* stand. He wanted the Richmond Convention to nominate their candidates. They had no business to come to Baltimore, and if they did come he would sit and vote till the fourth of March to keep them out. The men who voted for Stephen A. Douglas fifty-seven times had not got tired of doing so. Gentlemen of the South had made the issue—had made it a question of personal honor, and so it would stand. The North would not submit to the dictation of the South, and would not level themselves in the dust at the bidding of any set of men. Mr. Douglas was the impersonation of Northern honor. His enemies had made him greater than his friends ever could. They might kill him at Baltimore if they chose, but his friends would carry his bleeding carcass to the Northwest, and show him to the young men coming to cast their first votes and tell them this is another Kansas-Nebraska bill, and this is Southern gratitude.

Mr. Wigfall defined Democracy, and expressed the opinion that Pugh had fallen from grace.

BOSTON, Kentucky, May 21.

Dear Chronicle:—The nomination of old Abe Lincoln, of Illinois, for President, by the Republicans at Chicago, fell like a wet blanket on the few adherents of Douglas in this region. They hoped for, prayed and expected the nomination of Wm. H. Seward, who was evidently the weakest man to be put up. They see now the utter hopelessness of carrying Illinois with Douglas, as this nomination leaves the State no longer doubtful. They hoped for the nomination of Seward, as they then could have presented to the South the ultimatum of Douglas or Seward. This might have had the effect to have nominated Douglas, but now his defeat is a dead-sure thing, if their eagerness for the spoils is the true doctrine which leads them to nominate the strongest man.

The backbone of Douglas is broken, and he will go into the Baltimore Convention with the State of Illinois against him. All will remember the desperate struggle of 1858, in that state, for the supremacy; and all know that though Douglas secured the legislature by the gerrymander of the districts, the popular vote on candidates for the legislature, gave Lincoln 4000 majority. And then many Republicans voted for Douglas. That support he has lost by his dough-faced dodging, and the State of Illinois is against him to-day 10,000 majority. In November it will be more; i. e. if he should be nominated at Baltimore, which is not at all probable. If Illinois is against him, how can he expect support from any other Western or Middle States? His prestige of success is "gone, like a flash of lightning, gone."

We do not fancy the naturalization resolution in the Republican platform; but as the rest is so good, and no other Convention has a better platform, we shan't cry over spilt milk. We are sorry, however, that a Convention of Republicans should stoop so low as to bid for the support of foreigners. "An honest defeat is far preferable to a corrupt victory." The Convention of the Unionites made for its platform, "The Constitution, Union and Laws as they are," which is no more "American" than the 17th clause of the Republican platform.—The tariff resolution secures Pennsylvania, and gives a good chance for success to Lincoln & Hamlin. The East and West, with the Middle States, are united; and in the words of Collector Jenkins, in the campaign of 1856, "Their right wing is quivering, their left wing is shivering," and let us push forward and victory is ours, and Democracy is flat on its back with the inquest, "Died of Douglas."

We are now luxuriating in an abundance of strawberries and cream, and think we have rather got ahead of your time on crops.

We went to a "pic nic" or "May party," Saturday, at Flower Creek, about 3 miles distant. On our way we passed through an extensive rye-field, which is on a level with our heads—the rye, not the field. Our friend A***** P****, of Candia, formerly of Portsmouth, being some inches shorter than the rest of us, was lost to our sight during our passage through, but appeared again to mortal eyes when our cruise was up. He says it reminded him of a familiar song with a slight variation;

"If a feller lose a feller, comin' through the rye,
Should a feller blame a feller if a feller cry."

He was too big or too old to cry.

Yours, G. W. M.

TERMINATION OF A ROMANCE.—The elopement and marriage of Miss Queen A. Rose of Alabama, at Philadelphia, with Mr. Bogart, a Southern medical student, was recently chronicled in the papers. The matter was adjusted after a day or two, and the bride and bridegroom started for the South, buoyant with happiness. On Monday, says the North American, intelligence reached Philadelphia from Mr. Bogart, announcing the sudden death of his wife.—She had been married scarcely a month, and was only eighteen years of age.

☞ From January, 1859, to May of this year inclusive, there have been burned, at sea and in port, eighteen vessels, on which there was an insurance of two million four hundred and fifty-two dollars. Three of these vessels were struck by lightning, and the others were destroyed from catching or being set on fire. The cotton ships, sailing from American ports, are generally the ones destroyed, and the New York Post says in some foreign ports it is almost impossible to obtain homeward cargo for American ships, in consequence of the general feelings of distrust in regard to their management.

PREMIUM ON PUGILISM.—It is said that the subscription to Heenan now amounts to $10,000, and is constantly increasing.—The Transcript says boys at school, even students at college, are more inclined to allow their energy to rush into the fist than to push it up into the brain; and if they see that great scholars, thinkers, inventors, philanthropists and saints, have no recognition from an intelligent and patriotic public at all comparable to that bestowed on the shoulder-hitter, they will be likely to exalt boxing into an ideal.

Why is the sun like Tom Sayers? Because it goes down every round.

A NOVEL SPECULATION.—An Eastern "outside" delegate to the Chicago Convention brought to this section of the country one of the *identical* rails which "Abe" split in Sangamon county, Illinois, some thirty years since. The owner's intention is to fashion the material into canes, and sell them at a great profit during the heat of the campaign. The number of rails which it will be claimed, before the election transpires, that Lincoln has made, with his own hands, would suffice to fence in the whole State of Illinois, and the canes, which will be offered to the public as having originally passed under the supervision of the Republican candidate for the Presidency, the Transcript thinks, would unquestionably support an entire generation in their journey through life.

☞ Wm. C. Barnoy testified before the Covode committee as to certain mail contracts made by the Postmaster General Holt. He testified that in 1859 he bid for the sea mail service between New York, New Orleans and San Francisco, his terms being $178,000, those of his only competitor, Daniel Johnson, being $162,000. The contract was given to Johnson, who as the time approached for carrying it into effect, notified the department of his inability.—The service was then turned over to Vanderbilt for $187,000, in spite of Barney's claims that he was the next and only bidder.

☞ Mrs. Partington says that once on a time, while riding over the Eastern Road, she was delighted, at the Lynn station, to hear Conductor Cram cry out, "Passengers fall in!" and felt a little cheap, on leaving the car to join a triumphal procession,—when she found out that it was a call only to the "Passengers for Lynn."

So we think it must have been a mistake of a friend of ours, who tells us that he was roused from a nap the other night, on his way down from Boston, by Cram's sounding the cry for "Lincoln and Hamlin." He must have misunderstood "Wenham and Hamilton."

CUSTOM HOUSE OFFICERS.—There is a general impression that the Custom House offices are fat places. Some of them may be; but a perusal of the official report of last year for the port of Portsmouth does not exhibit much fat. The offices and salaries here are:

Collector, $309.21; Naval officer, $400; Surveyor, $370.91; Deputy collector and inspector, $730; ditto, $200; Inspector, $1095; ditto, $645; ditto, $500; Occasional inspector, $124; Inspector and measurer, $1198.17.

☞ The Benicia Boy writes a letter to Wilkes' Spirit, dated London, May 5th; he says he is quite recovered from his bruises, and that another fight has been arranged between himself and Sayers, to take place in Ireland—when, or what place, he is not at liberty to state. He will train in Ireland, and at the contest there will be merely a party of twenty-five a side. June 14th is rumored to be the day.

A SHAVE.—A good joke is told at Washington of one of the Japanese officers. He went to a barber's, had his head shaven, and on leaving, in strict accordance with tonsorial prices in the empire from which he came, took from his pouch and placed in the hands of the barber one copper cash, eight of which are equal to one cent, and walked leisurely away.

☞ The Journal of Commerce thinks the business of pulling down and rebuilding was never so brisk in New York as now, and complains that even elegant buildings are ruthlessly destroyed to make room for more magnificent structures. Such extravagance does not please prudent and sagacious minds.

☞ John Griffiths, of Fall River, sent home to his drunken wife, a bottle, containing bed-bug poison; she drank some of it, supposing it to be rum, and died. They did not live agreeably, and the husband had said if she got drunk so much he would bring something home that would fix her.

THE INSTITUTION.—There are now in the two cargoes of the William and the Wildfire, nearly 1200 Africans at Key West, who, according to the message of the President, will cost the United States Treasury not far from a quarter of a million of dollars, in order to send them back and pay incidental expenses.

☞ Speaking of "collations," a friend furnishes us a glowing account of a rich supper given at one of our hotels, by Maj. Wm. H. Hackett, to a select party of three, on a most "interesting" occasion, not long since—which must have affected the price of poultry.

"SHAVE, SIR?"—It will be seen that Mr. John F. Neal, well known in this city as an experienced Tonsor, has taken the shop on Congress street, just above Vaughan, formerly occupied by 'Sol Holmes the Barber.'

☞ Miss Julia Pastrana, the bearded lady, has died, shortly after giving birth to a male child, in Moscow.

CONCORD, AND MANCHESTER & LAWRENCE RAILROADS.—The Reports of both roads are issued, and as the roads are virtually one, the Manchester Mirror speaks of them together.

The Manchester & Lawrence stock, for the first time is above par, and there are no stockholders in the country feeling better, and with reason. Three years ago their stock would not sell for fifty cents on a dollar; but, thanks to the management, the stock is to-day all above board, and the future prospects of the road beyond all doubt. There has been an iron will at the head of the road, determined to make it pay, and through economy in expenses, no let-up on income tariffs, by good foresight and shrewd devices, it does pay. The leading, ruling spirit of the success is Joseph A. Gilmore, the able Superintendent, backed by the good judgment of the President, N. G. Upham, and financial sagacity of its Treasurer, D. J. Daniels, constantly assisted by two men whose all was nearly staked in the road, George H. Dodge and David A. Bunton. The other Directors have worked zealously for the same end.

The Concord road is good as gold, and is foolishly managed when it does not chalk down large dividends, and its stock is such a long way above par that its stockholders smile and shake the gold dividend eagles in their pockets with delight, and say, "Let well enough alone—we don't want any better road or better management.

The net income of both roads the past year has been eight per cent.

ITALY.—Garibaldi's force, 2200 strong, embarked near Genoa, in three steamers at midnight of the 5th inst., for Sicily. 1000 were provided with arms, amunition &c. Nearly 5000 persons, of all ranks, flocked to the beach to bid them God-speed. The enthusiasm of the troops at Genoa was so great that that it was necessary to confine them to their barracks to prevent their deserting to enroll themselves under Garibaldi.

Garibaldi had sanguine hopes of cutting out one of the Neapolitan frigates stationed as a watch upon his movements.

Medici, Garibaldi's Lieutenant, was to start in a few days, with 2000 more volunteers. Garibaldi is said to have exchanged for gold 3,000,000 francs in notes at the Bank of Genoa.

It is stated that the expedition was not to land in Sicily, but to create a diversion in Calabria.

The headquarters of the Sicilian insurgents were at Cefalu, some 15 leagues from Palermo. The royal troops had several times attacked this position, but were unsuccessful.

The latest reports are to the effect that Garibaldi had landed at Ortazza, in Calabria, and that an insurrectionary movement had taken place in Calabria.

Garibaldi took with him his only son, and Geo. Martin, only son of the illustrous defender of Venice.

THE STORM.—*Cincinnati, May 23.*—Yesterday's storm is said to have extended from Louisville to Marietta, following the line of the river.

The damage is estimated at over a million of dollars.

All the towns above this place suffered severely.

Thirty-six pairs of coal-boat are known to have been sunk, involving a loss of over 100 lives.

All the steamboats on the river were damaged.

At Louisville and New Albany the storm was less disastrous than in this vicinity, although at those places a great many buildings were unroofed, and trees and fences prostrated.

ANTIDOTE FOR POISON.—The Rochester (N. Y.) Union says:

Two or three days ago a lady took, by mistake, a quantity of corrosive sublimate, sufficient to have caused death had not an antidote been speedily administered. The lady meant to taste some maple syrup, but a bottle of bed-bug poison had been carelessly left where the syrup had stood, and she took a small quantity before she discovered her mistake. Fortunately, a domestic had the presence of mind to run to the poisoned lady with a pan of milk, of which she drank freely, and also took the white of eggs so as to render the poison innocuous.

THE CATTLE DISEASE IN NEW HAMPSHIRE.—The Manchester American says that the selectmen of Hillsboro' were on Saturday, startled by the official information that two heifers had been sent to that town for pasturage, by Mr. Wellington, of Lexington, Mass., which had been exposed to the "pleuro-pneumonia." They were in the pasture of Mr. Blanchard, but were at once put in durance. No little indignation is expressed by the people of that town.—Hillsboro' and the adjacent towns of Washington and Bradford contain at this season a larger number of good cattle than any other three towns in the southern part of this State.

THE LUNG MURRAIN IN CONNECTICUT.—Dr. Dadd, of Boston, pronounces the case of cattle sickness at Stafford, Ct., of a similar character to that prevailing in Massachusetts.

☞ Horace Greeley will preside at the Universalist Festival in Faneuil Hall, Boston, Anniversary Week.

☞ In Bourbon County, Ky., sixty-one yearling mules, choice out of a lot of 103, sold at the high price of $133 per head.

☞ The corner stone of Rev. Dr. Gannett's church, in Back Bay, Boston, will be laid, next Monday afternoon.

☞ Prentice thinks too many of our modern poets sing of little else than their personal sufferings. They mix up their maladies and their melodies.

☞ In the New York Navy Yard all the subordinates have been discharged, leaving none but epauletted officers.

☞ In the U. S. Senate, Wednesday, May 23,—Mr. Hammond, (author of the mud-sill speech) cracked the slave whip to frighten Senator Wilson.

Mr. Hammond said that the Senator's speech contained reflections upon the Judiciary of his State, which if it had been delivered upon the floor it would have been instantly repelled.

Mr. Wilson rejoined. He had not put anything in his speech he was not willing to avow. He reiterated the statement that a Judge in Charleston had greatly perverted the law to shield persons guilty of violations of the law against the slave trade.

Mr. Hammond replied, and concluded by saying that the Senator from Massachusetts, and others on that side of the chamber, were chartered libertines.

The Davis Territorial resolutions were taken up.

Mr. Wigfall defended the action of the southern seceders at Charleston, and pronounced Mr. Douglas politically dead.

This is the same great Whigfall, who pronounced Daniel Webster profoundly ignorant of the Constitution.

After Mr. Wigfall's speech, the Senate adjourned.

The *House* went into Committee of the Whole, and considered the Legislative and executive Appropriation bill.

The amendment pending was to strike out the appropriation for an auxiliary guard for the city of Washington.

Mr. Florence made a statement exonerating the city officials from all blame in the late riot at the Republican ratification meeting.

Messrs. Washburne of Ill., and Cambell denied the statement, and stated the facts connected with the riot, when the amendment was adopted.

The Committee rose.

The House non-concurred in the amendment requiring official reporters to exclude undelivered speeches, but concurred in the amendment of striking out the appropriation for an auxilliary guard. The bill was passed. It appropriates about $5,700,000.

The House then went into a Committee on the Coast Survey, &c., and Appropriation bill.

The House then went into a Committee of the Whole on the Appropriation bill, and soon afterwards rose and reported it to the House, with various amendments.

THURSDAY, May 24.

SENATE.—Mr. Benjamin again called attention to the necessity of acting on the bill providing for the deportation of the negroes now at Key West. The bill was adopted—25 to 17.

HOUSE.—The House is acting on the amendment of the civil appropriation bill. Among other amendments concurred in was that appropriating $60,000 for seeds and cuttings to be distributed by the Patent office. The bill was passed.

WASHINGTON, May 24.—Senator Seward, in reply to the earnest entreaties of his friends here, writes that he will soon resume his seat in the Senate.

The Seward men are working heartily in support of the Chicago nomination.

Senator Iverson of Georgia is preparing in reply to Senator Wilson's slave trade speech, but will be met with proof for every statement.

An effort will be made in the Senate, today to force a vote on Davis's resolution.

WASHINGTON, May 24.—Mr. Douglas is confined by a severe attack in the throat, to which he has been occasionally subject for the last year.

A philanthropic scene occurred in the ante-room of the Representatives' Hall yesterday. A handsome mulatto girl appeared in charge of Dr. Davidson, with a statement that she had been sold to a negro-trader, but by raising $500 cash and securing payment of $700 more by the 1st of August, she could purchase her freedom. The sum was promptly raised among the Republican members.

NEW YORK, May 24.—Advices from Kingston, Ja., of the 20th ult., state that William Girod, editor of the Colonial Standard, Police Magistrate for the city of Kingston, and one of the most respected citizens of the community, had been detected in extensive forgeries on the Island Bank, and had been sentenced to imprisonment in the General Penitentiary for three years. Slight shocks of an earthquake had been felt in Jamaica, but the damage done was trifling.

☞ That hitherto invincible king of the turf, Ethan Allen, is again beaten by Geo. M. Patchen. In the race on the Union Course, L. I., Wednesday, Ethan Allen was beaten by the stallion George N. Patchen in three straight heats, to harness, in 2:27 1-2, 2:26, 2:31.

☞ In England, under the Danish kings the delivery of a drinking horn was a common mode of conveying property. In modern times estates are more apt to slip from their owner's hands, than to come into them, through a horn.

HUMAN NATURE. — The Japanese in this country are subjected to the same inconsiderate curiosity that Capt. Cook experienced from the South Sea Islanders, and Dr. Kane from the Esquimaux.

☞ In the country above Cape Town, South Africa, the cattle murrain rioted for several years and was only subdued by a stringent non-intercourse edict of the native King, who forbade absolutely that any cattle, good or bad, should be brought over his boundary line.

DISTINGUISHED TRAVELLER. — The Prince de Joinville, travelling incog., is in Washington. He is going to Canada on a fishing excursion.

NEW YORK, 23.—The body of a man with clothing marked C. Burr, and supposed to be that of Capt. Burr, of the oyster sloop E. A. Johnson, was found last night in East River.

CAUTION!

The following act having been passed at the last session of the Legislature of Georgia, on business, on and after June 1st, 1860, will be carried on at Wilmington, Delaware, and St. Louis, Missouri.

AN ACT to repeal all laws, and parts of laws authorizing Lotteries in the State of Georgia and for other purposes.

SECTION 1. *The General Assembly of Georgia do enact:* That from and after the first day of June Eighteen Hundred and Sixty, all laws and parts of laws authorizing Lotteries in the State of Georgia, or the vending of Lottery Tickets in said State be and the same are hereby repealed.

Approved by the Governor, Dec. 11, 1858.

Therefore, all Lotteries pretending to be drawn in the State of Georgia, after that date, must be illegal, and a fraud upon the public.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to offer superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m15

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the 'Peruvian Syrup.' It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases consequent on a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made* and free from imperfection of the wood that will retain any particles of cream so become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

FUGITIVE RETURED.—The runaway negro, by steamer Spaulding, hence to Boston, has arrived in town. He is now lodged in the Workhouse for identification. He still asserts that he is a free boy from Ohio but he has no free papers. If a slave, he will undoubtedly be recognized soon.

The other alleged fugitive, by the same boat, is a hoax. No such negro was ever here, nor any such boat as the Boston Atlas says he was stoker. Furthermore, there is no river Tiber, in South Carolina, where the boat was reported to run to. Other falsities might be exposed in the statement, but it will hardly pay. The game is not worth the powder.—*Charleston Mercury.*

ANOTHER SLAVER CAPTURED.—Bark William, late of N. Y., has been captured off the Isle of Pines, with 550 negroes on board, and taken into Key West.

THE ORIGINAL AND GENUINE

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

IS THE GREAT RENOVATOR OF THE

BLOOD.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.

These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA.

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, *either* from the effects of Spring weather, change of climate, want of exercise, the use of a uniform saline diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE THE BOWELS, and impart a one of vigor to the whole body.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of genuine PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.

Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the *first order.*

CAUTION!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

BE VERY CAREFUL TO USE NO OTHER.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1836.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, not enjoyed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL in THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services, or the actual expense incurred to the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, re here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is formed upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for immediate use, it takes by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

In Portsmouth by W. E. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it never fails to afford immediate *relief*, when given in time. It acts as if by magic, and *one* trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it recommends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, CHOLIC, FACIALITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the bowels, and relieving pain, it has *no rival*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. Another valuable property it has is that it destroys worms, and wish to rescue them from those sad and blighting consequences which are certain to result from the use of cordials or other improperly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Strengthens, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most menial and exhausted spirits, and restore the weak, nervous and sickly to health, strength and vigor.

The man or woman who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions impaired, and life rendered miserable, can use this with unfailing success in all cases of *Consciousness or other Fits*. As a cordial it is of more value than a horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove the Nightmare.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take this Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menses, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vice, and, above all, by the mercurial infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; and, variariably swell under the skin, surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumptive which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, FIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, DYSPEPSIA OR DYSPEPSIA, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which no sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting the disorders which, if neglected, bring its healthy vitalities. As a consequence of these properties, those who are bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and invigorating.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Worms of all kinds, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases in which it has proved the most efficacious in every community, that there is scarcely a family in the civilized world but has some one of its wonderful effects to record, or some sufferer to point to who has been restored from alarming and even desperate disease of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz.:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims or apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for persons familiar to medical use, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and incipient tubercles, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it stands, unrivalled, unfailingly well, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole library of medicine, which exerts such prompt, happy, and fully restorative effects—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the House in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and are grateful for past favors, respectfully solicits a continuance.

THIRTY DIFFERENT PATTERNS,

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Danvers, and see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says.—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT,
SHOPS: } No. 22 CONGRESS STREET, and No. 31 STATE STREET.

Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons

ON TUESDAY, MARCH 27th,

at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. Geo. P. Wildes, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.

GEORGE W. PLUMER.

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.

Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.

Weakness.

The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and action to the blood, and increases the appetite, on which strength receives its origin and depends.

Nervousness.

Weakness, with over-exertion, is generally the origin of this horrors-inspiring disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.

Broken Down Constitution.

Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.

Try them!

All ye lovers of good Bitters and good health, and you will find them a cheap, effectual and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller then is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

SAURDAY, MAY 26, 1860.

YOUTH AND CRIME.

"'Tis fearful building upon any sin:
One mischief entered, brings another in;
The second pulls the third, the third draws more,
And they for all the rest set ope the door."

From youth to mature age, we are surrounded with temptations to depart from moral and virtuous principles. The first transgression leads to others. We do not hold that the infant mind is created totally depraved. But if evil impressions are made upon it, it is the doings of human agency—of bad parents and associates. "As the twig is bent, the tree's inclined." There is a natural abhorrence of sin implanted in the human breast—it cannot be obliterated, but may be perverted, or seared, as sacred writ declares. The youthful mind at first shrinks with abhorrence from a vicious life. As Pope expresses the idea—

"Vice is a monster of such frightful mien,
As to be hated needs but to be seen;
Yet seen too oft, familiar with her face,
We first endure, then pity, then embrace."

In the rapid advance of science, literature and the arts in our *free* States, we would be glad to believe there was an equal advance in morality and virtuous principles. But we have fears that immorality and vice are making rapid inroads upon us. We cannot fully explain the cause or the causes. We know that evil communications corrupt good manners, and morals too—and that there is constant intercommunication between the North and the South, the latter being corrupt and depraved, and, generally, in a state of heathenism. We know also that a portion of the most vicious and abandoned population of Europe has long been pouring in upon us, and settling chiefly in our largest cities and villages, and that their intercourse with us tends to the corruption of public morals.—Still these matters afford no justification for our native citizens to depart from the rules of moral rectitude. We know also that the corrupt administration of the government tends to corrupt the mass of the people.

It is said that "great cities are great sores." The cause is, doubtless, that so many vicious persons congregate in them. Their vices are as contagious as a contagious disease. Now, if we would avert the downward course, we must train up our children in the way they should go. We must strike at the root. In our rural districts the children and youth have better manners, because correct moral doctrines are inculcated, and they have less communication with those of vicious propensities.

But in large cities it is often the case that a vicious youth possesses certain attractions, which call around him other youth, not yet led away from good manners and good morals. Step by step they enter the paths of vice, and become afflictions to their parents and nuisances to society. They often escape from the control of parents—cross the ocean—mix with the vilest population, and on their return become more the tools of the devil than they were before.

It is often the case that it is the misfortune of such depraved youth to have bad parents. How can we expect that such parents can have good children? It would be as reasonable to expect a good tree to spring from a thorn-bush. The only way to make good parents is to train up their children in the way they should go, and this is a very difficult process for our civil authorities, and the schoolmaster—for vicious propensities are implanted by the parents. When their children plunder, steal and commit depredations, the parents wink at it—they finally become "rowdies," roving about at nights—enter tippling houses, come out intoxicated, and by continual indulgence become inebriates and vagabonds upon the face of the earth. How lamentable is this picture! We see it in our small cities—but on a large scale in such cities as Philadelphia, New York and New Orleans, which have become as corrupt as Paris or London. Who can predict the disastrous consequences to our country of such depravity of morals?

One remedy or safeguard against the increasing evils is an *efficient*, not a *nominal* police—a police that stands in no fear of a combined mob of rowdies from 15 to 28 years of age—a police that will bring to speedy justice all transgressors of the laws and good morals, without regard to age or family connexions. Some of our cities have such a police, and there good order is preserved. A FRIEND TO YOUTH.

☞ It is the *Old* School General Assembly of Presbyterians that is now in session at Pittsburg, Penn. And the Church *Erection* Committee has reported that every application for aid has been granted,—not the Church *Election*, as the telegrams had it.—In other words, the committee for building meeting houses had made every loan and donation asked for—and yet had received $100,000 more than they had given away for this object.

☞ A special session of the Legislature is called in Massachusetts, to appropriate money and provide other means to stay the cattle disease, if possible.

REMARKABLE CASE OF MISTAKEN IDENTITY.—Mrs. Richardson, who was supposed to have been murdered and then thrown overboard in New York, has returned to that city from New Orleans, alive and well. It will be recollected that her husband, from whom she had been separated for some months, swore that the remains shown were her body. The wealthy southerner, who had been paying her bills in New York, and was also suspected of having killed her, swore positively that the corpse was her body. Others who knew her well were satisfied of the fact, and they all pointed out peculiarities precisely such as she had. But after all it was not her, and she was two thousand miles away.—Her husband and others now recognize her in the living person. Shall we hereafter believe our own eyes?

There was one fact connected with this, quite as remarkable. When the body was found and described, and persons having missed such a friend were called upon to examine it, no less than fifty sought in it to recognize the missing wife, sister, friend. If all these parties had lost a female friend, for whose disappearance they could not account, how frequent must be such disappearances in the city of New York?—*Newburyport Herald.*

MR. SEWARD ON THE CHICAGO NOMINATION.—"If anybody doubts," says the New York Courier & Enquirer, "the devotion of Governor Seward to the principles of the Republican party, and his abnegation of self, it is only necessary for them to read the following from the Auburn Daily Advertiser of Saturday. Governor Seward himself wrote the short leader which announced the result at Chicago; and it is characteristic of the man. We speak advisedly when we say that the following not only speaks the sentiments of Gov. Seward, but that it was written by him":

We place the names of Lincoln and Hamlin at the head of our columns with pride and satisfaction. No truer exposition of the Republican creed could be given than the platform of the Convention contains. No truer or firmer friends of the Republican faith could be found in the Union than the distinguished and esteemed citizens on whom the honors of the nomination have fallen. Their election, we trust, by a decisive majority, will restore the government of the United States to its constitutional and ancient course. Let the watchword of the Republican party be, Union and Liberty, and onward to victory.

HOME AND COLLEGE.—Messrs. Crosby, Nichols, Lee & Co., Boston, have just given to the public, in a beautifully printed little volume of 70 pages, Professor Huntington's Public Address on Home and College, which he delivered in the Hall of Massachusetts House of Representatives, March 8, 1860. The address will commend itself to every parent and friend of youth, who will give it a thoughtful perusal. It is sold in Portsmouth by Mr. J. H. Foster.

CARROTS.—Two bushels of oats and one of carrots, are better food for a horse than three bushels of oats; and for light work the carrots may be increased, and the oats diminished. The usual method of feeding horses with oats neither ground or crushed, is wrong. Oats fed whole are seldom thoroughly digested; being held in suspension with large amounts of water, the peristalic motion of the intestines cannot take hold of them. When carrots are fed with the oats, the pectic acid of the carrots has the power of gelatinizing the contents of the stomach, thus enabling the process of digestion to be more perfect, both for hay and oats.—*Porter's Spirit.*

☞ The Republicans of Boston and vicinity had a great meeting at and round about Faneuil Hall, on Thursday evening, to ratify the nominations of Lincoln and Hamlin. Gov. Banks presided, and much campaign eloquence was exhibited, with many cheers.

☞ The Hooksett mill at Hooksett, N.H., containing sixty-nine hundred and eighty looms, manufactured for five weeks ending May 19th, one hundred and ninety-one thousand, three hundred and fourteen (191,314) yards of print cloths, being an average of thirty-eight thousand, two hundred and sixty-three (38,263) yards per week. Running time eleven hours per day.

☞ The old legal rule that a tenant was bound to continue to pay rent to the end of his lease, notwithstanding the premises might be destroyed by fire, has been revised by act of the New York Legislature, and in case of the destruction of the building or its injury so as to be untenable, "by the elements or any other cause," without fault of the tenant, he may surrender possession.

☞ A desperate convict, who has spent half his life in prison for the crimes of robbery and piracy, was fatally wounded in the Maryland Penitentiary, on the 21st, by the officers, whom he resisted and attacked.

☞ M. Auguste Mariette an eminent French archæologist, writes from Egypt that he has discovered the remains of a large palace in granite in the immediate vicinity of the Sphynx. He takes this place to be that of Chephrem who built the great Pyramid. No less than seven statues of this prince have been found in the palace.

☞ A man and woman who had robbed the room of Senator Brown of Mississippi of $500, were arrested in a train of cars which left Washington for Baltimore on the 20th. They confessed the crime.

HARMONY NOT UNDERSTOOD.—In the U. S. Senate, May 4, there was an interesting colloquial debate, of which we give a few extracts.

Mr. Davis' territorial resolutions were taken up.

Mr. Bingham read a long speech in opposition to them.

Mr. Bigler defined his position on the other side. He said he had at one time expressed an opinion adverse to the views contained in the resolutions, but he now regarded the Dred Scott decision as settling the question, and should vote for the resolutions.

Mr. Iverson read a series of resolutions which claim extreme southern ground, arguing that it is the duty of Congress, in organizing the territories, to provide for the protection of slave property. He should, however, vote for the resolutions before the Senate, as the best that could be got.

Mr. Clay intended to speak in favor of the resolution, and was sorry he was physically unable to reply to the assaults and aspersions made upon his State by the Senator from Illinois, whose whole argument was to misrepresent the democracy of Alabama. The Senator from Illinois had garbled resolutions to show that Alabama was in favor of non-intervention. Such was not the case. He defended the course of Mr. Yancy, and declared himself ready to endorse what was called the "Scarlet Letter."

Mr. Green contended that the resolutions were not intended as a platform for the party.

Mr. Powell had always been ready to vote for the resolutions. He simply wished to reply to the Senator from Ohio (Pugh) that Kentucky was a reliable Democratic State.

A discussion ensued between Messrs. Pugh, Powell and Clay, in regard to votes at Charleston and in the States.

Mr. Doolittle appealed to the Senate to come to a vote. He thought the funeral ceremonies had last long enought.

Mr. Hale said he wanted a vote, but if the thing was to go on, and democratic members of the South are to vindicate their States, and as New England had a democratic representative here, he should feel called upon to speak for New Hampshire. (Laughter.)

Mr. Davis said that as the Senator from Wisconsin, (Doolittle) had left the Democratic party, he could not be reckoned among the mourners.

Mr. Doolittle said he had followed the democratic flag for twenty years, and until Calhounism had taken the place of the principles of the party.

Mr. Mallory defended the action of the delegates from Florida.

THE COVODE COMMITTEE.—*Washington, May* 24.—Mr. Wendell again appeared before the Covode Committee and testified that while the President or Cabinet did not specifically direct him to apply the money to carry the Lecompton bill through the House, his intercourse with them at that time has fully justified the inference that he was to be benefitted by the expenditure, otherwise he would not have appropriated $30,000 or $40,000 of his own money.—The expectation was that he would receive remunerating patronage, which was subsequently realized in-part. In comparing his check book with his accounts at the Bank of the Metropolis several weeks ago, an item of $250 was found charged to Foster of Pennsylvania, among moneys appropriated for electioneering purposes in that State, and dated September 22d, three weeks before the congressional election.

He was then asked whether the Foster thus named was at present the Democratic candidate for Governor of Pennsylvania, and who ran against Covode for Congress in 1858. He admitted knowing no other Foster for whose benefit the money could have been applied, and said that large sums had been intrusted to Mr. White, ex-member from Pennsylvania, for distribution during that canvass.

The case of the Postmaster Reynolds at Louisville, will also be brought up before the committee. He was appointed through the influence of Mr. Guthrie, ex-Secretary of the Treasury, and it will be proved that he deposited receipts at a private Bank in Louisville, from which Guthrie borrowed it. Mr. Cobb pronounced this a violation of the sub-treasury law.

☞ Mr. Seward has addressed a letter to the Central Republican Committe of New York, who invited him to attend a ratification meeting. Owing to his anxiety to reach Washington to attend to his senatorial duties, he declines. Speaking of the results of the Chicago Convention, he says:

"I find in the resolutions of the Convention a platform as satisfactory to me as if it had been framed with my own hands, and in the candidates adopted by them eminent and able republicans, with whom I have cordially cooperated in maintaining the principles embodied in that excellent creed. I cheerfully give them a sincere and earnest support."

☞ In the U. S. Senate, Thursday the bill providing tor carrying the captured negroes at Key West, back to Africa, was passed. Some of Mr. Davis's territorial resolutions were passed. The House passed the civil appropriation bill and the Pacific Telegraph bill, the latter with an amendment for giving the contract to the lowest bidder. The Pacific Railroad bill was taken up and made the special order for Monday next.

The Philadelphia Press declares its intention of supporting either Douglas or nobody, irrespective of the choice of the Charleston Convention. As that body has settled on Nobody, one of the favorites of the Press, it is not probable that that paper will bolt.—*Saturday Press.*

THE ATLANTIC CABLE.—Fifty miles of the Atlantic Cable have been taken up, to a point extending seaward fifty miles from the shores of Trinity Bay. Fractures were found in the cable, just where they had been indicated by the instruments on shore.

PHYSICAL EDUCATION.—Harriet Hosmer, the great sculptress, was born in 1831. Her father was a physician of Massachusetts, who, having lost wife and child by consumption, and fearing a similar fate for the survivor, gave her horse, dog, gun and boat, and insisted upon her following an out door life as indispensable to her health. A fearless horse-woman, a good shot, and an adept in rowing, swimming, diving and skating, Miss Hosmer is a single instance of what judicious physical training will effect in conquering even hereditary taint of constitution. From her earliest years she has shown a strong love for art, and might be often found in a certain clay-pit, not far from her father's house, attempting to model horses, dogs, sheep, men and women, or any other object that had attracted her attention.

As a girl she was full of fun and frolic, with little taste for study, and a strong liking for practical jokes. On one occasion, she had rallied a young physician who was attending her, upon his want of punctuality, upon which he promised to be more regular in his attendance, and said that, if alive, he would see her on a day specified. "Then, if you are not here," was Miss Hosmer's reply, "I am to conclude that you are dead." The appointed day and hour arrived, but no doctor; in the evening, Miss Hosmer rode into Boston, and next morning, the newspapers announced the death of Dr. ——, and half Boston, rushed to the physician's house to leave cards of condolence for his family, and to inquire into the cause of his so sudden and unexpected decease.

WHO IS TO BLAME?—In the city of Boston during the year 1859, the Police Court had action in 8665 cases. About 7000 of these cases were traceable to intemperance. There were for instance, 3500 cases of drunkenness direct, and at least 800 cases of common drunkenness; in all 4300 cases of drunkenness. Then there was the large class of cases of assault and battery, and also the cases of small larcenies, almost all of which are committed under the influence of liquor. These two latter classes make about three-eighths of the whole number; and thus from three-quarters to seven-eighths of the whole number of actions would, in all probability not have taken place had it not been for the use of intoxicating liquor. Besides the above amount of crime, Boston can show other evil results of intemperance, in criminal and civil suits, in asylums, penitentiaries and pauper institutions. A gentleman who has for years been connected with the management of public reformatory institutions, remarked to us a day or two ago that the result of his observation and experience was that intemperance was at the bottom of *all* our social evils.—*Transcript.*

THE WIFE'S HELPING HAND.—At no moment of difficulty does a husband, knowing his own utter helplessness, draw so close to his wife's side for comfort and assistance as when he wants a button to be sewn on his shirt-collar!

A recent author presumes that women's preference for men with small hands and delicate fingers, originated at the time when the ancient law was in force, which permitted a man to beat his wife, whenever he chose, with a stick not thicker than his little finger.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantaly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst ink-blue-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

CAUTION!

The following act having been passed at the last session of the Legislature of Georgia, to take effect on business, on and after June 1st, 1860, will be strictly enforced in Wilmington, Delaware, and St. Louis, Missouri.

AN ACT to repeal all laws, and parts of laws authorizing Lotteries in the State of Georgia, and for other purposes.

SECTION 1. *The General Assembly of Georgia, enacts*: That from and after the first day of January, Eighteen Hundred and Sixty, all laws and parts of laws authorizing Lotteries in the State of Georgia, or the vending of Lottery Tickets in said State be and the same are hereby repealed.

Approved by the Governor, Dec. 11, 1859.

Therefore, all Lotteries pretending to be drawn in the State of Georgia, after that date, must be illegal, and a fraud upon the public.

WOOD, EDDY & CO.,
Owners and Managers of the Delaware, Missouri and Kentucky State Lotteries.

Wilmington, Delaware, and St. Louis, Missouri.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BENJ. SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months, and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given if required.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing the best selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Building, or information of his whereabouts can be obtained at his residence, No. 30 Hanover Street; at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

Jeremiah J. Newman was arraigned to answer to a charge of making brawl and tumult in the street. Plea not guilty; considered not guilty, and discharged.

ANTI-SALERATUS.

Everybody in these parts knows full well Dr. Baker's Crusade against Saleratus: and perhaps some persons may have been disposed to undervalue his opinions on this matter. If so, the following letter, from an eminent Navy Surgeon, may lead them to take another view.

PORTSMOUTH, N. H., Jan. 11, 1859.

My Dear Sir:—I have just received your letter enclosing your very good article in the Portsmouth Journal, also two teeth—one of which you subjected to the alkaline solution. I perfectly agree in all your views, I have for a long time forbade the use indiscriminately, of those *Baking Poisons* in my family. There are other assistant causes to the misuse of cream of tartar and saleratus, in the production of bad teeth in this country; viz., the general use of hot bread, and the enormous quantities of sweet meats which are consumed.

In countries and positions where these things are not in general use, good teeth are generally found: viz., in Ireland, and amongst seafaring men. Our hard tack in the Navy is, as you know, unleavened.—Sailors, as a class, have good teeth. In Ireland, where *bread* is not the staple of life, the teeth are good. Your postulates are all correct, and you deserve thanks for having so widely diffused your knowledge and advice. Yours, very truly,

M. G. DELANEY.

CONCORD, May 25.

The Governor's Horse Guards parade this day, and in consequence thereof the citizens of the capitol enjoy a holiday. It would be likely to surprise you to witness the multitude of persons in attendance.—The country for miles around send delegations of "fair women and brave men;" and, as Gen. Frank Pierce remarked to me just now, the city presents the appearance of a Fourth of July celebration.

By the way, the ex-President arrived from New York, via Worcester, at half past 10 this morning. A despatch announced him en route for Concord, and accordingly a detachment of the Guards, in fatigue dress, awaited his arrival, and conducted him to the Eagle Hotel with military honors. The General is looking finely, and reports Mrs. Pierce in greatly improved health.

The ranks of the regiment are by no means full to-day, it being a parade by the Concord company and a few from Nashua and other points; but the seventy-five good-looking men in attendance, with their showy uniforms and richly-caparisoned horses, make a spectacle well worth a two hour's journey to witness.

The Phenix Hotel is making extensive preparations for the 7th of June, expecting, by an enlargement of the spacious dining-room, to feed on that day at least one thousand guests. Special trains will on that occasion be run upon all the railroads centering in Concord. F.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

PORTSMOUTH NAVY YARD.

There is a continual progress of improvement going on at this lively spot in our harbor. The plan of a perfected Yard was long since made, and every year the advance is regularly made towards its completion. The grading between the ship houses is nearly completed, and buildings are being multiplied for the various uses of the Yard.

Among those most recently erected is an elegant symmetrical edifice, the *Offices Building,* on the south centre of the Yard, between the dry dock and the smithery. It is of the Doric order—built of brick, with hammered granite base, pilasters and cornices. The brick work is to be covered with mastic, and will present the appearance of block freestone. The body of the building is 50 feet square—two stories of 14 and 15 feet high.—There are wings of one story on the north and the south sides, of the depth of the main building and 25 feet in width—making the whole front 100 feet.

On the lower floor a hall nine feet wide extends through the building, and opening from it are six rooms for offices, about 20 feet square. They are severally occupied by the Executive Officer of the yard, Capt. Missroon; the Clerk of the Yard, Stillman B. Allen; the Purser, George F. Cutter; the Civil Engineer, B. F. Chandler; the Lieutenant of the Yard, Geo. M. Colvocoresses; and the Naval Constructor, Isaiah Hanscom.

On the second floor are five rooms, occupied by the Commandant, Capt. John Pope; Commandant's Clerk, John Christie; the Inspector, Charles G. Bellamy; the Store Keeper, V. D. Parris; and one as a Court Room. The whole of the north wing is used for a muster room, where all workmen employed by government on the Yard, morning and noon appear to answer to their names. Here too on pay days, from a raised window in the Purser's office, the business is conveniently done without admitting any to his room.

A spiral staircase of easy ascent runs up in the centre of the building to the tower, in which a bell is soon to be placed. A clock with four dials is in the tower, visible from every part of the island. The steeple is unlike that of any church or other edifice in this vicinity. It has a balustraded top, which is easy of access, and affords a good look-out.

The projection of the edifice was by Mr. Chandler, the Civil Engineer of the Yard, under whose superintendance it was built. The cost is about $25,000. The Office Building was much needed, as heretofore the offices of the Yard have been crowded into contracted corners of buildings used for other purposes—and far from being in keeping with the other conveniences of the Yard.

The Powder Magazine, building by Messrs. S. A. & S. F. Trefethen, is fast progressing, and presents a workmanlike appearance. It is 50 by 100—built of dimension granite lined with brick.—The walls are 40 inches thick. It will be capacious enough to hold 5000 casks of powder.

There are about 200 mechanics now employed on the Yard. In consequence of an order from the bureau last week to stop all expenditures on the construction account, several workmen were discharged.

There are now at the Yard two line-of-battle ships, the Alabama and the Franklin, in houses. At the wharves in ordinary are the frigates Santee, Constitution, the razeed Cumberland, and the Sloop-of-war Dale.

The Frigate Macedonian, now in the Mediterranian, is expected here by the middle of June.

It is an excellent rule of the Yard, that no smoking is allowed any where, outside of private residences. Even the great Smithery, where eight or ten forges are in fiery operation, seems under the smoking restriction; for though without a visible chimney, yet not a puff of smoke is seen rising in the great room. Through subterranean avenues it escapes to some Vulcan parlor, such as smokers might inhabit without injury or annoyance to the outside world.

COW SICKNESS.—*Messrs. Editors,*—A piece in the Journal May 19th in regard to sickness among cows, has induced me to write what happened among my cows. A cow which had a young calf was taken with a weakness in her limbs, loss of appetite, nose cold and dry, drying up of milk, short breathing, &c. I was satisfied she would die as she was, so I thought I would try an experiment. I made about three quarts of catnip tea, sweetened with molasses, and gave her to drink warm. Still feeling anxious, after some hours I boiled thoroughwort, about three quarts, two table-spoonsful epsom salts added, sweetened with molasses. This was put in a glass bottle with a long neck, put at the side of her mouth and turned down. She soon began to get better, and her nose became warm and moist. After a few days her milk came again, and she was apparently as well as ever. I have no doubt the teas I gave her saved her life. Yours, L.

Morning Chronicle.

Why will men of wealth or men of a good amount of physical strength, fold their arms, lock up their money, and cry, "dull times! poor prospects! &c.?" How can it be otherwise, when everybody is crying it down; and with such a will as to imply a determination that it never shall rise.—We are glad there are no more of these constipated hypochondriacs: the world has too many of them, for the happiness and prosperity of its people. If there is a pitiable sight on earth, it is to behold an able-bodied man presenting a face that would frighten all the old women into the belief in the immediate combustion of the world, standing still, crying "nothing to do."—Why, get up, my dyspeptic, long-visaged friend, and bestir yourself, raise a dust, cry "fire!" or anything else to get up an excitement, and give circulation to the blood! Make folks think you are somebody, and are about to do something, and you have nearly won the battle!

RECENT TESTIMONY.

Washington, April 16, 1860.

Sir:—In answer to your letter, asking that I would inform you as to what standard of orthography has been adopted in the Smithsonian publications, I give you the following reply:

Early in the history of the Institution, the subject of orthography was referred to one of the best writers of this country, and in accordance with his recommendation, Worcester's Dictionary was adopted as being nearest the general usages of English scholars.

I am, very respectfully, your obedient servant,

JOSEPH HENRY, Secretary S. I.

From Hon. Philip F. Thomas, Commissioner of Patents, Washington, D. C.

U. S. Patent Office, March 16, 1860.

The new Dictionary of Dr. Worcester combines, in my opinion, more of the requisites of a work of reference than any similar one ever published. The fullness and accuracy of its technical definitions make it of especial value in this office; and this, together with the correctness of its orthography, and its general excellence in definition and in etymology, have made it the standard work of reference in this office.

PHILIP F. THOMAS.

From Hon. John Hart, Sup. of Public Printing.

OFFICE SUPERINTENDENT PUBLIC PRINTING,
Washington, March 14, 1860.

I have long been familiar with Worcester's Dictionary, and have been highly gratified with the appearance of the new and beautiful edition of this valuable work. Its vast vocabulary, the skill of its arrangement, accuracy of orthography, precision of definitions, particularly of technical and scientific terms, its general completeness, and its freedom from political or sectarian bias, render it, in my estimation, the most perfect and authoritative expository of the English language. It gives me pleasure to state that it is the standard authority for the public printing.

JOHN HART.

From Jos Mettingly, Foreman of the Congressional Globe.

It gives me pleasure to inform you that, with the commencement of a new volume of the Congressional Globe, the work of the typographers represented in Worcester's Dictionary will take the place of that heretofore used in the publication of the debates of Congress.

Office Secretary U. S. Senate, March 16, '60.

Dear Sir:—It affords me great pleasure to inform you that the Committee to admit and control the contingent expenses of the Senate, have manifested their appreciation of Worcester's Quarto Dictionary by directing that the Senate Chamber and all the committee and office rooms of the Senate, be furnished with that work.

I am highly gratified at this additional testimonial of the merits of a book, that in my judgment, is decidedly the best work of the kind in the English language. Yours,

JOHN G. FITZPATRICK,
Assistant Clerk, Office Secretary Senate.

Clerk's Office, U. S. House of Representatives
March 15, 1860.

Worcester's New Quarto Dictionary is the standard work of reference in this office, and the system of orthography therein represented, is that adopted in the official records and documents of the U. S. House of Representatives.

A. W. FORNEY,
Clerk U. S. House of Reps.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the *Nice Drop Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERTASK, GENERAL DEBILITY, and NERVOUS PROSTRATION, No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford immediate relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIUM of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflammation, regulating the Bowels, and relieving pain, it has no *equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics and other injurious medicines, Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you may depend upon, is perfectly harmless, and cannot injure the most delicate infant.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for *six years*, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It instantly revives the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, could recover health and happiness, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy; remove all obstructions and irregularities from the menses, and restore the roses of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor others one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and other habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the liver—lungs, liver, and other organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by this source.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the cure of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Erysipelas and Scaldings, Ulcerations, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood. The positive belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality in the easiest manner consistent with its safety. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at so cheap a price as this.

Not only do they cure the every-day complaints of every body, but also many formidable and malignant diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Liver Complaint and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a diuner Pill, and for the health of the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So well is the fact known that it has conferred so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been cured from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of the kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON combined with Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSUMPTION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids to whom nothing seems to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from prolonged travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of protracted disease, with complicate exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operations of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific influence, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of Iodine, to convince us of its peculiar adaptedness to these cases.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in fact, in almost every case, it proves decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

This remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—to cover opposite complaints, such rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Sam Slick says:—Yes, yes, natur balances all things admirably, and has put the sexes and every individual of each on a par. Them that have more than their share of one thing, commonly have less of another. When there is great strength there aint apt to be much gumption. A handsome man in a general way aint much of a man. A beautiful bird seldom sings. Them that has genus have no common sense. A fellow with one idea grows rich, while he who calls him a fool dies poor.—The world is like a baked meat pie; the upper crust is rich, dry, and puffy; the lower crust is heavy, doughy and underdone; the middle is not bad generally, but the smallest part of all is that which flavors the whole.

SCENE IN A RESTAURANT.—Enter stranger, *loquitur*:—"Waiter, bring me a bottle of hock."

Waiter—"Hock?"

Stranger—"Yes, hock—*hic, hæc, hoc*;—don't you understand?"

Waiter (who has a smattering of Latin)—"Yes, sir." [Exit waiter.]

After waiting twenty minutes the stranger raps furiously on the table.

Waiter—"What is it, sir?"

Stranger—"Why don't you bring me that hock?"

Waiter—"Why, sir, did'n't you just *decline* it?" [Exit stranger.]—*Cincinnati Enquirer.*

"A woman should never under any circumstances whatever, lose her temper."—Might as well tell the wind not to blow on a March day, or the rain not to come down in April. It does them good to "explode" occasionally. A woman, to be good for anything, must have as much spice and sparkle in her as a bottle of champagne, and if the cork comes out once in a while, with a bang, why that don't depreciate the value of the goods.

The Democratic State Committee held a meeting in Boston, on Wednesday, twenty-six members present, and voted that it was inexpedient to call a State Convention.—This is so much against Douglas.—*Newburyport Herald.*

The Washington correspondent of the Boston Post suggests the name of Franklin Pierce, as the man to beat "Abe Lincoln." Pierce would probably knock the Bell ticket at the South, but there he would close the books.—*Newburyport Her.*

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square,

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious: the rooms are commodious and airy, and will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance.

PLEASURE SAILING.

The **Schooner SIBYL,** one of the beautiful Yachts built by the late George Steers, will run during the season, to the Shoals, or to any other port or place, desired by the parties who may employ her for a day or a number of days.

She will lay when in this port, at PIER WHARF, and will run as an Accommodation Yacht, to the order of Individuals or Parties.

Application may be made on board, or to Messrs. JOHN RIDER & SON.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, an experienced pilot, who will give every attention to the comfort and enjoyment of his passengers. The Sibyl has an elegant cabin, water closets, tanks, and every accommodation of a first class packet.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen,—we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MONDAY, MAY 28, 1860.

METEORIC SHOWER.

We have already given a brief account of a shower of meteoric stones which fell on the 1st inst., near the village of Concord, in Muskingum county, Ohio. Within a few days, Lieut. Tidball, of the army, has given a careful account of it in a letter sent to Prof. Henry of the Smithsonian Institute. He has taken pains to obtain as near as possible all the facts and circumstances connected with it:—

The shower took place between 12 and 1 o'clock P. M. The day was cold, and the sky overcast. Simultaneously with the fall a tremendous explosion occurred in the atmosphere. It was observed and remarked by persons fifty miles off, and thought to be an earthquake. To those near where the stones fell, several distinct reports were heard in rapid succession. So strange was the sensation that cattle in the fields ran, startled at it. Four stones were seen to fall, and have been recovered, but the probabilites are that many others fell.—One buried itself to the depth of about twenty inches in a stiff limestone soil. It was still so hot that it could scarcely be held in the hands. Its fall appeared to be vertical. Its weight was fifty-one pounds. Another, which fell upon a fence, weighed forty-two pounds; it cut through the rails of the fence and buried itself in earth. About one and half miles from where these two stones fell, a young man heard a strange whizzing sound; thinking that he heard something fall, found a stone weighing thirty-six pounds. About six miles distant, two gentlemen walking out heard the explosion, and very soon afterwards a stone weighing four pounds fell near them. The four stones above mentioned were all that were seen to fall; another was found, weighing about thirty pounds. All were irregular in figure and had the same general appearance, having a blackened, smooth, vitrified surface. This exterior coating was very thin. Within the stones had an ashy color, and contained fine particles of some shining substance, probably native nickel.

THE ROMAN CATHOLIC CONFESSIONAL is a secret institution, and the priest will not disclose the crimes made known to him there, although the ends of public justice and the protection of the community against the most frightful crimes require the disclosure. An instance of this kind has just occurred in the crown court of Durham, England. The case on trial was for highway robbery, connected with a murderous assault. A watch taken by the highwayman had been returned to the owner by Rev. John Kelly, a Roman Catholic priest, but the money was kept. The priest was summoned as a witness, but refused to take the oath, because, he said, it required him to tell the whole truth in the case, which he could not do as a minister of the church.—The explanations of the judge obviated this scruple so that the priest finally took the oath, but when asked from whom he received the stolen watch he refused to reply, and said that if he should disclose, his suspension for life from the priesthood would be the penalty. The judge replied that his duty to the state would not allow him to receive such an excuse, and he accordingly ordered Rev. Mr. Kelly committed to jail for contempt of court.

SINGULAR CASES IN HALIFAX.—A person in Halifax was so cautious about fire in his workshop, that he went over his premises the other night, according to his usual custom, for the purpose of inspecting and seeing that all was safe; when he stumbled over a wheelbarrow, and the fluid lamp which he held in his hand was broken, and the fluid spilled over some shavings, which speedily ignited from coming in contact with the blaze. In a few minutes more the whole building was in flames, and rapidly destroyed.

Another singular case is as follows: An attempt had been made three times to set fire to the property belonging to Mr. Hosterman, at the Northwest Arm. A young man placed himself in the barn one night, at the corner in which the combustibles had been put on a previous occasion, for the purpose of watching. A young woman at a late hour made her appearance and set fire to the building, and the young man, the *watchman*, came near perishing in the flames. The girl was tracked and arrested, but is supposed to be of unsound mind.

On their visit to the Patent Office, the Japanese when shown the Declaration of Independence and Washington's Commission, made a low salaam in token of their reverence for these honored documents.—*Ex.*

The Japanese didn't hit it, that time.—Officers' Commissions are regarded as highly as ever, but the Declaration of Independence is all out of fashion now-a-days.

☞ The London Times says that Tom Sayers, the English ex-champion, can neither read or write.

AN ORGANIC DIFFICULTY.—The difficulty of nominating a "representative man," says the Portland Advertiser, lies not at the door of party politics, as too many hastily declare; but is to be attributed to our peculiar American system of interposing an electoral college, based on State Congressional representation, rather than on the popular vote of the people. Hence, when National Conventions of either party assemble, they have the difficult problem to solve, how to combine national popularity and fitness, with local State success; the latter being represented directly by the State electoral colleges. By overlooking this important element in our Constitution, the ardent friends of particular candidates complain that leading men are set aside in such conventions, for those less prominent. If the election of President and Vice President was given directly to the people, as we should prefer, then such men as Calhoun, Clay, Webster and Cass would receive not only their party's nomination, but secure an election by the popular vote.

There can be no question but that, at the formation of our Constitution, our fathers were not prepared to entrust the election of a President directly to the people; and interposed the electoral college, supposing that the members of this college would make the selection, and not simply certify, as our practice now is, the foregone choice made by a National or Congressional Convention.

PARTIZANS.—The corruption of political parties is well shown and deservedly rebuked, in the following extracts from the Traveller. Fowler is one of the victims of a system that seems to have been invented for the encouragement of rascality, and to convert weak men into strong knaves. For this system's existence, and for the enormous incritable evils that are its consequences, government is to blame, but not so much as are the people, who allow government to do wrong, and to encourage villainy. The entire patronage of the government is used to promote evil, purposely so, and with direct intent to do wrong. Appointments are made to offices without the slightest reference to men's fitness for the discharge of the duties that belong to those offices, but solely with reference to the real or supposed skill of the appointees in political management—in other words, their usefulness as knaves.

Now, just so long as offices are filled on political grounds only, just so long will they breed defaulters, and a Fowler may turn up at any time and any where in the country, in which revenue sufficient can be collected to make it worth the stealing. The very want of principle that renders them such effective party tools for those at the head of the government, causes them to swindle the government. This fellow Fowler, who held the New York Post Office seven years, has been notorious as one of the worst of the wire-pullers who manœuvre parties, and whose existence is a curse to the nation; but it is only just to him to say, that if he had not been required to be a rogue by his employers, he would not have been a rogue to his employers. Parties reap only as they sow, and if they cultivate poisonous weeds, they have no right to complain that such things yield after their kind.

A FEARFUL RIDE.—Mr. Frederick Colting, a conductor on the Hudson River Railroad, gives an account of the following wonderful affair. When his train arrived at Greenbush, and whilst it was being switched off on to another track, on Sunday morning, he observed a foot and ancle projecting from one of the trucks. The train stopping at this instant, he went to the spot and saw two boys clinging to the truck of the car. They came out when ordered, covered with dust from head to foot. They had ridden under the car from Dobbs' Ferry, a distance of one hundred and twenty-six miles! They stated that they walked from the city to Dobbs' Ferry, and being ired could not walk any further, when they sat upon the truck of the car and rode the entire distance to Greenbush. The boys were respectively aged 16 and 14 years.

☞ "Carl Benson," in the Spirit of the Times, says there is one moral, or warning, for the sake of drawing which we may accept Heenan and Sayers (in this point only) as the representatives of Anglo-Saxondom. Their fight typefies a contest between the two countries, and foreshadows the probable event of such a contest—much mutual injury, victory undecided, and the police—that is the French—coming up when the belligerents had exhausted each other.

☞ The Portland Advertiser speaking of the City Rate of Taxes, says:—

The Portsmouth Daily Chronicle, is mistaken as to the rate in our city; it was 88-100 in 1858, and 90-100 last year.

Well, we don't remember who gave us the mis-information; but we are glad to hear that our enterprising eastern neighbors are not burdened with so preposterous a rate of taxation.

THE CATTLE DISEASE is creating alarm in Connecticut, Maine and New Hampshire, as well as in Massachusetts.

CONGRESS—FRIDAY, May 25.

SENATE.—Mr. Davis' resolution was taken up, and Mr. Crittenden resumed his remarks. He took ground that the resolutions contemplated evils not likely to arise.

The question was taken on Mr. Brown's amendment, that intervention was now needed, and was lost, yeas 5, nays 43.—Yeas—Brown, Hale, Iverson, Johnson of Ark., and Yulee.

Mr. Collamer offered an amendment to Mr. Clingman's amendment, to the effect that no intervention by Congress in the Territories would ever be required. Lost—yeas 16, nays 33.

Mr. Clingman's resolution, that no necessity now exists for the intervention of Congress to protect slave property in Territories, was adopted—yeas 26, nays 23.

The 5th resolution was taken up—that in case of necessity Congress ought to "insure adequate protection to constitutional rights (i.e. slavery) in territories." Mr. Clingman moved to amend, "*Provided*, it is not intended to assert at this time the duty of Congress to provide a system of laws for the maintainance of slavery."

Mr. Green was surprised that such a proposition should come from a southern man.

Mr. Iverson was for an assertion of constitutional rights in a bold and manly manner. He charged Mr. Clingman with acting under a fear of offending the North.

Mr. Pugh moved to strike out the words "at this time," and to add at the end the words "as a political institution."

Mr. Grimes moved as an amendment, the words "or until after the ensuing Presidential election." [Laughter.]

The resolution was withdrawn. Mr. Pugh's proposition was lost.

Mr. Clingman desired to add at the end of his proviso the words "or any other species of property."

The Chair decided that the words could not be added, except by general consent.

Mr. Clingman's proviso was rejected—yeas 13, nays 31. Yeas, Clark, Clingman, Dixon, Foot, Foster, Hale, Hamlin, Latham, Pugh, Ten Eyck, Trumbull, Wilson.

Mr. Brown offered a substitute for the fifth resolution:—

That it is the duty of Congress to make such laws as will afford to slave property in the Territories, that protection that is given to other kinds of property.

Mr. Wigfall opposed the substitute, and said that by some law or other the Senator from Mississippi (Brown) and the Senator from North Carolina (Clingman) pursued a course to embarrass the action of the South, and bolster up the fortunes of a man who had proved himself unsound.

Mr. Brown in reply to the charge that he favored Douglas, said he would support the nominee of the Richmond Convention, if he was a sound man on a clear platform—but if a series of abstractions were presented he would not.

Mr. Wade suggested that the Republicans take no part in the vote on these resolutions, as it seemed to be a Democratic family affair.

Mr. Hale thought Mr. Wigfall did great injustice to the Northern Democrats, if he supposed the adoption of Brown's resolutions, or any other, would embarrass the Northern Democracy. They could not stagger the Democracy in his (Hale's) State, by any resolutions that might be passed. At the next State Convention, they would declare they had *always* maintained these sentiments. He complimented Brown's course as consistent, for if the principles embodied in these resolutions were correct, now was the time for action.

A personal colloquy ensued between Hale and Davis.

Mr. Brown said three votes were enough to save Sodom.

Mr. Toombs offered an amendment that the action of Congress should be within the limits of constitutional power. Adopted.

Mr. Trumbull had no objection to the resolution as it stood, as a mere abstract proposition. He offered an amendment—"that there is no constitutional right to take and hold slaves in Territories." Rejected—yeas 17, nays 31.

The fifth resolution was then adopted—yeas 35, nays 12. Hamlin and Trumbull were the only negatives.

The sixth resolution was then reported—that the inhabitants of a Territory, when they form a constitution to be admitted as a State, may then, for the first time, decide for themselves whether slavery shall be maintained or prohibited within their jurisdiction.

Mr. Wilson moved as a substitute, that slavery is against natural rights, &c., and it is the duty of Congress to prevent its extension into Territories. Rejected.

The resolution was adopted—yeas 33, nays 12.

The seventh resolution, relating to the fugitive slave law, was taken up.

Mr. Ten Eyck should vote for the resolution.

Mr. Hale was in favor of carrying out the provisions of the Constitution for the rendition of fugitives from labor, but was opposed to the provisions of the act of 1850. A discussion ensued between Hale and Mason as to the merits of the law.

Mr. Wilson moved to reconsider the vote by which the resolution of Senator Clingman was adopted. He had voted for it, believing it to be right as far as it went, but he did not wish to be held responsible for any of these resolutions. The motion to reconsider was carried, and the resolution rejected.

THE RELIGIOUS ANNIVERSARIES occur in Boston this week.—Among the long list, we notice that the Church Anti-Slavery Society meets at Tremont Temple at 11 o'clock, Tuesday forenoon. Address by Rev. Dr. Cheever in the evening.

The American Anti-Tobacco Society meets at Park St. Vestry, at 9 o'clock Wednesday morning.

☞ There was trotting at Franklin Course, Chelsea, Friday afternoon, for a purse of $100, between Lady Josselyn, Mary Taylor, and Lady Shaw—the latter being distanced. The best time made was 2:52, but the race was a snug and exciting one of six heats, Josselyn winning.

THE HORSE GUARDS had a fine dress parade and drill at Concord on Friday, as we have before mentioned, under command of Col. Bellows. Gen. Stark, owing to an accident, was unable to be present; but it is hoped will soon recover sufficiently to command at the "Governor's Election," June 7th. Several officers of the Boston Lancers were also present.

About 75 members mustered, in full uniform—and constituted a brilliant display, (before being "smothered in" dust,) with their gay and tasteful dresses, gleaming sabre and spirited and richly-caparisoned horses.

The Concord Cornet Band in their neat uniform, and mounted, furnished good music—led by Natt Head, chief Bugler of the the troop—whose scarlet uniform, with its fountain plume, the only one in the corps, we thought the richest of all. We are not sorry the musicians are allowed to be "adorned the most."

Gen. Pierce rode on the ground in an open barouche, and reviewed the troops, accompanied by Judge Bellows; Capts. Fuller and Gage being detailed as escorts. The General is looking well, was cordially received, and enjoyed the occasion very highly. He is honorary Colonel of the corps; and at the close of their drill, after they had partaken of a collation at the Eagle Hotel, he invited them to his rooms there, and the usual courtesies of such occasions were interchanged; and three rousing cheers called for 'the honorary Colonel,' were given at the close of his brief speech, in which he welcomed and complimented the troop, and reiterated that under no circumstances could he be induced to enter public life again.

After voting in a score or so of new members, the troop was dismissed. Their display in June will doubtless be the the most brilliant turn-out of the sort ever seen in New Hampshire.

☞ It is said that in New York the coal scuttle style of Bonnet produced so much ridicule and disgust that there has been very little sale for them; and the milliners find they must get up something different, or sell no goods. The women could have stood the ridicule, and would have swallowed their own disgust at the shapeless things; but the idea that they make their wearers look at least a dozen years older, settled the question.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.

These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA.

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the blood becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a unhealthy salted diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE THE BOWELS, and impart a new state of vigor to the whole body.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.

Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Fiannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and is to be indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

CAUTION!

The following act having been passed at the last session of the Legislature of Georgia, to take effect and after June 1st, 1860, will be carried on at Wilmington, Delaware, and St. Louis, Missouri.

AN ACT to repeal all laws, and parts of laws authorizing Lotteries in the State of Georgia, and for other purposes.

SECTION 1. *The General Assembly of Georgia, enact:* That from and after the first day of January, Eighteen Hundred and Sixty, all laws and parts of laws authorizing Lotteries in the State of Georgia, or the vending of Lottery Tickets in said State be and the same are hereby repealed.

Approved by the Governor, Dec. 11, 1858.

Therefore, all Lotteries pretending to be drawn in the State of Georgia, after that date, must be illegal, and a fraud upon the public.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1858.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was persuaded to try by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

☞ The Ballot has at last discovered, by putting this and that together—that the Chronicle is not the organ of its editors exclusively, for the sole purpose of disseminating their particular views and opinions. We could have told them that some time ago. While we hope always to be able to "give a reason for the faith that is in us," and to express our opinions fearlessly when desirable,—personally or in our editorial capacity: we still claim that a public journal may have, and to be independent, *must* have a distinctive character of its own, independent of, and not to be guaged by, the personalities of its editors.

Messrs. Printers:—I notice that in my article on fruit trees the types made me say "furnish the boys with a *bowl*." I wrote (I suppose somewhat imperfectly,) *pole*, so that they would have no occasion to climb the trees, to the danger of either.

☞ The Manchester American says:—There is great excitement in Hillsboro in regard to the breaking out of the fatal cattle disease, imported from Massachusetts by the driving up of cattle from Lexington. Two heifers were killed, and found to be diseased—the symptoms the same as those of North Brookfield. Some 300 head of cattle have been driven up from Massachusetts within three weeks, and are scattered all through Hillsboro', Washington and Lempster, and the alarm is intense among the large cattle owners.

HEAVY ROBBERY.—The residence of Mrs. Ann Frazer in Dinwiddie county, Va., was entered on Friday night last, and robbed of $10,000. Five thousand dollars of the amount had been recently paid to her, and she was advised to deposit it in one of the Petersburg banks; but she refused to do so, thinking it would be in perfect safety, as she had formerly kept large sums of money without its being disturbed. No suspicion rests upon any one at present.

The Mexican treaty is still suffered to slumber. The Administration prefers its present position to rejection. The President thinks that the Simmons' amendment, requiring the use of troops to be under the control and direction of Congress, would be surplussage, as such would be the effect of the treaty as it is now drawn. Mr. Mason on the other hand gave it as his opinion that the treaty if ratified conferred on the President the power and use of the army and navy in Mexico without consulting Congress.

☞ A match has been made between the celebrated horses Daniel Boone and Planet, over the Ashland Course, Va., four mile heats, on the 12th of October, for $20,000 on Planet against $15,000 on Daniel Boone; and also between Laura Farris and Fanny Washington, three mile heats, on the 13th of October, for $10,000 a side.

A young lady of this city, for many years an assistant teacher in one of our grammar schools, left yesterday in company with a sister on a journey of over a thousand miles to meet and marry a man she had never seen. The engagement was brought about by means of a piece of poetry, written by her while residing in a neighboring city, and published in the local paper of the place.—The article, signed by a fictitious name, was seen by the gentleman, and so much admired that he wrote to the address, and the correspondence thus begun was kept up for nearly two years, and has resulted as above. May they both realize all their anticipations. *Lowell News, 24th.*

☞ The New York Observer recites the case of a young lady cured of malignant lock jaw, after the physicians had pronounced it incurable, by an old lady, who merely bound mashed beet roots to the wound made by a rusty nail, in her foot, that had caused the difficulty, and kept changing them as often as they became dry. A remedy so simple should be remembered.

An Irishman who had jumped into the water to save a man from drowning, on receiving a sixpence from the person as a reward for his services, looked first at the sixpence and then at him, and at last exclaimed, "Well, I'm over-paid for the job."

A very good little story, but don't sound very Irish.

THE LATE GEORGE WOOD'S FORTUNE. The will of the late great New York lawyer has been admitted to probate, and it shows him to have been possessed of enormous wealth, his real estate alone being valued at $800,000. It hardly sustains Mr. Clay's oft-repeated remark, that "lawyers work hard, live well, and die poor."

☞ On Thursday evening, a German, named Frederick Staley, residing in Rochester, N. Y., killed himself by blowing his brains out with a pistol. A woman he loved, from whom he differed in religion, had pertinaciously refused to marry him. Hence the slaughter.

☞ On the arrival of Rev. T. Starr King in San Francisco, the Mercantile Library Association at once extended him an invitation to deliver a course of four lectures, giving him $1000.

The republican ticket is exceedingly appropriate—true to its design. Devoted to the interests of Ham's descendants, it begins and it ends with its index finger pointing to the colored race; thus:—Abr*aham* and *Ham*lin!—*Bath Times.*

GREAT EXCITEMENT!

HUNDREDS RUSHING DAILY TO THE

NEW YORK CHEAP CLOTHING STORE,

—where—

LEVEEN & KICHLER

Have declared war not against France or Austria, but against all High Prices. Having increased our Stock of

READY-MADE CLOTHING, AND FURNISHING GOODS,

we are prepared to show the best assortment to be found this side of Boston, at prices never heard of before. We will sell a

Nice Spring Suit, for	$5,75
Lined Black Pants, Coat and Vest,	9,50
Frock Coat,	5,00
Pants, $3; Black Vest, $1,75; Business Coat, $3; Spring Pants, $1 75; Vest, $1,37.	
Thin Coat and Pants,	$1,50

We also keep a very large assortment of BOYS' CLOTHING, made of the latest and best styles.

CAPS. CAPS. CAPS.

These are of our own manufacture, and we warrant to sell them 30 *per cent less* than any one else. We also keep a very large assortment of CASSIMERES, BROADCLOTHS, DOESKINS, &c., which we will make up at the shortest notice, and of the latest fashions. We only ask a call.

Remember the Store, NO. 7 DANIEL ST.

GREAT HUMBUG.

The idea that any one can sell CLOTHING FURNISHING GOODS **cheaper** than

MOSES & DOWNIE,

is a great humbug,. They buy their Goods in large quantities, and manufacture them under their own supervision. Therefore, no one can compete with them in low prices, who have to buy their Clothing Ready-made.

We have the largest and best Stock of **Ready Made Clothing & Furnishing Goods** ever offered in Portsmouth; and at the LOWEST PRICES. The whole of which must be disposed of lower than ever before, in order to reduce our immense stock.

It would be impossible to enumerate the different articles in our Store, but we would say that we have COATS varying in price from

50 CENTS TO 15 DOLLARS!

and PANTS from

50 CENTS TO 7 DOLLARS!

We have also the largest and best assortment of

Cloths, Docskins & Cassimeres,

Both plain and fancy, that can be found this side of Boston, which we will

Make to Order in the Very Latest Styles,

AT A VERY LOW PRICE.

We might go on and fill a paper with a description of our goods, but that would not satisfy the public mind nor clothe their backs. If there is any one inclined to doubt our statement, let them call at our store, and they will doubt no longer. The large patronage we have received is proof of our assertion. We have also any quantity of goods for Men's and Boys' wear, to sell by the yard. Also

Hats, Caps, Boots, Shoes, Trunks, Valises, Umbrellas, Carpet Bags, And Oil Clothing,

and anything needed to make a man comfortable in feeling and respectable in appearance; and what is best of all, it takes but little money to do at the BIG CLOTHING WAREHOUSE of

MOSES & DOWNIE,
3 & 37 Market Street.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D., Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains no thing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and hair; but all who have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my saddy against a rock near the roadside, from which my head received a most terrible blow; producing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was soon made to believe, from the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was shamefully defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as ever saw, for a young man of my age, to my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstances, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth, or much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $5 a bottle.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "what we know," after ten years' experience, and pledge our reputation for the fulfilment of what we have declared. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

The valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with the utmost success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and strength to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—Do not let your own prejudices, or the prejudices of others, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the True Standard.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS or any affection of the VOICE or THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for Depression of Spirits, Loss of Appetite and for all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2 is for FEMALE COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by Drops and carries nourishment into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. Explicit directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409 Broadway, New York.

GEO. C. GOODWIN & CO., Wholesale Agents, Boston.

And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it never fails to afford instantaneous relief, when given in time. Is such a boon to mankind, and one that alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and is a reliable remedy for the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the safest and most reliable medicine now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, CHOLIC IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no equal—being an anti-emetic, it is used with unfailing success in all cases of Convulsions or other Fits. As you value the life and health of your children, refuse

ONE THING SETTLED.—The Baltimore Patriot says:

This morning we met with one of the delegates to the late Chicago Convention, who informed us that the committee who were appointed to convey to Mr. Lincoln the official information of his nomination as their candidate for the President, repaired to Springfield, Illinois, in fulfillment of this duty. He stated that Mr. Lincoln resides in a comfortable mansion in the suburbs of the city, and as the committee proceeded to his residence, they attracted much attention. His neighbors, knowing that Mr. Lincoln was a temperance man, at once dispatched their servants with waiters covered with bottles of wine, brandy, whisky, &c., to enable him to offer what they thought was proper to these distinguished guests.—Mr. Lincoln met the servants who had the charge of these refreshments, and requested them to say to his friends and neighbors that he duly appreciated their kindness, but he could not consent to violate a long established rule of conduct, and that he should treat his guests with plentiful and delicious draughts of pure *ice-water.*

PERSEVERING DOG.—A beast being made of the obedience of a Newfoundland dog in fetching and carrying, the master put a marked shilling under a large square stone by the road-side, and having ridden on three miles, ordered the dog to go back and fetch it. The dog set off, but did not return the whole day. He had gone to the place, and being unable to turn the stone, fell howling by it. Two horsemen came by and saw his distress, and one of them alighting removed the stone, and finding the shilling, put it in his pocket, not supposing that the dog could possibly be looking for that. The dog followed the horses for upwards of twenty miles, stayed in the room where they supped, got into the bed-room, got the breeches in which the fatal shilling had been put, made his escape with them, and dragged them through mud and mire, hedge and ditch, to his master's house.—10,000 *Wonderful Things.*

THE DELEGATE FROM TEXAS.—The New Orleans Picayune is responsible for the following:

We met on the cars, a few days ago, our old friend, Rare Ben Johnson, the efficient agent of Barnes & Park, New York. In his travels out West, he had obtained several horned frogs. He said he had that day sent one of the curiosities by express to the Black Republican Convention, the box containing it being labeled thus: "To the Chicago Convention—the delegate from Texas." To the reptile he had attached a piece of paper with this inscription: "I have come—the spirit of Ossawatomie Brown."

Coquetry and flirtation are as different as diamonds and paste. "Coquetry (says Ike Marvel—a marvellous good judge of the matter) is natural and becoming to a woman, while flirtation is false and deceitful, and never came of a true heart."

"Save your bones," says the Machias Union in an article to farmers. That's what we've been trying to do for a long time, but we find it mighty hard work to save bones or anything else these hard times.—*Bath Times.*

☞ The colored people of Canada West are making preparations to welcome the Prince of Wales to the "home of the fugitive slave."

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that will please the most fastidious; the rooms are commodious and airy. the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller then is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

THE NON-INTERVENTION ISSUE.—A supplement to the Boston Post of May 20, is filled with eleven long columns, containing the speeches in the U. S. Senate, since the Charleston Convention broke up. Senators Jeff. Davis of Miss., and S. A. Douglas of Ill., open the great issue which induced the Southern oligarchs to secede from the Northern Democratic delegates. The two speeches, of about equal length, upon the non-intervention issue, are drawn up with great ability. The gist of Senator Davis' argument, in behalf of a majority of the slave states is, that Congress has the right to organize by law, the United States territories, and has the constitutional authority afterwards to intervene or interfere in respect to certain municipal regulations, but has no right to prohibit slaveholders from settling in the territory and there holding their *property*, that is to say, their *slaves*, and appeals to the Dred Scott decision in support of his opinion, and that the territorial legislature cannot prohibit the introduction of slavery.

In reply, Senator Douglas contends for the doctrine of non-intervention, or squatter sovereignty, insisting that he has not changed his sentiments in respect to it, and proving, we think very conclusively, by reference to documents and public speeches, that the leading slaveholders and statesmen did hold to popular sovereignty and non-intervention until their objects were defeated on the plains of Kansas. He plainly accuses them of abandoning their principles, but admits that Senator Davis has been consistent in his position. We see nothing in his elaborate speech against the institution of slavery, but he contends that the people ought to be at liberty to decide that matter.

The argument of Senator Davis is proslavery, and in favor of its extension under the protection of the Federal Government and the Judiciary. Should this kind of property in human beings not be protected by the government, hints are thrown out to alarm us in respect to the safety of the Union. In severe language he denounces the British philanthropists for their interference in respect to American slavery, for their oppressions at home, and of the Chinese Coolies. But we do not see how their oppressions can be any justification for far greater oppressions within our own borders.

Both speeches refer to the division of the Charleston Convention. Douglas said that he "did rejoice that the old Democratic party determined to adhere to the great principle of non-intervention by the federal government with the domestic affairs of the Territories. It was a pleasant duty to defend the glorious old party against those who would destroy it because it will not change its policy to suit their purposes."

We now see the conflict between the oligarchy and the Northern Democracy, which we think can never be repressed while slavery exists. Intervention by Congress now means slavery-extension. Non-intervention means popular sovereignty, and that the curse shall have no further extension. Without extension, slavery must soon die out.—The division of the Charleston Convention was therefore a question connected with the future political destinies of the republic. H.

SPAYING COWS.—Prof. Mapes, writing in Porter's Spirit, says the practice of spaying cows is likely to be henceforth considered as one of the most important. This practice was known to the ancients, but has never prevailed extensively among any modern people. It was revived in 1830 for the purpose of increasing the flow of milk, and of obtaining an uninterrupted and long continued supply. It has ever been the cesarian operation, that is, cutting through the side of the animal, as is done in making capons; but this mode presents serious surgical difficulties, and was often followed by death. There is every reason to believe that the difficulty and danger of the operation have alone prevented the practice of spaying from becoming as common as that of making steers. A spayed cow yields a larger quantity of milk from a given quantity of food in a given time, and for a term of years in succession. The milk is greatly superior in quality, and for the rich color and high flavor of the butter produced from it. It is, moreover, not subject to the injurious influences which arise while the animal is in heat, or during the period of gestation.

The beef is also as much improved as the flesh of steers, capons, or wethers.—A recent discovery in France, produces the effect of spaying, without any operation or incision.

CAUTION TO SCOLDING WIVES.—A woman named O'Connell, residing in Albany, so enraged her husband by constant abuse and tongue-lashing, that on Saturday night while she was administering a certain lecture to him, he seized her by the throat, choked out her tongue, and nipped off the top of it with a shears. He has left the city.

PARTIZAN CORRUPTION.—A writer in the Boston Transcript well says the saddest feature of the late defalcation at the New York Post Office, is, the lack of surprise it occasioned; such is the low estimate which professed politicians, and office-holders merely by virtue thereof, are held in, by men of sense, probity, and systematic industry,—so completely is that class separated from the responsible and respectable portion of society,—that any fraud or failure in duty or trust is looked upon as the natural fruit of a state of things essentially rotten and ruinous. It is true that a few men, by peculiar force of character or superior associations, rise above this stigma; but they confessedly form an exception. Whoever is in the habit of seeing, hearing of and observing the exclusive partizan place-seekers, cannot but feel — that their situation, habits and exigencies are wholly inauspicious so far as conscientiousness and integrity are concerned.

There was a time when a defalcation in a high office would have struck the public mind with indignant horror; now such things are regarded as a matter of course, and the perpetrator as a victim rather than a voluntary agent; and this, we repeat, is the most hopeless aspect of the latest case.

But another deplorable trait distinguishes it from previous instances of a like kind: from the evidence of facts thus far elicited, there is every reason to believe that the sword of justice was suspended by those high in authority, from political and personal calculation, and allowed to fall at last rather to punish disloyalty and vent disappointment, than to call official infidelity to its legitimate account.

All parties are alike answerable to this charge; and will be, so long as party is more prominent than principle, in our government; which must be made of and by pure men, before it can be pure. In a recent speech of Earl Grey, in the British Parliament, the acknowledged and statistical decadence of civic virtue in America were quoted as an argument against extending the right of suffrage—and very naturally, too.

☞ Rev. Henry Ward Beecher supplied Rev. Theodore Parker's pulpit at the Music Hall, Boston, on Sunday, and the hall was crammed,—positively and literally stuffed. Not only was the hall filled to repletion, but the platform, aisles, passage areas, doorways, and even the entries, up stairs and down. Nor was this all. Tables, chairs and seats were placed in the entries and door-ways, upon which the eager multitude clambered. Those who could not get within hearing distance, did the next best thing,—got a seeing point.

Of all the audiences ever seen in Boston, nothing has exceeded this in the intensity of the multitude to see and hear; while in point of numbers it was immense. There could not have been less than 5000 in the hall and passage ways, while as many more are said to have failed to get in. Had there been accommodations, the Bee thinks that Mr. Beecher would have had an audience of not less than 10,000 persons. He took as a text—1st Corinthians, 1st chapter, 17—25.

☞ It will be recollected than when Senator Douglas' Kansas-Nebraska bill was passed after a midnight struggle, Senator Cass appeared in the morning in the Senate and exclaimed—"I congratulate the Senate upon the triumph of Squatter Sovereignty." It was recently announced in the Senate that "he is no longer a believer in the doctrine!"

"Men change with fortune; manners change with climes,
Tenets with books, and principles with times."

☞ Mr. E. E. Bailey, of Claremont, had a keg full of apples securely headed up, and sunk to the bottom of his mill-pond last November, where it had lain undisturbed thro' the winter and until about the 11th of May. On bringing it to the surface and opening it, every apple was found to be free from speck or rot, and as fair and unwrinkled as on the day when taken from the tree.

☞ It is the sense of the Methodist Conference now in session at Buffalo, N. Y., as expressed in a resolution adopted, that the marriage relation could only be dissolved by a violation of the seventh commandment or by death; and that a subsequent marriage by either party, while both are living, is contrary to the teachings of the Holy Scriptures.

☞ The jewelry store of Josiah Gooding, Washington street, Boston, was robbed on Sunday, between 9 and 6 o'clock, of $8000 worth of watches and jewelry. The goods were all in cases upon the counters—and the robbery must have been effected by those acquainted with the premises—if not by persons employed there—for the store is never vacant save at church time.

☞ Quite a sudden stampede of peddlers from Boston and New York, was occasioned in Portland on Saturday, in consequence of complaints lodged by some of the principal merchants. The City Marshal succeeded in obtaining some of their trunks and contents; but the "agents" "cut sticks" and left town in any way but by railroad.

WASHINGTON, May 27.—Our minister to China has thought the conduct of the captains connected with the Coolie traffic, thus seriously affecting our relations with that empire, of sufficient importance to make it the subject of a special despatch to our government. The attention of the Governor General has been directed to the undisputed fact that the Chinese were taken on board vessels lying at Whampoa by force or fraud, against a positive rule at Canton that they should be shipped only at that place.

Minister Ward says no American house will have any connection with the traffic; but, unfortunately, ready agents are found among the English and other merchants at Hong Kong. American vessels are chartered by subjects of other governments, and so odious has become the traffic by recent transactions, that other governments have forbidden their vessels being engaged in it, or so restrained and regulated it as to throw it almost entirely into the hands of Americans. Mr. Ward expresses an earnest hope that Congress will pass a law to punish such offences, which obstruct the faithful execution of our treaty stipulations. He says the horrors of the Coolie traffic, as conducted at Whampoa, cannot be properly described within the limits of a dispatch.—The kidnapping grievance has become so intolerable that the Governor General has been aroused to action, and at Canton rewards have again been offered for the heads of foreigners. The bill which Mr. Elliott has introduced into the House for the remedy of this evil, so far as American ship masters are concerned, is in accordance with the views of the State Department.

CONGRESS, Saturday, May 25.—In the Senate a communication was received from the Postmaster General relative to the defalcation in the New York Post Office, stating that the facts first became known to the department on the 10th of May.

The Patent bill was then taken up, and the clause declaring that no appeal shall be had from the decision of the Commissioners, stricken out.

In the House a bill was passed giving Mr. Postman $3000 for his services as interpreter to Perry's Japanese expedition.

Monday, May 28.—In the Senate, Mr. Dixon offered a resolution authorizing the removal of Thaddeus Hyatt from the common jail, and giving him the limits of the city. Laid over.

In the House, Mr. Corwin made an ineffectual attempt to postpone the Pacific Railroad bill.

☞ By the steamer Palestine at Quebec, we have four days' later news from Europe.

Garibaldi, with over 1000 followers, had landed at Marsala, under the fire of two Neapolitan frigates. One of Garibaldi's steamers was captured and the other sunk. The volunteers who landed were, at the moment of the departure of the mail, fighting with the royal troops.

Col. Medici was preparing for a second expedition, and 6000 volunteers had been enrolled.

It was asserted that diplomatic representations made to Piedmont would decide that government to prevent the departure of the second expedition. Great agitation prevailed at Naples and Palermo.

Pallinger, the defaulting cashier of the Union Bank, had been sentenced to twenty years' penal servitude.

Russia again menaces Turkey in the interest of Christians.

WASHINGTON, May 28.—The Mexican Minister has advices from Mexico, that Miramon and the church party had been utterly routed, and that the Liberals were in full possession of the capital.

The Japanese are receiving the army and navy officers to-day. Their visit to the North will not be long, nor will they see much of the country.

NAVAL.—The United States steamer Powhattan sailed from Panama on the 16th inst., for Philadelphia.

The United States steamer Wyoming had been ordered to Callao to aid our Minister in his demands upon Peru in the cases of ships Lizzie Thompson and Georgiana.

The United States frigate Sabine was at Aspinwall.

SLAVE CASES.—*Savannah, May 25.*—Lamar, Styles, Middleton and Hone, plead guilty in the Federal Court to-day on the charge of rescuing Farnum from custody of the United States Marshal.

The case of Lamar, for holding African slaves, is postponed till Monday next. In the case of Farnum, the jury could not agree, standing eleven for acquittal, and one for conviction.

GREAT MECHANICAL FEAT.—A whole block of buildings in Chicago, weighing 35,000 tons, has been raised four feet by 6000 screws. The block comprises thirteen first class stores, and a large double marble structure, the Marine Bank building. The cost was $17,000.

☞ Mr. Lincoln, of Illinois, is not distinguished for personal beauty; but Mrs. Lincoln, who is now apparently about thirty-five years of age, is described as a very handsome woman, with a vivacious and graceful manner, and as an interesting and often sparkling talker.

☞ A great ratification meeting held last week at Harrisburg, Penn., the home of Cameron, at which that distinguished gentleman presided, settles the question that both Pennsylvania and Mr. Cameron heartily endorse and will support Lincoln and Hamlin—the Republican part, we mean.

☞ It was proposed to entertain the Japanese, on their visit to New York, with a dramatic performance; but this proposed proposed treat, it has been ascertained, will not be acceptable to them, for the stage in Japan is patronized only by the lowest classes.

"The people of the United States are the rightful masters of both Congress and Courts."—*Abraham Lincoln.*

Where'er the sun may shine, my boys,
There's nothing like the sea;
The spirit never soars so high,
The heart ne'er bounds so free,
As when the briny billows bear
With giant arms the ship:
I seem e'en now to taste the air
Of freedom on my lip!
Hurrah! one hour upon the sea
Is worth a year on earth!"

A FIZZLE.—The Strikers' organization in Lynn have voted to devote the remaining funds in the treasury, to the defence of the parties indicted for riotous disturbances in that city on the occasion of the recent strike.

☞ Silas Howard, Esq., of Lisbon, N. H., eloped with the wife of Isaac Howland, of the same town. They were arrested in Portland, but discharged; and have returned home.

☞ It is one of the worst features of the cattle disease, that it presents no premonitory symptoms. A fine, healthy-looking animal may have the disease in its most incurable stages, and not be suspected.

MATRIMONIAL JARS IN ESSEX CO.—During the present session of the Supreme Court, at Salem, Mass., no less than seventeen couple have been divorced from the bonds of matrimony.

☞ The Philadelphia papers mention the death of a gentleman from internal injuries resulting from over exertion with dumb-bells. Hundreds die for want of such exertion.

☞ Pierre Frederick Goll, one of the body guard of Napoleon 1st, recently died at Newark, aged 71.

☞ The authorities of the town of Deering have offered $500 reward for the conviction of the murderers of Dudley K. Chase.

☞ The Richmond Enquirer of the 21st, says three hundred negroes were baptized in the Appomatox, at Petersburg, on Sunday last.

We find the injunction "live for something," in an exchange. This is but fair, since it costs something to live.

☞ The celebrated trotting stallion Hiram Drew is matched to trot against St. Lawrence, the English blood gelding, on the 29th inst., at the Trotting Park, Bangor, for a purse of $500.

Elderly unmarried ladies are considered by some persons the least enviable of all kinds of *waiting maids*!

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It eaves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

Special Notices.

CAUTION!

The following act having been passed at the last session of the Legislature of Georgia, our business, on and after June 1st, 1860, will be carried on at Wilmington, Delaware, and St. Louis, Missouri.

AN ACT to repeal all laws, and parts of laws, authorizing Lotteries in the State of Georgia, and for other purposes.

SECTION 1. *Be it enacted by the General Assembly of Georgia do enact:* That from and after the first day of June, Eighteen Hundred and Sixty, all laws and parts of laws authorizing Lotteries in the State of Georgia, or for the selling of Lottery Tickets in said State be and the same are hereby repealed.

Approved by the Governor, Dec. 11, 1859.

Therefore, all Lotteries pretending to be drawn in the state of Georgia, after that date, must be illegal, and a fraud upon the public.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine, to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct Style in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is extensively successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he pays strict attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offer his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for judging the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, No. 30 Hanover Street; at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

FINE PIANO AT A BARGAIN.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.
Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

PORTSMOUTH, May 28.

Messrs. Editors:—I see by to-day's Chronicle, that the fatal cattle disease has broken out in the upper part of our State. In all probability its ravages will not be confined to that district, but will be scattered broadcast over the lower part of the State, which will be the means of breaking up our State and County Cattle Shows and Fairs. Under existing circumstances, would it not be well to have a Celebration on the 4th of July? H.

We are certainly not averse to having "The Glorious Fourth" fitly remembered; but to do this it seems necessary to have a larger City appropriation than we appear likely to get. The Common Council voted $500, provided the citizens should subscribe $300 more; but the Aldermen refused to vote more than $100. And if anything beyond the routine of firing guns, ringing bells, and music by the Band, is to be done, there is of course no time to be lost.

As to the cattle disease—we hope it will not prove so bad in New Hampshire, as our correspondent suggests. A couple of animals carried to Hillsborough from Massachusetts, have been found diseased and killed; and a committee of medical examiners from Boston were to investigate the matter at Hillsborough on Monday. Perhaps there will not be any more cases in that vicinity; and even if there should be, it is by no means certain that the fearful epidemic will spread to such an extent as to affect Rockingham County or its Fair.

We should like to see the two Celebrations. Portsmouth don't get up too many such social festive occasions—and besides the pleasure of them, they would be good investments. As between the two, while the American eagle, patriotism, &c., incline to the Fourth; yet for real benefit to the city, and to those who will be affected by either, the balance is vastly in favor of the Fair. Why don't H. "guarantee $500" for the 4th, so that we can be sure of both?

THE "GOVERNOR'S HORSE GUARDS" OF NEW HAMPSHIRE.—This already famous company, composed of some of the first men in the Granite State, will make their first full parade on Thursday, 7th June, it being the occasion of the inauguration of the Governor and the convening of the Legislature.

The new organization will muster at Concord, will turn out largely, and will be accompanied by Hall's Boston Brass Band, who will appear in their new uniform. A number of the members of the National Lancers of Boston have kindly volunteered their horses for the use of the Band on the occasion.—*Traveller.*

A full company of the Guard will undoubtedly be soon enrolled in this section of the State, with an armory in this city or vicinity; so that the members in Strafford and Rockingham counties can enjoy all the advantages of the main body of the corps at Concord. There is also an armory at Nashua.

☞ There is now lying at Pray's Wharf one of the finest specimens of naval architecture ever built upon the Piscataqua. We refer to the new ship "Liverpool Packet," recently launched from the yard of Messrs. Toby & Littlefield, and owned by Messrs. Page, Richardson & Co. of Boston. She is a finely modelled, stoutly built vessel of 1000 tons, and has all the recent improvements. She sails to-day for St. Johns, N.B., and we trust she will safely ride the waves for many years to come, carrying our commerce to the most remote parts of the earth, and bringing profit to her owners. REP.

☞ Samuel W. Moses, Esq., has been appointed one of the Assistant U. S. Marshals for this District, in place of A. W. Simpson, Esq., resigned. Mr. Moses' business is to collect statistics for the eighth United States Census, in Portsmouth and Gosport, which duty he will enter upon on the 1st of June.

☞ There was formerly in this city, a man named Oliver Ayers, if we recollect aright, who dabbled much in water, and interested himself in hydraulic works. But alas: he no longer devotes himself to that laudable employment, *here*—and we are fain to mourn his departure. The pump at the Chronicle Office has been out o' kilter for a long time, and yet no aid appears.—Meantime our patience is almost (pumped) out.

☞ It is no small job to put up (and down) that Custom House fence. Uncle Sam builds substantially, of stone and iron; and though his fence is eight feet high, yet he puts about half of it under the ground, which brings it about the right height above. Under each iron post, a large square stone post four feet long is sunk, as a foundation; and those on which the gates are to swing, are big enough to carry those at Gaza.—Ex-President Peirce, Uncle Sam, Elder Pike, Superintendent Blaisdell, and all the rest concerned, deserve well of Portsmouth, for doing so much better for our citizens, than they will do for themselves. Vide new Post Office, and old—we had almost said *City Hall!*

COTILLON PARTY.—We are requested by Mr. Elliott, well known here as the talented and gentlemanly leader of the Quadrille Band, to state that the veritable, unmistakeable and unrivalled *Ned Kendall* is in town, with his bugle, and will play at a Social Assembly to be held at Rechab Hall this (Tuesday) evening. Dancing to commence at 8 o'clock. Tickets $1, to be had of Mr. Elliott, at City Hotel, and at the door. Either Kendall's or Elliott's name is sufficient guarantee for a good time—and that Hall won't hold half that will want to be there. So get your tickets early.

☞ The Republican ratification meeting at the Temple, last evening, was well attended. Spirited addresses were made by Gov. Goodwin, Hon. E. H. Rollins of Concord, and others, and the utmost enthusiasm prevailed. The Cornet Band discoursed most excellent music.

☞ The taxes in Exeter were stated by the Ballot to be 1 and 1-50 per cent.; not 1 and 1-5, as the types made the Chronicle say. The difference is just here—between $1.02 per $100, and $1.2 per $100. It makes more difference where you put ciphers (nothings) in decimal fractions, than anywhere else in the world that we know of. However, speaking of taxes—we wish we had to pay a big one, even at either of the rates named.

☞ The total number of neat stock in New Hampshire in 1850 was 267,910 head, which at a low estimate would be worth $9,500,000; and the Gazette thinks that the early attention of the Legislature at its coming session should be directed to the enactment of a law for the preservation of this vast amount of property.

☞ The Exeter Ballot publishes the County Treasurer's statement of receipts and expenditures for the past year, which foot up $50,119.32. This sum includes all the moneys borrowed and paid, and in the expenditures a considerable amount of outstanding claims against the county.

☞ The cattle disease, it would seem, has made its appearance in New Hampshire, and not far from us. The Newburyport Herald says, a cow died at Hampton Falls, May 5th, and *post mortem* examination showed all the symptoms as at North Brookfield. The animal had been at Hampton Falls for a year, and not exposed to be disease, to the knowledge of the owner.

☞ One of Abram Lincoln's sons, a young man of 16 or 18 years of age, is now at Harvard College. Another is at Phillips Exeter Academy.

Durham is the banner Hay town of New Hampshire. For the past ten years it has sold on an average, one thousand tons per year, besides keeping enough to support a very large stock.

☞ The attention of the curious and economical, is directed to an advertisement of the Saponifier, in another column.

When Mr. Wilberforce was candidate for Hull, his sister, an amiable and witty young lady, offered the compliment of a new gown to each of the wives of those freemen who voted for her brother; on which she was saluted with a cry of "Miss Wilberforce forever!"—when she pleasantly observed, "If thank you gentleman, but I cannot agree with you, for really I do not wish to be Miss Wilberforce forever."

☞ There are symptoms of a whiskey insurrection in Minnesota. The liquor dealers burned down a church in St. Anthony, and the members thereof warned them to leave the town. This they decided not to do, and both sides were heavily arming at last accounts.

MARRIED.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

GROVER & BAKER S. M. CO.

THIRTY DIFFERENT PATTERNS,

Adapted to every variety of

FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS —of the— **Grover & Baker's Sewing Machines.**

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their Box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of women-kind, and I would recommend every family to get one as soon as possible.

Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never cause you to part with it, after they understand its operation.

CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families about to choose about to organize a household, to be sure and have a Twenty Dollar, and not one of Grover & Baker's SEWING MACHINES."

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "what we know," after ten years experience, and pledge our reputation for the fulfilment of what we utter. In almost every instance where our child is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England, and has been used with never-failing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and vigor to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—Do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c. and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, or NERVOUSNESS. Use No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for alterations it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only medicine in creation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, CONVULSIONS, THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and Purifying the Blood. Being free from an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the health and life of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics, or other nostrums, before Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL, this can only be had of the Proprietors, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Dizziness, Rising of the Food, Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a short time.

It will instantly revive the most melancholy and drooping spirits, and restore the languid and weak stomach to health, strength and vigor.

Persons who, from the injudicious use of Medicine, have become debilitated, and their nervous systems shattered, constitutions broken down, and subject to that horrible disease, called the *Dolorous Demons*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Nervous Ill.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will add health, vigor, strength, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the carworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor either one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whether be it one, or all, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" thus we see the truth of the text of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the energies of life, so that our vital consistions are only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the extirpation of this foul disease from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, SCROFULOUS ENLARGEMENTS, DROPSY, DYSPEPSIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting disordered action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical weakness, exclaims, "I find in health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratuitously, American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Biliousness, Bilious Fevers, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gravel, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every family can't help having in their midst some one known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in daily practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Immoderate in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attention would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims to apparent marasmus, sanguineous exhaustion, cortical changes, and that complication of nervous and dyspeptic aversion to food and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and those too familiar to require a name, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also operates to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, insuperable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently mortal, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, distributing cough, and profuse expectoration which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the peculiar disorders affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such immediately happy, and fully tonic effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box, for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

SINGULAR SCHOOL ARRANGEMENT IN NEW HAMPSHIRE.—In the town of D——, N. H., this spring, in one of the school districts, the voters met to choose a prudential committee. There was considerable division, and a very illiterate man was elected Moderator. Taking the chair, he was called upon to read the warrant, which to him, was easier said than done. The opposition elements contended for a long time, one party insisting that the warrant should be read; and the friends of the Moderator, who knew the deficiency of the incumbent, saying that business was in order. Finally the occupant of the chair got mad, and saying he would not stay, took his hat and left. The meeting was compelled to adjourn, for they had no power to choose another Moderator.

In case of no election by a district, the Selectmen of the town have the right to appoint a prudential committee, consisting of one or more persons; one man went and got an appointment, and a short time after two other of the opposite party also received appointments. The result was they could not agree upon engaging the same teacher, so one engaged his choice, and the other two theirs. The usual hour for commencing school is 9 o'clock, but the first committee believing he would get the start of the others, privately notified his friends that the school would commence at 6 o'clock, on the following Monday morning, which was about two weeks earlier than the usual time for commencing the summer school. He started on Saturday night, after dark, to get his schoolmarm, but the other party, who had somehow got wind of the matter, started also for their teacher, and at midnight went round the district among their party and notified them that the school would commence at 4 o'clock in the morning. When the teacher first engaged arrived, she found the other in possession of the desk, "teaching the young ideas how to teach," rather early in the morning. Nothing daunted, a chair and table were secured for her, and she took possession of the other side of the schoolhouse; and both went to work, teaching their share of the scholars. The matter is now in litigation; and both parties will probably be satisfied after having been tled copiously by the lawyers.—*Lowell Courier.*

BIG TROUT.—Barnum offers $100 for a live 3-lb. trout. Everybody thought this a rousing price, but a sporting correspondent of Wilkes' Spirit says:

Barnum don't offer price enough yet.—He manifestly underrates the fishing art.—Only one hundred dollars offered for a three-pound trout! Ridiculous! Let us see what a three-pound trout is worth: We have been fishing for thirty years, and have not taken him yet. Well, we think, judging from the rate of compensation we have received for services in other arts, that our fins thus expended was worth nearly one hundred thousand dollars. But we do not consider *that* a criterion for the value of a three-pound trout, for we have not yet caught the fish. As a fair business transaction, we think a three-pound trout might be furnished alive for one thousand dollars; but there is no angler so needy as to fish for three-pound trout at the paltry price of only one hundred dollars each.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious: the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendance gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance. J. B. FLAGG.

Portsmouth, May 1st, 1860.

PLEASURE SAILING.

The **Schooner SIBYL,** one of the beautiful Yachts built by the late George Steers, will run during the season, to the Shoals, or to any other port or place, desired by the parties who may employ her for a day or a number of days.

She will lay when in this port, at PIER WHARF, and will run as an Accommodation Yacht, to the order of Individuals or Parties.

Application may be made on board, or to Messrs. JOHN RIDER & SON.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, an experienced pilot, who will give every attention to the comfort and enjoyment of his passengers. The Sibyl has an elegant cabin, water closets, tanks, and every accommodation of a first class packet.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Portsmouth, N. H.

WEDNESDAY, MAY 30, 1860.

THE N. H. HOUSE OF REFORMATION. The Nashua Telegraph well says it is most unfortunate that so few things of public importance can be kept outside of politics. The House of Reformation is really a thing of Democratic origin. To Gov. Nathaniel B. Baker belongs the honor—and it is an honor—of making the first public movement in relation to it: and Hon. Mr. Wilkins, a democrat of Manchester, left a very liberal bequest for its establishment.

But the State government happened to be in the hands of the republicans; and notwithstanding it has enjoyed the sympathy of a great many intelligent democrats, it has had to encounter the hostility of the democratic party. The result has been that the institution has failed to receive that measure of support from the state, necessary for the full accomplishment of its benevolent designs. It has been stinted in its means, and now lacks some of the necessary elements of success, which a very moderate liberality would supply. It should be made really what it is in name, a state institution. A portion of the expenses at least, should be borne by the state, and not left to the towns which send boys or girls there. So long as the whole expense is to be borne by such towns, they will be careful how they send them there. Perhaps they should pay a part of the expenses, so as to serve as a check to sending those who need not to be sent there. We really hope the coming session of the Legislature will take hold of this matter, and put it on a footing that will enable it to do more than a moiety of the good of which it is capable.

The idea prevails to some extent that it is an institution which benefits only cities and larger towns. This is a great mistake. Of the sixty two inmates since its opening two years ago, the cities have furnished only 19, while twenty farming towns have furnished all the rest.

PIETY EXTRAORDINARY.

Several days ago, we said of the Democratic Standard, that it was, "a very religious paper in its devotion to Slavery."—Whereupon the Standard gets off a most refreshing jet of exhilarating gas, in the words following:—

> The Portsmouth Chronicle says the Standard is "a very religious paper." We wish we could return the compliment. But the Chronicle and our other Black Republican cotemporaries, are so perversely inclined, that we verily believe they would bring the country to perdition, if they were not stayed in their career of iniquity by the conscientious, religious, and pure Democracy.
>
> We assure our friends of the Chronicle, that probity and and piety are as necessary to the success of political parties, as of individuals. True Democracy is founded on those great principles of ethics which lie at the foundation of the Christian Religion.—Hence, the general success of the Democratic Party, and its ultimate permanent ascendancy. "God and Liberty," is the motto even of the Mexican democrats.
>
> But "God and Slavery" seems to be the motto of the Democratic Standard,—which is quite another thing.
>
> True Democracy and Christianity may claim a common foundation; but we have been disposed to believe that liberty and slavery were *opposites*,—impossible to be reconciled,—in irrepressible conflict, so that one must lose what the other gains.
>
> If the Mexican Democrats are right, the Democratic Standard is wrong.

DATES FROM ENGLAND are to May 20.—Bell's Life of the 20th, announces that a meeting took place between Sayers and Heenan, at their office yesterday, to discuss the means of terminating the dispute between them as to the possession of the Champion's belt; when it was ultimately agreed that two more belts, exact counterparts of the one so much coveted, should be made, the money for the purpose to be raised by public subscription. Each of the candidates is to head the list for that to be held by his opponent. The old belt will remain in the possession of the proprietor of Bell's Life, to be fought for by whoever may aspire to the honor of wearing it.—Sayers has engaged to retire from the prize ring.

A KEEN TRICK.—Under the head "A Black Democrat," the Keene Sentinel tells of a shrewd *little Darkey*, calling himself "Don Juan Pedro, a Creole citizen of Cuba, on a mission to this country to secure the annexation of the gun to the United States," who has been gammoning Democrats in that town and elsewhere—they announcing him to lecture, getting out bills, etc.,—but ere the time he steps out.

SUNCOOK FACTORY is rapidly rebuilding, and looks as if it might be occupied next winter.—The Stateman says of it, the consumed mill is being replaced by a larger and better one, and surveys are being made for one or more other mills, for which there is, we are informed, ample power.

☞ Mr. David S. Caldwell of Newbury, Mass., seined one thousand weight of bass at one haul; the largest fish weighed fifty pounds.

TROUBLES IN ITALY.

The latest news from Italy is quite interesting. Garibaldi, with 1000 followers, had landed at Marsala, under the fire of two Neapolitan frigates. One of Garibaldi's steamers was captured and the other sunk. The volunteers who landed were, at the moment of the departure of the mail, fighting with the royal troops.

Another statement was, that although 5000 men had landed, it was uncertain whether Garibaldi was among them.

Other dispatches confirm the news of the disembarkation of Garibaldi, the capture of one of his steamers, and the sinking of the other. These steamers were not chartered by Garibaldi, but were forcibly seized by his followers. Garibaldi had published a letter in a Turin paper, excusing this act of his followers on the ground that it was done in furtherance of the national cause. He had also issued a proclamation to the Italians, calling upon the inhabitants of the Marches, Ambria, and Sabrina, and the Neapolitans, to revolt, in order to divide the forces of the enemy: and another proclamation to the Romans, recalling to their minds the insurrection of '49, and urging them to a similar course.

Col. Medici was preparing for a second expedition, and 6000 volunteers had been enrolled.

Great agitation prevailed at Naples and Palermo. At the latter city on the 13th, at the termination of mass, the people in the churches shouted "Italy and liberty forever!" In the evening 10,000 people assembled on the promenades, where they were fired upon by the troops, and several were killed and wounded.

At Naples there was the utmost consternation. The royal troops were dispirited. Tumultuous manifestations were taking place, and the royal family were packing up their jewels and other valuables, and other indications were present that an insurrection was expected.

At the latest dates Garibaldi's forces were moving on Palermo. Some say he had captured the most important places in Sicily, except Messina and Palermo. After his landing at Marsala the Neapolitan vessels bombarded that town without warning.—British vessels interfered for the protection of English residents.

Four persons were killed at Marsala while disembarking. The arms and ammunition were landed in safety. Another lot from the Levant were landed several days previously on the southern coast.

An important announcement is made via Madrid, that the King of Naples had applied for foreign intervention.

Among other questionable rumors was one that a treaty, offensive and defensive, had been concluded between Naples, Rome, Austria, and all deposed Italian sovereigns.

It is reported that General Lamoriciere had made a forward movement of the Papal troops, and that five thousand Piedmontese troops had embarked from Genoa to check him.

It is positively asserted that the French army in Rome has received orders to evacuate that city.

IGNORANT TEACHING.—A correspondent of the Boston Transcript says, in writing from Rome:—

> Oh, the funny, funny stories that are told of the priestly exortations now spouting from the pulpits in Rome! One is worth immortality, and therefore I send it you.—"The English," exclaimed our indignant preacher, attempting to illuminate the darkened minds of his sinful congregation—"the English are a race of outlaws and heretics. Heed not their officious intermeddling, for what faith can you put in a nation which *spreads lies from the Thames to the Baltic?* How dare the English abuse our holy Catholic religion, when *St. Augustine baptised Alfred the Great, who gave them the Magna Charter?*" What think you of this bundle of marvellous and absurd lies, emenating as it does from one who is enforcing the gospel and *truth* upon unruly listeners?

DAMAGE FROM THE LYNN STRIKE.—The counsel for Mr. Phillip Woodfin of Marblehead, the expressman who was assailed and severely injured in Lynn during the melee growing out of the shoemakers' strike, on the 23d of February last, has addressed a communication to Mayor Davis, proposing to adjust the claim of his client against the city for the sum of twelve hundred dollars as a compensation for the injuries sustained by Mr. Woodfin. The Reporter says, "this sum he proposed as a matter of compromise merely, though we understand that if the matter is suffered to go to suit, the claim will be for five thousand dollars. Strikes are rather expensive amusements, but those who dance must expect to pay the fiddler."

FATHER STREETER INJURED.—The many friends of the venerable Rev. Sebastain Streeter will grieve to learn that as he was going down a flight of stairs, at his residence in Boston, on Saturday last, he made a mis-step, when on the third stair from the floor, and fell headlong. He had a stout hat on, which was knocked over his face by striking a tub, standing on the floor, and this somewhat broke the force of his fall, and as he thinks saved his life. He struck upon his face, and received a severe blow upon his nosei from which he suffers considerably.

REV. THEODORE PARKER, of Boston, died at Florence, May 10,—and will be remembered and his early death lamented, by all pure-minded and philanthropic men, on the both sides of the Atlantic: not less by many who differed widely from him in theology, than by the comparatively few who received him as their apostle.

The Atlas says of him,—For very many years Theodore Parker has occupied a front rank among men of talent and independent minds in America. This light is suddenly extinguished. The profound learning laboriously accumulated, the native genius and the eloquence which has enraptured thousands, has gone out like a light. The trio of the leading ultra abolitionists is broken, Parker—Phillips—Garrison. Whatever we may think of their principles, they have stood nobly and valiantly by them, and now we do not envy the man who will not turn aside to drop a tear over the grave of the intrepid pioneer of thought.

There is but little that we ought to say on the occurrence of an event like this. To enter upon a biography of the great scholar who has just died would be superfluous.—This community and New England know him well. A boy, a student, a pastor, a philanthropist, is a synopsis of the whole. The first money he ever earned went to buy a Latin Dictionary. He was distinguished in his class, and no sooner had he left the schools and risen to position as a public teacher than he trampled upon all prejudices and formulas and planted himself arrogantly and defiantly before the stereotyped theology. He grappled with it and with the strength of a giant confronted it. How he has succeeded is a part of the history of the intellectual movements of the age. It was the effort of a mind of the highest order upon subjects of the utmost importance to the human race.

We are not by these remarks making any commitment to Mr. Parker's peculiar views. We admire him as possessing an intellect of the very highest power, learning rarely equalled, and a brilliancy of rhetoric which never failed to captivate whoever came within the sound of his voice.

Mr. Parker was in the 50th year of his age, having been born Aug. 24th, 1810.—However men might differ from him in opinion, they could not but feel that he was sincere and honest, in his theological and social ideas. And the purity of his life commanded the respect of all.

CONCORD, N, H., May 29.—At the annual meeting of the stockholders of the Concord Railroad, held in Phenix Hall, this morning, the old Board of Directors, consisting of N. G. Upham of Concord, Isaac Spaulding of Nashua, Josiah Stickney of Boston, Chas. H. Peaslee of Concord, Uriel Crocker of Boston, Francis C. Manning of Boston, and John S. Kidder of Manchester, were elected for the ensuing year.

☞ A Washington correspondent says the Japanese are much troubled about the return of the Niagara. They cannot be made to believe that her detention is occasioned by an accident, but are persuadek it is an artifice to detain them.

☞ It is reported that Ethan Allen will pay forfeit to Patchen on the two-mile race named for Wednesday. Ethan thus retires from the field, stripped of the laurels he has worn several years.

The owners of Geo. M. Patchen have challenged Flora Temple to trot three races.

On Saturday afternoon, as the train for Portland had passed the causeway about half way from Newburyport bridge to the Salisbury depot, Jacob Brown of Seabrook, in passing from one car to another, lost his hat, and immediately jumped from the train. On arriving at the depot, Conductor Cram, who had just been informed of the eccentricity of his passenger, sent parties out to gather up the fragments; but to their surprise they found the passenger very comfortable, with the exception of a broken ancle. He was taken to the house of the demaster, and a bone-setter sent for.—*Her.*

CONGRESS, MAY 28.

The SENATE adopted the resolution of inquiry touching the contracts for the extension of the Patent Office.

Mr. Dixon offered a resolution, authorizing the removal of Thaddeus Hyatt from the common jail, and giving him the limits of the city. Laid over.

The Post Office Deficiency bill was considered at length.

HOUSE.—Mr. Corwin made an ineffectual attempt to postpone the Pacific Railroad bill.

Mr. Phelps' amendment to strike out the route through Salt Lake City was rejected by 43 against 74.

Mr. Reagan's amendment to make the proposed grantees merely trustees of the company to build the road, was rejected. The amendment by Mr. Reagan that grantees shall within three months from the passage of the act determine the amount of private capital necessary to complete the road, and open subscription books in New York, New Orleans, and other places, was then agreed to, 90 against 50.

Pending an amendment to substitute the Texas route, the House adjourned.

On Tuesday, the House rejected the Texas route.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Pills, I am they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

HENRY SANBORN.

Kensington, Sept. 25, 1858.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, PORTSMOUTH, N. H., No. 1 School st., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the 'Peruvian Syrup.' It gives me new vigor, buoyancy of spirits, celerity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a great prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same, to try it. After my bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles I was well. I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to the department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m13

THE LECTURE, TO-NIGHT.—Prof. O. S. Fowler, the world-renowned Lecturer and Author upon Phrenology and Physiology, commences a Course of four lectures, to-night, at the Temple, where he will interest and instruct all who give their attention. In a notice of his lectures the Manchester American says:—

Prof. Fowler has devoted all the energy of his master mind,—has given all the years of his life, to the study and elucidation of the laws governing the human system, and is therefore an authority. He has made the science of Phrenology his chief study, and stands without a doubt, the oldest, as well as the greatest and ablest expounder of the science now living.

His lectures are instructive and entertaining, and are every where received by the public with marked favor. If you would enjoy an intellectual feast, attend the whole course.

Prof. Fowler makes examinations at his office during the day, which are correct and valuable and which many of our citizens are availing themseves of. The afflicted should not forget that Dr. A. A. Wheelock is associated with Prof. Fowler, whose skill in locating, and success in the treatment of disease by *Electricity*, are acknowledged wherever his advice and practice have been employed. Consultations free at their rooms, Rockingham House.

☞ Mr. Robert L. Harris, civil engineer, of Boston, with several assistants, is now engaged in the work of making a thorough survey of the streets of this city, with a view to find the levels and determine the grade of the same, so that there need be no future guess work in mending our ways. This is a movement long discussed, and ardently desired by many of our citizens; and we trust will prove of as much benefit as is anticipated. The work is done by contract—of which we do not know the amount, though $1000 has been appropriated for the purpose. Mr. Harris is a native of Portsmouth, and comes recommended as amply competent for this work, or any other in his line.

☞ We are glad to see that the Aldermen have set Capt. Robert Shillaber at work, to prune up the trees in the streets, so that the gas-lights shall not be hidden. Their lower limbs have hung altogether too low for the comfort of persons riding under them, especially; and for pedestrians, in rainy weather. Shade trees are indispensable to the beauty of streets; but it is a great mistake to allow them very near a house, or to let their branches grow so low or become so dense as to obstruct the light, air and sun from freely circulating about dwellings or stores. This judicious pruning will add much to the appearance and fitness of things.

Messrs. Editors:—It would seem by your issue of Tuesday, that we—as the boys say—are to have "no Fourth July." Now we are slow to believe that our city fathers will let the day pass without any demonstration in remembrance of Independence, when old and young want something in advance of the old routine.

For one, we should like to a good oration, and should like to have something done for the amusement of the children.

If nothing more, our city government should make an appropriation for the purpose of getting up a Floral Procession. A large number of children would join the procession, and with the aid of your correspondent "H" the display would be a fine one. REP.

Editors Chronicle:—Your correspondent in a late paper, speaking of close fences around houses and gardens as being unsightly and selfish, has led me to enquire why it is necessary to maintain a fence between the Proprietors' burying ground and the Cotton burying ground? Surely no harm can come if the same is removed, so that the friends and relatives of those who repose there may have easy and pleasant access to their graves. It would add much to the beauty of the whole place to throw the whole open, and I trust it may be soon done, as strangers who visit our city often wonder why a cemetery should be partitioned off. Let them do so no more, but find that we have come to a better understanding in the matter of rural cemeteries. B.

ON THE RIVER.—A picturesque and business-like scene was visible at the end of "Long Wharf," Tuesday morning, at eight o'clock, in the departure at the same moment, of two brigs, four schooners and two river packets, with all sail set. The effect was very fine. A stranger in Venice might have concluded that Portsmouth was a great place for commerce. H.

☞ The Mayor called a special meeting of the Common Council, on Monday evening; but as he specified no particular business for them, the Board adjourned at once on meeting.

EIGHTH U. S. CENSUS.

The Assistant Marshal for taking the Census of the city of Portsmouth and Gosport will commence in Ward 1 on Friday, the first day of June, 1860; and in order to facilitate the object, it is expected that heads of families will fill out correct answers to the following interrogatories; by so doing they will save time and trouble to themselves and to the Asst. Marshal:

The number of families in the same house.
The name of every person whose usual place of abode, on the 1st of June, 1860, was in this family.
Their age.
Their color.
Profession, occupation, or trade of each person over 15 years of age.

Their age.
Their color.
Married or widowed.
Place of birth, naming the State, Territory or Country.
Month in which the person died.
Profession, occupation or trade.
Disease or cause of death.
Number of days ill.
Name of owner, agent or manager of the farm.
Number of improved acres.
Number of unimproved acres.
Cash value of farm.
Value of farming implements and machinery.
Live stock on hand June 1st, 1860, viz: number of horses, mules and asses, working oxen, milch cows, and other cattle, swine and sheep.
Value of live stock.
Value of animals slaughtered during the year.
Produce during the year ending June 1, 1860, viz: number bushels wheat, rye, Indian corn, oats, beans and peas, buckwheat, barley, Irish potatoes, sweet potatoes, lbs. of wool.
Gallons of wine, value of produce of market garden, pounds of butter, pounds cheese, tons of hay, bushels of clover seed, and bushels of flax seed, pounds of maple sugar, gallons of molasses, pounds of honey and beeswax, value of home-made manufactures.
Capital invested in real estate and personal estate in the business.
Name of corporation, company or individual producing articles to the annual value of $500.
Name of business, manufacture or product.
Capital invested in real estate and personal estate in the business.
Raw material used, including fuel.
Average cost of male labor;—average cost of female labor.
Annual product: qualities, kinds, values.
Wishing to complete the census as soon as convenient, we trust no unnecessary delay will be occasioned by any unwillingness or hesitancy in responding to the inquiries.
The information derived is solely for the use of the U. S. Government, and will not, under any circumstances, be submitted to inspection, either for the gratification of curiosity, private advantage, emolument, or to newspapers,—the Census Bureau retaining exclusive right to publish such facts as are deemed proper, after the returns are all collected. RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not beyond recovery decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*:—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*, and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

Morning Chronicle.

Religion—it is the bread of life. I wish we appreciated more livingly the force of such expressions. Why! I remember when I was a boy I could not wait till I was dressed in the morning, but run and cut a slice from the loaf, and all around the loaf, too, in order to keep me till breakfast; and at breakfast—if diligence earned wages, I should have been well paid; but then I could not wait till dinner, but had to eat again, and again before tea, and then at tea, and lucky if I did not eat again after that. It was bread, bread, all the time, which I ate and lived on, and got strength from. And so religion is the *bread of life*. You make it the *cake*. You put it in your cupboards, and never have it but when you have company, and then you cut it up in little pieces and pass it round on your best plates, instead of using it as bread, to be eaten every day and every hour.—*Beecher.*

THE ORIGINAL AND GENUINE

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

IS THE GREAT RENOVATOR OF THE

BLOOD.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.

These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA.

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a unhealthy saline diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE the BOWELS, and impart a new glow of vigor to the whole body

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from the disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.

Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine.—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and MERITORIOUS virtues. We speak, in this matter, "*what we know!*" and "*testify what we know by experience, and pledge our reputation for the fulfilment of what we utter.*" In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives toneand energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others, stand between your suffering* child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper

Sold by Druggists throughout the world. Principal Office, No. 8 Cedar st. New York.

Price only 25 cents per bottle.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this discovery, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, see No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, or INDIGESTION. See No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it never fails to afford instantaneous relief, when used in time. It acts as a charm, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE, they being dangerous. Regulate the bowels by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it stands alone as the only medicine in operation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflammation, regulating the Bowels, and Strengthening the Infant. As an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics and which other medicines for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL, the only one which is entirely harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, It Stimulates, Exhilarates, weak persons and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquor, have become debilitated, and their nervous systems shattered, constitutions broken down, and subject to that horrible disease, Delirium Tremens, Dyspepsia will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disgreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health to the pale cheek of the fair sex.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this disease is vitiated and made poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.

Its effects commence by deposition from the blood of corrupt or morbid matter, which in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions of various matter, which in which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from such complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this, every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring health and vigor. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health so speedily restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Loss of Appetite, Foul Stomach, Biliousness, Bilious Fever, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, no one, superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public have a right to expect the agent to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thru-t upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, TIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this medicine has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous and hysterical changes, and that complication of nervous and dyspeptic aversion to air and exercise by which the physician's skill is so often baffled.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operations of this preparation could not unnecessarily be salutary, for, unlike the old oxide, it is vigorously tonic, without being exciting and yet powerfully aperient, it is equally aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSENTERY, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Tenesmus.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most skillfully balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In ASTHMA, Dr. Mott's Pills are anodyne and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and relieving the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great comfort and encouragement to the and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, unclouded and decisive curative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

THURSDAY, MAY 31, 1860.

REV. MR. KALLOCH preached his farewell sermon to the Society at the Tremont Temple in Boston, on Sunday. The young people of his congregation presented him with $600, as a parting gift. The Atlas says "he leaves Boston to reside for the present in Leavenworth, Kansas, to act as chief manager and agent of the American Baptist Home Missionary Society. The friends of Mr. Kalloch in Boston have volunteered to contribute $75,000 to build him a church at any period that he will consent to return. It is not improbable that so liberal an offer will be accepted."

It is indeed a remarkably liberal offer; and it is remarkable that it should be made. But then Mr. Kalloch is a remarkable man in more senses than one. His felicitous use of language in his farewell sermon, is enough to give him the praise of eloquence, if he had not already received it.

And then a Grand Jury found a bill against him for adultery;—and the petit jury at the trial *disagreed*. He did not even get a verdict of acquittal.

Alluding doubtless to this, in his Sunday morning sermon, Mr. Kalloch, after mentioning that he had been pastor there five years, from the age of 23 to 28, and that the congregation is now on an average eight times as large as when he began, says:—

I wish also to record a fact no less important to me, or gratifying to some of you, that while the most merciless and malignant assaults have been made upon my reputation, I have never failed to receive the unanimous and hearty fellowship of the Church who knew me best, and that I leave you today with the cordial endorsement and recommendation of *all* my brother *pastors* in *Boston*, and commence my new work under the approving seal of the American Baptist Home Missionary Society.

You know that I have never doubted the result. You know how thick the storm and violent the assaults; whether dull men have sneered, or proud men scorned, or timid men blushed, or cautious men deprecated, or wicked men reviled, I have had no apprehension but that all would be well. I have learned by experience that by losses as well as gains, by coffins as well as *cradles*, by reverses as well as successes, God makes all things work together for the good of those that love him.

In another part of the Sermon, he says:

He has some regrets but no apologies.—He has done what he could to make the Church *respectable*, harmonious and worthy the fellowship of sister churches; he has done what he could to commend the magnitude of this work to the neighboring ministers, who can so greatly help or greatly injure it; he has done what he could to show the community that the unfaltering confidence of friends in the rectitude of his intentions and the purity of his character, was not misplaced; &c.

☞ Rev. Theodore Parker first called out the opposition of many professed christians, and especially many of his unitarian brethren, by the delivery of a sermon in South Boston, upon the occasion of the ordination of Rev. Mr. Shackford, in the early part of the year 1841. A single quotation from this sermon will indicate its character:—

"It has been assumed at the onset, it would seem, with no sufficient reason, without the smallest pretense on the writer's part, that all of its authors were infallibly and miraculously inspired, so that they could commit no error of doctrine or fact. Men have been bid to close their eyes at the obvious difference between Luke and John; the serious disagreement between Paul and Peter; to believe, on the smallest evidence, accounts which shock the moral sense and revolt the reason; and tend to place Jesus in the same series with Hercules and Apollonius of Tyana.

* * * An idolatrous regard for the imperfect Scripture of God's word is the apple of Atlanta, which defeats theologians running for the hand of divine truth. But the current notions respecting the infallible inspiration of the Bible have no foundation in the Bible itself.

LIBERIAN NATIONAL FAIR.—At last accounts from Liberia,—March 21—a national fair was in progress at Buchanan.—The contributions surpassed the most sanguine expectations. Remarkably fine specimens of sugar cane were exhibited; also, excellently manufactured indigo in cakes; dyes of various colors, in cakes from plants in the woods; oils of different kinds, white and clear, from wild fruit of the forest; in fact a great variety of excellent articles.—There were three bills of yams, one over 300 lbs., one 280 lbs., and the other over 200 lbs.

ACCIDENT TO SENATOR DOUGLAS'S RESIDENCE.—A violent storm which passed over Washington on Sunday, unroofed the mansion of Judge Douglas. The rain, which was pouring in torrents, damaged nearly every room in the house. Elegant carpets, furniture, valuable paintings, &c., were completely ruined. The matter is made worse owing to the fact that Judge D. is lying very ill with a throat disease.

CHIVALRY.—A couple of contemptible cowards and thieves, named Thomas Kirvan and James Keenan, were arrested in Boston, for knocking down Mrs. Elizabeth McMullen, an old woman, and robbing her of 50 cents and a walking stick!

☞ It appears from the Manchester papers that Mrs. Candis Howland, of Lisbon, who eloped with her husband's uncle, Silas Howland, has turned up at Manchester; and her husband, Isaac Howland, has taken her back to her father's house. They have one child, a daughter of sixteen years. A more singular case of infatuation and criminality rarely occurs.

The American says that Silas Howland left his wife a good farm and $4900 worth of other property, taking $4000 with him. Mr. Isaac Howland is also a wealthy man. The run-away Silas will hardly dare to go back and face the music, as he seems to be the chief offender.

☞ In the Superior Court, Boston, on Tuesday, the indictment pending against the ex-State Liquor Agent, Geo. P. Burnham, was *nol. pros'd* by the District Attorney, and Mr. Burnham is accordingly discharged from any prosecution which has been instituted against him in connection with the State Liquor Agency.

In the same Court, Edward W. Wilson and Samuel Goodman were tried and convicted on two indictments for larceny by means of playing the "confidence game," of sums of money from Benj. Burnham, a farmer belonging in Standish, Me., and from Rev. Oscar F. Shepard, a clergyman, also belonging in Maine. Wilson goes to the State Prison for six years; Goodman five years and ten months.

☞ In the S. J. Court, Essex Co., Mass., Wm. T. Clark of Lawrence, for maintaining a nuisance, plead guilty, and paid $88.14.

Ann Ward of Lawrence, violation of liquor law, plead guilty.

Hannah Durgin of Lynn, liquor nuisance, verdict guilty. Sentenced to 30 days in the House of Correction.

Asa Matthews of Lynn, common seller, plead guilty.

Wm. F. Hills of Georgetown, for violation of the liquor law, was brought into Court upon a capias, and ordered to give bail of $1000 for his appearance from day to day until his case was disposed of.

☞ Madame Bodisco's marriage at Washington, to Chaplain Scott of the East India Service, attracted crowds to St. John's Church. The President gave her away.—Twenty years ago, when she married Baron Bodisco, Henry Clay gave her away. By this second marriage she loses much of her property.

☞ Mr. E. Freeman Whitehouse, well known to the musical public as one of the most agreeable ballad singers of the day, is giving Concerts, or, more properly speaking, entertainments, — alone; and meets with good success, as he ought to, especially in the present dearth of entertainments of any sort.

☞ We notice in the Boston papers, that the valuable estate on School street, Boston, opposite the new extension of the Parker House, and in front of the City Hall grounds, about 20 feet on School street and 105 on Chapman place, covered by a substantial four-story building, was sold at auction to William Sheafe, Esq., for the sum of $41,000.

☞ The schoolmaster at Gloucester, who was originally tried before the Police Court and fined $1 and costs for grossly abusing and severely punishing a scholar, from which he appealed, has now been sentenced by the S. J. Court to pay a fine of $10 and costs, taxed at $46.85.

☞ South Carolina will not go into the Baltimore Convention, whatever other States that seceded may do. Mr. Perry, who declined to withdraw his delegation at Charleston, has written to Washington that he will have no further connection with the Convention, and abandons the Democracy to its fate.

☞ The Douglas papers say if Douglas is not nominated, Lincoln will be elected; the anti-Douglas papers say if he *is* nominated, Lincoln will be elected sure. The Republican papers are pleased to see the Democracy unanimous on one point, especially when that point is the election of the Republican candidate.

☞ The Philadelphia papers mention the death of a gentleman, from internal injuries resulting from over-exertion with dumb-bells. The Bath Times says it is not an uncommon thing for a gentleman to contract internal injuries—generally heart disease—from exertion with belles not dumb.

☞ The new Peddler Law of Maine makes it penal for travelling agents to sell goods "by sample"—and arrests the offenders and confiscates the goods to the State.

NORFOLK, May 28.—The Camden and Amboy railroad depot at Bordentown was burnt this morning, destroying two locomotives and ten cars.

☞ Mr. Covode's Committee are on the track of naturalization frauds in Pennsylvania in 1856, by which 6000 votes were manufactured, and Mr. Buchanan's election thus secured.

☞ The village of Monson, Piscataquis Co., Me., was nearly destroyed by fire on Sunday. Forty buildings, including the only church in the place, two public houses, post-office, stores, etc., were destroyed.

CONGRESS, MAY 29.

The SENATE took up the Homestead bill, when Mr. Johnson of Ark. moved that the Senate disagree on the House amendment. Carried—yeas 29, nays 20. All Democrats but Mr. Rice voted affirmatively.

The Post Office deficiency bill was discussed; also the Pacific Telegraph bill.

The HOUSE resumed the consideration of the Pacific Railroad bill.

A substitute was offered by Mr. Noell, that the road commence on the western border of Texas. Rejected.

After debate, in which Mr. Davis of Md. showed that the bill was impracticable, it was re-committed to the select committee by a vote of 100 to 87.

The House went into Committee of the Whole for general debate.

Mr. Washburn of Ill. made a speech reviewing the personal and political history of Abraham Lincoln, his votes in Congress, &c., and pronouncing him a man of great ability, a private citizen without blemish, and a public man without reproach.

WASHINGTON, May 29.—The act of re-committing the Pacific Railroad bill, together with the various amendments, to the Select Committee of the House today is equivalent to its postponement for the present session. The reasons for thus disposing of it, included the contrariety of opinions, as to the proper location of the road and the insufficiency of the conditions to secure the execution of the work by those on whom the franchises were to be conferred.

The House Committee on Foreign Affairs unanimously agreed to report the Senate bill appropriating $10,000 to Townsend Harris for negociating the treaty with Siam, which is intended as an acknowledgement of his valuable services to the commerce in the East.

The Present of the United Sates Agricultural Society to the Japanese, consists of 100 varieties of the principal cereals and vegetable seeds with their botanical designations. Each of the princes receive the silver medile of the Society, with their names inserted in their own characters.—The Japanese, for several days past, have been on a tour of inspection throughout the city. They were particularly interested: a large jewelry establishment, witnessing the manufacture of the finer qualities of gold and silver ornaments.

WASHINGTON, May 29.—Mr. Murphy of New York was to-day examined before the Covode Committee, mainly in reference to the alleged importation of fifteen hundred voters from New York to Connecticut at the recent election. He admitted having received a letter from Mr. Archibald, Chief Engineer of the Navy Department, through the Treasurer of the Democratic fund at Hartford, with a request to do what he might desire.

☞ In an article on the Chicago nomination, the New Orleans Bee says that "in thus acting, Black Republicanism evinced base ingratitude, but crafty, prudent policy. It has treated its founder most vilely, but it has added materially to its own prospects of success."

THE ROBIN, it is well known to every fruit-grower in the State, will destroy every cherry, take three-quarters of your strawberries, and make sad havoc with your currants and gooseberries. In fact, there is hardly a fruit that can be named, that they do not destroy to some extent. The most reliable agricultural papers in Massachusetts are denouncing the robins.—*N. Morse, in Newburyport Herald.*

TEMPERANCE AND SLAVERY.—*Rochester, May 29.*—The Old School Assembly voted to-day that on questions of temperance and slavery, no further action was necessary.

Buffalo, May 29.—The Methodist Episcopal Conference voted to-day on the first rule of the slavery committee, recommending a change of rule in the discipline on slavery. The vote stood—yeas 138, nays 74; not two-thirds required to adopt.

ST. LOUIS, May 29.—There was a violent hail storm at Lexington, Mo., last night, which did much damage to the fruit in that vicinity, and broke nearly all the glass in the city. Some of the hail stones weighed seven ounces, and split shingles on the roofs of houses in their descent.

☞ Alexander Moore, of Loudon, is in Concord jail, on suspicion of poisoning his wife, daughter, son-in-law, and a servant girl, by putting white lead in a barrel of flour. Circumstances are strong against him.

DIED.

In Boston, ALFRED M. BECK, Esq., aged 50 years 7 months, a native of Portsmouth—where he will be remembered by numerous friends, as a most exemplary and companionable gentleman.

IMPORTED VOTERS FROM CANADA.—In the Michigan contested seat in Congress of Howard vs. Cooper, the frauds shown in this case, may well make the good people of Detroit blush for the fair fame of their city. It appears that voters were imported by wholesale from Canada, boarded in the ward ten days, and then voted the Democratic ticket, swearing in their ballots. How do Americans like to be ruled by *British voters* in the employ of the slave power.—*Portland Adv.*

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

Special Notices.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
BETSEY SANBORN.
Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a SOOTHING Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whitemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirit, elasticity of muscle. I have no doubt, that in case of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and have remained so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at the rooms, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m13

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

Messrs. Editors:—In your answer to my communication on the cattle disease, County Fair, and Fourth of July celebration, you wish to know why I do not "guarantee $500 for the 4th, so that we can be sure of both celebrations." As we have no incorporated society for producing celebrations, that we could guarantee $500 to, (as is the case of the County Fair,) we do not see how we can very well make any such offer. Two years since we guarantied to the city to raise $300 towards a 4th of July celebration, providing they would appropriate as much. The required sum was raised, with an addition of $150. We are ready to do the same thing this year, if the City government will come forward and assist in the matter.

It was estimated, when we had our last celebration, that eight thousand strangers visited our city. It would be safe to say that the money they left here, would not average less than one dollar to each person, making the snug little sum of $8000, which would be no little help to business, these dull times—to say nothing of the money appropriated and subscribed, most of which is expended among our mechanics and storekeepers.

By the way, we see a petition is in circulation, headed by some of our heaviest tax payers, requesting the city to appropriate $500 towards celebrating the 4th. H.

☞ It is a sort of general opinion, that Banks make lots of money; but a working man can hardly see at what time they employ themselves about it. When we come to the office in the morning, they are all closed; they are not open as we go to and return from breakfast; ditto at dinner-time; the same at supper; and "they never work evenings." But a "short" friend of ours says he finds them open enough, when he gets a Lowd "invitation to dinner" there, as he does astonishingly often. But complain as such guests may, of their fare; they would growl yet more if they were not invited at all.

☞ Our city fathers (or rather the grandfathers in the "upper house,") having refused to appropriate the paltry sum of $300 for celebrating the 4th of July; a petition is being circulated by gentlemen interested, asking for an appropriation of $500 for this purpose. It seems as if the voice of the people, which appears to be clearly in favor of such an investment—ought to be heeded by their representatives, whatever the personal preferences or opinions of such agents may be.

KNOW THYSELF.—The opening Lecture of Prof. Fowler's course was given at the Temple last evening. The subject was Phrenology as a science; and much valuable information was given—new to many, interesting to all. The particular topics, or details of the science, to be treated of to-night, will be seen in the advertisement.—The audience was a good one.

Prof. Fowler makes examinations at his office during the day, which are correct and valuable and which many of our citizens are availing themseves of. The afflicted should not forget that Dr. A. A. Wheelock is associated with Prof. Fowler, whose skill in locating, and success in the treatment of disease by *Electricity*, are acknowledged wherever his advice and practice have been employed. Consultations free at their rooms, Rockingham House.

WASHINGTON, May 30.—Gov. Seward arrived here last evening, and was called on by numerous friends, who found him in good spirits, and cordially endorsing the Chicago nominations.

Since the Japanese have been left more at liberty they are better contented, and will probably wait for the Niagara to be repaired, in which case they will visit Niagara Falls and Boston.

The Judiciary Committee of the Senate have agreed on a bill compelling the attendance of witnesses summoned by committees of either House.

The government has intelligence of the capture of another slaver off Cuba, by the steamer Crusader, Lt. Maffit. She had 450 slaves, and was sent to Key West.

The bill for the admission of Kansas is specially assigned for to-day. Mr. Sumner will make an elaborate speech on the subject on Monday.

WILMINGTON, N. C., May 29.—The steamer Kate McLaurin for Fayetteville, burst her boiler at 4 o'clock this morning near Elizabethtown, killing Captain Evans and two deck hands, and scalding the fireman and others. The cargo and merchandise, which was for the interior, is a total loss.

A Republican paper says "there is electricity in the Republican cause." A sensitive cotemporary remarks, that if there is not now, there will be in November, when it will be struck by Democratic lightning.

☞ It has been ascertained that the week's "washing" of the seventy Japanese is five hundred pieces, and that the dignitaries wear under garments of raw silk, while those of the retainers are of cotton.

TO E. AND G.,
ON LEAVING FOR PORTSMOUTH, N. H.

When shall we three meet again—
When shall we three meet again?
We will meet when the storms and rain
Of Autumn come, and the winds go by
Our dwelling with a fearful cry,
And shake the red leaves from the trees;
And when they say that the year must die,
Amongst their dreary harmonies,
We'll mingle a wild but livelier strain,
And sing, "We three have met again."

When the autumn nights are long,
We will sing some pleasant song;
You, my friend, whose silver tone
Makes Music's every voice your own,
You shall pour your richest numbers,
And 'wake the silent night from slumbers;
And Waverley Place shall then once more
Resound with music as of yore.

For me, I do believe that we
Shall meet again in after days;
Again I shall, I doubt not, see
The smile I loved so well to praise,
And touch the roses of those lips;
And in the splendor of thine eye,
Now shrouded in a bright eclipse,
Bask as beneath the sunny sky.

I would not lose the thought that flies
By me, that I shall see thee, dear,
In the bright bowers of Paradise,
As sweet (no more) as thou wast here,
For all the promised joys that man
Hath gathered from the Ottoman.

But time may come with all its blights,
The ruined hope, the friend unkind,
And love, that leaves, where'er it lights,
A chilled or burning heart behind;
While youth, that now like snow appears,
Ere sullied by the dark'ning rain,
When once 'tis touched by sorrow's tears,
Can never shine so bright again.

Oh, guard affection, nor let it feel
The blights of time that dim, congeal.
Faith will not fade, hope be o'ercast,
While affection's bloom shall last.

New Orleans, April, 1860. X.Y.Z.

NEW YORK May 29.—Dates from Havana by the Quaker City are to the 25th. Fires had been prevalent near Trinidad, injuring many of the plantations, among which were those of the Carajel and Magnana. Total losses will reach nearly $200,000.

The sch. Josephine, which sailed from this port on the 17th, and returned yesterday dismasted, has been seized as a suspected slaver. Her captain, James Carter, has been arrested.

GREAT HUMBUG.

The idea that any one can sell CLOTHING FURNISHING GOODS **cheaper** than

MOSES & DOWNIE,

is a great humbug. They buy their Goods in large quantities, and manufacture them under their own supervision. Therefore, no one can compete with them in low prices, who have to buy their Clothing Ready-made.

We have the largest and best Stock of **Ready Made Clothing & Furnishing Goods** ever offered in Portsmouth; and at the LOWEST PRICES. The whole of which must be disposed of lower than ever before, in order to reduce our immense stock.

It would be impossible to enumerate the different articles in our Store, but we would say that we have COATS varying in price from

50 CENTS TO 15 DOLLARS!

and PANTS from

50 CENTS TO 7 DOLLARS!

We have also the largest and best assortment of

Cloths, Doeskins & Cassimeres,

Both plain and fancy, that can be found this side of Boston, which we will

Make to Order in the Very Latest Styles,

AT A VERY LOW PRICE.

We might go on and fill a paper with a description of our goods, but that would not satisfy the public mind nor clothe their backs. If there is any one inclined to doubt our statement, let them call at our store, and they will doubt no longer. The large patronage we have received is proof of our assertion. We have also any quantity of goods for Men's and Boys' wear, to sell by the yard. Also

Hats, Caps, Boots, Shoes, Trunks, Valises, Umbrellas, Carpet Bags, And Oil Clothing,

and anything needed to make a man comfortable in feeling and respectable in appearance; and what is best of all, it takes but little money to do at the BIG CLOTHING WAREHOUSE of

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fluttering, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*, and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

GROVER & BAKER'S
Celebrated Family Sewing Machines.
FOR FAMILY USE.

From the very flattering manner in which our Machines have been received by the public, resulting in the sale of

35,000,

we are led to believe that our endeavors to manufacture a RELIABLE MACHINE have been appreciated. We take this opportunity to remark that the policy will be unchanged, and that

THIRTY DIFFERENT PATTERNS,
Adapted to every variety of
FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]

Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in saying that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]

My wife has had one of Grover & Baker's Family Sewing Machines in use for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]

My wife has been using one of your Sewing Machines for the last three months, and pronounce it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable.—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.
Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Dunst street, see the operation of Grover & Baker's machine, and then place one in your family. They will never connect to part with it, after they understand its operation.
CHARLES W. BREWSTER.

"Zion's Herald," Nov. 26th, 1858, says,—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*

CHILDREN TEETHING

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have never been able to say of any other preparation, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *what we do know*, after ten years experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England, and has been used with never-failing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the safest and surest REMEDY in the world, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, or the prejudices of others, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used.* Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal Office, No. 2 Cedar st. New York.
Price only 25 cents per bottle.

BLOOD FOOD.
Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these, or rather, and you are made well. The "BLOOD FOOD" is founded upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERTASK, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for shipping, we have put up, and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

MOTHERS,
Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it never fails to *afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only reliable preparation now known for CHILDREN TEETHING, DIARRHŒA, WORMS, FLATULENCY, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, and Reducing Inflammation, regulating the Bowels, and relieving pain, it has no equal. As an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or Fits*. As you value the life and health of your children, and wish to save them from those sad and blight-ed consequences which are certain to result from the use of narcotics of which other preparations for Infantile Complaints are composed, take none but EATON'S INFANTILE CORDIAL. Remember this you can *rely upon*. It is perfectly harmless, and cannot injure the most delicate infant.
Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.
This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.
Persons, Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other diseases arising from Debility of the Stomach and Bowels, in a speedy manner.
It will instantly revive the most melancholy and depressed spirits, and restore the weak, nervous and sickly to health, strength and vigor.
Persons, who, from the injudicious use of liquors, have become debilitated, with nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!
DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Wind Colic.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wine or Intoxicating Liquors.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.
NIGHTLY DISSIPATION.
Persons who, from disgusting too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.
Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and active, and remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the cheek.
During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.
All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint Bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial diseases, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.
Its effects commence by deposition from the blood of corrupt or foreign matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions and sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from manifold complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by diseases which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain and, indeed all of the organs arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous;—their persons are invaded by this loathing infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can offer for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the restoration of health from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as
ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, HUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA, OR THE DOLOREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from INPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vigor. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health restored by a remedy at once so simple and inviting.
Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Headache, Foul Stomach, Dysentery, Dropsy, Piles, Rheumatism, Eruptions and Skin Disease, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Female Weakness, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral
FOR THE CURE OF
COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.
So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.
The experience of thousands daily prove that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:
In DEBILITY, NERVOUS AFFECTIONS, EMACIATION, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, FIMPLES ON THE FACE, &c.
In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhood, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and the exhaustion of nervous and dyspeptic aversion to air and exercise for which the physician has no name.
In NERVOUS AFFECTIONS of all kinds, and for persons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for both are of the old class, it is vigorously tonic, without being exciting, and over-heating, and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.
It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.
In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.
In unchecked DIARRHŒA, even when advanced to DYSENTERY, confined, exceedingly and apparently malignant, the effects have been equally decisive and astonishing.
In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has proved a blessing to friends and physicians, in several very gratifying and interesting instances.
In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.
The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.
In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.
In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative; and the prospect in the new settlements of the West, will probably be one of high renown and usefulness.
This remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

ETIQUETTE OF EQUITATION.—When a gentleman is to accompany a lady on horseback:—

1st. There must be two horses. (Pillions are out of fashion, except in some parts of Wales, Australia and New Jersey.)

2d. One horse must have a side-saddle: The gentleman will not mount this horse.—By bearing this in mind, he will soon find no difficulty in recognizing his own steed.

3d. The gentleman will assist the lady to mount, and adjust her foot in the stirrup. There being but one stirrup, he will lean upon which side to assist the lady, after very little practice.

4th. He will then mount himself. As there are two stirrups to his saddle, he may mount on either side. But by no means on both. At least not at the same time. The former is considered the most graceful method of mounting. If he has known Mr. Rarey he may mount without the aid of stirrups. If not, he may try, but will probably fail. Should he wish to display a sportive eccentricity, he may climb up the animal's tail.

5th. The gentleman should always ride on the right side of the lady. According to some authorities the right side is the left. According to others, the other is the right. If the gentleman be left-handed, this will of course make a difference. Should he be ambidexter, it will be indifferent.

6th. If the gentleman and lady meet persons on the road, these will probably be strangers. That is, if they are not acquaintances. In either case, the lady and gentleman must govern themselves accordingly. Perhaps the latter is the evidence of highest breeding.

7th. If they be going in different directions, they will not be expected to ride in company. Nor must these request those to turn and join the others. And *vice versa*. This is indecorous and indicates a want of *savoir vivre*.

8th. If the gentleman's horse throw him, he must not expect him to pick him up—Nor the lady. But otherwise the lady may. This is important to be borne in mind by both.

9th. On their return, the gentleman will dismount first and assist the lady from her horse. But he must not expect the same courtesy in return.

10th. There are three ways of dismounting a lady. First, with the hand and knee. This is the way-respectful-and-ceremonious. Second by receiving the lady in your arms. This is the way-gallant-and-tender. Third, by presenting your shoulders, and carrying the lady to the door or vestibule, "pick-a-back." This is the way-humorous-and-familiar.

N. B.—These rules apply equally as well to every species of equitation; as well as poney-riding, donkey-riding, goat-riding, rocking-horse-riding, or "riding on a rail." There will, of course, however, be modifications required, according to the form and style of the animal.

Exception—There are special rules adapted to equitation on Shank's Mare. They will be found in the appendix.—*Vanity Fair.*

CHILDREN TEETHING

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can in *confidence and truth* of it, what we have never been able to say of any other medicine.—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *what we do know*, after ten years experience, and *pledge our reputation for the fulfilment of what we here declare*. In short, in every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives to the child health and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SURE REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used.* Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal Office, No. 48 Cedar st. New York.

Price only 25 cents per bottle.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by increasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

FRIDAY, JUNE 1, 1860.

THE VIOLENCE OF PARTY POLITICS.—The partizan presses of the administration are regaling their readers with all sorts of abuse of the Republican candidate for the Presidency. They have discovered that Seward should have been nominated instead of Lincoln, and we suppose the ammunition which was ready to be fired off had Seward been nominated, is dead property, and the guns spiked. New blunderbusses will be brought forward, however, and the old party hacks and the party press will make a tremendous racket, but it won't amount to much.

On the other hand, as soon as the Baltimore Convention have decided upon their candidate, the Republican press will commence the work of detraction—and between the two, the Boston Herald says, there is not much choice. But the people care nothing for this kind of warfare. The party which comes nearest to the honest, fair thing, will get the votes and will succeed.

But it appears certain, says the Herald, the violent disunionists of the South will, in the end, get laid out cold, and the country will move on in its accustomed course, without stopping to inquire about or in any way feeling unhappy at the noise and bluster which these men may attempt to make.

THEODORE PARKER died most peacefully and tranquilly. He had been dreamy for some days, and talked ramblingly of two Theodore Parkers, one in Florence and one in Boston, who would finish his work.—Among his last well-connected words were these—"Of course you know I am not afraid to die, though I wished to live and complete much work which I longed to do. I had great powers committed to me, and I have but half used them."

He left written directions for his funeral, limiting the number to attend him to the grave, to five persons. Many Americans in Florence expressed their wish to appear as mourners, but it was thought right to abide by his instructions. He desired the eleven first verses of the Sermon on the Mount (the blessings of Jesus,) to be read over his grave; and then a plain gray stone, with his name and age, and nothing further of inscription. Mr. Cunningham, a Boston Unitarian minister, read the passage; he is a sincere friend and admirer of Parker's.

It is reported that his Library, one of the most valuable private collections in the country, consisting of more than 30,000 volumes, has been bequeathed to the city of Boston, to be deposited in the Public Library.

☞ Many cows have died recently, in Portsmouth, Greenland, Exeter, Hampton, and other towns about here; as well as in Hillsborough, Antrim, and other parts of State. But though there may be cause for inquiry if not for alarm, yet so far as we know, no competent authority has decided that there has been any case in New Hampshire, of the disease now raging in Massachusetts, except the two cattle carried from Massachusetts to Hillsborough.

And the Commissioners in Massachusetts have reported that they have found no case there in which they could not trace direct contact with the herd in which the disease first appeared. It is bad to have the cattle die, but it is worse to be scared without cause.

☞ A young man named Lucius H. Hall, employed in New York, went into the office exhibiting such a singular manner that his employer advised him to take a walk in the open air. He went out, and in about an hour was found lying in the entry, dead.—The cause of his death is unknown, but it is supposed was occasioned by grief, as a small paper was found in his bosom containing a few blades of grass, and bearing the inscription, "From her dear grave, for Lucius." The deceased was a young man of about thirty years, and said to be a native of Keene, N. H.

☞ Rev. Dr. Goodell writes from Constantinople that the mission with which he is connected is laboring under severe pecuniary troubles. He says: "It is almost thirty-eight years now, since I first left my native country to be a missionary in the East; and during all this these years of conflict and toil, we were never reduced to such pecuniary straits as we are now. 'Man of Israel, help!'"

☞ A telegraphic dispatch of a day or two since, married Mr. Bodisco, at Washington, to *Chaplain* Scott of the Indian Service. It seemed droll, though, for an Anglican Chaplain to marry a lady of the Greek Church. It turns out that her husband is *Captain* Scott, of the British Army, who appeared in full uniform.

CONCORD, N. H., May 31.—At a meeting of stockholders of Northern Railroad, the old Board was unanimously elected Directors, viz. Onslow Stearns, John A. Burnham, Geo. W. Nesmith, U. Crocker, Josiah Minot, Joseph W. Clark, Geo. A. Kettell.

ALE DRINKING IN PORTLAND.—The Temperance Journal has a statement of the alarming increase of ale drinking in Portland. A similar discussion will apply to some other cities:—

It is perfectly amazing to go round in the evenings among our saloons, and see the hosts of young men who are swilling down the miserable concoction called ale.—And the worst of the case is, that this wretched business is most obviously on the increase. Step into almost any saloon in the city from seven to ten o'clock in the evening, and they swarm with customers beyond the power of the attendants to meet their demands promptly. Whole squads have to wait for their predecessors to be supplied, before they can be attended to; and thus it is through the whole evening up to a late hour. We wish the fathers and mothers of this city had the gift of prescience, that they might see, for one evening, where their sons are and what they are doing, and we think there would not be so much indifference in relation to the subject of intemperance amongst them, as there manifestly is.

The present state of things in this city, especially among the young, ought to alarm every friend of sobriety and virtue. If it could be known how many barrels of ale and beer are drank every night in this city, it would astonish anybody, and we are sure it would alarm as well as astonish every well-wisher of our community. That this course of things will produce a large crop of drunkards, no man need be told, who has made himself acquainted with the history of ale and beer drinking, the pretence to the contrary among those who fill their pockets from this traffic, notwithstanding.

Everybody knows, who knows anything about the matter, that the claim set up, that the true way to promote temperance is to substitute some of the weaker alcoholic drinks for the stronger, is a sham and a cheat, a mere device of the devil to trap and snare the unwary. Nothing is more conclusively established by the experience of the past, than the fact that the weaker drinks form an appetite which can be answered only by the use of the stonger.

INTEMPERANCE IN FRANCE.—Unhappily there is an agent far more direct and active in the degradation of the nation, than either taxation or extravagance. No one who has made a tour of curiosity around Paris can have failed to make the discovery. Here for at least three days in the week he will find from twenty thousand to thirty thousand of the most dissolute of both sexes, occupied in drinking and debauchery of the worst kind in temperary liquor shops.

The increase of licensed retailers of wines and spirits throughout France has been rapid since 1830. Then their existed but 250,000, now their are upwards of 350,000, an increase of 100,000 in twenty years, and of 20,000 in the last three years, under the Republic. This augmentation has been among the lowest class of cabarets, of which there has been an increase of 70,000 within nineteen years, paying a license of only six francs each.

Were Bedzebub permitted to select an agent for the demoralization of humanity, he could not find one been adapted to his purpose, than that which is sanctioned by the Government of France.

In Paris it is estimated there are 17,000 habitual drunkards of the most brutal character. The Mayor of Paimpol, in his official report, says:—"I affirm that the greater part of the paupers of this town owe their misery to the excess of drinks, particularly brandy; that almost all the disorders and crimes which have come before me have been committed by persons either drunk or given to intoxication."

Such evidences should destroy the common delusion that because light wines are cheap in France, intoxication is rare.—Brandies of the most deleterious natures are equally cheap and more generally used.

The Government actually encourages the consumption of ardent spirits by public lectures. M. Payen, Member of the Academy of Sciences, in his fifth lecture on Public Health says:—

"Brandy in itself constitutes a beverage either very dangerous or very beneficial.—Alcohol taken pure is a violent poison;—mixed, on the contrary, with water, it is an extremely healthful drink."

In the department of the North there are nearly 18,000 dram shops, averaging one to every sixty-four inhabitants. So says the Constitutionel newspaper of the 10th of April.

CLOAKS, CAPES AND MANTILLAS.—Our enterprising young friends, Allen & Paine, greatly extended their business in this line the present season, and are now probably more extensively engaged in the manufacture of these garments than any firm in New England. Their manufactory, in which one hundred and thirty young ladies and thirty mechanical sewing machines are employed, is a perfect hive of industry; and as they receive all the latest styles and patterns, their sales rooms (in Portsmouth and Boston) are real emporiums of fashion. They turn out from six hundred to a thousand garments a week, we are told, and the market for them extends from New Orleans to the Canadas. The Ballot well says the men who introduce into any place a manufacture which gives employment to its citizens and adds to its prosperity, are true public benefactors; and we are happy to know that in this case the enterprise is richly rewarding its conductors.

☞ A trot took place at Bangor, Me., on Tuesday, between Hiram Drew and St. Lawrence, mile heats, best three in five.—The Drew horse won the 1st, 2d and 4th heats in 2:45, 2:48, 2:46. St. Lawrence won the 2d in 2:46.

☞ An Adjourned meeting of the *Rockingham Temperance Society* will be held at Epping, on Wednesday, June 12, at 12 o'clock, noon. T. H. MILLER, *Sec.*

"UNDER WHICH KING?"—To satisfy the oft-repeated queries of the Ballot, as to "whose principles and opinions the Chronicle does maintain and defend;" we will just take a sentence from our prospectus:

The Chronicle will owe no allegiance to any party in politics, nor to any sect or faction on other subjects, but be entirely independent of all—ever ready to express *its own* untrammelled opinion on any and every topic, and to give all current news without any coloring to suit circumstances.

It is, in fact, the people's organ—and that of *no body* else.

The Ballot speaks of "the Chronicle of Monday, having four days' travail over a squib in the last Ballot," &c., Well, we did travel some, having been to Concord and back, meantime; but we did not receive or see a Ballot until our return.

NARROW ESCAPE.—On Thursday afternoon, three boys procured a wherry and went down the river as far as Fort Constitution, where they went ashore, and two of the party concluded to walk home, leaving one to row the boat back. They strolled about for a while and then parted. Upon returning to the boat it was found to be nearly half full of water, and as it was raining fast, and having no facilities, Charles concluded not to bail it out, but make the best of his way home. He pulled hard and long, the water filling his craft rapidly, but by good management, he succeeded in gaining the wharf; and on stepping out the boat sank immediately. *

☞ Of all the accessions which go to make up the beauty of our location, our harbor is by no means the least. In the summer it is our common, our pleasure ground, our favorite place of resort.

Within a short time we have been favored with a view of a beautiful picture of our harbor, in the shape of a large painting executed by Edward D. Coffin of this city.—The painting gives a correct view of Fort Constitution, Whale's Back Light House, the Fishing Islands, and with the beautiful yacht "Viking" entering the harbor. REP.

☞ Portsmouth is to lose a valuable young man, in the removal of Mr. Joseph B. Knowlton to Keene. He is one of our long-established young men, having been with Richard Jenness eight years, and with his successor Geo. L. Treadwell ever since he has been in business, which is eight years more. Thus for sixteen years he has been well and favorably known to the frequenters of the old place of business, where, by his uniform courtesy and prompt attention to customers, he has won hosts of friends.—We trust prosperity will attend our friend wherever he goes. He has the qualities which conciliate the fickle goddess. REP.

BOSTON, CONCORD AND MONTREAL RAILROAD.—The annual meeting was held at Laconia, 28th. The following gentlemen were elected Directors: John E. Lyon, Holmes Hinkley, John A. Parks, of Boston; John T. Coffin, J. P. Pitman, of Laconia; Alex. H. Tilton of Sanbornton, and John L. Rix of Haverhill, N. H. Hon. Josiah Quincy of Rumney, who has been President since the commencement of the road, declined reelection; and John E. Lyon of Boston has since been elected President.

☞ The circus-goers in this vicinity are likely to fail of a part at least of their usual annual entertainments this year. Two travelling companies have already passed near us this season, and managed to steer clear of Portsmouth—where it is said the charges for license, field, and keeping for man and beast, are higher than elsewhere generally. A number of our citizens visited Exeter on Thursday to attend Niblo & Sloat's N. Y. Circus.

☞ An extra train will run on the Concord & Portsmouth railroad on Thursday next, June 7, leaving Portsmouth 6:45 A.M. and returning will leave Concord at 5:40 P. M., thus giving those of our citizens who desire to witness the imposing ceremonies of the inauguration of Gov. Goodwin, and the parade of the Horse Guards, an entire day in Concord. Should this day prove favorable, it is probable that at least two hundred persons will avail themselves of this opportunity.

The "Second Advent" people who expected an end to all things several days ago, have again been disappointed. Some in the rural districts have concluded to plant their farms and try to "wait a little longer."—*Ballot.*

A sensible conclusion—and exactly in accordance with Christ's command, to "occupy till I come."

☞ Our friends of the Ballot are getting hyper-critical, not to say hypo-critical. We were aware of the definition of "invincible," having inscribed it on the Chronicle's banner at the outset—and also used it advisedly in reference to Ethan Allen's second late defeat. It is as well to pass hastily-written newspaper sentences, as to attempt to parse them.

GOLD IN VERMONT.—The Bellows Falls (Vt.) Times says that it is getting to be quite a busy time among the Vermont gold hunters.

CONGRESS, MAY 30.

SENATE.—Mr. Seward in his seat, and warmly greeted.

The Pacific overland mail bill taken up. Mr. Latham offered an amendment authorizing the P. M. General to contract between St. Joseph, Mo., the Great Salt Lake, and Placerville, for a semi-weekly mail, in twenty days, at not more than $462,000 annually; also, to contract for the transportation of printed matter and franked documents by steamships, at not over $400,000 per year; also to contract for daily mail coaches from April 1st to Dec. 1, and tri-weekly for the balance of the year from Sacramento to Portland, Oregon, at not over $100,000 per annum; also, to contract for a weekly mail from St. Paul, Minnesota, to the Falls of Oregon, at not over $200,000.

Mr. Latham explained the provisions of the amendment, and spoke at length in favor of the Butterfield Overland route, thinking that Congress possessed no right to terminate the contract, except by the exercise of despotic power.

Mr. Chandler rose to a question of privilege. He found in the Globe of yesterday language attributed to the Senator from Indiana (Mr. Fitch), in which he characterized him (Chandler) as a Xantippe in pants, and accused him of gross ignorance. He had not heard the language, but if it was used, it showed that the Senator was incapable of appreciating the position which he, by *accident*, held on this floor.

Mr. Fitch avowed the language, and still thought it appropriate.

Mr. Chandler said that when the Post Office bill again came up he would discuss it, and the question of ignorance would be then determined.

The Overland bill was postponed till Saturday.

The House bill for the admission of Kansas was taken up. Mr. Collamer made some remarks in advocacy of its passage, when it was postponed till Monday.

The Oregon war debt bill was then taken up, and Mr. Lane defended it as just and proper. Other Senators spoke on the subject, and Mr. Hunter moved an amendment authorizing a loan to pay the amount. Lost—yeas 12, nays 35.

An amendment, that all money paid under the provisions of the act shall be to persons who actually did service, and not to assignees, was agreed to, and the bill passed—31 against 17. It appropriates $3,400,000.

THE HOUSE passed a bill for removal of arsenal at St. Louis to Jefferson City.

Passed bill providing that invalid pensions shall commence from date disability—the object being to place all army and navy pensioners on an equality. It will require a million and a half dollars to pay arrearages.

The Homestead bill was reported back from the Senate. The House insisted on its amendments, and asked a Com. on Conference.

Mr. Haskin, from the Committee on Printing, reported a series of resolutions—that hereafter no person shall be elected Printer to Congress who is not a practical printer, and with a fair reputation for skill and ability—that the printer to either House shall give bonds in $25,000—and reducing the present prices 40 per cent.

A minority report was read, concluding that Mr. Ford's contract with Larcombe & English is in violation of the act of Congress, and declaring the office of Printer to the House vacant.

Mr. Gurley advocated a bill for the establishment of a government printing office, and Mr. Copton opposed it.

PONY EXPRESS.—MAIL POUCH CARRIED OFF.—*St. Joseph, May* 30.—The Pony Express arrived last night, but brought no California mails, supposed to have been intercepted by the Indians. The only matter brought is from Salt Lake, which place it left on the 24th inst.

The following note was made by the agent on the Salt Lake way bill:

"Rider just in. Indians have chased all the men from the station between Diamond Spring and Carson. The pouch in which the express matter was carried was lost."

The Indians are reported to have killed two riders on the last trip.

THURSDAY, 31st.—*House.*—Mr. Reynolds, from Judiciary Com. reported back the amended Senate bill providing for returning captured Africans. There are 1600 Africans at Key West, and it is important the bill should pass soon.

Mr. Smith of Va. did not want to force the negroes back; he would rather allow them to remain here.

Mr. Reynolds would call up the bill on Monday. The House took up Printing Reform Bill.

☞ Elias Taylor, of Exeter, convicted of perjury at the late term of the S. J. Court in that town, and sentenced to three years in the State Prison, was pardoned out by the Governor and Council at the end of three weeks—in compliance with a petition numerously signed by prominent men in the County, who knew the circumstances of the case, and were sure the offence was rather technical than real.

NEW YORK, May 30.—A mass meeting of the friends of Houston for the Presidency was held last evening in Union Square. It was attended by several thousand persons. Dr. Stephen Hasbrouck presided.

A CHANGE.—Collector Jenkins has removed Oliver P. Tucker, formerly Keeper of Whale's Back Light House, and appointed Mr. —— Abbott to the place. A committee of visitation having waited upon Mr. T. without giving him previous notice of the honor intended him, caught him *off his guard*, and hence the result.—*Ballot*

☞ A fire in Haverhill, Mass. Wednesday night at 12 o'clock, burnt three houses and two barns. Loss $3200, insurance $1200, The fire was caused by leaving a ham to smoke in a flour barrel.

☞ There is a disagreeing action in the House and Senate on the Homestead bill. It is under consideration in joint com. of conference.

ROCKINGHAM CONFERENCE.

The Rockingham County Conference of Congregational and Presbyterian Churches, will meet with the church at Epping, (Rev. J. H. Stearns',) on Tuesday, the 12th of June inst., at 10 o'clock A. M., and continue in session two days. Preacher at the opening service, Rev. H. McLeod.

This Conference is composed of the pastor and two delegates from each church.—At this meeting the statistics of each church will be given, with accounts of the state of religion and morals in the several towns.

There will also be reports or addresses from the several Committees, on Bible, Mission, Tract, and Sunday School operations. And the Rockingham County Temperance Society will hold an adjourned meeting at the same place on Tuesday.

The exercises will be closed on Wednesday afternoon by the administration of the Lord's Supper.

CITY COUNCIL, MAY 31.

IN BOARD OF ALDERMEN, M. Fisher & Co. applied to purchase the Pond west of Creek Bridge. Referred to Com. on Sts.

Jos. T. Weeks was appointed Supt. of Pleasant St. Burying Ground.

A joint Committee was appointed to examine and report what alterations are necessary in the heating apparatus of the High Schools.

It was voted to place a belfry and firebell on Cabot St. School House,—which will probably cost $500 or more.

A communication asking increase of Firemen's pay, from $7 to $10 per year, was referred to joint Com. on Fire Dep.

THE COM. COUNCIL passed a bill asking amendments to City Charter, so as to give the City Council the power of appointing officers—the Mayor to have no vote except in case of tie. The Mayor to appoint Marshals, and the Council to have power to remove any officer, and fill his place.

The joint Com. on Burying Grounds, to whom was referred the vote concerning Dogs,—reported in favor of authorizing the Marshal to collect $3 fine from the owners of each dog not licensed—half to go to the Marshal; and the Marshal to receive 50 cts. for each dog killed and buried. Report adopted, and said Committee authorized to draw up an Ordinance embodying the same.

☞ The New Hampshire General Association of Congregational and Presbyterian Ministers, will meet at Claremont, Tuesday, Aug. 28, at 10 o'clock A. M.

For the first time, there will be a lay delegation from every section of the State, connected with local associations or conferences.

☞ The New Hampshire Convention of Universalists will meet on Wednesday, May 20, at Newport, and hold meetings two days, Wednesday and Thursday.

☞ Rev. Lyman Marshall has accepted a call from the Christian Mission Church and Society of Manchester, to become their pastor, for the year ending with March, 1861, and will commence his labors at the mission chapel next Sabbath.

THE JAPANESE EMBASSY.

The Japanese Commissioners have at length arrived in Washington, and everywhere great excitement exists concerning them. "When will they be in New York," and "how long will they remain," are universal inquiries. For our part, we cannot answer exactly. Old and young, rich and poor, are alike "calculating" the chance of catching a glimpse at them. How many will be gratified, we know not. Our private opinion is, however, that there is a far better "chance" of drawing a good, solid prize in one of Messrs. WOOD, EDDY & CO.'S *legal* Lotteries than of obtaining a close view of the Japanese dignitaries. All that is necessary in the one case, is to enclose to these gentlemen at Wilmington, Delaware, or St. Louis, Missouri, $2,50, $5,00, $10,00, or $20,00, and the part, or whole ticket will be returned by next mail. The capital prize is $70,000.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

DETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in case of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine, to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

W. A. BACON, Teacher of Detroit Select School.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Decker, Greenland; and dealers everywhere. spnot 4wd&w

FINE PIANO AT A BARGAIN.

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—
Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street**; at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*; and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

THE ORIGINAL AND GENUINE

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

IS THE GREAT RENOVATOR OF THE BLOOD.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Disease.

These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a unwholesome diet, or any other cause; this Compound Extract of Sarsaparilla, will rouse the *blood*, carry off the putrid humors, cleanse the Stomach, REGULATE THE BOWELS, and impart a glow of vigor to the whole body

TO THE PUBLIC

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of ingredients PURELY VEGETABLE, and WITHOUT MERCURY; and also, that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D., CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this it owes its world-wide renown.

It contains all the vegetable principles which experience has proved essential in cleansing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable to employ.

Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

BE VERY CAREFUL TO USE NO OTHER.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, since the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—Also, Opinions and advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials which follow prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and if SUCCESS IS THEREFORE THOUGHT OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind can the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, is here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more desirous of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." HENRY L. ELLSWORTH, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, and they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The rooms are furnished anew, have been thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges as reasonable, and no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow on the past, and ever grateful for past favors, respectfully solicits a continuance. J. B. FLAGG.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*. Analyze the blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain details and the world globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory, and its curative powers are unsurpassed. There are FIVE PREPARATIONS adapted to the deficiencies of the blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Incipient Consumption*. For the LIVER and all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, and NERVOUS PROSTRATION, use No. 2. For LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *Lungs* and nearly equal to a transfusion of the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESS &c. Some the discoverers for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in Wind Colic, Sick or Nervous Headache, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, in fact, from being an entire cordial, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and would wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics or other nostrums for Infants Comforters are compact, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate babe.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for thirty years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, &c. It Stimulates; Exhilarates, Invigorates, but will not be intoxicated or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sick, to health, strength and vigor.

Persons who, from the injudicious use of spirits, have become nervous, shaky, and nervous systems shattered, constitutions broken down, and subject to that horrible relentless enemy, the Blues, Delirium Tremens, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What is will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will relieve Heartburn.

Three doses will cure Dyspepsia.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will strengthen, enliven, please, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, in trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, or $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. NO organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low diet, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it comes to be the root of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system there must be an active and efficacious medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can confer for this ever-rife and prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expulsion of this foul disease from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of what only scrofula, but also those other affections which arise from it, such as

ERUPTIVE AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, RHEUMATISM, DROPSY, DYSPEPSIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting the disordered action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or disease, or who is sickly and pale, find his health or energy restored by a remedy at once so simple and inviting.

Not only do they remove the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Medicine, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Liver Complaint, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gravel, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thru upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, FIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have emerged from their prostration to the world as if returned from protracted travel in a distant land. Some very signal instances of this kind are at hand. Cases of Hectic Fever, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and sanguineous derangements so common for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and particularly those of the female system, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorous and effective, without being exciting and over-heating, and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gentle purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it has proved to exert a distinct and specific action, by dispersing the local congestion, which forms them.

In DYSPEPSIA, innumerable are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently incurable, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, to several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicinal Chalybate has had far more than the good effect of the most cautiously balanced preparations of iodine, without any or their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in cases peculiarly adapted to them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably tested, and proved as alleviating pain and reducing the swelling and stiffness of the joints and muscles.

In INTERMITTENT FEVERS, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and truly restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

MATRIMONY.

Married people will please read as written; single ones please read the 1st line, then the 2d, then the 3d, and finally the 4th in each verse.

That man must lead a happy life
Who's free from matrimonial chains;
Who is directed by a wife,
Is sure to suffer for his pains.

Adam could find no solid peace,
When Eve was given for a mate—
Until he saw a woman's face,
Adam was in a happy state.

In all the female face appears
Hypocrisy, deceit and pride;
Truth, darling of a heart sincere,
Ne'er known in woman to reside.

What tongue is able to unfold
The falsehood that in woman dwells?
The worth in woman we behold
Is almost imperceptible.

Cursed be the foolish man, I say,
Who changes from his singleness;
Who will not yield to woman's sway,
Is sure of perfect blessedness.

☞ Lamoriciere found the Pope's army in a curious state when he took charge of it. 252 officers and soldiers who figured on the army list had no existence, though pay was regularly drawn for them. The helmets and accoutrements had been sold to the manager of a theatre.

☞ It is thought that since the attempt to secure an appropriation from Congress for a mounted regiment of Texas volunteers has failed, little more will be heard of Cortinas and his band of depredators.

☞ The Rev. John McDowell, now at the advanced age of four-score years, held the office of Secretary of the Board of Directors of the Theological Seminary at Princeton for forty-eight years.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by using other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

CHILDREN TEETHING

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay AIL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth, of it, what we have never been able to say of any other medicine,*—NEVER HAS IT FAILED IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives toneand energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arise from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints: *Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper

Sold by Druggists throughout the world. Principal Office, No. 3 Cedar st. New York.
Price only 25 cents per bottle.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

SATURDAY, JUNE 2, 1860.

WASHINGTON NEWS.—Judge Daniels of the Supreme Court died at Richmond on the 31st ult.

On Thursday, the Senate was in Executive Session four hours, on the Mexican treaty, which was finally rejected by a large majority. Pending the motion to reconsider the vote, Senators will have an opportunity to more clearly consider their action.

It is supposed that the rejection of the Nicaraguan treaty will be by nearly a unanimous vote.

The Republican Senators had not a little influence in the rejection of the Mexican treaty.

IN CONGRESS, Thursday, May 31, both Houses were exercised on the Printing Reform. In the Senate,

Mr. Slidell, from the committee to investigate corruptions in public printing, made a majority report to the effect that any moneys paid by Mr. Wendell were in accordance with a bargain, and if he paid money for political purposes, it was entirely voluntary, and without the knowledge of any officer of the government.

The report condemns the present system of printing as the worst thing that could have been adopted. It reflects severely on Mr. Wendell's testimony, and exonerates the President from any knowledge of the matter, and concludes with the resolution that the committee be instructed to inquire into the expediency of providing for the printing being done by contract or otherwise.

Mr. King made a minority report, to the effect that the testimony shows clearly that large sums of money are paid by the Printer for the support of party papers and to influence elections, and that the payments so made were *known* and assented to by the President.

The minority agree in the resolution appended to the majority report.

Mr. Anthony urged a complete reform in the public printing. He thought that newspapers that could not support themselves were of no use to any party, and that the Printer of the Senate having violated the law by transferring the printing, the office should be declared vacant. The subject was then postponed till to morrow.

Mr. Anthony is himself a printer, and editor of a prosperous paper.

The House of Representatives took up the Printing Reform bill.

Mr. Vallandigham spoke in favor of a government printing office.

Mr. *Pryor* spoke in the same way, and complained that the President neglected his duty in not informing Congress that the amount appropriated for post office blanks was excessive, instead of parcelling the surplus among the partizan presses.

A running debate ensued between Pryor and Burnett, in which the latter maintained that the President had no control of the matter, and that it was the duty of Congress to correct any corruptions.

Mr. Pryor, in the course of his remarks, said that the evidence was uncontroverted. He said that the *President* said to the gentlemen who executed the blanks, "Here is $20,000 for your service, and here is $20,000 more to be distributed between the Pennsylvania organs and Medary's paper in Ohio."

Mr. Burnett said that if such testimony existed he had not seen it; he did not, however question it, for he knew nothing about it. He then argued against the government office, and in favor of a reduction of the present rates of printing.

Mr. Florence was in favor of the establishment of a government printing office, the contract system having proved a failure, and because it would render the business independent of the corruption attached to it.

Mr. Burnett expressed a hope that Mr. Pryor, the next time he charged corruption on the administration, would be better informed as to facts.

Mr. Pryor acknowledged indebtedness for the advice. Let the House order a committee and make him chairman, and he would *prove* what he said.

Mr. Burnett said if the gentleman accused the President, he would vote for another committee. If the corruption exists, let him be arraigned, impeached and disgraced. If gentlemen desired to show their zeal, it would be better for them to fire broadsides at the Republican party, instead of getting up family squabbles.

Mr. Pryor replied that he was fighting on his own individual responsibility, and in defence of the interests of all people. He conceived it sound policy in the Democracy that they should wash their hands of all corruption.

After further discussion, Mr. Haskin closed the debate, contending that the President knew of the profits of the post office printing, and stating that he would vote against all schemes, extravagances and corruption coming from either the Democratic or Republican side.

The bill for establishing a government printing office was passed—120 to 56.

Mr. Pryor made a personal explanation. In stating that he had been approached, he should have added that in 1857 he was solicited to apply for a portion of a surplus fund, but indignantly repudiated the proposition.

So Mr. Pryor of Virginia turns out himself to be a witness of the corruption, and makes complaint against the venerable President.

The post office appropriation bill being under consideration, Mr. Colfax made various retrenching propositions.

Without coming to a decision, the House adjourned.

On Friday, in the Senate, on motion of Mr. Hale, a resolution of inquiry was adopted as to the government purchase of a naval depot, at Brunswick, Ga.

The Post Office deficiency bill was then taken up and defeated.

HARPER'S FERRY COMMITTEE.—What has become of this patriotic committee, which was going to prove the whole Republican party to be implicated in John Brown's raid? It has certainly met with very poor success, or else it has been very careful to let out only the evidence which had no bearing on the alleged conspiracy. But in reality the whole thing appears to have been a total failure, as every Republican and three-fourths of other honest men knew it would prove to be. It was a partisan blunder to start such an investigation under such a flourish of trumpets as Mr. Mason sounded at the opening of Congress; but if he and his friends are satisfied, the Republicans surely are—says the Boston Journal.

OUR COUNTRY DISGRACED IN SICILY. The Transcript says letters from Italy report that Henry H. Barstow, American Consul at Palermo, has been guilty of an act of perfidy, which will forever brand him with infamy. This misrepresentative of a land of liberty was instrumental in betraying Father Ottavio Lanza, one of the noblest of men and purest of patriots, into the hands of the agents of the vilest and most tyrannical despotism on the globe.—The accounts state that on the 11th of April Palermo was startled with the report of the arrest of Father Lanza, by American intervention, on board a merchant vessel bearing the "stripes and stars," and that the act was committed by the agency of Mr. Barstow, the American Consul. The diplomatic corps at Palermo have refused to hold any further communication with this traitor against humanity—this aider and abettor of the despotism of the second Bomba, who thus prostitutes his official position.

☞ Senor Gonzales de Candamo, owner of the railroad from Lima to Callao, received a note from an anonymous source, demanding a thousand dollars, telling him he should die on a certain day if the money was not forthcoming. Candamo, who loves money better than life, paid no attention to the threat. On the day designated, a man entered his fine house with a box under his arm, and was making his way up stairs to Senor C.'s room, when he accidentally dropped the box. An explosion followed, doing a good deal of damage to the house, but no one was injured.

FATAL ACCIDENT.—A double fatal and painful accident occurred at Shelburne on Tuesday, while Franklin Fiske, a man of 27 years, was driving a two-horse team between Shelburne and Jacksonville, loaded with shingles. The wagon was overturned, and a pack of shingles fell upon and crushed him to death. After this the horses ran down a hill, and the neap of the wagon came in contact with a horse attached to a single wagon, and was passed through the animal's body, killing him almost instantly.

☞ Miss Mary E. Heney, a talented young actress in Boston, was announced in the bills to act her part at the Howard Atheneum on Thursday night—but failed to do so, as she had "other fish to fry." She was privately married on Wednesday, to Mr. N. T. Davenport—and sailed for St. John, Thursday. They have been lovers for two or three years, but the lady's ma wouldn't consent; so the bride kept quiet, and sent her wardrobe to her husband, and followed her clothes as aforesaid. She was at her post on Wednesday night, at the Howard, as though nothing had happened.

QUAKERS.—It is said that the Quakers are gradually disappearing from England. Two hundred years ago, their proportion in Great Britain was about one to every one hundred and thirty inhabitants. At present they do not count one in a thousand. There is a collection of old Quaker tracts preserved in the Bodleian library, with a note written upon them by an Oxford professor, stating that he had collected them, and placed them in the library, so that persons who should wish in after time to know what the belief of Quakers was, could find the statement of their tenets in their tracts.

A SANGUINE POLITICIAN.—The Cincinnati Enquirer boldly declares that the friends of Douglas are confident of his carrying out every free State except Vermont, Massachusetts and Maine, against Mr. Lincoln, and they by no means consider his chances desperate in the latter State, which would elect him President without the aid of a single electoral vote of the South.—Yes, says Uncle Toby, *when* the skies fall, *then* we shall catch larks.

SAD BEREAVEMENT.—Isaac Worster, Esq., a well known citizen of Rochester, N. H., was instantly killed by lightning, at Cheraw, Illinois, on Wednesday, May 16. He had been absent in the West for some months, with one of his sons, for the purpose of selecting a location for a future home. He was in the garden at the time, and so severe was the stroke that his clothes were completely torn from his body.

☞ Ass G. Loomis, a well known and respected citizen of Lowell, committed suicide on Tuesday by hanging himself.

CHURCH ANTI-SLAVERY SOCIETY.

An agent of this society is to bring it before the people of Portsmouth, next Wednesday evening. Its object is very distinctly stated in the following extract from the Constitution:—

The object of this association being to unite all Christians on the basis of the Word of God against slavery, and to concentrate the energies of the Christian ministry and of Christian churches upon the extinction of that great sin, the condition of membership shall be the adoption of its pledge and principles, and the payment of an annual contribution for its support.—And members of local societies formed on these principles shall be members in full of this society.

Its declaration of principles is as follows:

1. The rights of man as man sacred and inalienable, without distinction of blood or races.

2. Property in man impossible, as being without grant from the Creator, and equally contrary to natural justice and to revealed religion.

3. The system of American slavery and the practice of slave-holding essentially sinful and anti-Christian, and to be dealt with, therefore, as such, by Christian churches and ministers.

4. The utter inadequacy and impossibility of any remedy or relief from slavery, but one that insists upon its inherent wrongfulness, its total intrinsic baseness, and denies absolutely the wild and guilty fantacy that man can have property in man!

5. The duty of one family or section of the Christian church to rebuke and refuse fellowship to another section of the visible church, that denies the rights of man and the common brotherhood of humanity, by defending slavery and folding to its bosom slave sellers, slave buyers and slaveholders.

6. No compromise with slavery allowable, but its total extinction to be demanded at once, in the name of God, who has commanded: "to loose the bands of wickedness, to undo the heavy burdens; and to let the oppressed go free, and that ye break every yoke."

7. The total abolition of the vast system of American slavery to be accepted as the providential mission and duty of the American clergy and the American churches of this generation.

8. The church and the ministry to form the conscience of the nation in respect to slavery, and to make it loyal to the law of God, against all unjust judgments of courts, and unrighteous legislation of Congress.

9. The Word of God our charter of freedom and our armory against slavery, and any assertions that the Lord God sanctions slavery, practical infidelity.

10. Ultimate success sure, in the warfare with oppression, to a faithful ministry and witnessing church.

☞ A sleepy railroad conductor, rousing from a nap in church, sprang from his seat, thrust his hat under his arm, and, giving his neighbor in front a push, shouted, "Tickets, sir." The startled neighbor also sprang to his feet, which thoroughly aroused the conductor, who, looking wildly around, and seeing all eyes turned towards him, instantly comprehended his situation, and "slid" amid a suppressed titter from the whole congregation.

☞ Europe has never been in a more alarming condition than it is at this hour, since the first French Revolution. In addition to the troubles in Italy, full of peril to the repose of the continental powers, a serious complication of events in the East is at hand. Louis Napoleon has recently dispatched a special envoy to Constantinople, while a large Russian force has actually advanced to the borders of Turkey.

☞ Gold has been found in Epsom, N.H., on the farm of Franklin Goss. Two young men profess to have found $30 in gold on that farm, and they exhibited one chunk worth over $10. Two returned Californians have visited the spot, and report that they found gold, but whether it exists in quantities which will repay digging, remains to be seen.

☞ Lieut. Bartlett, father of the bride of Signor Oveido, of "Diamond Wedding" fame, New York, has been sued by his grocer, who wants $130 for groceries delivered. In the bill are included the wines used at the Brevoort House during the "wedding time." An execution was issued, but a return was made of "no goods." The diamonds of the wedding, may, after all, prove to be only paste.

☞ The rumor to the effect that Mr. Douglas intended to instruct his friends in the Baltimore Convention to withdraw his name after the third ballot, should be not be nominated before then, in favor of some man acceptable to the extreme South, or, indeed, in favor of any man, is indignantly denied upon his authority.

☞ The Mississippi State Democratic Convention was held at Jackson, Miss., on Wednesday. The course of the delegates from Mississippi was unanimously endorsed, and the delegates to Charleston will be fully delegated to represent the State Democracy at both Richmond and Baltimore.

☞ The South Carolina Democratic State Convention met on Wednesday. Gov. Means presided, and every thing was decidedly in favor of the Richmond Convention.

☞ Anne Isabella, Baroness Noel Byron, widow of Lord Byron, died in London, May 16. She was married to the great poet in 1815, but the union, as is well known, was a most unhappy one for both the husband and wife. Their only child Ada, was married to Earl Lovelace, and died in 1852.

SUNDAY PRIZE FIGHT.—A prize fight between two men named Mulligan and Murphy, came off on Sunday at Tewksbury, Mass. They fought thirty rounds in fifty-five minutes, when Mulligan was declared the winner, Murphy having fought until he was blind. A large number of spectators were present.

☞ A woman at Detroit, 58 years of age, on the 25th ult., married a verdant looking youth apparently about 18 years old. She said he didn't amount to much as a man, but then he would be handy to have round, and she thought she might as well take him, as she had more money than she knew what to do with, and wanted somebody to spend it.

TORNADO IN WESTERN NEW YORK.—A tornado passed over Cattaraugus, N. Y., Thursday afternoon; six houses were demolished, the railroad depot unroofed, and other damage sustained amounting to $25,000. Several persons were very seriously injured.

The tornado also passed through the town of Waverley, injuring almost every building within its sweep; one man was killed and several others badly hurt.

☞ About 150 gallons of liquor were seized in Newburyport on Monday last by the City Marshal.

THE GREAT EASTERN steamship is announce to sail on the 9th of June for New York.

BUFFALO, May 31.—The Methodist Episcopal Conference considered the slavery report at length to-day, and adopted the new chapter in the discipline, by a vote of 154 to 57.

FOR THE COMPLEXION.

LIQUID PEARL WHITE.

This elegant article will be found far preferable to the common preparations of chalk and alkalies, so much in use. It is easily applied, possesses a delightful perfume, and imparts to the skin a smooth and healthy appearance; it contains nothing injurious, and will prove upon trial a very desirable article for the toilet. INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, No. 30 Hanover Street; at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

Special Notices.

THE JAPANESE EMBASSY.

The Japanese Commissioners have at length arrived in Washington, and everywhere great excitement exists concerning them. "When will they be in New York," and "how long will they remain," are universal inquiries. For our part, we cannot answer exactly. Old and young, rich and poor, are alike "calculating" the chances of catching a glimpse at them. How many will be gratified, we know not. Our private opinion is, however, that there is a far better "chance" of drawing a good, solid prize in one of Messrs. WOOD, EDDY & CO.'S *legal* Lotteries than of obtaining a close view of the Japanese dignitaries. All that is necessary in the one case, is to enclose to these gentlemen at Wilmington, Delaware, or St. Louis, Missouri, $2,50, $5,00, $10,00, or $20,00, and the part, or whole ticket will be returned by next mail. The capital prize is $70,000.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
BETSEY SANBORN.

Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St. for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous system will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Palsy, and even cases of Dropsy, it may be administered with a great prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several years, and almost dying with pain and heaviness in the stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and at the time I had used two bottles and a half I was entirely well, and still remain so. I know several cases more distressing even than my own which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.
W. A. BACON, Teacher of Detroit Select School.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and S. Hodgdon, Portsmouth; J. P. Tucker, Greenland; and dealers everywhere. spnot 4wdw

FINE PIANO AT A BARGAIN

A very superior 7 octave PIANO-FORTE, which has been used a very little, and is warranted to be equal in every respect to any instrument now brought into Portsmouth, may be seen for a few days at the Store of the subscriber; and will be sold at a great reduction from cost, if applied for soon. Judges of such instruments, and those who want to improve a rare opportunity to procure a first-class Piano, at the price of a mean one, are invited to call and examine.

☞ We regret to learn that the project of putting a steamboat on the Piscataqua, to run between Portsmouth and the Shoals, has been given up—on account of the difficulty of procuring a suitable steamboat for the purpose. Capable judges who have examined the subject, say that a good staunch steamer here couldn't fail to pay well, besides being a great convenience and benefit to the city. But a peculiar craft is required—a good sea-boat, having boilers to stand salt-water—a propeller of light draft would perhaps be preferable.

We are informed that the beautiful yacht Sibyl, Capt. Preble, has been chartered by Mr. Laighton, to run to Appledore this season, as last.

☞ Miss Louise D. Bartlett is now organist at the North Church, having resigned her situation at the Stone Church, which she filled with much ability and good taste for several years. Mr. Preston, the chorister, is playing the organ at the Stone Church, *pro tempore*, till a new organist shall be procured.

Mr. Pearson is organist at St. John's Church; and Miss Mary Miller, a pupil of his, at the Universalist. At the Episcopal Church, we are told that the return of an old bass singer to "the seats," is welcome as the song of Auld Lang Syne. "Old" we have called him, because we remember his ringing, melodious bass voice a score of years ago or more—but such a voice as that should never cease to aid in song below, till called to join the choir above, no matter how numerous nor how good the young singers may be—much less in such a dearth of music as Portsmouth is now suffering from.

Two of the largest organs in the city are played by young ladies; and three of the largest churches are without settled pastors. It may yet become as common to see ladies in the pulpit as at the organ.

☞ A meeting will be holden at the Temple on Wednesday, June 6, at 7 1-2 o'clock, to discuss the principles and measures adopted by the Church Anti-Slavery Society of the U. S., and, if deemed advisable, to form an auxiliary to the parent society in this city. All the ministers and members of all the Churches are earnestly requested to be present, and unite in the exercises. The claims and objects of the society will be presented by the agent, C. G. Parsons. Per order.

☞ Prof. Fowler delivers the last lecture of his regular course this (Saturday) evening. For subject see advertisement.

Mrs. Young will deliver a valuable lecture, to ladies only, this (Saturday) afternoon, at the Temple.

Prof. Fowler makes examinations at his office during the day, which are correct and valuable and which many of our citizens are availing themseves of. The afflicted should not forget that Dr. A. A. Wheelock is associated with Prof. Fowler, whose skill in locating, and success in the treatment of disease by *Electricity*, are acknowledged wherever his advice and practice have been employed. Consultations free at their rooms, Rockingham House.

Rev. Dr. Peabody of this city is to preach at Newington, next Sunday afternoon, June 3, at 5 o'clock.

Chatham, June 1. — Mr. Ensign Eldridge of this town, who has lived 77 days without food, died last night.

Enterprising Officer. — A deputy assessor and tax collector at Camptonville, Cal., pounced upon a theatrical troupe, and made the whole company pay poll and road taxes, and taxes on the properties and costumes!

"I'll bet a sheep," said Jones to his other half, "that our boy Tom is going crazy.—He is grinning at the barn, and grinning at himself wherever he goes." "Pooh!" said the woman, "don't you know? He got a love-letter this morning."

Lord Kenyon's housekeeping was not liberal nor his temper good, and Jekeyll summoned up both facts by saying, "It is Lent all the year round in his kitchen, and Passion Week in his parlor."

☞ Sheep growing is successful in Aroostook, Mr. Ebbet of Houlton, having obtained from a last June lamb eight pounds of wool at a recent shearing.

Reconsideration of a Domestic Subject.—On the 11th ult., Mrs. Gilkey of Santa Clara, Cal., gave birth to a boy baby; on the following day a reconsideration was moved, and another of the same sort produced—*Sierra Citizen.*

☞ A cart horse backed over a precipice at Ottawa, Ill., last week, falling about 150 feet perpendicularly. The harness and cart were used up, but the horse was unhurt!

☞ Mr. Charles E. Milliken, of the Senior class at Andover, has received a unanimous call from the Congregational church in Littleton, to become their pastor.

Washington, June 1.—Before Judge Daniels was dead, Virginians were here, urging the appointment of Judge Robertson and others to succeed him on the Supreme Court bench.

Howell Cobb has gone to Georgia to oppose the movements of Stephens in favor of Douglas. New Yorkers promise to have Seymour nominated at Baltimore if he can be nominated at Richmond.

The Japanese refuse to be exhibited at the Naval Academy at Annapolis to-day, and will not talk about travelling until they can be told when they can sail.—*Boston Journal.*

New York, June 1.—The Herald has later advices from Palermo, Italy, reporting that an engagement had taken place near that city between Garibaldi's forces and the royal forces, in which the latter were repulsed. Another dispatch, from Rome, says Garibaldi was completely beaten, leaving a large number of killed and wounded.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when perseverein with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in one day remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.
The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and *performs* not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*, and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.
The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear—Sir: Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe has received a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth, so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford, and can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, which, about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it stopped its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds a full pint, and retails for more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents as with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing effects. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See circulars which accompany the bottles. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

MOTHERS,

Thousands are daily making to the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It is used by magic. Its wonderful effects will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore gives rest by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only reliable remedy now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, &c. It is by magic and one trial alone

THE ORIGINAL AND GENUINE

DR. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

IS THE GREAT RENOVATOR OF THE

BLOOD.

the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.
These complaints can be speedily and effectually cured by the use of this

WORLD RENOWNED

SARSAPARILLA!

Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.

When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a uniform saline diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE THE BOWELS, and impart a one of vigor to the whole body.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the o. ginel recipe obtained from S. P. Townsend; and certify that it is composed of ineredients PURELY VEGETABLE, and WIT..OUT MERCURY; and also, that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D.,
CHEMIST.

Dr. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for

RENOVATING & PURIFYING THE BLOOD

which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.

It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry can, and is only employ

Whatever may be said by mortified competitors or spienetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.

CAUTION!!

To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, *in confidence and truth* of it, what we have never been able to say of any other medicine.—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives toneand energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints: *Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper

Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Portsmouth, N. H.

MONDAY, JUNE 4, 1860.

☞ The Annual meeting of the N. H. Iron Factory Company was held in Boston last Monday. This is the company which has prepared to mine the excellent iron ore at Franconia. The Concord Statesman understands they are just ready to put in operation the best blast furnace in New England. The quality of the Francouia iron is of undisputed excellence, and the enterprise of the corporation which is thus reviving a branch of neglected industry, is deserving of success. The Directors are Messrs. William Page, B. P. Cheney and John B. Taft of Boston; Aaria M. Chase, of Whitefield; and Nathaniel White, of Concord. Mr. P. S. Fisk is elected Treasurer, and Hon. E. H. Rollins, of Concord, Clerk.

☞ The following is a programme of the proposed movements of the famous Japanese: Leave Washington on the 5th for Baltimore; leave Baltimore on the 6th for Philadelphia; leave Philadelphia on the 11th, and arrive at Niagara on the 12th;—arrive at Albany on the 14th; Boston on the 15th, and leave on the 19th for New York, where they remain from the 20th to the 30th. While at Buffalo they will make a trip on Lake Erie.

Death at a Very Old Age.—Mrs. Marie Post, of Paterson, N. J., expired recently at the age of one hundred and six years. She was born in that neighborhood in 1754, and at the age of twenty-two married Capt. Post, an officer in the American army, with whom she lived till 1847, when he died, aged ninety-seven years. Forty of her descendants, including several great-great-grand-children, and a daughter 81 years old, attended Mrs. Post's funeral.

The South Carolina Democratic Convention adjourned, Thursday night, having nominated a delegation to Richmond, headed by R. Barnwell Rhett. A strict test vote was made on Rhett's election, and he had a majority of 17 in his favor. Much excitement resulted, and although Rhett's friends seemed subsequently anxious to send a mixed delegation to Richmond, the opposition were determined to throw all the responsibility on the Rhettites, and the entire delegation to Richmond was so composed.

Kidnapper Foiled.—A fellow named Jere. Johnson seized a free negro, named Upson, at the ferry landing at Cincinnati the other day, and attempted to force him to enter a boat and cross the river to Kentucky. The negro raised an outcry, however, which soon attracted a crowd, and Johnson becoming abusive towards a couple of bystanders, they gave him a severe beating. He was arrested by two police officers and taken to the station house. He affirmed that Upson was a fugitive, but the negro is well known in the city, and it is considered a clear case of attempted kidnapping.

Large Claim Allowed.—The United States Attorney General has given an opinion in favor of allowing the State of Missouri about four hundred thousand dollars, being the two per cent. arising from the sale of the public lands in that State, heretofore reserved by the federal government on account of the construction of a national road, but which never extended to Missouri. A draft for the amount has been issued.

Overland Pony Express.—St. Joseph, Mo., June 1.—The Pony Express, with the dispatches and mail missing from the express which arrived on Tuesday evening last, arrived this afternoon. No explanation is given of the cause of the detention. The mail is all safe.

The principal news is an account of a fight between Indians and a company who had gone out to chastise them. In the unequal contest, about half the white men were killed or wounded.

☞ Speaking of Mr. Seward's return to the Senate, the Washington correspondent of the N. Y. Tribune says:

He says emphatically that all the pretended hopes of the Democracy, resulting from the disappointment of his friends, are absurd, and that whoever may be the candidate at Baltimore, he will be defeated by 70,000 in New York.

☞ The citizens of Manchester are said to be arranging for a supply of pure water for that city. In the progress of their praiseworthy hydraulic researches, Massabesic Pond has been determined to be 30 feet above the base of the City Hall, Tower Hill pond 74 feet, and Sawyer's pond 198 feet.

☞ It is said that Mr. Barey, the horse tamer, will soon return to the United States, with money enough to set up a bank. He has been remarkably successful in Europe.

A few days ago, a negro, after gazing intently at the Japanese, now in Washington, exclaimed: "If de white folks is dark as dat out dare, I wonder what's de color of de niggers?"

DISASTROUS FIGHT.

By the overland mail we have some particulars of an Indian fight.

The last Pony Express took out the intelligence that several Americans had been murdered while asleep, by Indians, at Miller's Station, on Canon River, some 30 miles from the settlement of Carson Valley, and also that various companies had organized at Virginia City, Gold Hills, and other settlements in the Washoe mines, and had gone in pursuit of the Indians supposed to have committed the murders. It subsequently appeared that those volunteers united, under command of Major Ormsby, numbering 105 mounted men.

On the 12th they came upon the Indians at the head of Quickie river, 65 miles northward toward Pyramid Lake from Virginia City. The Indians were in ambush at a narrow pass, through which Major Ormsby's party were proceeding, and numbering about 500, having plenty of fire arms, ammunition and 1500 horses within a convenient distance. They opened a fire upon the troops from their safe hiding-place. Major Ormsby ordered a charge, but the Indians continued to skulk, firing from behind rocks and bushes, doing damage, but suffering little in return. This condition of things continued for two hours, when the ammunition of Ormsby's party gave out. The Indians, seeing this, closed upon them, pouring in volley after volley, killing many on the spot, and the balance retreated, scattering in all directions. The Indians pursued them twenty-five or thirty miles, cutting off many.

Detached parties of the survivors came straggling into Virginia City during the two subsequent days. The exact number killed was not ascertained, but will probably exceed fifty.

Major Ormsby is among the dead. Total known to be killed, 21; wounded 3; fate unknown 48; returned alive 38.

Wagons had been sent out to pick up any of the wounded who may be found; also an armed force to protect parties and bury the dead.

No correct account has yet been received from the battle-ground. Exaggerated accounts of the battle were telegraphed to all parts of California, causing great excitement. These exaggerated reports caused powerful exertions throughout California to send relief.

The movements warrant the belief that there are not less than 3000 well armed volunteers from California and 260 U. S. troops ready for action on the eastern slope of the mountains. At last accounts all the hostile Indians were to the north of the Pony Express, Salt Lake mail, and the emigrant route, and troops will be posted to keep that route open.

The Indians on the eastern side of the mountains are extending north into Oregon, westward into the interior of Utah. They number probably 2000, and from their contiguity to the Mormons and other unavoidable causes, are all liable to become hostile to the Americans, unless permanent means are taken by the government to restrain them.

A Japanese Dispatch Home.—The Philadelphia Inquirer is responsible for the following, which the Japanese *might* have sent to their master emperor:

"We find it very difficult to comply with the demands of our sovereign, forbidding us to touch the women of this country. Not from any disposition on our part to disobey, but from their desire to seize us by our hands. They are apparently allowed here the greatest freedom, but it is only in appearance. Every woman, married or single, is fastened in a cage of bamboo or flexible steel, extending from the waist to the feet. This seems to be so arranged as to give them no uneasiness, but they are very much ashamed of it, and conceal it under so many coverings that it renders their appearance quite ludicrous. They are unrestricted as to the upper part of their persons, which they are permitted to expose as much as they wish. This they seem to avail themselves of, and on all occasions of high ceremony wear very low dresses. As in all barbarous nations, they slit their ears and suspend from them ornaments of gold and silver."

☞ Alexander Moore, of Loudon, who is in Concord jail for poisoning his family with lead, is said to be a day laborer, of intemperate habits and passionate and revengeful disposition. His intemperance had caused some ill feeling in the family; and about a year ago his son died, leaving a small property to Mrs. Moore, but nothing to himself, and so making a fruitful source of difficulty

☞ Harvey, of Hingham, who is accused of poisoning the two Tirrell girls, at Weymouth, fares badly in the examination.—The druggist in Boston, of whom he bought the strychnine, testifies that he called himself Tirrell, when he bought it.

☞ Albert W. Hicks, the pirate, was on Friday sentenced to be hung on Bedloe's Island, N. Y., on the 13th of June.

The Cattle Disease has made its appearance in Newark, N. J. Out of seven cattle attacked with it on one farm, four have died. The disease is said to be the same as that in Massachusetts, and is supposed to have been introduced by an arrival from that State.

Sentence of a Massachusetts Mormon.—Noah F. Bishop of Groveland, arrested recently for having four wives living, has been sentenced, at the present term of the Superior Court for Essex county, to six years' confinement in the State Prison.

Removals at the Custom House.—Messrs. Isaac W. Frye of Boston, and Edward Jones of Dorchester, Inspectors in Custom House, and Solomon H. Willis, Night Inspector, have been removed by Collector Whitney.

CONGRESS.

Friday, June 1.

Senate.—The Post Office deficiency bill was amended by striking out so much as provides for the restoration of the discontinued routes—28 against 24.

An amendment was adopted restoring the mail service from Charleston and Key West to Havana, giving the contract to the highest bidder.

The bill was then passed.

House.—Mr. Reynolds introduced a bill from the Judiciary Committee, providing for the punishment of marshals, or other United States officers, who allow prisoners to escape.

Mr. Winslow rose to a question of privilege, causing to be read extracts from the Covode Committee, of which he is a member. It appears from the extracts that Mr. Winslow wished to summon certain witnesses from Luzerne Co., Pa., to prove that large sums of money had been used to elect Mr. Scranton a member of the House. Mr. Covode interposed objections to Mr. Winslow's wishes, which were finally denied by the Committee.

Mr. Winslow submitted a resolution directing the Speaker to issue a subpœna for certain witnesses.

An animated discussion ensuel, in the course of which Mr. Train of Mass., said in reply to Mr. Houston of Ala., that he should consider himself guilty of gross impropriety as a member and a gentleman, if he insisted on addressing the chair and interpolating remarks when he was not entitled to the floor.

Mr. Houston asked whether that remark applied to him?

Cries of "order."

Mr. Train replied that he meant exactly what he said.

Mr. Houston responded, if that remark applied to him, Mr. Train was a disgraceful liar and scoundrel.

Mr. Train replied he could not be intimidated by anything Mr. Houston could say.

Great excitement followed.

Mr. Sherman moved a resolution that Mr. Houston be censured for disorderly words in debate.

Other members rose and offered resolutions to have both members censured.

Several members proposed to have the matter dropped, and several ineffectual motions were made to table the resolution.

Mr. Dawes of Mass., who also participated in the debate, was very earnest, and alluded to Mr. Houston as a member, and not a gentleman.

Points of order were here raised, amid the greatest excitement.

Mr. Hatton moved to table the subject. Disagreed to—70 to 100.

An ineffectual effort was made by the democratic side to adjourn.

Mr. Millson appealed to Mr. Sherman to withdraw his resolution, in order that Mr. Houston might address the House.

Mr. Sherman consented, and Mr. Houston *apologized* to the House for violating its rules. Adjourned.

☞ During a thunder shower at Weare, N. H., on Wednesday, a barn occupied by Daniel Page, Esq., was struck by lightning. A valuable horse, owned by Simon G. Gove, was killed, and a large portion of the barn shattered to fragments. The fire was extinguished.

☞ On Wednesday afternoon, during a shower, the house of Mr. Burpee, in Pembroke, N. H., was struck by lightning, set on fire, and that and all the outbuildings were consumed. Mrs. Burpee was stunned by the shock, and had not recovered at last accounts.

☞ At Salem, Ind., May 24, the residence of Mr. Joseph Spurgeon was struck by lightning, killing instantly his daughter Mary, aged thirteen years, who was lying in bed asleep at the time.

Murder in the Legislative Halls of California.—A terrible tragedy was enacted in the California Assembly a few days before its adjournment. A member of the House, named John C. Bell, was shot and stabbed to death, almost, in his seat, by one Dr. Stone. Stone was a lobby member, attempting to procure the passage of a bill for the division of the county represented by Mr. Bell, and to which the latter was opposed. Mr. Bell was in the act of consultation with another member beyond the bar of the Assembly, while it was in session, when Stone came up, denounced Bell as a liar, and immediately began shooting and stabbing him. The wounded man was carried away, and died two days after. Stone was released on bail. As he is a rich man, the crime will go unpunished. The Assembly took no notice of the murder. Stone is from Kentucky. Several circumstances show the act to have been premeditated.—*Traveller.*

A fugitive slave from Alabama, passed through this city to a land of freedom, this week. She was born a slave, but more than thirty years ago married a free colored man by whom she had four children. Three years since the children were sold; and by the law prescribing free colored people, the husband was forced to leave the State. In March she escaped by sea, through the connivance of the captain of a vessel, who took her disguised as a sailor, and landed her in another port; and thence she travelled on foot, not daring to make her case known till she reached New England. It fortunately happened that a gentleman in this city was well acquainted with the place from which she escaped, and her story was thereby confirmed. In finding liberty she also returns to her husband.—*Newburyport Herald.*

☞ The Baltimore Convention will meet in the hall of the Maryland Institute. The project to put up a temporary building, similar to the Chicago Wigwam, for the Convention, fell through for want of funds to construct it.

Failure.—S. Cherry & Co., merchants, of Norfolk, Va., failed on Thursday. Liabilities $100,000.

☞ Mr. Jones, master caulker in the Norfolk Navy Yard, got into difficulty with a workman he had discharged, on the 29th ult., and in a fracas which ensued he shot three men, one of them it is supposed fatally.

An exchange in replying to the incorrect statement that the Chicago nominations fell like a wet blanket upon the Republicans, says even if it were so, it is better to have a wet blanket than be in the condition of the Democrats—with no blanket at all, standing out in the cold.—*Statesman.*

THE JAPANESE EMBASSY.

The Japanese Commissioners have at length arrived in Washington, and everywhere great excitement exists concerning them. "When will they be in New York," and "how long will they remain," are universal inquiries. For our part, we cannot answer exactly. Old and Young, rich and poor, are alike "calculating" the chances of catching a glimpse at them. How many will be gratified, we know not. Our private opinion is, however, that there is a far better "chance" of drawing a good, solid prize in one of Messrs. WOOD, EDDY & CO.'S *legal* Lotteries than of obtaining a close view of the Japanese dignitaries. All that is necessary in the one case, is to enclose to these gentlemen at Wilmington, Delaware, or St. Louis, Missouri, $3,50, $5,00, $10,00, or $20,00, and the part, or whole ticket will be returned by next mail. The capital prize is $70,000.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Disease, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
Betsey Sanborn.
Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, Portsmouth, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, but in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.
W. A. BACON, Teacher of Detroit School.

FOURTH OF JULY.

May this glorious anniversary of our national independence forever be celebrated as a festival, a holiday, a jubilee, in an appropriate manner. May it commemorate the day when this nation sprang into existence, and the principle upon which our government was established. May our youth, as well as adults, on this anniversary be taught those sacred principles, and the true intent and meaning of the celebration. To do this, public exercises are requisite—orations—reading the Declaration of Independence—public dinners—sentiments expressed suitably to the times and the occasion. Such has been the practice of the true votaries of freedom since the nation has enjoyed the fruits of the American Revolution, and may the practice never be discontinued.

But we deeply regret that within a very short period the day in our city has been desecrated. There has been no public exercises—nothing done to uphold and perpetuate the principles of our free institutions; but some things have been done to cast a burlesque upon the day and bring it into reproach and disrepute. There has been a liberal outlay of money—worse than useless. For our citizens to be so heavily taxed for ridiculous, unbecoming shows in the streets,—burlesques upon the manners, customs and apparels of those who struggled in our seven years' revolutionary conflict, or of their descendants, — false masks of the native Indians,—for processions, teams, &c., drawn by horses and many yoke of oxen, and other things wholly unbecoming the occasion,—we have no hesitation in saying, is a descration of the day, from which no public good is derived.

Such street exhibitions, as a complement of the celebration, is a wide departure from our former customs. It is said that such farces bring people into the city. It is not denied. But this is for the benefit of a very few, while our citizens are taxed for it without any benefit. Our city government may, without complaint, make a small annual appropriation for ringing the bells, firing cannon, and perhaps music, without legal authority. But no further against the law.

We have no personal reflections to make, but contend that our Mayor, City Marshal and Police should preserve order not only during the day, but the nights preceding and succeeding. Nothing can be more disgraceful than suffering boys and rowdies kindling fires in different parts of the city in the night time, and firing pistols and crackers during the day, to the annoyance of persons in the streets. Let our Police be well armed, and, without fear of combined rowdies, put a stop to the commencement of such outrages. If bonfires are to be allowed, let some open field be selected, so that valuable private property should not be consumed, nor our buildings endangered. The toleration of such disorder tends to induce many to enter liquor cellars, and they come out prepared to commit depredations under cover of the night.

It should be understood that the sufferance of outrages to which we barely allude, tends to bring the city into disrepute abroad, and to prevent property-holders coming and settling in it.

We think that the city of Portsmouth has sufficient population annually to commemorate the 4th of July in an appropriate manner; but not by useless street shows, and the waste of money.* There is now ample time for all needful preparation. Party spirit should be laid aside—and perhaps it would be judicious and most expedient for the city authorities to make the requisite regulations, and, as in some other cities, superintend the proceedings.

A FRIEND OF THE CITY.

*We presume that no one could or would object to a "floral procession" of our youth, certainly beautiful to the eye, if its beauty should not be marred by what is inappropriate to it.

For the Chronicle.

The nomination of Lincoln & Hamlin has infused a spirit of enthusiasm among the younger portion of our community. So much so, that a club called "Young America Wide Awakes" has been organized in this city. They hold their meetings at the Hall 11 1-2 Congress street, and it is their intention to work with unabated zeal until "Honest old Abe" is elected President of the United States. The following are the officers of the club:—

President, Joseph Foster; Vice President, Henry C. Walker; Secretary, Chas. C. Melcher; Treasurer, Saml. G. Lamson.

All Young Republicans desirous of becoming members will please hand their names to one of the above named officers.

Per order.

☞On the fourth page will be seen mention of a grand trip to the White Hills to be made during the 'lovely month of June,' which is the best time on many accounts, as this will also be one of the best opportunities, to visit this magnificently attractive region. The arrangements for a capital excursion are complete, and in the best of hands.

☞ The interesting and exceedingly valuable Course of Lectures on Man, by Prof. O. S. Fowler,—probably the most learned and able phrenologist, physiologist, teacher of natural and moral philosophy in the world—was closed on Saturday evening.—Everybody ought to hear them—but unfortunately, most people don't care to "know themselves," but are willing to blunder along most anyhow. This (Monday) afternoon he will Lecture to Ladies only—and this evening to Gentlemen only—and no man or woman can afford to be ignorant of what they may here learn.

Prof. Fowler makes examinations at his office during the day, which are correct and valuable and which many of our citizens are availing themseves of. The afflicted should not forget that Dr. A. A. Wheelock is associated with Prof. Fowler, whose skill in locating, and success in the treatment of disease by *Electricity*, are acknowledged wherever his advice and practice have been employed. Consultations free at their rooms, Rockingham House.

☞ The Mayor called the Common Council together last Monday evening; but only the regular business of the Board being presented—this was voted not to be in order at a *special* meeting, and the Board adjourned. The Gazette finds fault with the Chronicle for simply stating these facts —but our paragraph, as any fair reader will see, neither condemned the Mayor for calling the meeting, nor commended the Common Council for their action. The President decided any regular business to be in order, but was not sustained—and our reporter briefly chronicled the double transaction.

☞ An extra train will run on the Concord and Portsmouth railroad on Thursday next, June 7, leaving Portsmouth 6:45 A. M. and returning will leave Concord at 5:40 P. M., thus giving those of our citizens who desire to witness the imposing ceremonies of the inauguration of Gov. Goodwin, and the parade of the Horse Guards, an entire day in Concord.

☞ Died, at Kittery Point, on Saturday, June 2, Rev. John M. C. Bartley, aged 61 years. Mr. Bartley was ordained at Hampstead, N. H., in 1836, and remained pastor there for more than twenty years. He removed to Kittery Point last Fall, and was the acting pastor of the Congregational Church there at the time of his death, tho' not formally installed. He was highly respected by his people, who had become warmly attached to him during his short ministry there.

Funeral from the church on Tuesday, June 5th, at 2 P. M. Relatives and friends are invited to attend.

☞ Horace F. Clark, of N. Y. testified before the Covode Committee relative to the subsidy of $40,000 per month to Mr. Vanderbilt. He stated the Administration was not responsible, as the arrangement was completed before Mr. Buchanan's term.

Patrick Lafferty, late carpenter in the Philadelphia navy yard, testified that during the campaigns of 1856 he was a member of the Democratic committee of Philadelphia, and his special duty was to find men not legally naturalized and furnish them with fraudulent naturalization papers, of which between five and six thousand were employed in the campaign.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance. **J. B. FLAGG.**

Portsmouth, May 1st, 1860.

PLEASURE SAILING.

The **Schooner SIBYL,** one of the beautiful Yachts built by the late George Steers, will run during the season, to the Shoals, or to any other port or place, desired by the parties who may employ her for a day or a number of days.

She will lay when in this port, at PIER WHARF, and will run as an Accommodation Yacht, to the order of Individuals or Parties.

Application may be made on board, or to Messrs. JOHN RIDER & SON.

The Sibyl is commanded by Capt. RUFUS A. PRENTISS, an experienced pilot, who will give every attention to the comfort and enjoyment of his passengers. The Sibyl has an elegant cabin, water closets, tanks, and every accommodation of a first class packet.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions, they are a blessing and a cure—none need despair; no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains no thing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

BEAUTIFUL EXCURSION.

There is to be an excursion to the White Mountains, over Lake Winnipisoogee, from Portsmouth and vicinity, on Monday, 18th June, for considerably less than half fare. Return tickets to be good ten days. The Hotels on the route and at the Mountains will entertain the excursionists at one-half the usual rates.

Tickets from Portsmouth and back, $7,50.—Further particulars next week.

The avails of the excursion are to be appropriated towards paying for the new Broadhead M. E. Chapel. A beautiful excursion! All we regret is, that the fare is so low that the good object for which it is started will not receive so much benefit as we could wish.

SHEAFE PROPERTY. — The Boston papers state that the valuable estate on School street, Boston, opposite the new extension of the Parker House and in front of the City Hall grounds, about twenty feet on School street and one hundred and five on Chapman placey covered by a substantial four-story building, was sold at auction to Wm. Sheafe, Esq., formerly of Portsmouth, for the sum of $41,000.

Mr. Sheafe has also recently purchased a beautiful seat at Brookline, worth about $20,000, where he resides. He has spent the last year over $100,000 in building the spacious block on Washington street. It may not be generally known that a few years since, Mr. S. was a resident here, he contemplated extensive improvements in that part of Market street near Deer street. He asked of the city a small consideration for widening the street, preparatory to other improvements. This the city fathers refused to allow. The result was, that the thousands and tens of thousands which might have been spent here for the benefit of our mechanics as well as the improvement of the city, were lost, and a large capital transferred to Boston.

SARZA.—We have long supposed this celebrated drug, had come to be an exploded humbug, but we are assured by those skilled in the healing art, that not the Sarsaparilla itself is to be blamed for this conclusion, but the miserable worthless preparations of it, that have been palmed off upon the community—preparations which contain about as much of its virtues as they do of gold dust. It is a commercial fact that almost all the Sarsaparilla gathered in the world, is consumed in the old countries of Europe, where the science of medicine, has reached its highest perfection, and where they know best what to employ for the mastery of disease. Hence we are glad to find that we are now to have a compound of this excellent alterative, which can be relied on and our community will not need be assured, that any thing DOCT. AYER makes, is worthy of their confidence. He has been for years engaged in eliminating this remedy (see adv'g Cols.) designing to make it his *chef d'oeuvre* which should add the crowning glory to his already enviable reputation.—*American Cal, New York.*

On Sunday night fifty three grafted apple trees in the orchard of Mr. Samuel C. Webster of Plymouth, N. H. were girdled with a saw so as to entirely destroy them. The trees were all grafted with the choice fruit, had been cultivated with great care and were the most thrifty and finest orchard in that section. Nearly all the trees were in bloom. The loss is about $1000.

LINCOLN & DOUGLAS.—MESSRS. Brown & Taggard have published an edition of the debates between these prominent gentlemen, as they stumped the State of Illinois. It is an excellent document for use at the present time, exhibiting the sentiments of these prominent statesmen in their true light. The volume is for sale by J. F. Shores, jr.

TULIPS.—A rich treat to every passer-by is the beautiful flower garden of Wm. P. Jones, Esq., on Court street. Solomon in all his glory was not so splendidly arrayed as his bed of tulips has been the past week.

The last day of May we had three-fourths of an inch of rain, which has been of great benefit to vegetation in this vicinity. It is about equal to the whole fall of rain for the previous ten weeks.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 2.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 3.—No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, in which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, or NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *Drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE DIFFICULTIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD.", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of deadening its sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING; DIARRHŒA, DYSENTERY, COLD stomach and STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflammation, and ALLAYING PAIN, and relieving pain, it has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of wormfits. For the sake of your babes the life and health of your children, and wish to save them from those sad and blighting consequences which are entailed on thousands of sufferers of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL. Price 25 cts. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirious Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do?

DOSE.—1 wine glass full as often as necessary.
One dose will cure Hard Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor where one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and other habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupting and poisonous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions and sores. This foul impurity, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, though not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin direct, if in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is compounded from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the recuperation of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, TUMORS, BLOTCHES, BLOTCHES, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from impurity of the Blood. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search out disease, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. In consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every kind, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their efficacy in decisions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Biliousness, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the range of pulmonic disease, so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen, manufactured by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSMENORRHŒA, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, some trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten by their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Emaciated forms of apparent fatal kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

IN NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, free in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency to form them.

IN DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advised to by DYSENTERY, considered dangerous, and apparently malignant, the effects have been equally decisive and astonishing.

Pale faces, want of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, will yield to this remedy, to the alone of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of Iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy, as tonic and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and as progress is in the new settlements of the West, will probably be one of its well known and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which effects such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of flesh and strength, with unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

MARRIAGE IN HIGH LIFE AT WASHINGTON.—The marriage of Madame Bodisco, the widow of the late Russian Ambassador, to Captain Scott, of the British army, is the theme of many letters in the papers. Twenty-one years ago, Miss Harriet Williams, then a young school girl at Georgetown, married Baron Bodisco, the Russian Ambassador, a man of three times her own age. The parties lived happy together till the death of the husband, seven or eight years ago.

The Baron left five or six children, the two oldest having been taking into the Russian corps of cadets. His widow has since divided her time between St. Petersburg and here, visiting, *en passant*, the principal courts of Europe, at which she was always a welcome guest. "*Belle et blonde*," as she became more substantial in figure, her complexion appeared to grow fairer. Many are the offers she is said to have refused, among them Sir John Crampton.

The bride's dress was composed of splendid lavender colored silks, tastefully embroidered with rich laces, and flounced, but with such excellent taste as to preclude any idea of gaudiness. This dress, it is said, cost about $3000. In addition she wore a pretty straw bonnet, which imparted all the air of eighteen. The captain was handsomely attired in a full suit of scarlet, the British uniform. The bride, in gaining a husband, forfeits her Russian pension as the widow of a diplomatist, and a portion of the income which she has enjoyed by the Baron's last will and testament.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and hair; but all woo have used it, unite in testifying that it will preserve the hair from being gray, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can use a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds a full pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of the celebrated 'Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

ROMAN CATHOLIC POLITICS.

Uncle Toby requests all christians who are afraid of politics, and all patriots who are afraid of religion,to skip over this piece and not read it.

It would also be well for all tender-footed and thin-skinned people, who are afraid of a mixture of politics and religion, not to read any more of it, because they are necessarily mixed up here.

In an editorial of June 2, the Pilot says: We do not believe that much is gained by the active part taken in politics by Catholics. We hardly know of any good derived from the doings of Catholic politicians. But we know of much evil caused by politicians said to *represent* Catholic principles and feeling, while certainly they are far, very far, from possessing those qualities of mind (we leave the heart out of question, when we talk of politics) which they must needs to possess in order to exact respect from, or alarm the assurance of opposite parties.

Let us bear in mind that the safety of the country, the peace of the Union depend upon the maintenance of the principles of Catholic conversatism. The Catholic in this country has unequalled opportunities of bettering his condition, and we have *invariably* found both here and at the West,and at the South, that strong merchants, successful planters, as well as comfortable Catholics who lead a happy life in moderate circumstances, have abstained from politics. They did their duty at the poll,and thereby have advanced the Catholic *body* towards that *equi-ponderance* which it ought to attain in this great Union.

By politicians, the Pilot evidently means wire-pullers and demagogues.—Its advice to Catholic voters is exactly what we have often given to *all* voters, viz. go to the polls always, and vote quietly and manfully.

The Pilot's suggestion about the equi-ponderance of the Catholic *body*, put into plain English means, that the members of the *Roman Church*, the moment they get a *preponderance*, or a majority, would assert the *Supremacy*, which that church and its pope and preisthood have always claimed over all other sects and all other governments!

They hold that the Pope is God's vicegerent on earth,—and in conformity with this view, the Roman priests in Japan, long years ago, were such politicians, such wire pullers, that the Japanese Government banished all Christians, and shut the doors against christian missions.

Had they the numerical power here,—the priests would pull the wires, and their obedient people would march to the polls and vote in a solid "Catholic *body*," for a government by the Inquisition as a Court, and by their Councils as a legislature.

We should hear no more about popular sovereignty, or the right of private judgment.

The priests would be the sovereigns;—and the people must take all they say for law and gospel.

CATTLE DISEASE.—The Boston Herald thinks that the different towns and cities of the State could manage this matter much better than the legislature. Let the towns be made to pay a proportion of the damages assessed for cattle slaughtered in their respective towns, and we should soon find a non-intercourse regulation established in each town where there was the slightest danger of infection. So long as our farmers and cattle dealers can go to the State treasury for money to pay for their cattle, we fear there will be no lack of cattle disease; but when they are made to put their hands more directly into their pocket to pay in part for arresting the disease, they will restrict it to its narrowest limits in the shortest possible space of time.

TRIAL OF A CURATE FOR THIRTY-THREE CASES OF SEDUCTION.—The Criminal Court of Turin has been occupied by a case which has spread consternation and shame through many of the most respectable families in the Sardinian capital. The trial was that of Don Gurlino, a Curate.—His professional duties at the confessional, he violated in so foul and atrocious a manner that no less than thirty-three young girls would appear to have fallen victims to his systematic and scientific profligacy. He was found guilty, and sentenced to seven years' solitary confinement.

☞ It is reported that a quarrel has arisen between the President and the Secretary of State, all being about a private (or as the President contends a public) bill of the amount of $34.80. It was for Charleston dispatches sent to Mr. Buchanan by Geo. Saunders. Probably the President thought they were of no benefit to him, and so he sent the bill to the State Department. "Not allowed—a private expense," was the endorsement of Secretary Cass.—Hence the new rupture and danger to the Union.

Gen. Lamoriciere has caused the Papal troops to make a forward movement. He'll find them make awkward movements,when an enemy shall appear.—*True.*

☞ The Banks in Portland are hereafter to close for the day at 2 o'clock, P. M.

NOTES ON NURSING.

The book by this title, from the pen of Florence Nightingale, has been very favorably received in England. The following notice of it appeared in one of the London literary journals:

The wholesome vigor of these notes is delightful. They are no feeble protest against popular errors, but an active stimulant to the right management either of homes in which health is to be maintained, or of the sick rooms in which health is to be restored. Miss Nightingale accepts for herself and enforces upon others without compromise, the leading truths of sanitary science. Hostile to the uttermost against musty dwellings, she would wish that even the outsides of houses could be faced with glazed tile, and kept clean by frequent rinsing from the hose of a fire engine.

In her advocacy of fresh air, she does not stop to allow for differences in the state of the weather, when she says broadly that there are few nights in the year on which we cannot safely keep our bed-room windows open. The thoroughness of her just enthusiasm extends also to a scorn of the doctrine of contagion, right in the main, but not justified throughout by the testimony of scientific facts. Her note upon this subject is capital, and may be cited as a good example of her sensible and lively manner:

"Is it not living in a continual mistake, to look upon diseases as we do now, as separate entities, which *must* exist, like cats and dogs?—instead of looking upon them as conditions, like a dirty and a clean condition, and just as much under our own control; or rather as the reaction of kindly nature against the conditions in which we have placed ourselves.

"I was brought up, both by scientific men and ignorant women, distinctly to believe that small pox, for instance, was a thing of which there was once a first specimen in the world, which went on propagating itself, in a perpetual chain of descent, just as much as that there was a first dog, (or a first pair of dogs,) and that small pox would not begin itself any more than a new dog would begin without there having been a parent dog.

"Since then I have seen with my eyes and smelt with my nose, small pox growing up in first specimens, either in close rooms or over-crowded wards, where it could not by any possibility have been 'caught,' but must have begun. Nay, more, I have seen diseases begin, grow up, and pass into one another. Now, dogs do not pass into cats.

"I have seen, for instance, with a little over-crowding, continued fever grow up;—and with a little more, typhoid fever; and with a little more, typhus, and all in the same ward or hut. Would it not be far better, truer and more practical, if we looked upon disease in this light? For diseases, as all experience shows, are adjectives, not nouns substantive."

There may be a trace of truth overlooked here, but there is most assuredly a most important truth forcibly stated. Miss Nightingale is merciless on the content with which families submit themselves to ailments that are very much about.' Here is another bit of bold right sense:

There are not a few popular opinions, in regard to which it is useful at times to ask a question or two. For example, it is commonly thought that children must have what are called 'children's epidemics,' 'current contagions,' &c.; in other words, that they are born to have measles, whooping cough, perhaps even scarlet fever, just as they are born to cut teeth, if they live.

Now do tell us, why must a child have measles? O, because, you say, we cannot keep it from infection—other children have measles—and it must take them—and it is safer that it should. But why must other children have measles? And if they have, why must yours have them too?

If you believed in and observed the laws for preserving the health of houses, which inculcate cleanliness, ventilation, whitewashing and other means, and which, by the way, *are laws*, as implicitly as you believe in the popular opinion, for it is nothing more than an opinion, that your child must have children's epidemics, don't you think that upon the whole your child would be more likely to escape altogether?"

☞ A young man named Frazier, aged about 24 years, son of Rev. Mr. Frazier of Cape Elizabeth, was drowned in Portland harbor on Saturday at noon. He and another young man were sailing, and in going about, the boat capsized, and immediately sunk, and carrying young Frazier down. The boat has been raised, and it was found that both the main and jib sheets were so closely belayed, as to have made it difficult to let them go in proper time.

☞ A Georgia paper calls attention to the fact that the Charleston Convention forgot all about John Brown, his invasion not being referred to in the speeches nor the platforms. But, says the paper, "the Republicans themselves in Chicago have taken upon them the responsibility of denouncing John Brownism and the invasion of States. Verily, our Squatters had better turn their faces toward 'Honest Abe.'"

☞ John E. Flint, who was stabbed in an affray at Camden, Me., died on Wednesday morning. George H. Tighe of Rockland, by whom he was stabbed, has been arrested. Flint commenced the affray by an attack on Tighe, because the latter accompanied Mrs. Flint to the circus. Flint and his wife separated two years ago, and have not lived together since. Mrs. Flint kept a boarding house, and Tighe was one of her boarders.

Never condemn a friend unheard, or without letting him know his accuser and the charge preferred against him.

☞ The Germans of New Haven ratified the Chicago nominations on Friday evening.

FROM EUROPE.

NEW YORK, June 3.—The steamship Vanderbilt, from Southompton 23d, has arrived, bringing London and Liverpool advices of the same day, and upwards of 200 passengers. She reports severe wintry weather throughout the passage, and passed several icebergs.

A dispatch to Southampton reports that Thormanby won the Derby race, Ten Brock's Umpire being eleventh.

ITALY.—The Neapolitans had abandoned the provinces of Palermo and Trapani. Great disorder prevailed, and the provinces were in full insurrection. 6000 Sicilians had joined Garibaldi.

The Neapolitan army was routed on the 15th by the troops under Garibaldi.

A conflict took place on the 19th, between the Pontifical gendarmes and a party of Garbaldians, near Montefiascon, in the Roman territory. The latter were driven back to Tuscany, with a loss of 30 killed and wounded.

It was rumored that England, Austria and Prussia had agreed to maintain the integrity of the Ottoman Empire.

The treaty of Zurich has been approved by Sardinia.

ROME, 23d.—The Customs' Guard at Onano have been attacked and overpowered by fillibusters, who, after plundering the treasury, retreated to Tuscany. The peasantry are asking for arms. The Papal troops will immediately leave Rome for the frontiers.

The Journal of Rome says the news from Sicily is favorable to the Neapolitan government. An artillery force has left Rome for the frontiers. The Pontifical Chasseurs sent after the fillibusters, owing to the darkness of the night, fired upon each other, killing their captain.

GREAT BRITAIN.—In the House of Commons, on the 21st, Lord John Russell, in reply to a question, said there was no intention on the part of the Spanish or Austrian governments,of interfering in Sicilian affairs.

NAPLES, 18th.—The band of Garibaldi has been attacked at the point of the bayonet, by the royal troops, near Calata Fimi, and totally routed, leaving on the battlefield their flag and a great number of killed and wounded, among whom is one of their chiefs.

Saturday Evening.—It is asserted here that the fight at Calata Fimi was not decisive, and that the Neapolitan troops have re-entered Palermo. Two columns, of 3000 men each, have been sent in pursuit of the insurgents.

It is estimated that 6000 Sicilians have joined the Garibaldians.

LIFE INSURANCE.—A Convention of officers of life insurance companies was held in New York last week, at which some interesting facts were brought out.

The funds now held in trust by the Life Insurance Companies in this country,amount to twenty-two millions of dollars; the sums insured are about one hundred and eighty million, and the number of lives near one hundred and sixty thousand. Over two millions of dollars are paid out every year by the falling in of claims, mostly to widows and orphans. And yet, as was remarked by Mr. Barnes and others, "Life insurance in this country is only in its infancy."

Elizur Wright, Esq., Insurance Commissioner of Massachusetts, presented a paper exhibiting the mortuary experience of fourteen companies which had reported to his State for the past year. This experience was equal to about fifty thousand years of life, and it proved that life in this country, at the ages between thirty and fifty-five, was not subject to as high a rate of mortality as similar returns proved it to be in Great Britain and Germany.

☞ The rope walking mania has broke out again this season, and promises to rage violently until some adventurous wight breaks his neck. Mons. De Lave walked a rope stetched across the falls at Patterson, N. J., on Thursday. Mons. Blondin has got his rope up at Niagara Falls, and promises to perform various astonishing feats in the course of the season.

FLORENCE NIGHTINGALE has recently published a litte book entitled "Notes on Nursing," which is highly commended.—The authoress is the same angel who became world-renowned by hovering around the beds of the suffering and dying at the seige of Sebastapol. There is one kind of nursing, however, which *Miss* Nightingale can't perform. She can't nurse a baby!—*Bath Times.*

☞ The Washington correspondent of the N. Y. Courier and Enquirer says that the most cheering advices are pouring upon members of Congress from their various districts relative to the prospects of success for the Chicago ticket. Wigwams are in the course of erection all over the country, and in those sections where rails are easily procured, the fronts are laid up with handsome split rails.

Senator Brown of Mississippi is a benevolent man, but slightly blasphemous. He says he "would spread the blessings of slavery, like the religion of our Divine Master, to the uttermost end of the earth." So would we, so closely to the ends of the earth,that slavery might be pushed off from the earth into far boundless space.—*Trav.*

☞ The Republican ratification meeting at St. Louis was the largest demonstration of the kind ever witnessed in that city. At least ten thousand persons were present.—Speeches were made by the Hon. Francis P. Blair, jr., Mr. J. T. F. James, Mr. Brandt, and others.

We are apt to believe in Providence so long as we have our own way; but if things go awry, then we think, if there is a God, He is in Heaven, and not on earth.

CONGRESS.

SATURDAY, June 2.

SENATE.—The bill to settle the private land claims of California was taken up and discussed, but without voting on it, it was postponed.

The Military Appropriation bill was taken up.

Among the amendments to the bill, the following from the Military Committee were adopted:

Appropriating for the support of one regiment of mounted volunteers in Texas, $788,000.

For repairs and continuation of work on various fortifications, $4,155,000.

Other amendments were adopted. Adj.

The HOUSE resumed the consideration of Mr. Winslow's resolution for subpoening certain witnesses before the Covode Investigating Committee.

A number of private bills were passed.

The House then went into Committee for general debate. Very few members were present.

Mr. Stewart of Md. made a speech in reply to his colleague (Davis,) who, several months ago, attacked the House of Delegates of that State for censuring him for voting for a Republican Speaker of the House (Mr. Pennington.)

Mr. Davis said the expression of opinion by the House of Delegates was a sheer piece of impertinence.

Mr. Morrill took the floor, when Mr. Craige of N. C. raised a point of order, that there was no quorum. He was tired of making the House a debating society, and of printing speeches never delivered. Every man who voted to go into committee in order that gas might be let off, had left. He resisted all appeals to withdraw his objection.

The committe rose, and the House adj.

MONDAY, June 4.

SENATE.—The Kansas bill was taken up. Mr. Sumner of Massachusetts addressed the Senate.

A resolution was adopted, which was offered by Mr. Wilson, calling for information touching the arrest, on board an American vessel at Palermo, of Father Lanza, an Italian patriot, by the alleged agency of Consul Barstow.

The bill relative to the Homes gaant was taken up.

RAILROAD COLLISION—SEVERAL KILLED AND INJURED. — *Westchester, Pa., June 2.*—A collision occurred on the Baltimore Central Railroad this afternoon, near the Fairville Station. Two passenger trains met on a curve, where the grade was heavy, and, rushing into each other, both engines and four cars became a total wreck. The firemen and engineers escaped by jumping off the train. Conductor Taylor and a newsboy were seriously injured. Lee Michner, a farmer, of Chester County, who was standing on the platform, was instantly killed. A number of passengers were more or less injured.

☞ During the first week in which the Washington officials took possession of the New York Post Office, the receipts rose to $16,000, or about $4000 more than the ordinary average. This is thought to indicate that other leakages than those for which Mr. Fowler was responsible, have been going on in that office.

☞ Edward Kendall, the celebrated musician, is sick with consumption in Boston, and is poor. A benefit concert is to be given to aid him.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and sores or ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
BETSEY SANBORN.
Kensington, Sept. 25, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in case of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a great prospect of success than any other medicine I use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of
THE OXYGENATED BITTERS,
There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

☞ Among the real improvements about town is the widening of Vaughan street, opposite the mansion of Robert Gray, Esq. The additional width, and improvements added by Mr. Gray, have done much to render attractive that part of the street.—

There is now needed a cross-walk from the north corner of ex-Mayor Toppan's house, across Deer street, so that parties coming from or going to the Eastern depot, in muddy travelling, can continue by a direct path upon the westerly side of Vaughan street.

☞ A musical friend of the Chronicle tells us that in mentioning some of the lady organists, a few days since, we omitted the name of Miss Ellen Hadley, who has for several years given so good satisfaction at the Middle Street Church. But our object was not to give a complete list of the organ players in the city; but merely to Chronicle the recent changes. Besides these named, there is also a young lady now officiating at the Temple, who, if we mistake not, has played an organ or melodeon at church longer than any of the others—to the best acceptance of choir and people. There are more ladies than gentlemen, organists at present in our churches.

☞ The annual meeting of the Portsland, Saco & Portsmouth Railroad was held at North Berwick on Monday. The report of the Directors was accepted, and the following gentlemen (being the board of last year) chosen Directors:

Ichabod Goodwin, Portsmouth; Geo. M. Browne, Boston; Francis Coggswell, Andover; Thos. West, Haverhill; Chas. E. Barrett, Portland; James Hayward, Boston;—Nathaniel Hooper, Boston.

☞ The occasion of the annual meeting of the P. S. & P. Railroad Company, at North Berwick, on Monday, gave the stockholders from Massachusetts an opportunity to spend a few hours in Portsmouth—which was well improved, as usual in such cases, so that our streets were lined with strangers.

☞ Prof. O. S. Fowler closed his series of valuable Lectures here, on Monday—giving in the afternoon and evening, private lectures of inestimable worth, to ladies and to gentlemen.

His lecture on Temperance, Sunday evening, was full of interesting facts and deductions, respecting the evils of intoxicating drinks and tobacco.

He has recently published a large and handsome volume, illustrated, treating of "Matrimony" in all its relations;—how to form and how to enjoy it; which both old and young ought to read and study. It can be had only of the author.

☞ It was proposed to have in this city, on Monday, a dress parade of the members of the Horse Guards residing in Rockingham and Strafford Counties; but circumstances preventing the attendance of several gentlemen from the neighboring towns, it was deemed better to postpone the turn-out here till some future occasion. The corps will appear with full ranks, at Concord, on Thursday—and to give our citizens an opportunity to visit the capital on that day, an extra train will be run from Portsmouth.

☞ Saml Fabyan, Esq. formerly of this city, has been appointed an Inspector in the Boston Custom House.

ONE DAY LATER FROM EUROPE.

FATHER POINT, June 4.—Steamship Nova Scotian, from Liverpool 23d, via Queenstown 24th, has passed this point. Her advices are a day later than per Vanderbilt.

The Derby race was won by Thormanby; Umpire was about the sixth horse in. The American party are greatly discouraged at this result. Umpire ran under protest as to age.

Naples, 23d.—The rebels have been beaten twice by the royal troops, and driven to Pertinico with considerable loss. One of their leaders was killed.

The heights occupied by the rebels have been taken by the royal troops.

Rome, 23d.—An official dispatch from Naples of the 22d says the Sicilian insurgents were attacked and dispersed on the 21st, and 38 rebels killed.

The insurrection was making no progress.

The London Times' Paris correspondent, writing on Wednesday night, says: No fresh intelligence from Naples favorable to the government has been received.

The Vienna correspondent of the Times says the prevalent opinion there is that Sicily is lost to the Bourbons.

The greatest conquest yet affected by the Sardinian King is his conquest of the prejudices of Mazzina, who is now a good Victor Emanuelite.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Grease spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting windows, carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the

CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Hearings, Fatigue on slight exertion, Palpitation of the Heart, Loseness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made*, and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

Morning Chronicle.

☞ The Albion states that while a discussion was going on in a London clubhouse as to when, and how much, literary men generally wrote, some one raised a laugh by remarking that at any rate if Warren wrote "Now and Then," and Bulwer Lytton "Night and Morning," Dickens wrote "All the Year Round."

☞ On Sunday night fifty-three grafted apple trees in the orchard of Mr. Samuel C. Webster, of Plymouth, N. H., were girdled by a saw so as to entirely destroy them. The trees were all grafted with choice fruit, had been cultivated with great care, and were the most thrifty and finest orchard in that section. Nearly all the trees were in bloom. Loss $1000.

In a Western court, the lawyers were very noisy, holding loud conversation, so that the evidence of witnesses could scarcely be heard. The deputy sheriff rapped repeatedly for order, but the lawyers chatted on. At last, a member of the bar, rising suddenly to his feet, with remarkable gravity of countenance, said:

"Judge, it is impossible for gentlemen to hold conversation while that person (pointing to the deputy sheriff) is allowed to make the noise he does."

This cool speech brought forth roars of laughter, in which the Court joined.

Somebody says "the pleasure of doing good is the only one that never wears out." Probably this is because it is worn so seldom.

GREAT HUMBUG.

The idea that any one can sell CLOTHING FURNISHING GOODS **cheaper** than

MOSES & DOWNIE,

is a great humbug. They buy their Goods in large quantities, and manufacture them under their own supervision. Therefore, no one can compete with them in low prices, who have to buy their Clothing Ready-made.

We have the largest and best Stock of **Ready Made Clothing & Furnishing Goods** ever offered in Portsmouth; and at the LOWEST PRICES. The whole of which must be disposed of lower than ever before, in order to reduce our immense stock.

It would be impossible to enumerate the different articles in our Store, but we would say that we have COATS varying in price from

50 CENTS TO 15 DOLLARS!

and PANTS from

50 CENTS TO 7 DOLLARS!

We have also the largest and best assortment of

Make to Order in the Very Latest Styles,

AT A VERY LOW PRICE.

We might go on and fill a paper with a description of our goods, but that would not satisfy the public mind nor clothe their backs. If there is any one inclined to doubt our statement, let them call at our store, and they will doubt no longer. The large patronage we have received is proof of our assertion. We have also any quantity of goods for Men's and Boys' wear, to sell by the yard. Also

Hats, Caps, Boots, Shoes, Trunks, Valises, Umbrellas, Carpet Bags, And Oil Clothing,

and anything needed to make a man comfortable in feeling and respectable in appearance; and what is best of all, it takes but little money to do at the BIG CLOTHING WAREHOUSE of

MOSES & DOWNIE;

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square.

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him, and ever grateful for past favors, respectfully solicits a continuance

BLOOD FOOD.
Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*.—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Debility, &c., and we find in *every* instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are now well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS (including CONSUMPTION, see No. 1), which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that what was formerly a DREADED DRUG, is now a BLOOD FOOD. For FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, ERYSIPELAS, SCROFULA, KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

MOTHERS,
Thousands are daily speaking in the praise of DR. EDWARDS' INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that this is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the suffering of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHOLERA INFANTUM, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, Relaxing Inflammation of the Bowels, and relieving pain, it has no *equal*—being an anti-spasmodic, it is used with unfailing success in cases of *Convulsions* and *Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting calamities, which so frequently follow in the use of narcotics of which other remedies for Infantile Complaints are composed, take none but Dr. EDWARDS' INFANTILE CORDIAL, this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.
Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.
This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Cold Feine, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, and Invigorates, but will not Intoxicate or Stupefy.
As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.
It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.
Persons who, from the injudicious use of liquors, have become dejected, and their constitutions shattered, are benefited and broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost instantly, find the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits the disagreeable load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.
NIGHTLY DISSIPATION.
Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness, &c., will find one dose will remove all bad feelings.
Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.
During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.
All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which the blood becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dissipation or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Wherever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children.
Its effects—commencing by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercle; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin primarily in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous;—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disease, from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, DROPSICAL SWELLINGS, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand their influence. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting the diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.
Not only do they cure the every-day complaints of country people, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Loss of Appetite, Foul Stomach, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Female Weakness, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral
FOR THE CURE OF
COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.
So well is the virtue of this remedy and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.
The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:
DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.
In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued limitation of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description of written testimony would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of long-continued nervous and muscular pain from chronic complaints, once the pride of their critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.
In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the opposition of this preparation to all other is necessarily be salutary; for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.
It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.
In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.
In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.
In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.
In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.
The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.
In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.
In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative; and its properties in the new and healthy of the West, will probably be one of high renown and usefulness.
No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

PARTIZANSHIP.—It seems to us that the present Congress has performed three farces, either of which would be enough to entail a life-time of disgrace upon the chief actors. The House has one to answer for, and the Senate two. The former is the Covode Investigation—an investigation disgraceful in the extreme, and being carried on in disregard of all the proprieties and decencies of political warfare. The passage of the Davis resolution by the Senate, is a disgrace, but it will stick only to the immediate actors. The Harper's Ferry Committee of Senate Mason is a fit yokefellow for Covode's pet animal. It has been used as an instrument of tyranny, and has resulted in nothing but to exhibit how easily a branch of the Government may exceed its legitimate power.—*Bath Times.*

☞ The London Morning Post, speaking of the loan of the Pope, which is for ten million of dollars, and in reference to the fact that the Romish Bishops all over the world are among the loan agents, pointedly says:—

"We have heard of a faith whose founder drove the money-changers out of the Temple; we now witness the spectacle of a faith of which the Supreme Pontiff would make all the ministers of the Temple play the part of money-changers."

"A NEW AGE FOR THE NEW CHURH," &c., is the title of a new work by Rev. Woodbury M. Fernald, now in press, to be issued immediately. This gentleman, we learn, has resigned his connection with the eclesiastical body of the New Jerusalem (Swedenborgian) Church, on account of "limitation and contractions inconsistent with true freedom and manhood."—*Trav.*

THE ORIGINAL AND GENUINE
DR. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA,
IS THE GREAT RENOVATOR OF THE
BLOOD.
the sovereign remedy for Eruptions of the Skin, Ulcerated Sores, and all forms of Cutaneous Diseases.
These complaints can be speedily and effectually cured by the use of this
WORLD RENOWNED
SARSAPARILLA!
Thousands have experienced its salutary effects, and tens of thousands have witnessed it, until it has ceased to be a question among the intelligent portion of the community.
When the BLOOD becomes lifeless and stagnant, either from the effects of Spring weather, change of climate, want of exercise, the use of a unfavorable diet, or any other cause; this Compound Extract of Sarsaparilla, will *renew the blood*, carry off the putrid humors, *cleanse the Stomach*, REGULATE THE BOWELS, and impart a one of vigor to the whole body.
TO THE PUBLIC.
The public are hereby notified that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA, is now manufactured under my direction and supervision, from the original recipe obtained from S. P. Townsend; and I certify that it is composed of incredients PURELY VEGETABLE, and WITHOUT MERCURY; and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.
JAMES R. CHILTON, M. D.,
CHEMIST.
DR. S. P. Townsend's Compound Extract of Sarsaparilla, has a reputation among all civilized nations as the best preparation for
RENOVATING & PURIFYING THE BLOOD
which science has ever offered to man. In this resides its peculiar excellence, and to this is due its world-wide renown.
It contains all the vegetable principles which experience has proved useful in clearing the system from disease, extracted and combined with the highest skill which the refinements of modern chemistry enable us to employ.
Whatever may be said by mortified competitors or splenetic physicians, the fact that this medicine is EVERYWHERE USED, and that its use creates an increased demand, shows conclusively that it possesses medicinal merits of the first order.
CAUTION!!
To avoid imposition it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JUNE 5, 1860.

SUMNER AND CHESTNUT.

In the U. S. Senate, June 4, in the debate on the Kansas bill,

Mr. Sumner of Mass. addressed the Senate at great length. He reviewed the slavery question, denouncing it as demoralizing and essentially barbarous in all its features; referred especially to the history of Kansas; and quoted the remarks made in the Senate and House by Southern members, with advertisements in the Southern newspapers of runaway slaves, &c., as showing the savage spirit which slavery generates and perpetuates.

Mr. Chestnut made a brief response to Mr. Sumner's speech, speaking of it as a very extraordinary one. After ranging over Europe, sneaking through the back doors of the English aristocracy, and fawning at their feet, this slanderer of States and men has re-appeared in the Senate. He had hoped, after the punishment he had received for his former insolence, that he would have learned propriety, but he had repeated his former vulgarity and mendacity. The Egyptians deified reptiles, but it remained for Northern abolitionists to deify an embodiment of malice, mendacity and cowardice. He was not inclined to put further punishment on the recipient of a former chastisement, who had gone howling thro' the world, yelping forth volumes of slander, and he would therefore endeavor to keep quiet.

Mr. Chestnut seems to be a kind of second edition of Mr. Butler, not much improved in language, but considerably so in action, inasmuch as he is not inclined to be a bully himself, nor to employ a half-drunken substitute.

Mr. Sumner said he had pointed out the barbarism of slavery; and the Senator's rejoinder should go as an appendix and fitting illustration of his argument.

THREE POETS IN A PUZZLE.—I led the horse to the stable, when a fresh perplexity arose. I removed the harness without difficulty, but, after many strenuous attempts, I could not remove the collar. In despair, I called for assistance, when aid soon drew near. Mr. Wordsworth brought his ingenuity into exercise, but after several unsuccessful efforts, he relinquished the achievement as a thing altogether impracticable. Mr. Coleridge now tried his hand, but showed no more grooming skill than his predecessors; for after twisting the poor horse's neck almost to strangulation, and the great danger of his eyes, he gave up the useless task, pronouncing that the horse's head must have grown (gout or dropsy) since the collar was put on, for he said "It was a downright impossibility for such a huge *os frontis* to pass through so narrow a collar!" Just at this moment a servant girl came near; understanding the cause of our consternation, "La, master," said she, "you don't go to work in the right way. You should do this:" when, turning the collar completely upside down, she slipped it off in a moment, to our humiliation and wonderment, each satisfied afresh that there were heights of knowledge in the world to which we had not attained.—*Cottle's Life of Coleridge.*

This is a capital illustration of the folly of regarding literary or artistic talent or education, as the only or chief attainment to be desired or valued—which mistake is not made so much by the scholars and artists themselves, as by their admirers and would-be followers. No wonder the three poets felt "great humiliation" at the country girl's superior knowledge in this instance; and doubtless her "education" excelled theirs, in more important particulars than theirs did hers. There may be good excuses for a person's not acquiring a "liberal" or ornamental education; but we can conceive of none for failing to understand the common every-day necessities of practical life.

THE PRESS.—"The pen is mightier than the sword," beyond question; but the Newburyport Herald says:

One half the men who fill public stations to-day, would not be known twenty miles from their door steps but for printer's ink; and there is more brains wasted in creating them—for virtually they are new creatures, the portraits of them in the newspapers being so little like the original that they are unknown to themselves—than God ever blessed them with or designed they should have; and when they are created, they forget their makers;"

which we think speaks more for the power than the honesty of the press. However, no doubt the writer means the *party* press, —not the "independent" sort.

☞ There seems to be little expectation of getting large appropriations for the Eastern Navy Yards this year. The Bunker Hill Aurora understands the Secretary of the Navy has reported in his estimate only the sum of ten thousand dollars for the Charlestown yard—and says if this is so, the yard might as well be abandoned at once, or removed to Newport.

☞ In Louisville, Ky., the law imposing fines and penalties upon persons selling goods by sample,—similar to the law in Maine,—has been pronounced unconstitutional, and several indictments under it quashed.

☞ It was reported at Chicago that Ex-President Fillmore would support Lincoln if he were nominated; he has written a letter, however, saying he shall support Bell and Everett.

☞ Uncle Toby looks on very calmly, and reads the great speeches, and some small ones, which are made in memory of Theodore Parker.

In Boston, last Sunday, Rev. John L. Graves [who is he?] is reported to have said in a sermon, of Mr. Parker:

For the last twenty years he has been fighting against the truth, and he has acquired much influence. Mr. Parker began by denying the divinity of Christ. He next denied the inspiration of the Bible. He next pronounced the plan of salvation a base superstition. He next denied the personality and even the existence of God, as taught in the Bible; and finally pronounced the work of the Holy Spirit to be the work of the devil. Then in his written and spoken efforts he has endeavored to cover the whole ground of Christianity, and pull every article of faith up by the roots.

At the Bromfield street Methodist Episcopal Church, Rev. Wm. F. Warren made Theodore Parker the exclusive subject of his discourse.

In his death, said Mr. Warren, is the cessation of one of the great forces in the moral and immoral training of the world. He would speak freely of the great man gone, and thereby follow the example of Mr. Parker himself, who, in the face of a nation in tears, dared to utter his estimate of the character of Webster. He had been on terms of some intimacy with Mr. Parker.

* * * The baneful influence of the ministry of Mr. Parker consisted in a tendency to fix in the popular mind a low and unworthy conception of God. Theodore Parker had said many very beautiful things of God, and *his* God was better than the *abominable* deity of the *Calvinists*, or the *grandmother* in a rocking chair set up by the *Universalists*. But Theodore Parker's God never sent a ray of light or help to his children. How then could he be "the tender father and mother and brother of men?"

A TRAITOR TRIED AT COURT.—The Democrats in the county of York, in attendance upon the Supreme Judicial Court, now in session at Alfred, held a meeting on the evening of Wednesday, May 30th, in the Court House at Alfred. High Sheriff Burbank was called to officiate at this political gallows, which the attendants and attaches of the Alfred Court then and there erected. They then go on to hang our friend Lane, says the Portland Advertiser (the last man we should have selected in old York as a traitor to Democracy,) by the following remarks:

Believing that Thomas K. Lane, one of the delegates pretending to represent this district in the Charleston Convention, understood to a certainty the sentiments of the democracy of his district, therefore

Resolved, That by his vote in the Charleston Convention, given for Mr. Guthrie, Thomas K. Lane knowingly misrepresented the great mass of the democracy of this district.

Squatter sovereignty and its putative father, the Little Giant, are thus endorsed by the Democrats of old York "in attendance on Court:"

Resolved, That the doctrine of non-intervention by Congress with slavery in the Territories, as advocated by Mr. Douglas in his speeches in the U. S. Senate, is correct in principle, just in itself, and the only true policy that promises an end to Congressional agitation, and peace and prosperity to the country.

Resolved, That in the Hon. S. A. Douglas, the Democracy of the United States have a true and faithful exponent of the only conservative national organization having a shadow of a chance of holding in check the extreme men of the North and South, and preserving inviolate the constitutional rights of all sections of our common country, &c., &c.

DOUGLAS MEETING.—*Philadelphia, June 4.*—A large and enthusiastic Douglas meeting held here to-night at Concert Hall.—Ex-Mayor Vaux presided, assisted by numerous Vice Presidents, including Edwin Forrest. Resolutions were adopted declaring Mr. Douglas their choice for the Presidency; denouncing his shameless persecution; expressing devotion to the Union; declaring the great doctrine of non-intervention; heartily approving of the Charleston platform; pledging their support to the Baltimore nominee; repudiating all sectional parties; declaring it the duty of the Baltimore convention, before proceeding to ballot, to adopt a rule requiring each delegate to pledge his support to the nominees, as the only condition on which they can be admitted as participants.

A SUGGESTION.—The Toledo Blade suggests that the democracy, on opening their adjourned convention at Baltimore on the 18th of June, join in singing the following stanza from one of Watts' hymns:

So when a raging fever burns,
We shift from side to side by turns;
But 'tis a poor relief we gain,
To change the *place* but keep the *pain*.

☞ The Manchester American says it is decidedly amusing to see the organs of a party which nominated James K. Polk and Franklin Pierce for the Presidency, denounce the nomination of Abraham Lincoln on the ground that he is "obscure."

☞ The Bath Times says "there is not a zealous intelligent republican who desires the success of the Republican party, but is praying from the inmost depths of his soul that Douglas may be defeated at Baltimore. The Yanceyites are all praying the same prayer. It will do no good—it is only the prayers of the *righteous* that avail."

It matters little if you have the worst possible temper by nature, if you have the strongest possible control over it by philosophy.

THE BOBBIN BOY: or how Nat got his Learning;—a tale for Youth,—is title of a volume of 300 pages, written by William M. Thayer, in the free and easy style of a boy's book which boys will read.

It is well understood that Nat the Bobbin Boy is Governor Banks of Massachusetts; and the story is certainly not the less interesting because it is true.

Dr. Franklin once said that the story of Whittington, if the Cat were left out, would make one of the best books for youth.

The Bobbin Boy comes as near as possible to Franklin's mark,—and Nat, in many respects, is not a bad copy of Franklin.

The book is published by J. E. Tilton & Co., Boston, and sold by Chase, Nichols & Hill of that city, and by J. F. Shores, jr., Portsmouth.

THE KINGDOM OF THE TWO SICILIES, now properly called the Kingdom of Naples, has an area nearly the size of the State of New York, and a population of about 9,000,000. The continental portion contains about 31,000 square miles, and the area of 10,507 square miles. The island is the finest and most important of the Mediterranean, as it is larger in extent than Massachusetts and Rhode Island combined, and the population is about equal to that of the six New England States. The city of Palermo is about the same rank in population with Boston.

TORNADO IN IOWA AND ILLINOIS.—*Chicago, June 4.*—A terrible tornado occurred in Eastern Iowa and Northwestern Illinois last night, involving more destruction of life and property in Clinton, Iowa, than anything of the kind before.

The towns of Camanche, Iowa, and Albany, Illinois, have been completely demolished. In the former town 20 dead bodies have already been recovered, and there are still a number under the ruins.

In Albany, five or six bodies have been found, and about 50 were wounded, some seriously.

The destruction of life was equally great at Morrison, Ill.

At Lynden several were killed, and 15 in the vicinity badly injured.

The storm passed two miles north of Amboy. A report says there were ten killed there, and a number badly injured.

The course of the tornado was almost due west from the Mississippi to Rock river. Scarcely a house or barn in a direct track of half a mile in width is left standing.

The total loss of life is not under 60.—The amount of property destroyed is unascertained, but is very large.

PORTLAND MATTERS.—The Advertiser of Monday says:—

Saturday night last seemed to be a sort of drunkard's holiday—and rum and riot ruled for some hours. Yesterday we saw no less than four persons absolutely drunk in the streets, and several others half seas over. A drunken row in Fore street, about 11 o'clock, Saturday night, disturbed the whole neighborhood, and waked up everybody but the police. We learn that in another row in Middle street a pistol was drawn, and one man was stabbed in the neck. We understand that twenty-seven arrests were made on Saturday night. If free rum is to prevail, may it not be necessary to increase the police force to correspond with the *progressive flow of spirit* manifested under the new administration of the city government?

The lifeless body of Mr. Joseph Bradley, Jr., was found on Thursday morning near the entrance to Wilkin's farm, in Marblehead. A coroner's inquest was held, when it was ascertained that the deceased and two or three others were badly intoxicated at a late hour of the previous evening, and his companions were unable to give any satisfactory explanation of the affair.—*Newburyport Herald.*

☞ During the shower Wednesday afternoon, the lightning struck the house of Mrs. Ebenezer Hazleton, in Sunapee, N. H. Mrs. H. was standing near the stove, when the lightning struck the chimney, descended, split the stove in pieces, and instantly killed her. She was about 65 years of age. Six years ago a son of hers was killed on the Fitchburg Railroad; five years ago her husband took his own life, and now the wife and mother, by a violent death is sent to meet her kindred.

☞ The Methodist General Conference at Buffalo, May 31, by a vote of ayes 154, noes 57, adopted a rule of discipline which declares the buying, selling or holding of human beings to be used as chattels, contrary to the laws of God and nature, contrary to the discipline of the Church, and affectionately admonishes all the ministers and people to keep themselves pure from the great evil, and endeavor to extirpate it by all lawful and Christian means.

NAVAL COURT MARTIAL.—The charges against Commander Totten, now on trial before a Court Martial at Charlestown, are "drunkenness, oppressive treatment and behavior unbecoming an officer."

A poet says: "Oh, she was fair, but sorrow came, and left his traces there." Why became of the balance of the harness he don't state.

LADY BYRON sent $200 to the Sicilian Committee, a few days before her death, as her donation to the Garibaldi fund.

The eldest grandson of the late Lady Byron is now in his twenty-fourth year, and by the death of his mother enters the House of Lords as Baron Wentworth.

MONTGOMERY, Ala., June 4.—F. S. Lyons is president of the regular Democratic Convention. The committee on resolutions is very strongly Southern. The Douglas Convention is largely attended. It opened with some disturbance.

CONGRESS.—On Tuesday, in the Senate, Mr. Sumner presented a petition from citizens of New York and Mass. against the imprisonment of Thaddeus Hyatt. Ref. to Harper's Ferry Com.

In the House, the Senate bill for the return of the captured Africans, was considered. Mr. Taylor offered an amendment, that no contract entered into by the President shall be renewed, until a convention between the U. S. and Great Britain make joint provision for return of all captured Africans. Discussion ensued.

☞ The friends of Mr. Barrett, the democratic candidate, claim his election to the Mayoralty of Washington; but Wallack, Independent candidate, contests it on the ground of illegal voting. There was much rioting; fire-arms and clubs were used, and several persons hurt.

TURNPIKE TO SUMMIT OF MT. WASHINGTON.—Four miles of the turnpike from the Glen House to the summit of Mt. Washington, will be opened for travel on the 20th of June. The remaining distance to the summit (about four miles) will be completed as soon as possible.

☞ The Governor of Ohio has appointed a commission to go to Massachusetts and investigate the origin, causes and nature of the disease which has recently appeared among the cattle of that State.

THE CATTLE DISEASE appears to be spreading fearfully in Massachusetts.

BETSEY SANBORN.

Kensington, Sept. 26, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. ☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it to any and all who may be suffering from this dreadful malady.

THE CELEBRATION.

Messrs. Editors:—We were very much amused on reading in Monday's Chronicle an article on the Fourth of July, which in substance is mere twaddle, and amounts to just nothing. We doubt very much if the writer ever struck a blow towards the completion, or subscribed a picayune to help along a celebration of any kind; and if we can judge anything from his ideas of the "beautiful," he would be full as well pleased on seeing a line of brick carts pass through the streets, as a floral procession.

Such kind of would-be patriots will sit down and *write* about what they would like to have done; and if their views are not carried out, find fault. But whoever knew them to put their shoulders to the wheel, or their hands in their pockets and give a dollar towards such objects? To use a common phrase, that kind of talk is "played out." Where has the writer been, for the past twelve years, that he has not heard an oration, or the Declaration of Independence read? If he takes the papers, and will refer back, he will find that every celebration we have had for twelve years past has had its usual complement of patriotic speeches, orations, &c.

And among other horrid things that have been perpetrated on the glorious 4th is, the representing of the aborigines in their native costumes—a feature which has been introduced into our floral exhibitions since 1850, and which has always pleased the people, and has received the encomiums of the press. But the writer is bound to spit his spleen out against somebody, and it might as well be on "Lo, the poor Indian," as any one else.

There are at this time about one hundred names on the petition asking for an appropriation of $500. The aggregate tax annually by these petitioners amounts to about $15,000. It would appear quite reasonable that if the majority of the people want a celebration, and are willing to pay for it, their wishes should be gratified. We hear from good authority that the plan of a celebration for the 4th, is already laid out, and is in competent hands, who will carry it out in a proper manner. And if the City appropriates the required sum there will be a celebration on the 4th of July, 1860. The Floral Procession will be one of the main features of the day, and it is hoped the Indians will not be left out. There will also be a steamer stationed at Pier Wharf, the afternoon before the Fourth, for the purpose of conveying our "Friend of the City," and his friends, to the Shoals, where they can have their *Big Dinner*, and not be disturbed by *desecrators*. The following works will be gratuitously distributed for the use of the passengers; 100 pamphlet speeches, suitable to the times, "Hayden's treatise on True Patriotism, "The Beauties of Flora," "Catlin's history of the American Indians." A FRIEND OF THE PEOPLE.

For the Chronicle.

☞ A meeting will be holden at the Temple, this (Wednesday) evening, at 7 1-2 o'clock, to discuss the principles and measures adopted by the Church Anti-Slavery Society of the U. S., and, if deemed advisable, to form an auxiliary to the parent society in this city. All the ministers and members of all the Churches are earnestly requested to be present, and unite in the exercises. The claims and objects of the society will be presented by the agent, C. G. Parsons. Per order.

We take pleasure in saying that Dr. Parsons, who lectures to-night, is the author of "Inside View of Slavery,"—a work highly commended by the N. Y. Independent, Evangelist, Puritan Recorder, Congregationalist, Zion's Herald, etc.

The Society he now represents was organized by ministers and laymen of various denominations. It has no connection with any former Anti-Slavery Society, and has no more to do with existing political parties, than missionary or tract societies have.

It will be recollected by some of our citizens that Dr. P. gave a Sabbath evening lecture in the Methodist church a few years ago, showing the effects of Slavery on religious institutions. We republish the following notice of that lecture, written at the time by Rev. Dr. Lamson.

Dr. Parsons, of Maine, delivered a lecture on Sabbath evening last, on the influence of American Slavery on the morals and religious institutions of our country.—He has been employed during the past year in delivering a series of four lectures in the cities and larger towns of Maine.—They have been received with great favor, of which the Doctor carries with him abundant testimonials from the highest sources. The lecture delivered here was the closing one of the series, and was confined as the occasion demanded it should be, to the moral and religious bearings of the institution. The picture drawn was a deeply shaded one, but the authorities adduced forbade the suspicion that it was in any degree exagerated. The influence of the abominable system of slavery on the education, the literature, the preaching and the church discipline of the South was strikingly depicted and shown to be such as would cause the deepest sadness in every Christian heart. We understand that the Doctor, purposes to deliver his course of lectures in some of the principal towns in this State during the coming winter months. We sincerely hope he will do it—believing that their influence will be most salutary.

The Meeting is *free* for all!

☞ An extra train will run on the Concord and Portsmouth railroad on Thursday next, June 7, leaving Portsmouth 6:45 A. M. and returning will leave Concord at 5:40 P. M., thus giving those of our citizens who desire to witness the imposing ceremonies of the inauguration of Gov. Goodwin, and the parade of the Horse Guards, an entire day in Concord.

☞ We are indebted to Mr. Shores, of the Congress Block Bookstore, for a neat "package of 10 quires" of "First Class Imperial Note Paper, linen laid"—the like of which is sold by him for only 62 cts. This is cheap enough, certainly, for half a ream of large Note paper, well ruled, of good stock and agreeable finish.

☞ It will be seen that Harry Hartshorn has taken Joe Blaisdell into business with himself, at the old stand. Or in more polite terms, — Messrs. Henry S. Hartshorn and Joseph Blaisdell have associated themselves together in the tonsorial art, and will be happy to improve the personal appearance of the public, as heretofore. Both are popular barbers, and will give you a smooth shave or a keen cut.

☞ See auction column for a rare chance to buy to-day good fresh Groceries, &c., in small quantities, at your own prices. Sheriff Morse commences the sale, at No. 56 1-2 Market street, at 10 o'clock.

THE CENSUS.—The taking of the decennial census of the United States was commenced on Friday last by the various marshals who have been appointed for the purpose. The questions to be asked are numerous, but in view of the importance of the information to be elicited, they should all be answered readily and with precision.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—

Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all chorus and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in one day remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

Pianos and Melodeon at Auction.

1 very superior 7 octave PIANO-FORTE, which has been used very little, and is warranted to be equal in every respect to any instrument ever brought into Portsmouth. It was used in the Temple for Lyceums, Concerts, &c. last winter; and will be remembered as a very powerful and brilliant, yet smooth and sweet toned instrument. It was made by one of the most celebrated Boston firms, and is sold with their warrant; but although the cost was $300, yet as the managers of the Lyceum have no further use for it, it will be sold to the highest bidder.

1 good second-hand PIANO-FORTE, made in New York—of fine tone, and in good order.

1 fine-toned 5-octave MELODEON, piano-style rosewood case, made in Roxbury, Mass., and in good repair.

A fresh supply of FRENCH WOVEN CORSETS just received.

Morning Chronicle.

A GOOD BEGINNING.—A few weeks since a colored gentleman direct from the coast of Africa, having been in the city about two weeks, called on Rev. Mr. Coe, and applied for permission to attend school, giving his age as thirty years, and being able to read most of the alphabet.

He was admitted to the Bush street Boy's Grammar School as a *mixed* scholar. He has attended that school four weeks, and at the close of the last term he was able to read in reading very fairly *for a boy*, and could write his name and some other words.

His thirst for education knows no bounds. As an evidence of this, he was told by his teacher, (being an inveterate smoker,) that his smoking might hinder his learning, when he immediately replied, "then I knock off," and so he did; an example worthy of imitation by some of the *fast boys* of New Bedford.—*New Bedford Mercury.*

SINGULAR CIRCUMSTANCE ATTENDING A SUDDEN DEATH.—On Saturday night the nurse at the City Hospital discovered a negro man, belonging to Mr. George Hess, standing in an upright and easy position, at the grate of a window. His hand was resting lightly upon the bars of the gate; the position was easy and natural, but upon approaching him, he was found to be dead, and already cold. This is a most remarkable circumstance. He must have been dead several hours before his discovery, or the fact of his being dead was discovered. He was a servant in the hospital.—*Louisville Democrat, May 29.*

Ten poor men can sleep on a mat; but two kings can't live at ease in a quarter of the world.

GREAT HUMBUG.

The idea that any one can sell CLOTHING FURNISHING GOODS **cheaper** than

MOSES & DOWNIE,

is a great humbug. They buy their Goods in large quantities, and manufacture them under their own supervision. Therefore, no one can compete with them in low prices, who have to buy their Clothing Ready-made.

We have the largest and best Stock of **Ready Made Clothing & Furnishing Goods** ever offered in Portsmouth; and at the LOWEST PRICES. The whole of which must be disposed of lower than ever before, in order to reduce our immense stock.

It would be impossible to enumerate the different articles in our Store, but we would *say* that we have COATS varying in price from

50 CENTS TO 15 DOLLARS!

PANTS from

Make to Order in the Very Latest Styles,

AT A VERY LOW PRICE.

We might go on and fill a paper with a description of our goods, but that would not satisfy the public mind nor clothe their backs. If there is any one inclined to doubt our statement, let them call at our store, and they will doubt no longer. The large patronage we have received is proof of our assertion. We have also any quantity of goods for Men's and Boys' wear, to sell by the yard. Also

Hats, Caps, Boots, Shoes, Trunks, Valises, Umbrellas, Carpet Bags, And Oil Clothing,

and anything needed to make a man comfortable in feeling and respectable in appearance; and what is best of all, it takes but little money to do it at the BIG CLOTHING WAREHOUSE of

MOSES & DOWNIE;

2mos 3 & 37 Market Street.

City Hotel, Portsmouth, N. H.

This popular, comfortable and commodious House is pleasantly situated

On Congress St., near Market Square,

The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are made airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.

He would now return his sincere thanks to the public generally for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance. J. B. FLAGG.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard*. Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of blood. Supply these deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this theory—hence its astonishing success. Years are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also the No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVER-USE, GENERAL DEBILITY, and NERVOUS PROSTRATION No. 2 for LIVER COMPLAINTS; No. 3, for DYSPEPSIA. Being already prepared for absorption it is *taken by Drops* and carried immediately into the circulation, so that relief is felt in a few hours. No. 4 is for FEMALE IRREGULARITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS KIDNEY, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. BATONS INFANTILE CORDIAL. Do you ask why? Because it never *fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the cause of your sick child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now in use for the speedy relief of CHOLERA-INFANTUM, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and COUGH; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no *equal*—being so entirely vegetable, it is used with unlimited ease in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to see them grow up into healthy and blooming countenances which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are made, ask for BATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Cold Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will relieve the most acute Dyspepsia.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menses, restore to them the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated—weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, idiosyncrasy, or a healthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the God of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruption or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family is of this origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous;—their persons are forced by this hideous infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE; DROPSY, INTERNAL OR EXTERNAL DARTS, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular power and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a concurrent of these properties, the invalid who is bowed down with pain or physical debility is astonished to find that by a few doses he is energized, is at once so simple and inviting.

Not only do they cure the every-day complaints of every one, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing the certificates of their cures and directions for their use in the following complaints: Costiveness, Jaundice, Dyspepsia, Indigestion, Headache, Pain in the Side, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, WHOOPING COUGH, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the range of its influence and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is to all apparent, escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing, and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies have been recommended, and have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS of IRON.

An aperient and Stomachic preparation of IRON (Protoxide of Oxygen and Carbon, by combustion in Hydrogen). Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved incalculably curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMOCIATIONS, CONVALESCENCE, DIMNESS, RHEA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of the restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if resuscitated from the tomb or distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparently fatal decline, languishing in anxious, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no remedy.

IN NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation is more decidedly reliable, safe, and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles; upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

IN DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

IN DYSENTERY, DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally ensue INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the almost cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHUMATISM, neuralgic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and modifying the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative; and its general use in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Without spirituous stimulation, it imparts a sensation of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free by any address on receipt of price. All letters, orders, etc., should be addressed to

WOMEN'S RIGHTS.—Women have come to think that ill-health is their birth-right; and so long as they hold that faith, they will neither seriously wish for, nor obtain their true rights from those who hold them in bondage. The invalid, perennially child-bearing woman, has no strength to struggle against any wrong; it is as much as she can do to keep her sick soul within her worn body. When woman begins to feel that she has a right to physical strength, sound health, good spirits, and to the bearing of no more children than her own constitution and the well-being of her offspring will allow, her other rights will follow fast. —"*Ada Clare,*" *in N. Y. Sat. Press.*

☞ A writer in Virginia Farm Journal states that he has succeeded in starting branches on his pear trees wherever he wishes a limb to grow. He says:—"A careful examination will show plenty of dormant eyes, or knurls on this stock. To produce a shoot, a slit or gash is made over the eye and into the wood, with a knife or fine saw, which, by checking the flow of sap, starts these dormant eyes into life, and in three cases out of four a branch shoots forth."

"Father," inquired a young urchin of tender years to his 'fond parents,' "does the Lord know everything?"

"Yes, my son," replied the hopeful sire. "But why do you ask that question?"

"Because our preacher when he prays is so long telling him everything, I tho't He wasn't posted."

The "parent" reflected.

"IN OUR MIDST."—A journalist, ridiculing the phrase, "in our midst," says it should never be used except in cases of belly-ache. As, "we have colic "*in our midst.*"

Dr. Adam Clarke, who had a strong aversion to pork, was called upon to say grace at a dinner, where the principal dish was roast pig. He is reported to have said, "O Lord! if thou canst bless under the gospel what thou didst curse under the law, bless this pig!"

MORE NEGROES MISSING.—The Charleston Mercury of the 21st says:—

We understand that about fifteen negroes have been missing since the adjournment of the Convention, which evidently shows that that body was accompanied by some private emissaries of the underground railroad.

Lincoln is a rail-splitter and Douglas a cabinet maker. On the 4th of March next the latter will recommence the Cabinet business, while the "tall sucker" and his friends will only continue their *railing.*—*Bath Times.*

One Bisbee has been sentenced, by one of our courts, to six years confinement, for having four wives. In Utah Mr. Bisbee would be considered a Saint. Such is the difference that is made by degrees of latitude and longitude, that what is latitudinarianism in Massachusetts, is held to be moderation in Utah.—*Traveller.*

To live truly and faithfully to-day, is better than to have died yesterday; getting ready to *end* well, is only to *begin* well.

Sargent's Magic Soap!

It is free from all deleterious qualities, and perfectly harmless. Its use will not injure the skin, or the most delicate fabrics.

It saves labor, almost superseding the necessity of rubbing; washing can be done in about half the time, as the clothes do not require *boiling*, thus saving fuel and labor that is required by washing with other kinds of soap, and the necessity of having steam in the house.

Flannels and colored goods can be washed with the ease of cotton or linen, without fulling or shrinking. For washing and whitening Hosiery and Yarn, it is unequalled.

Green spots of any kind removed in a short time from carpets and woolen goods.

It will instantly remove grease and dirt from paint without any water whatever; protecting window's carpets and furniture from suds or slops. The worst bilge-water stains removed from paint immediately, by applying the soap with a sponge.

It supersedes the use of all polishing powders by imparting a brilliant lustre to Jewelry, Plate, etc.

For cleansing, softening or healing the skin, it is unequalled.

It is acknowledged by all who have tested its superior qualities, to be one of the greatest improvements of the age, and its use is indispensable to the comfort of every family, and the convenience of every hotel, ship, steamboat or laundry.

CLARKE'S SHERRY WINE BITTERS
Warranted Palatable and Healthy.
Composed of Dock Root, Sarsaparilla, Wild Cherry, Rhubarb, Thoroughwort, Mandrake, &c. For General Weakness, Loss of Appetite, and an unhealthy state of the system.
Weakness.
The patient, trembling with lassitude and weakness after a slight exertion, by the use of a bottle or two of this very popular health-maker, becomes imbued with new strength and increased energy. As it gives new life and motion to the blood, and increases the appetite, on which strength receives its origin and depends.
Nervousness.
Weakness, with over-exertion, is generally the forerunner of this horror-depicting disease. Use DR. CLARKE'S SHERRY WINE BITTERS, and you will be rendered perfectly self-possessed, calm and cheerful.
Broken Down Constitution.
Dr. Clarke's Sherry Wine Bitters are the very thing to give new life to the shackled frame, and energy to the enfeebled mind. For Mechanics, Farmers, Clergymen, and Public Men in general, no medicine can be better adapted for their purpose.
Try them!
All ye lovers of good Bitters and good health, and you will find them a cheap, efficacious and pleasant remedy; and sold for the low price of **25 cents** for a pint bottle.

Bickford's Spring Balance,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size; and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

THURSDAY, JUNE 7, 1860.

IRISH CATHOLIC POLICE.—Speaking of the police troubles in Boston, the Pilot says:

The Mayor and Chief of Police are fretting themselves to death about remedying the evil which they have had forced upon their attention. But it will be of no use, with their defective views of *responsibility*. There should be a large infusion into the body, of men whose *consciences* are influenced by a sense of accountability to *God*. The matter has been referred to a committee of twelve of the Common Council. Now the first thing to be done is to change the morale of the force in some degree. Let at least four well-instructed *Catholics* for each Ward be appointed. In England the experiment has been tried with great success. By all odds the most intelligent, efficient and reliable privates and officers of the force are Catholic Irishmen.

This is decidedly rich. The tender conscience of an Irish Romanist a safe guaranty for honesty! Comment would spoil this, with all Yankees who have employed Irish help.

☞ The French soldiers are now to evacuate Rome, being positively and absolutely the last time of evacuating! We shall believe they are to leave it, when we shall know they have got on board ship at Civita Vecchia. It is now eleven years since they went to Rome, and they have left it one hundred and eleven times since they entered it—on paper. Their stay seems to be as eternal as the city itself. The Gauls are in the capital of Catholicism, and they don't appear at all inclined to leave so capital a place for maintaining a hold on Italy, galling as their presence there is.—*Trav.*

☞ Hon. Reuben E. Fenton, of New York, has recently made, in the House of Representatives, an able and statesmanlike speech in behalf of the allowance of the claim for pay of the officers and soldiers of the Revolutionary war, under the various acts of Congress passed during the war, etc.

Mr. Fenton's speech shows a business-like comprehension of the merits of the cause he advocates, which so few members of Congress seem to have the inclination to understand. Should the bill become a law, the descendants of the Revolutionary Fathers will have cause of gratitude to Mr. Fenton for his indefatigable labors in their behalf.

☞ Two well known Boston thieves, Chas. Howard and John Pettengill, have been arrested at Hooksett as the robbers of the store of Jackson & Kimball, at Manchester, N. H., night of Wednesday last.—Some two thousand dollars' worth of nice silks were stolen, which were nearly all found in a building in East Washington.—It has also been ascertained Howard and Pettingill are two of the persons concerned in the recent robbery of Grant & Co.'s store on Washington street, Boston.

☞ Wednesday night about 11 o'clock, a woman named Jane Manahan, East Cambridge, having laid down in her sleeping room to await her husband's return, heard a noise and discoverd a burglar in the act of securing such valuables as he could lay his hands on. Without screaming or manifesting the least alarm, she sprung for him, but he took to his legs and ran down stairs. She pursued him, caught him, and on his attempting to knock her down, gave him a severe whipping, "punishing" him severely about the face. She then made him sit down in a chair, and kept him there half an hour till her husband's return, when officer Kinsley was called in, and he was arrested.

ELOPEMENT. — Abraham Varney of Salisbury, on Friday last, broke up housekeeping, moved his wife and several children, one of whom is but ten months old, to another town, hired a horse and chaise which he drove to Salem and sold, and with the proceeds went to Newburyport, and with the wife of a young man who resides at the North End, left for parts unknown. She leaves to the fostering protection of her husband one pledge of affection eight months old, to be reared in her absence.

☞ Somebody says the Covode Investigating Committee is much like Mr. Mason's Committee on the Harper's Ferry war.—There is this difference, Covode has found a lot of rich things:—Mason has found nothing. About 100 witnesses have been called before Covode's Committee since its appointment, three months ago, and the whole expenditure, including mileage, does not reach $2500.

A REVOLUTIONER GONE.—Died, in Embden, Me., Mr. Benjamin Berry, in the 99th year of his age. He was born in Rye, N. H., and moved to Barrington when a small boy. He was a soldier of the Revolution, and was one of Gen. Arnold's men at West Point. Mr. B. was an uncle to Eld. N. Berry of New Durham. Forty two years ago he moved to Embden, Me., where he has lived ever since.

☞ Heenan, in a private letter to America, says that he was never married, and the women who have claimed his name are all impostors.

FARMINGTON, N. H., June 4.

Messrs. Editors:—Perhaps a word from this rural retreat, together with some account of its business, may not be wholly uninteresting to your readers. Our village presents a very lively appearance, indeed; and business opens well. As you probably are aware, the shoe manufacture is the leading business of the place, upon which all other branches are dependent.

Probably none unconnected with the business can be aware to what extent it is carried on here, or what amount of capital is invested in the same. We have at present eleven large shoe factories, which manufacture annually eight hundred thousand (800,000) pairs of shoes, the market value of which is about nine hundred thousand dollars ($900,000.) One firm last year manufactured 2000 cases, 120,000 pairs, valued at $130,000. To do this they made use of 14,700 sides of sole leather, weighing 114 1-4 tons.

This gives employment to a vast number of men and boys, and not only benefits our village, but many of the surrounding towns. The amount paid in cash for labor in manufacturing these goods, is twenty-six cents on the average for each pair, amounting in the aggregate to the snug little sum of two hundred and eight thousand dollars.

We have also a good bank of deposit and discount, and ten trading stores, all doing a flourishing business; and our village is very rapidly increasing both in size and population.

En passant, I have often wondered why the shoe business has never been introduced at Portsmouth. Your facilities for freighting, both by mail and water, are much superior to ours, and I know of no place in which the business can be more successfully carried on. Would it not be well for your banking houses and business men to offer some inducement for more manufacturers to locate in your city? OBSERVER.

☞ A Yankee boy named John Stephens, only 13 years of age, after having been brutally whipped by his drunken father in Worcester, Mass., started to find his only sister who lives in Rock County, Wisconsin. When he left home his mother gave him fifty cents, all the money she had in the world. By riding on freight cars he reached Syracuse, in due time, having spent twenty cents for provisions on the route. At Syracuse he obtained a situation as driver on the canal. At Rochester he got on the cars, where he soon managed to lose his hat—and ticket, of course—to receive a cap and check through to Buffalo, from the conductor, and at the latter place he took passage on board a boat bound for Chicago, acting as cabin boy. At Milwaukee he inquired his way to the depot, and concluded to go to Janesville, where he arrived with five shillings in his pocket. After inquiry, not being able to find his sister, he wrote a notice of his whereabouts, and paid fifty cents for its insertion in a Janesville paper, and before sundown had $1 25 in his pocket, which he had earned by manufacturing gum shellac cement.

☞ It is said that twenty-seven different languages are spoken among the inhabitants of Boston. Rev. Dr. Andrew Bigelow, who is well acquainted with the ground tier of the population of Boston, says his own experience and inquiries would carry the sum total even higher. The Pitts street school, he adds, would furnish a *polyglot* of tongues.

SUBSCRIPTION FOR SAYERS IN ENGLAND.—The subscription for Sayers in England now amounts to $25,000. Three hundred members of Parliament subscribed one guinea each.—*Exchange paper.*

This, in addition to several *pounds* recently given him by Mr. Heenan, will leave Sayers in pretty comfortable circumstances.

NEW YORK, June 6.—Hicks, the oyster sloop pirate, has made a full confession. He admits killing Capt. Burr and the two Watts boys, giving the details of the circumstances attending the murders. He also confesses that he was one of the mutineers of the barque Saladin. He is dictating a story of his life and adventures, to be published after his execution.

The English government has put a stop to the enlistment of Papal soldiers in Ireland, a very proper procedure. The Sergeant Kites of Rome can turn their attention to this country, where the Irish are numerous, and where there is no goverment that would dare to interfere with their doings. They might beat up for recruits under the very banner of the keys, without any one venturing to bring their proceedings to a deadlock.—*Traveller.*

FOR A FIT OF EXTRAVAGANCE AND FOLLY.—Go to the workhouse, and speak with the inmates of a jail, and you will be convinced.

Who makes his bed of briar and thorn,
Must be content to lie forlorn.

☞ Thomas Fry of Brooklyn, N. Y., has patented an Improvement in hanging window sashes, in such a manner that they can be easily turned on a point, so as to wash the outside of the window, while standing on the inside.

☞ Postmaster Peck, of Brooklyn, has ordered all the letter carriers attached to his office to shave their upper lips, under pain of dismissal from office, and the order has been complied with.

CONGRESS.—TUESDAY, June 5.

SENATE.—The debate on the Kansas bill was resumed.

Mr. Green said he would vote upon the bill without any reference to the question of slavery. He would vote for the admission of Kansas, but not with a constitution as it now stood. He objected to it on the ground that the boundaries proposed conflicted with the treaties made with Indian tribes. He reviewed the history of Kansas, and attributed the disorders which had occurred, to the efforts of Emigrant Aid Societies to colonize and abolitionize that territory.

Mr. Collamer replied that there was no ground for the sweeping charges which Mr. Green had made against the people of Kansas, and his history of the actions of the people of Kansas was fallacious.

Mr. Wigfall spoke against the admission of Kansas, and Mr. Wade in favor of it, and against Mr. Green's amendment to change the boundaries.

The bill was postponed, 33 against 27.—Messrs. Pugh and Latham voted with the Republicans, and Mr. Kennedy with the Democrats. Messrs. Crittenden, Nicholson, Douglas and Clay were absent. The latter two paired.

The Army bill was taken up.

An amendment to pay $1,600,000 interest to States on money advanced during the war of 1812, was debated and rejected —25 to 29.

The appropriation for a regiment of Texas volunteers was concurred in, 23 to 18.

Mr. Hale offered an amendment limiting the pay of all officers of the Army, except Lieut. General, to $5000 yearly—rejected, 19 against 21.

Without further action on the bill the Senate adj.

HOUSE.—Senate bill for the return, care, etc., of the captured Africans, was passed —121 to 96.

The Missouri contested election case was taken up and discussed.

WASHINGTON ADVICES of the 5th say there seems to be little if any doubt that the House bill for the admission of Kansas into the Union will pass the Senate, whether with or without amendments is uncertain. Senator Bigler declars that he will vote for the measure without qualification.—When it *does* pass without amendment, we will make a note of it.

The two houses, disagreeing on the question of restoring mail service, a committee of conference has been appointed, consisting of Senators Pearce, Yulee and Cameron, and Representatives Colfax, Washburn of Me., and Crawford.

The President has signed the bill which increases the pay of the Navy officers about 25 per cent.

THE GREAT TORNADO.—*Chicago, June 5.*—Further particulars of the disastrous tornado have been received.

The tornado was first noticed between Marion and Cedar Rapids, in Lynn county, Iowa, going north-west and south-east in three separate currents, crossing the track of the Chicago Railroad several times.

At Lisbon the depot building and all the warehouses in the village were entirely demolished. A train of ten freight cars, heavily loaded, were lifted bodily from the track and dashed to pieces.

Before reaching Lisbon it had killed 16 persons.

One current passed north through Mechanicville, demolishing everything in its course and killing 16 people.

Another current passed through Onion Grove, killing in that vicinity 17 persons.—It then passed south of the railroad, near Dewitt, killing 27 persons, 16 of whom belonged to the family of Thos. Hatfield.

It then passed south of Kornerso and Lowmoor, demolishing the house of David Millward, killing him and a portion of his family.

It then struck the town of Camanchie, on the Mississippi, where the loss of life is much greater than at first reported.

From all accounts there cannot be less than 55 killed at this place alone. Some reports put it at even a higher number, but the bodies cannot be found. There are also 125 persons wounded, some fatally, and 10 missing.

At Camanchie a large timber raft, with a crew of 24 men and two women, was scattered, and 21 men and both women lost.

The tornado is known to have travelled a distance of ninety miles in Iowa, and seventy miles in Illinois.

The loss of life cannot be less than one hundred and fifty.

During the entire day, yesterday, two trains were run every hour from Clinton to the scene of the disaster, with relief for the sufferers.

TORNADO IN ILLINOIS.—*St. Louis, June 5.*—The storm of Saturday was very severe at Alton, Ill. The total loss will exceed $100,000. The German Catholic church is almost a complete wreck. The Democrat office was damaged to the amount of $800. The Episcopal church lost its steeple, and was also badly wrecked. The steeple of the Methodist church fell through the roof, doing great damage to the building. Much damage was also done by the hail. There were many narrow escapes, but no lives lost. Nothern Missouri also suffered extensively.

The republican sachems in New York are having a beautiful quarrel among themselves. Raymond of the Times, Webb of the Enquirer, and Weed of the Albany Journal, are down upon Greeley, "the philosopher," for his agency in the defeat of Seward; while old White Coat gives them as good as they send. "When rogues fall out," &c. We need not quote the rest of the sentence.—*Bath Times.*

☞ The fact that Mr. Lincoln is six feet four inches in height, is good evidence that "the Republican standard will not be lowered" in his hands.

Platform of the National Union Party—No North, no South, no East, no West, no anything.

N. H. VIGILANCE COMMITTEE AND THE CATTLE DISEASE.—The Manchester American says that a drover from Manchester went to Deering on Saturday, and bought several cattle suspected of exposure to the pleuro-pneumonia at a low price.—About midnight he, with another man, attempted to drive them through Weare to the market in that city. They reached the residence of M. A. Hodgdon, Esq., before discovery, when they were ordered to stop. The drover refused peremptorily, and pushed ahead. Before he had gone a mile the South Weare Vigilants were out in full force, took the cattle, drove them back to Deering Centre about sunrise, and gave warning that no more attempts of this kind must be undertaken. The Weare men made quite a military display of clubs, spades and guns.

PROTESTANTISM A DISSOCIALIZER.—Human ability cannot calculate the extent of mischief done by Protestantism to the civilization of the world. Its fundamental tendency, broadly signified in the wicked name it assumed, which has fated it never to be at rest, but always objecting, aims directly at the ruin of unity of the race. Any fact whatever, that has so unfortunate a result before it, by accident or necessity, must be looked upon with horror, and as having also a most detestable origin, and certainly as being full of diametrical repugnance to all improvement in the human family. It is impossible for that which attacks the unity of things, to benefit them.—*Boston Pilot, Catholic.*

THE GREAT EASTERN AT LAST.

The Great Eastern will soon be here to astonish Yankee eyes with her huge proportions. The directors of the company deserve great credit for their determined enterprise. The ship has been most unfortunate; still, the directors raised more money, and the work went on. Now, the same determination to succeed, and a tithe of the amount invested in one of the large Lotteries of Messrs. Wood, Eddy & Co., of Wilmington, Delaware, and St. Louis, Missouri, would have secured a fortune over and over again. The chance is still open; for by enclosing to the managers, at either office, $2,50, $5, $10 or $20, a part or whole ticket will be returned by next mail.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling of my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea, they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."
DUTERY SANDERS.

Kensington, Sept. 25, 1855.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. ☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See Advertisement in another column.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt, that in case of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and constantly trying with pains and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

☞ The Herald says Maj. Samuel Shaw, the "white-hat" coachman, who is still seen early and late on his coach-box, at the arrival of every train of cars at Newburyport, is undoubtedly the oldest stage driver in America, having seen more than sixty years of service. He is the only survivor among the original employers and employees of the Eastern Stage Company. Not one of the proprietors along the whole line of the route now lives; and not one of the drivers who took so much pride in cracking their whips along the old road, and accommodating the belles of the day to outside seats, remain with him. One by one they have laid down their "ribbins," and put aside the lash for the quiet sleep of the grave, leaving the Major the "father of stage drivers."

Major Shaw is *not* the only survivor, and some of the proprietors *are* living.—Maj. Shaw was *not* one of the *original* drivers. He was a driver of one of Manning's stages between Salem and Boston;—and when Col. Coleman, who is now living, bought of Mr. Manning a couple of teams for the Eastern Stage Company, Shaw came with one of the teams, and drove for the Eastern Company a few months.

Among those who drove well and long, for the Eastern Stage Company, and who still live, we may name Willis Barnabee, landlord of the Franklin House in Portsmouth; and Pike and Brown, who used to drive between Newburyport and Boston.—Mr. Pike is a resident in Epping, N. H.—and Mr. Brown lives in Massachusetts.

The Boston & Maine Railroad, reaching from Boston to Portland, 110 miles, employs five hundred persons. It is a well managed road.—*Manchester American.*

There is no doubt that the B. & M. road is well managed, but it never yet has managed to reach to Portland. Its eastern terminus is at South Berwick Junction, Me., seventy-four miles from Boston, and thirty-eight miles from Portland,where it connects with the Portland, Saco & Portsmouth R.R. The distance from Boston to Portland by the Boston & Maine R. R. is one hundred and twelve miles, and by the Eastern Road one hundred and eight.

☞ If the weather is pleasant to-day, the Portsmouth delegation in Concord promises to be very large. It is probable that about as many will go up in the regular 10:40 train, as on the extra at 6:45 this morning, as the Governor will not leave until the second train, and it seems pretty evident that "there won't be much fun" till his arrival. The last return train leaves Concord at quarter to 6.

☞ We are indebted to Thomas Spinney, Esq., a native of Portsmouth, now a member of the Massachusetts Legislature, for a copy of Gov. Goodwin's Address at the special session, and other documents.

☞ We understand that the Ladies' Domestic Missionary Society of Rev. Dr. Peabody's parish, intend having their semi-annual Sale of fancy and useful articles, on Friday afternoon, June 8th, at their Chapel on Court street, for the benefit of the City Mission. We hope they will be well patronized.

☞ We notice the recent death of William H. Gilman, Esq., of Exeter, son of the late Capt. Nathl. Gilman. Mr. G. was a young man of much promise. He was admitted to the bar of the County at Court of Common Pleas, held in this city, in September, 1850. For some time past he has been in poor health, and recently made a voyage in the U. S. steamer Merrimack in the hopes of improving it. His loss will be felt by a large circle of friends.

☞ The New York Tribune of the 4th inst. says:

"Of the ninety-five insurance companies in New York city and Brooklyn,twenty-five are offered below par. The average valuable stock is the Howard, for which 173 is bid."

J. P. Bartlett is the agent for this old and stable company. 3t

☞ The funeral services of Rev. John M. C. Bartley, were attended on Tuesday, in the Kittery Point Meeting House. The sermon was by Rev. Otis Holmes of Eliot; Rev. Mr. Parker of the Freewill Baptist, and Rev. Messrs. Payne and Rowell of the Christian Societies in Kittery, took part in the services.

CATTLE DISTEMPER.—At the Massachusetts Legislative Committee session, Judge French of Exeter, N. H., was called to testify as to the rumor of the existence of the pleuro-pneumonia in and about Hampton Falls. He testified that the disease was not pleuro-pneumonia.

Dr. Bigelow of Boston had some doubts about the disease being contagious. He considered it an epidemic. He was closely examined by Dr. Loring. He knew but little about the disease.

N. H. LEGISLATURE, June 6.—In the House a resolution was adopted, authorizing the appointment of a committee to consider what legislation is necessary to prevent the spread of the cattle disease in this State. The usual rules of order were adopted.

GENERAL COURT.

On Wednesday, June 6, in the House, Charles H. Bell, of Exeter, was elected Speaker, Edward Sawyer Clerk, and Simon D. Lord of Salem, Assistant Clerk.

The Senate elected, for their President Geo. S. Towle of Lebanon; for Clerk Greenleaf Cummings of Lisbon; for Assistant Clerk W. A. Preston of New Ipswich.

The U. S. Senatorial election will take place next week.

The session bids fair to be an unusually brief one, the election of a U. S. Senator, the four years' apportionment bill and the cattle fever being the main topics that will occupy legislative attention.

MARRIED.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; those who have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months afthr the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully.
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention,quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—
Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give correct *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, **No. 30 Hanover Street;** at either of which places they can examine a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when perseverred with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Everyone afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

This well known medicine is no nostrum, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world*—having taken the premium at the Great Exhibition in London. If is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairywoman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, especially the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a specific manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and Dyspeptic, nervous systems shattered, constitutions broken down, and subject to that horrible fate to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disgreeable effects of Wind or Flatulence, and so soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness; &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and gives of course the *True Standard.*—Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply those deficiencies, and you are made well. The "BLOOD FOOD" is founded upon this discovery—hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the blood in different diseases. For COUGHS, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1, which is also No. for *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERUSE, GENERAL DEBILITY, and NERVOUS PROSTRATION. No. 2, for LIVER COMPLAINTS; No 3, for DYSPEPSIA. Being already prepared for absorption it is taken by *drops* and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE DISEASES, DEBILITIES, HYSTERIA, WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, SCALD HEAD, and BLADDER COMPLAINTS, take No. 5. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD", $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it never fails to afford immediate *relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensibilities. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflamation, regulating the Bowels, and relieving pain, it has no equal—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits.* As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other nursing Soothing Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; the you, and keeping constantly on hand the best and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the third becomes vitiated, weak and poor. Being in the circulation it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Wherever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Out of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed all of the organs, arise from or are aggravated by the same cause.

One quarter of our population are scrofulous—their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as

ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, ASTHMALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. The popular belief in "impurity of the blood" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and invigorating its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or languor, disease, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

Ayer's Cherry Pectoral

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of Consumptive Patients in the advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies have gone upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

JOSEPH H. FOSTER.

D. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSUMPTION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if buried from protracted trials in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, accompanied with hysterical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the Pills have been found most necessarily be salutary; for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

IN DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the unscrupulously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swelling and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its properties in the intermittent fevers of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—for cases where, simple digestion, with quickening of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

From the very flattering manner in which our Machines have been received by the public, resulting in the sale of
35,000,
we are led to believe that our endeavors to manufacture a RELIABLE MACHINE have been appreciated. We take this opportunity to remark that the policy will be unchanged, and that

GROVER & BAKER S. M. CO.

THIRTY DIFFERENT PATTERNS,
Adapted to every variety of
FAMILY SEWING.

A FEW CERTIFICATES OF THE GREAT SUCCESS
—of the—
Grover & Baker's Sewing Machines.

[From the wife of the Hon. Jefferson Davis.]
Mrs. Jefferson Davis presents her compliments to Messrs. Grover & Baker, and takes pleasure in stating that she has used one of their box Sewing Machines for two years, and finds it still in good order—makes a beautiful stitch, and does easily any kind of work.

[From J. G. Harris, Governor of Tennessee.]
My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take pleasure in recommending it to the public.

[From the Rev. Jonathan Cross, Agent American Tract Society.]
My wife has been using one of your Sewing Machines for the last three months, and pronounces it faultless. She can sew more on it in one day, than in ten the old way, and without fatigue. The work is beautiful and durable—She says she would not exchange it for any other one. It is certainly one of the grandest inventions ever made for the relief of woman-kind, and I would recommend every family to get one as soon as possible.
Baltimore, July 14, 1859.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Mantillas, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W. BREWSTER.

"Zion's Herald," Nov. 10th, 1859, says,—"We would recommend to families and to those about to organize a homestead, *to be sure and have a Family Bible, and also one of Grover & Baker's SEWING MACHINES.*"

CHILDREN TEETHING

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will totally ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, *in confidence and truth of it, what we have never been able to say of any other medicine,*—NEVER HAS IT FAILED IN ONE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, *what we do know,* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC,
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper.
Sold by Druggists throughout the world. Principal Office, No. 3 Cedar st. New York.
Price only 25 cents per bottle.

This popular, comfortable and commodious House is pleasantly situated
On Congress St., near Market Square.
The location is unsurpassed for business or pleasure. The Proprietor would state that he has thoroughly renovated and also refitted the same in a style that would please the most fastidious; the rooms are commodious and airy, the tables will be well supplied with the best the market affords, the attendants gentlemanly and accommodating, charges reasonable, and that no pains or expense will be spared to render this House equal if not *superior* to any public House in the city.
He would now return his sincere thanks to the public generally, for the very liberal patronage they have been pleased to bestow upon him; and ever grateful for past favors, respectfully solicits a continuance.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce as large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JUNE 8, 1860.

For the Chronicle.

"SET THE CAPTIVES FREE."

"Hark a voice from heaven proclaiming,
Comfort to the mourning slave;
God has heard him long complaining,
And extends his arm to save.
Proud oppression
Soon shall find a shameful grave."

At this enlightened age, when so great advance has been made in the arts and sciences, and we feel proud of our high state of civilization, and when more liberal principles are appreciated in various parts of the world, every christian and philanthropist must deeply feel the disgrace of tolerating our American slavery, for it is a relic of a barbarous period. The pretence that Northerners are not guilty, more or less, of this crime against humanity, is idle; for it is in their power, by a simple exercise of the right of suffrage, in a short time to put an end to it. But instead of discharging their duty to God and their enslaved fellow-creatures, they have long been in the practice of voting for slaveholders, thus tolerating in a land called free, the most audacious and oppressive oligarchy that ever existed in any age of the world.

The oligarchy, by a gradual usurpation, obtained the control of the federal government, and in the insolence of power now demand that the government shall protect their sinful institution in all the vast free territories of the Union. They have made its extension (which is essential to its perpetuation) the great issue with the free states, and the latter will now meet that issue in the majesty of their strength. The result cannot be doubtful. Towards twenty millions in our free states will no longer submit to a state of vassalage to the comparatively few Southern rulers, the proud oppressors of the colored, as well as the white southern population.

An attempt is made to pervert the plain and obvious meaning of the Federal Constitution, and convert it into a pro-slavery instrument. The oligarchy contend that it guaranties slavery. The doctrine is as false as the Alcoran. Yet a portion of the Abolitionists, with Wendell Phillips at their head, agree in that matter to the absurdity; while the Rev. Mr. Pierpont and other distinguished abolitionists defend the constitution as having been based upon civil liberty and the rights of man. Unable longer to agree with their prejudiced brethren, they are forming a new organization of rational abolitionists for political action, for the purpose of filling the most responsible offices with the advocates of emancipation and universal freedom. They contend that the government has the right to give and secure freedom to all human beings under its jurisdiction, and that the laws of the Supreme Ruler of the Universe are obligatory and higher than human ordinances. Will not all true believers of the christian religion sanction their doctrine?

We agree with J. Q. Adams, that the Federal constitution was established by the *people* of the United States, as the instrument expressly declares, and that it is not a mere compact between the original states, as the southern statesmen assert. It is therefore the ratified instrument of the *one nation*, the source of all political power, with exception of such powers as were reserved for the political action of the several states. The doctrine that a state legislature can divest the subjects or citizens of the United States, or of the one nation, of natural, inalienable rights, has been so artfully propagated, within a recent period, that many, without reflection, have adopted it. And in violation of an express provision of the Constitution, not a few of our American citizens, travelling or sojourning in the slave states have been divested of their rights by local enactments, and long immured in Southern prisons. Shall we longer submit to such outrages? Are we not bound, as one people, to protect the rights of each individual?

It appears that both of the Abolition organizations are denouncing the Republican party, because it does not fully come up to their standard, or ultra views, and refuse to support its nominees for President and Vice President of the United States. Will they not reflect on the folly of such course? They have not the strength to reach the strong-holds of slavery. The Republican party is the only party that has the power and the disposition in the first place, to prevent an extension of the curse, without which it must soon die out, and, in the second place, to adopt such measures as would restore the government to its original principles. The latter being effected, the blighting institution could not long be tolerated against the voice of Northern freemen and of the civilized world. EMANCIPATOR.

☞ A large portion of the Democratic party say that Mr. Douglas cannot possibly be elected to the Presidency. Another large portion say that no other Democrat can be elected to the Presidency. Both, for a wonder, tell the truth, says the Louisville Journal.

☞ The Railsplitter's Battalion is the name of a new wrinkle in New York.

LETTER FROM CONCORD.

THURSDAY, June 7.

A capital day for the caput-al display at the capital and the capitol. The elements had conspired to get up a storm for this great occasion; but the benign clerk of the weather, in answer to the prayers of the whole people of New Hampshire, and especially of the fair friends of the Horse Guards—dispersed every cloud, and got up a delicious day especially for the occasion of this redoubtable troop. We do not mean to intimate that the Guards have any undue regard for their fine uniforms, or that they are merely fair-weather soldiers—but they *prefer* not to battle with "the elements," at least.

Concord is crammed full of strangers, from all parts of this State and elsewhere—and all thus far appear to be in a state of concord, notwithstanding the martial look the city wears. And the beautiful wide and long streets, and numerous open spaces and squares, afford the best accommodations for a crowd out-of-doors; while the spacious Phenix, Eagle, and other hotels, furnish all comforts attainable anywhere under similar circumstances.

Portsmouth is very largely represented, (in the popular turn-out, we mean, and not to mention now "the great and general Court,") but the impracticability of reducing the fare, on account of several other Roads being under the same management with the C. & P., and the length of the ride, prevented the attendance of hundreds who desired to witness and join in the honor done to our distinguished and eminently worthy fellow-townsman—whose excellent title but endorses what has always been universally acknowledged.

We noticed that Conductor Noyes, (one of the most quiet of men, despite his name) who piloted the Extra train up, donned his beautiful gold badge for the first time, on this interesting occasion. Like all the conductors on this road—he is worthy to wear such "buttons all over him."

Governor Goodwin, with his suite and numerous friends, came up on the noon train; and was "received" here with greater display than was ever before vouchsafed to any New Hampshire official—the chief attraction being, of course, the invincible Horse Guards, which were out with full ranks and in full feather—though some folks think their feathers or plumes are not full enough by a hatfull.

The Eastern Railroad corporation very courteously sent down an elegant new car, just from their manufactory at South Boston, to convey the Governor on this occasion. It was pronounced on all hands the finest rail carriage ever seen in this region.

The procession to escort the Governor from the cars to the State House, was one of the most brilliant and imposing we ever saw.

First came the Horse Guards—130 mounted men, commanded by Lt. Col. Bellows, and accompanied by Hall's celebrated Band from Boston, 20 men, in their new and beautiful uniform, scarlet pants, and grey coats, mounted on horses kindly loaned by the Boston Lancers, in the rich caparison of that troop.

Then came the retiring Governor and *the Governor elect*, riding in a handsome open carriage drawn by four fine horses,—attended by three of his Aides, Cols. Robinson, Rolfe and Cilley. There was considerable inquiry for the two members of His Excellency's staff resident in *Portsmouth*—it having been reported and expected that four or more of the Aides would be especially uniformed and mounted for this occasion.

Then followed the Secretary of State, the Speaker of the House and President of the Senate.

A cavalcade of citizens, with the Fisherville Band, brought up the rear.

In the staff of corps were ex-Govs. Colby and Haile, Col. Stevens of the Boston Lancers, and the regular officer of the regiment.

Gov. Goodwin presented the Guard with a splendid standard of white satin, richly ornamented. Gen. Abbott made a brief address, on behalf of His Excellency.

After escorting the Governor and suite to State House, the Guard was dismissed, and afterwards partook of a capital dinner, at the Phenix Hotel. But enough for now.

YRS, F.

☞ Senator Slidell, who so hardly cursed the New York Softs, because they would not vote him Percy of Northumberland, and follow to the attempted destruction of Douglas, is a brother of the late Slidell Mackenzie, who killed three men from sheer terror on board the U. S. brig Somers;—and if the Senator had been in possession of as much power as his brother held, he would have hanged the Softs, who would have had a hard fate at his hands. Hanging, and the hangman's trade, run in the family.

☞ Mr. G. Frank Towle, formerly of Portsmouth, now in Texas, has been elected second in command of a Company of the Texas Rangers, to take the field against the Camanche Indians.

CHARLES SUMNER'S SPEECH, just published, is severely eloquent, and terribly true. No wonder Mr. Chesnut boiled over. Mr. Sumner alluded to his last speech, and events since. He begins:—"Undertaking now, after a silence of more than four years to address the Senate on this important subject, I should suppress the emotions natural on such an occasion, if I did not declare on the threshold, my gratitude to the Supreme Being, through whose benign care I am enabled, after much suffering and many changes, once again to resume my duties here, and to speak for the cause which is so dear to my heart." When he last entered into this debate, it was his duty "to expose the crime against Kansas, and to insist upon the immediate admission of that territory as a State of this Union, with a constitution forbidding slavery. Time has passed; but the question remains;" and Mr. Sumner resumes the discussion precisely where he left it. He has no griefs to utter; no egotism to intrude. "I have no personal wrongs to avenge. * * The years that have intervened and the tombs that have opened since I last spoke, have their voices which I cannot fail to hear."

From such an opening, Mr. Sumner passes to a consideration of the slave system and its influences upon society; to consider what he terms the assumption and the barbarism of slavery. He quotes the saying of John Wesley—"Slavery is the sum of all villainies"—and then and there, in the very teeth of the slave holders, he proves these words to be true, by facts from which there is no escape.

THE SLAVE WANDERER CASE.—In the case of C. A L. Lamar, Carey W. Styles, William Hone, and J. Mott Middleton, indicted for the forcible release of J. Egbert Farnum from the jail of Chatham county on the 1st of May last, the court this morning sentenced the above gentlemen each to a fine of $250 and imprisonment for thirty days. We opine that the imprisonment will gather around them a society that outsiders will sigh for, and that will go very far to relieve the tedium of their captivity. The court have admitted Capt. Farnum to bail in the sum of $5000, and Capt. Nicholas A. Brown in the sum of $10000, to appear at the next term to stand their trial, charged with being engaged in the landing of negroes from the Wanderer. The court was adjourned this morning at eleven and a half o'clock, to the court in course. This probably is the end of the Wanderer's trials here, after costing Government about five hundred dollars per day, without obtaining a single conviction. *Savannah Express, May 21.*

☞ The cattle disease is still prevailing in Hillsborough county, and considerable alarm is manifested among cattle owners.—Petitions have already been presented to the Legislature, praying for immediate legislative action in the matter.

Two cattle in Andover, died a few days since, and upon examination were found to have been affected with pleuro-pneumonia. In an adjoining pasture where there were about sixty head of cattle, one was found exhibiting unmistakeable symptoms of the disease. In pastures adjoining these there were over 200 head of cattle, which have been more or less directly exposed, and it is therefore naturally feared that the disease may spread to an alarming extent in that region.

☞ Hicks the pirate, in his confession of the oyster sloop murder, brings to light the particulars of a most cold-blooded and atrocious murder. He also states that he was concerned in the murder of six other persons in 1844. The suspicions of the police relative to the manner in which he committed the horrid crime, are all confirmed.

☞ Brownlow, in his Knoxville Whig, says that he saw Attorney General Black in Washington, not long ago. "We took a good look at him, and we don't hestitate to say that in his countenance we could see mingled the virtues of the Wandering Jew and the Impenitent Thief upon the Cross! And if Attorney General Black is not a villain, the Almighty does not write a legible hand, and this we are unwilling to concede!"

A GOOD NOTIS.—A gentleman says the following is posted on a meadow fence near the town of Warren:

NOTRS.—Now kows is allowed in these medeers, Erry man or Woman letting their kows run the road that gets inter ms medders aforsed shall have his tale kut orf bi me Obediah Rogers.

☞ Rev. Luther Townsend has taken a dismission from the pastorship of the Trinitarian Congregation Church in Troy, N. H. Cause, want of support, and preference for another minister.—So says the Council.

☞ When Stephen Whitney, the New York millionaire, died, not long since, he excluded from equal part in the inheritance that daughter who had married John Dore; but the widow Whitney has since died, leaving nearly all her property to this daughter, making it even.

The Pope must be in a very bad way indeed, if it be true that he has taken not to drinking, but to strychnine, his object being to enliven his worn-out faculties. This is a pretty example for the infallible Head of the Church to set to its millions of fallible-tails. There are many Catholics in this country, of the Irish breed, who take strychnine, and all from deference to the Papal example, no doubt,—but they take it in whiskey.—*Traveller.*

TWO DAYS LATER FROM EUROPE.

The steamship Prince Albert, from Galway 26th ult., arrived at St. Johns, N. F., 6th inst. She has on board over 800 passengers.

It is reported that Garibaldi had entered the city of Palermo at head of 9000 infantry and a squadron of cavalry, the Neapolitans surrendering to him, and laying down their arms.

It is also reported that Garabaldi had issued a stirring proclamation to the Sicilians, stating that he had assumed the Provisional Dictatorship of the Kingdom. The proclamation was received with great enthusiasm by the inhabitants of Palermo.

This news lacks relative confirmation, and some journals regard it as premature.

There was a great panic at Messina among the government officials.

Neapolitan dispatches of the 22d asserted that the insurgents were beaten twice, driven from their positions, and pursued by the royal troops, and one of their leaders, Roselina Puto, being killed in the engagement.

The result of the Derby race was forwarded per last steamer. Umpire ran forward throughout the race, and was about the sixth horse in, but was a long distance from the winner.

THE SICILIAN INSURRECTION.—An Italian correspondent says of their revolt in Sicily:—

The great feature of the insurrectionary movement, in its latest stage, seems to be the almost universal participation of the clergy, and particularly of the monks of all orders, in it. This participation has begun to impart to it quite a religious, crusade-like character. The clergy uses every means in its power—public prayers, processions, sermons—to feed the flame of the insurrection. The convents give what they possess—money, wine, mules, horses, &c.: the religious seminaries of Monreale, Cefalu, Patti, Bronte, Nicosia, Mazzara, are deserted. Their youthful inmates have thrown aside the clerical garb, and are now carrying arms. The very organ pipes have been voluntarily sacrificed by many parish priests, for the manufacture of whatever rude instruments of war could be constructed out of them. At the same time Garibaldi seems to have been preceded by emissaries, who have strewn proclamations of his all over the island. Everybody—the large towns not less than the villages—is engaged in preparing for a general and contemporaneous outbreak, by which to celebrate and facilitate his arrival.

Ninoteen Senators and Representatives, out of one hundred and twenty, from the Southern States, have signed an address to the delegates that seceded from the Charleston Convention, advising them to take their seats in the Baltimore Convention, and try again for an intervention platform. Mr. Yancey, and Mr. Rhett of the Charleston Mercury repudiate the advice with scorn. They say they cannot, with honor, now ask admission to the Convention. It strikes us they are quite right. We do not think it fair or honorable for those delegates, or any others, to claim to take part in those deliberations of a convention, whose decisions they are determined not to abide by, unless they are allowed to dictate their own terms. —*Portland Argus.*

☞ Stephen D. Kennedy, the individual who left his wife in Memphis and eloped with another woman to Cleveland, Ohio, taking with him his daughter, several of his wife's slaves and a quantity of her jewelry, has been sent back to Tennesee. The woman could not be found. Kennedy's trip cost his wife $5000, the proceeds of the sale of the slaves.

During the violent storm at Farmington, Ill., Sunday, a little girl four years old, was carried by a sudden gust of wind and lodged in a cherry tree a few rods distant, her clothes having caught the branches of the tree, where she remained, unhurt. Her anxious father ran to and fro, seeking her, when the little innocent, dripping with rain peeped through the branches of the cherry tree, exclaiming—"I'm here, Pa!"—No tree had ever before borne such sweet fruit for the happy and grateful parent.

☞ The Quebec Chronicle says that the new Parliament House is to be converted into a temporary palace for the Prince of Wales, that "new furniture is to be put into it. Kitchens, cooking utensils, beds, beddings, dining tables, sideboards, pianos, and the full accessories of a well furnished house, are to take place of desks and office stools; and there is to be an upheaving of things in general."

☞ The King of Naples, says a Paris journal, has appointed one Master Manisalco, a baby three and a half years old, the Receiver General at Capua. This was done as a mark of especial favor to the father of the child, who is notorious in Italy, under the unenviable title of "Hangman of Sicily."

☞ Messrs. George Law and G. A. Conover, sureties on the official bond of ex-Postmaster Fowler, propose to contest their liability, by suffering their bond to be sued. So Uncle Sam must get his due at the tail end of a law suit,—if he can.

☞ On Wednesday, June 6, the U. S. Senate passed the Houmas Land Grant bill, with an amendment refusing to confirm the grants under the claim. In the House, Mr. Fenton's bill for the relief of the officers and soldiers; etc., of the Revolutionary Army, was postponed till December.

"THE POMATUM TICKET."—This is the name the Troy Times gives to the Bell and Everett ticket.

INDIA RUBBER LITIGATION TERMINATED.—Horace H. Day, of New York, the great India rubber man, sold out last week his entire business for a sum exceeding $500,000. The purchasers are Mr. Wm. Judson, Conrad Poppenlinsen and others of New York, and Henry L. Daggett and Charles Rice of Boston, who have organized a new company under the laws of New York, with a paid up capital of $600,000.

SAD ACCIDENT—MAN DROWNED.—Two Englishmen, belonging in Dover, came to this city, yesterday, to go on a fishing excursion. While on the river, their boat was struck by a squall, immediately sunk. One of the men, named Nathaniel Tuttle, was drowned. The other was rescued by Mr. Jerry Gunnison.

☞ The trotting match between Flora Temple and George M. Patchen, postponed from Tuesday, came off on Wednesday afternoon, at the Union Course, L. I. The stallion was beaten in three straight heats, Flora making the extraordinary time of 2:21, 2:24, and 2:21 1-2.

☞ We are indebted to Thomas Spinney, Esq., a native of Portsmouth, now a member of the Massachusetts Legislature, for a copy of Gov. *Banks'* Address at the special session, and other documents.

REV. MR. PATTERSON of this city will preach at Rye, (Chesley's Hall,) on Sunday afternoon, June 10, at 5 o'clock.

FOWLER'S DEFALCATION.—*New York, June 6.*—(Special Washington Correspondence.) The Postmaster General has answered the call concerning Mr. Fowler's defalcation. It appears that his accounts were never legally settled during the whole term of the present administration, but were adjusted by a fictitious system in flagrant violation of the letter and spirit of the law. Accounts are settled quarterly, but three months elapse usually before any quarter is closed up. Weekly returns are made to the Finance Bureau Department, showing the actual deposits against which drafts may be made. It has been a practice in the Auditor's office in adjusting Mr. Fowler's accounts during the last three years, when a balance was found against him at the end of the quarter, instead of requiring it to be paid, or reporting it to the Postmaster General as the law contemplates, to credit him from current returns until the ensuing quarterly returns are made to the finance office, thus enabling him to use the receipts of one to meet the deficiency of the other, and concealing a defalcation thoughout.

☞ Geo. W. Scott, a wealthy and highly respected citizen of Toledo, Ohio, drowned himself on the 30th ult., under the insane delusion that he should be brought to poverty. He has left property to the amount of $60,000, and did not owe a dollar.

☞ The New Orleans coroner's report for the past quarter exhibits a frightful advance in crime in that city. Within the period named, inquests have been held upon the bodies of forty persons, male and female, who came to their death by violence.

UTICA, N. Y., June 5.—A letter has been published from Horatio Seymour, withdrawing his name from the Baltimore Convention.

THE GREAT EASTERN AT LAST!

The Great Eastern will soon be here to astonish Yankee eyes with her huge proportions. The directors of the company deserve great credit for their determined enterprise. The ship has been most unfortunate; still, the directors raised the money, and the work went on. Now, the same determination to succeed, and a tithe of the smallest individual share invested in one of the Lotteries of Messrs. Wood, Eddy & Co., of Wilmington, Delaware, and St. Louis, Missouri, would have secured a fortune over and over again. The chance is still open; for by enclosing to the managers, at either office, $2,50, $5, $10, $20, a part or whole ticket will be returned by next mail.

"This may certify, that for a number of years I have been afflicted with the Scrofulous Humor, which caused a swelling on my neck and several ulcers, which were very painful, and that by the use of several bottles of Dr. Swett's Panacea they have been entirely removed, and the swelling has all gone from my neck, and it is now over two years since the cure."

BETSEY SANBORN.

Kensington, Sept. 26, 1835.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St. for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and other of his popular remedies, will be promptly attended to.

Paralysis.

This terrifying disease, even when depending on grave derangements of the nervous centre, will yield to the alterative power of the PERUVIAN SYRUP, which by improving the digestion, and consequently purifying the blood, promotes a proper nutrition of the substance of the brain and nerves.

Says the Rev. Thos. Whittemore: "I have been using, for some time past, the "Peruvian Syrup." It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt that in cases of Paralysis, like mine, Dyspepsia, and especially of Dropsy, it may be administered with a greater prospect of success than any other medicine in use among us."

DYSPEPIA.

There is perhaps no disease which destroys the happiness and comfort of individuals and families to the same extent as Dyspepsia or Indigestion.

Previous to the discovery of

THE OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Asthma and General Debility is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

COPY OF A LETTER FROM A SCHOOL TEACHER IN DETROIT.

Messrs. S. W. Fowle & Co., Boston:—In reference to the Oxygenated Bitters, I can say, that after having the Dyspepsia for several months and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than my own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it in any and all who may be suffering from this dreadful malady.

INSTRUCTION IN MUSIC.

A. PEARSON continues to give instruction in the following branches of Music:—
Piano-Forte, Organ, Harmony and Vocalization.

Particular attention given to the formation of tone, Cultivation of the Voice, Musical Elocution, and in imparting such directions and principles as will, if adopted by the pupil, give or root *Style* in Singing.

MR. PEARSON having had many years' experience as teacher in the above branches, is confident that his method of instruction is eminently successful. The most competent and reliable references given, if desired.

Having also had extensive experience as Agent for the sale of PIANOS, he calls attention to this department of his business, and would inform the public that he is able to furnish superior Instruments at manufacturers' prices, and offers his services to those desirous of purchasing.

The advantage of employing, in the selection of a Piano, one whose business gives him opportunities for testing the merits of various kinds of Pianos, must be obvious.

Persons desiring his services, may find him from 11 to 12 o'clock, at his MUSIC ROOM, No. 4 Exchange Buildings, or information of his whereabouts can be obtained at his residence, No. 30 Hanover Street; at either of which places they can enjoy the advantage of a splendid instrument of Hallett, Davis & Co.'s manufacture, and receive information relative to the purchase of Pianos. m12

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This valuable medicine is an imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and as a powerful remedy, it contains nothing hurtful to the Constitution.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Hoarseness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

THE WORLD'S FAIR CHURN.

The attention of farmers is solicited to this celebrated Churn. It is without controversy *the best Churn in the world!*—having taken the premium at the Great Exhibition in London. It is simple, and easily managed by any child, and performs not only the action of churning, but also of *working and salting* the butter in the most perfect manner. It is of the utmost importance, as every dairy woman knows, to have a Churn *well made,* and free from imperfection of the wood that will retain any particles of cream to become sour, and spoil the flavor of the butter. None but the best of material is used in constructing these Churns, and every one is *perfect* before being sent to market.

The farmers in our vicinity are using these Churns very extensively, and award to them the highest commendation.

All sizes for sale by the subscriber, at manufacturers' prices.

MESSAGE.

Gentlemen of the Senate and House of Representatives:

Assembled in these legislative halls, in obedience to the requirements of our laws and constitution, I have now the honor to address you.

I am not unmindful of, nor insensible to, the honor conferred, and the confidence placed in me by the the people, in my re-election to the Chief Magistracy of this State, and to them I tender my grateful thanks. With solemn appreciation of the magnitude and importance of my obligations, if I distrust my ability wisely to discharge the duties of my office, I am sure I shall bring to their performance an honest intention to promote the advancement, honor and dignity of the State.

You are here in the discharge of responsible duties as legislators; to make, revise and proclaim such laws as your judgment and experience may dictate, and the public good may seem to require. The power delegated to you by the people is a sacred trust, and it must be your earnest desire to promote and protect their welfare, with a view to their best interest. Still, while strictly watching the rights of your immediate constituency, you should remember that it is equally incumbent upon you to guard the prosperity of the whole State. We, the representatives of a people surrounded with so many blessings, cannot but be profoundly grateful to an all-wise God for his goodness towards us. Public health has been preserved; the peace of the community has been undisturbed; the seasons have been propitious, and few years have been marked with more general prosperity in all industrial pursuits. Mechanical, manufacturing and commercial interests are recovering from recent depression, and I confidently hope will soon exhibit that degree of activity and success so much desired.

The new apportionment of public taxes will increase your labors, but I hope this additional call upon your attention will not materially prolong the session, although this would be a lesser evil than either hasty or insufficient legislation. Due deliberation is as much the duty of the lawgiver as economy, and the preservation of approved statutes as important as the redress of actual or prospective grievances. Experience is a better guide in legislation than theory. Modifications of laws to suit individual cases, sometimes create greater evil than they cure. It will be found that the wisest legislators, though always ready to apply a remedy to clearly developed wrong, adopt changes in the general structure of laws with great circumspection. Conformity to well approved ordinances is an essential element in the character of a great people. When changes are demanded by the progress of society, and shaped by the teachings of experience, harmony and contentment are promoted; but when these are made without any such demand, and are adopted without proper caution, however good the intention may be, the effects are always injurious.

I invite you to examine the working of our new Judiciary System. Perhaps sufficient time has not elapsed to enable you to determine whether it will fully meet the wants and wishes of the people.—When the system was adopted, it was my opinion that experience would prove one more judge to be necessary, in order to secure that thorough examination, and prompt decision of suits, which the people have a right to expect, and which the government is bound to secure. It is not only important to the parties litigant, and to the people, that disputes should be fully considered and promptly decided, but that the judges should not be so overtasked as to render their duties irksome.

If, upon examination, you find alteration clearly required for the successful working of this important branch of government, you will without doubt apply the appropriate remedy.

I again call the attention of the Legislature to the large county expenditures, and recommend that they be carefully examined, particularly the outlay for the support of paupers. While no change should be made without careful deliberation, yet, in my judgment, this subject demands thorough consideration. I also, in this connection, advise that you inquire into the expediency of making provision by law for publishing in detail the journals of the proceedings of the several county conventions, held for laying taxes for county purposes.

The finances of the State are in a prosperous condition. I refer you to the report of the State Treasurer, for the details of receipts, expenditures, &c. By the books of the Treasurer it appears that the State debt, above assets, June 1, 1859, was $72,886.47. The indebtedness has been reduced the past year $22,209.82; leaving the debt of the State, June 1, 1860, $50,087.15.

For the condition of the banks in the State I refer you to the full and intelligent report which will be presented to you by the Bank Commissioner. This will show that our banks are generally fulfilling the objects for which they were incorporated. It is believed there is sufficient bank capital in the State to meet all the demands of a healthy business community; and should applications for new charters be made, they should in no case be granted unless the existence of an unquestionable local want can be made evident to you.

The inventories of the polls and ratable estates, returned for apportionment of the State tax in 1844, was $89,809,415. In 1850, $121,417,428. The agricultural capital, so far as can be gathered from these returns, is the preponderating interest in these amounts. These statistics show the rapid progress made in the various departments of agriculture, commerce, manufactories, mechanic arts, and in works of internal improvement.

It should be remembered, in valuation, made for taxation, i.e, as a general thing, much below the actual worth of the property assessed, and particularly so when applied to the farming interest. During the period of the twelve years above mentioned, an advance of about 35 per cent. is indicated, and I have no doubt the inventories returned for the present year will show a proportionate increase. This progress should inspire confidence and perseverance; yet it is astonishing that the sons of farmers, as a general thing, look to any pursuit for a living, rather than to that in which they have the most sure guarantee for success.

A committee was appointed by His Excellency, Governor Hallé, to ascertain the amount of State lands in the town of Pittsburgh. It appears from the report of that committee that the State owns about 80,000 acres of wild, uncultivated land, much of it covered with a heavy growth. None of this seems available to the State; and, if we reason from past experience, it appears doubtful if any advantage from its sale can be realized over the expenses of disposing of it. The policy of the State heretofore has been, to establish, in their title and possession, those who have actually settled upon these lands, or else to bestow them by grants on educational institutions. In my judgment, in the hands of the State, no great benefit will ever be derived from them; still, I believe if they were owned and under the management of a small company, or corporation, they might be so managed as to be made productive. Under these considerations I would recommend that the State cede these lands to Dartmouth College; the proceeds to be applied to an agricultural department for the educational benefit of our young farmers; and that this, if practicable, be connected with the scientific department already established by the Chandler fund.

As the farming interest bears so large a proportion of taxation for the support of the State government, it seems but just that something should be done for its special benefit. I know of no way in which its prosperity can be more effectually promoted than by giving it the opportunity and means of obtaining a scientific agricultural education.

The attention of the several State governments in New England has been called to the alarming malady now prevailing among cattle in Massachusetts and its vicinity. So important is the subject considered in that State, as to induce the Governor to call together the Legislature, that provision may be made for its suppression. This disease, known in Europe, for a century and a half as the pleuro pneumonia, is shown by experience to be almost uniformly fatal; also that it is infectious and contagious. It has already made its appearance in the town of Hillsborough, in this State; brought there by diseased cattle from Massachusetts. I would suggest that you take some decisive measures by which its spread may be arrested. It is unnecessary to enlarge upon the disastrous results of this disease, should it sweep over our State; so large a portion of our wealth being invested in cattle.

The condition of our Railroads is not materially improved, and where there is advancement, it may generally be traced to temporary aid. In my message last year I alluded to the propriety of exempting from taxation those railroads which, while promoting the wealth of the State, yield no income to their stockholders. No one can doubt the benefit these roads have been, in opening and developing our resources, and it would be unwise, that non-paying property should be taxed, simply because in operation.

I refer you to the reports of the Board of Trustees and the Superintendent of the Asylum for the Insane for full statements as to its condition and affairs. It appears from these reports that the income from the paying patients, and the earnings of the farm, tend to render it self-sustaining. The number of patients admitted the last year was eighty-five The number discharged was sixty-six. Remaining, one hundred and eighty-four. I cheerfully bear testimony, from personal observation, to the science, skill and good judgment shown by Dr. Bancroft, both in the internal and external management of the Asylum. You will probably make the usual appropriation for the indigent insane. The application of half this fund to the pauper insane of towns is a humane and benevolent act. This relief, furnished to the towns, enables them to place their insane in the Asylum, instead of keeping them in their alms-houses, which was formerly the practice for the sake of economy.

An addition to the main building is much needed, to afford more room to the Superintendent, the officers and employees of the Asylum; but more especially to give another room, or hall, to the convalescent patients, in order to remove them from those less sane, preparatory to their discharge. This addition, which would cost from five to six thousand dollars, I consider of great importance. It is for you to judge, after an investigation by your committee, if such an appropriation is necessary and proper.

The management of the House of Reformation has been judicious and provident. Too much commendation cannot be accorded to Mr. Shattuck, the Superintendent, and his wife, aided by the President of the Board of Trustees, for their efforts in so well sustaining the efficiency of the institution, under the limited means at their disposal. I consider this institution of almost equal importance with the Insane Asylum, and believe that, even in its incipient stage, it promises to fulfill the warmest expectations of its originators and early friends.

There have been admitted the past year 19 boys, 2 girls; discharged, 9 boys, 1 girl; remaining, 34 boys, 7 girls. The discipline pursued is reformatory; never degrading or depressing. As a general thing, those discharged have left much improved in character, and could they be placed under healthy moral influences, we might look most hopefully to their future.

This institution should be wholly sustained by the State, as otherwise it may fail to accomplish the object for which it was designed. By the present law, towns are taxed one dollar per week for the support of these offenders committed by the courts. Unwilling to incur this expense, they either send them to alms-houses or jails, or they are left to pursue a course of crime until, hardened in vice, advanced in years, and dangerous to the community, they are sent, as a last resort, to the House of Reformation, where their influence upon children committed to a better life is exceedingly pernicious. In this way our depraved youth are denied the benefits expressly designed for them by this establishment. Should it be thought best to continue the present system, I would suggest that the rate of board be reduced to forty, or at most fifty cents per week, thus making it the interest of towns and cities to place their juvenile offenders at the Reform School under all circumstances, at the same time *holding themselves responsible for all when they may enter.*

I refer you to the report of the Trustees for a full statement of the condition and affairs of this institution. In it they ask an appropriation of five thousand dollars, with which to cancel present indebtedness, and also that they may have a small cash capital for necessary purchases.

In my message last June I alluded to the apparently prosperous condition of the affairs of the State Prison, and commended the discipline, cleanliness, and good management of the prisoners. I then reported an income of about two thousand dollars over the expenses of maintaining the establishment, which the warden's report and books fully verified. But further examination soon detected the fact that Mr. Cate, the late agent, had appropriated for his own purposes $4528.23, and could not respond for the balance, which, as shownby his books, should have been placed to the credit of the State. With advice of the Executive Council, I procured, without delay, his resignation and proceeded to appointing a Commission to take charge of the books and assets in his hands; and immediately informing his bondsmen of the defalcation, demanded payment. I am happy to say they at once admitted their liability and readiness to respond, whenever the Commission should ascertain the amount due; only asking a little indulgence in order to make their arrangements.—This obligation has been fulfilled and the deficiency made good. Claims have been presented by the officers of the bank at which Mr. Eastman's accounts were kept, for over drafts and notes discounted. I have not considered it my duty to recognize these, believing that neither the State nor his bondsmen are legally responsible for such transactions. Should these demands be presented to the Legislature, it must rest with you to decide whether or not they shall be paid. I deem it a subject for much consideration, how far the State should acknowledge irregular and even illegal transactions by its agents or officers.

A new workshop is indispensable to the profitable employment and even safety of the prisoners. A contingent appropriation, not to exceed five thousand dollars, was made by the last Legislature for this purpose. As a portion of this has been made available, materials have been purchased, and contracts entered into, for a section of the building, which is now in process of erection. I would respectfully recommend that a further appropriation be made, sufficient to complete this structure in the course of the present summer. Under judicious management, the income from the prisoners will soon refund to the State the amount disbursed.

I have in the past year given some attention to the affairs of the prison, under the management of its present warden, Mr. Foss. The discipline is excellent, the prisoners well cared for, and their provisions good and wholesome. The financial affairs of the prison are well looked after, and the expenditures economical. The new barn, for which an appropriation was made last year, has been completed. For full particulars, I refer you to the reports of the Warden and Examining Committee, which will be presented for your information.

I would recommend the usual appropriation for the Indigent Deaf Mutes and the Indigent Blind.

There are now at the Asylum for the Deaf and Dumb at Hartford, as beneficiaries of the State, five girls and nine boys. At the Asylum for the Blind at South Boston, six girls and one boy. No charities of the State are more judiciously bestowed than these.

The attention of the Legislature was directed last year to the importance of an appropriation for a fire-proof safe, for the preservation and preservation of the State papers and records, now in the office of the Secretary of State, or scattered in other portions of the State House. In their present position, these papers are liable to loss by fire or decay, and it seems necessary that some course be immediate and extensive, which shall transmit them to posterity, unimpaired. In this connection I respectfully call your attention to repairs needed on the State House;—viz., painting, pointing and glazing—and recommend an appropriation of one thousand dollars for this object.

From the reports presented by the Board of Education, based upon the returns of the superintending school committees, this department appears in as prosperous and thriving a condition as can be expected from one so constituted. No interest of our State demands more watchful and fostering care than that of our public schools, and there is none in which the community at large is so deeply concerned. It is doubtful whether our present Board of Education can effect the important purposes desired. The compensation given to each member is too small to authorize the devotion of much time to the duties of his office; still less can it remunerate for preparation to discharge its requirements intelligently; and yet, the present system is one of great expense, from its want of concentration. Education is now both a science and an art. Its philosophy merits and rewards profound study, while its improved and rapidly improving processes demand leisure and ability, and reward, not with money, but independence. Even were the compensation adequate, it is by no means certain that a competent person, willing to accept the office, can be found in every county; or, if there are such persons, in the eager competition for every remunerative place under the government, executive would be by no means sure of ascertaining their merits, or securing their services.

The only system from which decidedly beneficial results can be anticipated, is that under which education shall be made a distinct department of the State government, with a separate secretary, selected expressly for his eminent and well known qualifications and attainments, and holding office on a term which shall render him independent of the fluctuations of party politics. It should be his duty to receive and arrange for preservation, the school returns from the whole State; to keep a correspondence for the interchange of information and opinions, with similar functionaries in other States, and with distinguished educators on both sides of the Atlantic; to hold educational conventions, and deliver lectures, once or oftener, every year, at some central, or easily accessible place in each county, and prepare annually, a report from the several towns, together with such recommendations for the improvement of the public schools as may be commended to his approval, by his observation, reading and correspondence. It is doubtful whether it would be an object to associate a Board of Education with such a Secretary; especially as his functions would be advisory, and not authoritative. If, however, it be deemed expedient to create a Board, its members should receive no compensation beyond the reimbursement of expenses actually incurred, in attending stated meetings; an arrangement which would effectually prevent parties from seeking or accepting the office, except persons sincerely interested in the cause of education. Were such a Board constituted, it would perhaps be an open question, of how many it ought to consist. For convenience of meeting and dispatch of business, *three*, or at most five, would be preferable to a larger number; while a board including a member from each county might be a means of deepening the interest in common school education throughout the State. It is believed by many that the Teachers' Institutes, now sustained by law, have in a great measure failed to meet the wants of progressive education. It is worthy of inquiry whether the money now required by law to be raised for this purpose might not be advantageously assessed upon the towns and cities, to defray the salary of a Secretary of Education, and the expenses of his office. It is for you to consider whether any change in the present system is advisable, and if so, what that change shall be.

The cause of Temperance should always command your careful attention. It is believed that the present law meets, in a very considerable degree, the object desired, and if it does not effect all that can be wished, no one can doubt that it has been productive of much good. It cannot be expected that public opinion should undergo an immediate change on this subject, when we consider that rival political parties so often make capital of reformatory laws, by representing them as abridging the rights of the people.

The State Militia is a branch of the government, recognized as necessary by our constitution, and has received, from the beginning, the attention of the State, in a greater or less degree. Owing to the long period of peace enjoyed throughout the country, and and to other considerations, the militia for a time fell into neglect if not disrepute, and as an active organization it was abolished several years ago. The act of 1857, by simplifying and systematizing the enrollments, opened the way for such an organized force as the people might demand. Under this act several companies were enrolled, some of which merit high commendation for the ardor with which they have devoted themselves to their duties. Besides these, we have in New Hampshire the Amoskeag Veterans, a battalion of infantry, organized under a special act, which would be an honor to any State. The Governor's Horse Guards, a regiment of cavalry, also composed of the elite and chivalry of the State, has been recently organized, and promises to compare favorably, for efficiency and soldierly bearing, with any military company in the country. It is an historical fact, that, wherever a military spirit has been diffused among a people, we find recorded a love of liberty, essential to the maintenance of a free government; and it is a source of much gratification to see this sentiment again reviving among us.

I refer you to the report of the Adjutant-General for a full statement of the numerical strength of the militia of this State; also for the amount and condition of ordnance, small arms, and other military property deposited in the arsenals at Portsmouth and Lancaster, or in the hands of volunteer companies. On examination of the arsenals, I have found the ordnance and other military equipments in good order.

The present aspect of our national affairs may seem to call for a passing remark. Sectional strife and threats of disunion, while assuming a more and more violent and dangerous form, are not unusual upon the recurrence of each Presidential canvass.

They have hitherto been powerless for the weal or good success of the people; being but the familiar trick of partisan presses and partisan politicians, and chiefly intended for the transient purpose of promoting personal ends, and securing the rewards of political victory. They who seek to kindle sectional animosities by misrepresenting the character and designs of the people of one portion of the country in order to excite the jealousy and hostility of another portion, thereby endangering the Union of these States, deserve, and must eventually incur, the condemnation of all true patriots and right-minded men throughout the country. As good citizens it becomes us not to despair, and we hope such will be the result, when the mere blister and passion. New Hampshire declares, to all disorganizers and disunionists, wherever found, that she stands by the Union and the Constitution, determined to defend and protect them to the full extent of her power and resources; by the Constitution, as interpreted not by any party platform, but by itself, its framers, and the precedents of all departments of the Federal Government.

BLOOD FOOD.

Healthy human Blood upon being ANALYZED always presents us with the same essential elements, and prove it to be the food of all parts. Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, Fever and Ague, and you will find certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The BLOOD FOOD is based upon this theory, hence its astonishing success. There are FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For good BLOOD, COLDS, BRONCHITIS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No. 1 and for insidious MYSTERIES *Depression of Spirits, Loss of Appetite*, and for all CHRONIC COMPLAINTS arising from OVERTASKED GENERAL DEBILITY, use No. 2, for PROSTRATION No. 2, for LIVER COMPLAINTS, No. 3, for DYSPEPSIA. Being already prepared for absorption, it is taken by DIGESTION, and prove immediately into the circulation, so that what you gain you retain. The No. 4 is for FEMALE DISEASES and for all MYSTERIOUS WEAKNESSES, &c. See special directions for this. For SALT RHEUM, SCROFULOUS, KIDNEY, and BLADDER COMPLAINTS, take the Blood Food. In all cases, the directions must be strictly followed. Price of the "BLOOD FOOD," $1 per bottle.

MOTHERS,

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? Because it *never fails to afford instantaneous relief*, when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening the sensitive nerves. For this reason, it commends itself as the only *reliable* preparation now known for CHILDREN TEETHING, DIARRHEA, DYSENTERY, COLIC, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP; also, for Softening the Gums, reducing Inflammation, regulating the Bowels, and relieving pain. It has *no equal*—being an anti-spasmodic, it is used with unfailing success in all cases of *Convulsions or other Fits*. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which follow, we would warn the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL; this you can *rely* upon. It is perfectly harmless, and cannot injure the most delicate infant.

Full directions accompany each bottle. Price 25 cents. Prepared only by

D. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innocuous in all modes in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

DEBILITY, NERVOUS AFFECTIONS, EMACIATIONS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease or the combined diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description can adequately convey without excite the jealousy and hostility of another portion, thereby endangering the Union of these States, deserve, and must eventually incur, the condemnation of all true patriots and right-minded men throughout the country. As good citizens it becomes us not to despair, and we hope such will be the result, when the mere blister and passion.
